

PERRY HEATH'S BANK CLOSES HIS DOORS

Seventh National of New York in Hands of Comptroller of the Currency.

Claim Is Made That Depositors Will Lose Nothing—Receiver Is Appointed.

NEW YORK, June 27.—The Seventh National bank was closed at 10:45 today, when the following notice was posted on its doors: "This bank is in the hands of the controller of the currency."

After the suspension the following statement was made at the clearing house: "At the clearing house this morning the Seventh National bank came in debtor \$24,103.55. The clearing house committee has been in session since 9:30 awaiting the results of the clearing."

"At the clearing house this morning the Seventh National bank came in debtor \$24,103.55. The clearing house committee has been in session since 9:30 awaiting the results of the clearing."

"The statement of the Seventh National bank for the week ending June 27, 1901, to the clearing house, was as follows: Capital, \$75,000; net profits, \$234,400; loans, \$1,140,000; deposits, \$5,700,000; legal tenders, \$77,700; deposits, \$5,712,700; percentage of reserve, 23.40."

"The bank opened for business as usual today, but at 10:45 the doors were closed by Cashier Adams, who said this action was resolved on at a meeting of the board of directors, depositors and the attorney for the bank, held this morning."

"The Seventh National bank was originally the old Seventh Ward bank, and was established in 1833. For a long time the control of the institution was held by John McAnery, a Southerner, who was president of the bank."

"In May 1899, First Assistant Postmaster General Perry S. Heath practically acquired a controlling interest in the stock of the Seventh, and on July 4, Wm. H. Kimball resigned as national bank ex-

aminer to become vice president of the bank, several changes in the directorate being made at the same time. Josiah Heath was elected vice president. The officers and directors are as follows: THE BANK'S OFFICERS. E. R. Thomas, president; Fletcher S. Heath, vice president; George W. Adams, Eugene Bissell, Thomas M. Boyd, Fletcher Heath, Perry S. Heath, Erskine Heath, Wm. H. Kimball, Alexander McDonald, Guy G. Major, Wm. P. Orr, Josiah Quincy, Frank H. Ray, John A. Sullivan, W. H. Taylor and Samuel Thomas.

On Aug. 2, 1899, Mr. McAnery resigned the presidency, and Vice President Kimball was chosen in his stead. Fletcher S. Heath was elected vice president. The officers and directors are as follows: THE BANK'S OFFICERS. E. R. Thomas, president; Fletcher S. Heath, vice president; George W. Adams, Eugene Bissell, Thomas M. Boyd, Fletcher Heath, Perry S. Heath, Erskine Heath, Wm. H. Kimball, Alexander McDonald, Guy G. Major, Wm. P. Orr, Josiah Quincy, Frank H. Ray, John A. Sullivan, W. H. Taylor and Samuel Thomas.

The announcement of the suspension caused only a ripple in the stock market. The first selling of stock which followed interrupted a recovery in prices and caused a reaction of 1 to 2 1/2 points in some of the principal stocks. The offering of large sums of money on the exchange at 6 per cent, and large buying orders placed in the market, rallied prices and left the stock market dull, but somewhat feverish until noon.

In banking circles it was said that the Seventh National heavy debit balance was the result of the bank's embarrassment on Tuesday being telegraphed throughout the country. The institutions having money deposited with the Seventh drew upon the bank and these drafts all coming in at the same time were too much for the institution. The suspended institution is now in the hands of the controller of the currency, who has appointed Forrester Rayner as temporary receiver. Mr. Rayner's examination of the loans of the bank are understood to have proved that the collateral of them was weak in some instances.

The objections of the bank examiner to these collateral securities is said to have decided Mr. Crowell to advise the suspension. President Tappen, of the Gallatin National bank and chairman of the clearing house committee, said that he did not intend to advise the suspension of any small ones, will fail as a result of the Seventh National's suspension.

"It was said this afternoon that the Seventh National had quick assets of about \$1,500,000. It was further reported that the depositors would not lose anything. Mr. Crowell said that the bank could have paid its debt had it been in the clearing house today, but that in his advice the doors were closed, as it would not have been right to receive the money of depositors during the present unsettled condition of affairs."

Guy G. Major, formerly president of the American Lined company, is one of the directors of the Seventh National bank. It is said that he was one of the directors before it would be known whether the bank could ever resume business. SAYS DEPOSITORS WON'T LOSE. "Not a depositor will lose a dollar," said he. "Whatever the stockholders lost, they are able to lose and will accept their losses with smiles. There was only one account that gave us any difficulty, and that was Marquand & Co.'s account. From this the bank has over \$100,000 of Marquand's account. The future of the bank depends largely upon the Marquand account being made good."

NEW VERSION OF AN OLD SONG.

