THE WINE ROOM EVIL.

Whatever disposition the board of aldermen makes of the proposed ordinance for the suppression of wine rooms, it is as well for the members of that body and for those engaged in the retail liquor business to understand that decent public sentiment demands that some adequate remedy shall be adopted to put an end to this grave social evil.

It is mostly the fault of the saloon-keepers themselves that their business is regarded unfavorably by the general public. They persist in maintaining practices in their calling, such as selling liquors to minors and habitual drunkards, and maintaining private resorts on their premises for persons of opposite sex, which in many cases are not only criminal by law but which are in themselves morally wrong and disreputable.

It is observable that local saloonkeepers have little regard to party when the objects which in their business they seek to accomplish are at their disposal. Republicans and Democrats are all alike to them as long as there is no disposition evinced on either side to hurt the saloon business.

STAND BY THE BATHS.

How valuable a public institution is the free bath, and how universal is the resort to it of the people of every rank and condition of life in this city, was made very plain yesterday and the day before when some 20,000 persons attended, and found there relief from the intense heat which they could find nowhere else within the city limits.

EVOLUTION OF COMMERCE.

The beginning of the twentieth century will mark one of those far-reaching changes in the commerce of the world which in the past have marked the course of empire; changes that have left one flourishing city to the bat and the owl and to distant lands transferred their magnificence as by magic.

It is not wholly, as a correspondent of one of our contemporaries seems to think, a matter of the safety of the children who attend those baths. It is the effect upon the general public of having to encounter a railroad crossing in order to reach the baths.

ought to avail themselves of them.

If a fair proportion of those who would attend the baths on that evening would instead go to that meeting, there would be no doubt left on the mind of the community what the people think of the deprivation which they are about to be subjected to in the destruction of the baths.

The action of the assembly is timely and meritorious. The board of aldermen will pursue the same course. At this season, and, indeed, ordinarily, it is difficult to make public display of popular sentiment on any subject of general interest.

It is perfectly plain that there is ample legal ground for the appeal which is about to be taken. It is also plain that the legal department of the city is warring and anxious to stand by the rights of the people in the present emergency.

BOSS HANNA'S CONVENTION.

The proceedings of the Republican state convention which has just been held at Columbus offers another convincing example of the worthlessness of such organizations as a medium of giving expression to the public preference in the nomination of candidates for office.

It might as well never have been held, for all the actual participation which the people or their representatives had in its deliberations. If Senator Hanna had thought it more advisable he might have communicated his wishes to that body through any of its members, and they would have been carried out with the same precision.

THE COLONEL'S ANSWER.

New York Evening Sun. Lieut. Col. Hugh L. Scott, of the United States volunteers, formerly captain of the Seventh regiment, is known in features of the Hanna-Payne bill will be eliminated. The most objectionable feature of the Hanna-Payne bill was in its title.

tain some evidence of their ancient commercial grandeur.

W. B. Wisby, the metropolis of the north, is no more. In the conflict between Protestant Europe and the Saracenic power, the latter held the narrow passes to the east. It was but the work of a day—the great caravan commerce between Asia and Europe was cut off.

SUCCESS OF NEGRO COLONY.

W. E. Curtis in Record-Herald. A movement is on foot among the colored people of Atlanta, Ga., to establish a colony of their own race, in which white people may participate, or intrude, into an established tract of 4,000 acres of land, about seven miles from that city, upon which they hope to place 500 or more families.

SHIRT WAISTS GO.

Milwaukee Sentinel. The shirt waist question has been decided at the White house in the affirmative. A young man with striped trousers, a straw hat and a shirt waist of variegated hues, entered the mansion recently and passed into the east room.

without so much as an explanation, he will, if he has any spirit, resent the insult.

AT THE THEATERS.

The Criterion Stock company, in "The Three Musketeers" is playing to good business at the Metropolitan opera house this week, in spite of the hot weather. The play has made a decided hit, as is evidenced by its drawing powers with the theatergoers in the nineties.
