SURE FOR THE Sins of a Mother

Blood Poison is an universal disease. The enlightened nations of the world, as well as the savage, have been contending with this monster scourge for centuries past. Civilization has not checked its progress. Scientists have discovered little concerning the character of this peculiar poison; they admit it to be a blood disease, for which they know no antidote or cure. Their Mercury and Potash preparations hide the symptoms, but cannot destroy the virus. This disease is so highly contagious that persons handling the clothing, using the same brush or towel, drinking from the same vessel, are inoculated. The deepest misery and humiliation have followed the kiss of affection. Though guilty of no wrong, the person who contracts the disease in this way endures the same physical suffering that the guilty one does. How often is the proud parent horrified when he finds the disease he so confidently believed had been forever driven from his own blood has been transmitted to his innocent child; its little body tortured with sores, the glands of the neck swollen and knotted and the skin a-fire with some burning, itching eruption. The symptoms of this hideous disease cannot be mistaken; eruptions upon the skin, sores or ulcers in the mouth and throat, copper-colored spots on different parts of the body and the loss of hair and eyebrows, are infallible signs of Contagious Blood Poison. Other and more destructive symptoms follow, of course, as the disease progresses; the whole skin surface is often covered with a mass of sores, and even bone and tissue are destroyed. This is not a simple disease; do not trifle with it; terrible as are the immediate effects, it is horrible to think that through your carelessness or neglect others may have to suffer for your sin. You may have taken the usual remedies, but the aching bones and slight rheumatic pains, the annoying little ulcers and pimples that periodically break out, remind you that you are not