Kansas Farmer—"Oh, Won't You Come and Work for Me?"

BOUNTIES FOR JACK TARS

EQUITY COURT AT WASHINGTON HANDS OUT DECISION FAVORING THE NAVY

FOR MANILA AND SANTIAGO

Aggregate to Be Paid to Dewey, Sampson and Their Officers and Men is Nearly Eight Hundred Thousand.

WASHINGTON, June 27.—Justice Bradley in the Equity court today decided the Manila bay and Santiago bay prize cases. The decision is in favor of the claimants as to vessels captured and as to property taken from vessels sunk and not claimed as prize and for which bounty is given, in prize; that the captures, or cargo boats, and all loading vessels that were captured at Manila are not prize.

The Santiago case hinges on the Manila decision. According to counsel the claimants in the Manila case received a total of \$285,000, divided among about 2,000 persons; and the claimants in the Santiago case will get in the neighborhood of \$600,000, distributed among about 3,000 persons. These figures, however, are not final. These amounts are in addition to the bounties already allowed by the court of claims.

The bounties are for property destroyed and the prize money for what the claimants saved. The bounty given the Manila claimants by the court of claims amounted to \$100,000, which is now being paid off, while the \$165,000 awarded Santiago claimants will be paid off, it is stated, during next autumn. The decisions dispose of both the Manila and Santiago claims, the principles involved being similar.

Counsel for the claimants may contend to appeal to the court of appeals in an effort to gain the points on which they lost.

All persons who served with Admiral Dewey who are entitled to share in the bounty, divided by the court of claims, should send their addresses to the auditor of the navy department, treasury department, to secure prompt adjustment.

BAD REPORT FROM GUAM. The attention of the navy department has been formally called to what appears to be an unsatisfactory condition of affairs in Guam. Incoming mail has brought a copy issued by the naval commandant of the island, Commander Scaton Schroeder, denouncing "hooliganism and lawlessness" which, he says, are rampant at the station. The order refers to "terrorism at the fort, gambling and drunkenness which have brought the United States force into disrepute."

The order closes with imposition of restrictions on the liberty of the marines. It is believed the navy department will be obliged to look into the denunciation of the marines. Gen. Heywood, commander of the marines, already has been called upon to furnish such information as he has and it may be that a court of inquiry will be appointed.

The mail brought him no report from Maj. H. K. White, the ranking marine officer on the island, nor from any other source concerning the reported troubles. He is very much surprised at the extraordinary scope of Commander Schroeder's order, reflecting, as it does, upon the integrity of every officer and man of the marine corps on duty in the island.

COMBINED YIELD OF SPRING AND WINTER WHEAT WILL BREAK RECORDS

ESTIMATE OF R. G. DUN & CO. IS THAT THE TOTAL FOR THE UNITED STATES WILL EXCEED SEVEN HUNDRED MILLION BUSHELS.

NEW YORK, June 27.—Correspondent of R. G. Dun & Co., report conditions of winter wheat on the whole exceptionally encouraging. In the principal states the yield will be very heavy, and it is noticed that the few unfavorable returns are from points where only a moderate crop is expected. Despite the tardy arrival of warm weather, harvesting is under way at all southern points and a big yield is practically certain for Kansas, Oklahoma reports are cheering, most of the grain being out, and a fair increase over the preceding crop is announced. Figures of average indicate that the total area under cultivation this year is somewhat smaller than in 1900, but the yield per acre will average much higher. Wheat is causing a yield fully up to the most sanguine of earlier estimates.

News from spring wheat sections is assuming a more cheerful tone. Instead of the reports of drought and little moisture and the crop progresses favorably. It is much too early to consider reports final, as serious disaster may yet be experienced, but with weather no better than average from now until harvest there is reason to expect a full yield of spring wheat and the total of both winter and spring wheat should exceed all records with a production of 700,000,000 bushels or more.

CHICAGO, June 27.—After making a careful canvass of the Northwest territory, and preparing conservative estimates upon the conditions found throughout the grain belt, traffic officials of the North-Western, the Northern Pacific and the Great Northern and the Burlington systems are agreed that the wheat crop of this region for 1901 will break all previous records. According to the estimates of these officials, it is claimed that the Dakotas and Minnesota alone will harvest between 15,000,000 and 20,000,000 bushels of wheat, as against 100,000,000 last year. The greatest previous yield of wheat in the three states named was in 1888, when 175,000,000 bushels were harvested.

The Record-Herald, in an explanation of this year's enormous crop, says: "The crop cannot be termed a 'bumper crop' because the increase is due largely to the fact that various railroad companies have within the last two years made extreme efforts toward colonization of the Northwest territory, and as a result extensive additions have been made to the total of cultivated lands and grain acreage."

