Professed Secress Said Cure of Child. Could Not Be Worked While Mother Had Money Laid Away.

ST. CLOUD, Minn., June 10 .- (Special.) -Sheriff Schilplin late this afternoon ar-rested a Gypsy woman at Villard, who is wanted at Melrose, where she talked Mrs. Michael Atkinson out of \$1,000. According to the story at hand Mrs. Atkinson, who is the wife of a radiroad man, has a child ill with kidney trouble. The Gypsy woman went to the house and agreed to cure her for nine pieces of silver. Mrs. Atkinson gave her nine quarters. She returned next day and said the pieces were not large enough. 'The charm failed to work. Mrs. Atkinson then gave her nine silver dollars. The following day she returned and said the charm was working perfectly, but for one thing, and that was that she feared the family had some money laid up, and as long as they had it, the child would not get well. Mrs. Atkinson thereupon went to the Bank of North America and drew out all her savings, something over \$1,000 and gave it to the Cypsy. Sunday she told friends of the affair and the authorities took charge. Sheriff Schilplin took \$780 from the party arrested this afternoon.

TRAMP OF THE THIRD.

Regiment Has Been Exploring Northern Minnesota for Past Week. BRAINERD, Minn,, June 10.—Great preparations are making to welcome the Third regiment which is expected to ar-

made before going into camp at Whitney's Brooks. This point was reached in a rain storm and it has rained most of the time since. Good time was made in spite of the rain and mud, and with hardly an exception the regiment is enjoying the best of health. The distance from Whit-ney's Brooks to Locks Dam, fifteen miles, was covered in a driving rain over clay roads that were nearly impassable for the men and teams. Company B, Capt. Pratt commanding, marched out shead of the command from the noon camp as a pioneer company, repairing the roads for the wagon train following: The canteen wagon following the regiment was the only one to suffer mishap, and it escaped with the loss of a few bottles of been with the loss of a few bottles of beer. The "beer man" is not getting rich, as very little drinking is done. Hot coffee is a greater favorite with the men than cold beer when the thermometer is hugging the freezier solut. ging the freezing paint.

The Indians took to the woods and haven't been rounded up in large numbers as yet. A report was circulated among them that the soldiers were going to force them to leave their reservation, consequently they have "holed up" for a few days. About fifty came in and gave a dance Friday afternoon and evening. The boys were deligated to see them and took especial interest in the squaws and pagooses. A few of the latter were fastened to a peculiarly constructed beginning to the process. structed board, which gave the mother a decided advantage in that she could hang the child up and find it safe on her return certainly a great advantage during the herry season, when tree and wind are left to rock the baby while every woman and child are busy gathering the abundant small fruit.

The regiment rested Friday afternoon and night, marching out Saturday morning to Vineland, twelve miles away, half of the distance being along the shore of Mille Lac lake. From Vineland to Garretson, another twelve miles, the road follows the lake shore, then makes a straight cut to Brainerd, at which place the regiment will arrive this afternoon. The boys have not seen a paper or read a letter since leaving St. Paul last Wednes-