LEO XIII. SERIOUSLY ILL

DISPATCH TO PARIS SAYS PHYSICIAN IS CONSTANTLY IN ATTENDANCE.

PARIS, June 27.—A dispatch to the Paris Herald from Rome announces the pope to be seriously ill, and says that Dr. Lapponi, his attending physician, does not know the extent of his illness. Vatican officials are anxious concerning the pope's health.

ALL FOUR ARE DROWNED.

Two Bathers Lose Their Lives Trying to Rescue Others.

DES MOINES, Iowa, June 27.—Jesse Vansoy and his brother John, aged respectively twenty-six and eleven years, were drowned near Ames today. The smaller boy got beyond his depth and the older one tried to rescue him. Jesse leaves a wife and child.

SHOT DOWN FROM BEHIND.

Bloody Outcome of Quarrel Between Joplin, Mo., Young Men.

JOPLIN, Mo., June 27.—Will Moore, of the S. C. Henderson Grocery company of this city, one of the most prominent young business men in Southwest Missouri, was shot in the back and perhaps fatally wounded tonight by Wilkins Taylor, son of one of the wealthiest mine owners of the city. The young men had been quarreling for an hour in a saloon over a local racing matter. Both had been drinking.

DETECTIVE HENNESSY PROVES TO BE A GOOD SPRINTER, BUT A BETTER SHOT

MAN DROPPED—WAS NOT HIT

Daring Robbery Felled Last Night by Suspicious Proprietor and a Bungling Companion of the Thief.

An unusually bold robbery was discovered in a rooming house at 415 Jackson street last night, and the perpetrator was landed at central station after an exciting chase by Detective Hennessy and the proprietor of the lodging house. Shortly after 8 o'clock a man escorted a drunken companion to the rooming house and asked for a room. He pushed the inebriate in ahead and closed the door. The landlord, becoming suspicious, staid near the room and soon heard a scuffle. In a moment the man who applied for the room came out and invited the landlord downstairs to have a drink. The only response was a heavy swing from the proprietor's right, which dazed the other fellow for a moment, but he quickly turned and started down stairs, closely followed by the proprietor. They ran to Seventh street, and here Detective Hennessy joined in the pursuit. The stranger was feet-footed, and Hennessy resorted to his revolver, which he discharged twice in the thirty hours of the fleeing party was not touched, he fell to the ground with a thud and bruised himself up rather badly. He was placed under arrest and charged with larceny.

At the station he gave his name as G. T. Green, said that he was an artist, and twenty-seven years old. He is unknown to the police. Green's victim was found in the room somewhat bruised, but more troubled by his jag than his injuries. He was taken to central station and charged with being drunk. He could not think of his name.

ARSON AND MURDER BY BLACKMAILERS

DEMANDED \$5,000 OF WEALTHY KANSAS FARMER—CARRIED OUT THREAT WHEN IGNORED.

TOPEKA, Kas. June 27.—Blackmailers who demanded \$5,000 from W. C. Carson, a wealthy Crowley county farmer, and were ignored, fired the Carson homestead while Carson was en route to Oxford for his mail. The house was destroyed and Mrs. Carson was fatally burned.

Carson received an anonymous letter several weeks ago, demanding that he deposit \$5,000 at a certain point. He ignored the message. Later another letter was received, stating that should he not comply with the demand his house would be burned and his life taken. This also was ignored.

While he was absent Sunday evening, flames suddenly broke out in the house. Mrs. Carson escaped, but returned to the house for a highly prized violin. Mrs. Carson was taken back to her cell and locked up. Her father, who had been with her, left her. The jury was deliberating the Ed-dorado band gave a concert in the city park near the court house, and Olin Castle and Hayward Morrison, Jesse's brother, played instruments side by side.

MORRISON CASE VERDICT

SLAYER OF MRS. OLIN CASTLE IS GUILTY OF MANSLAUGHTER.

ELDERADO, Kan. June 27.—Jesse Morrison was found guilty of manslaughter for the murder of Mrs. Olin Castle. The penalty is not more than five years, less than three years in the penitentiary.

One of Miss Morrison's lawyers immediately filed notice of appeal. Jesse Morrison was taken back to her cell and locked up. Her father, who had been with her, left her. The jury was deliberating the Ed-dorado band gave a concert in the city park near the court house, and Olin Castle and Hayward Morrison, Jesse's brother, played instruments side by side.

FIVE YEARS FOR BARKER

SENTENCE PASSED ON REV. JOHN KELLER'S ASSAULT.

NEW YORK, June 27.—Thomas G. Barker, convicted in the Hudson county court at Jersey City last week of felonious assault upon the Rev. John Keller, of Arlington, was today sentenced to five years' imprisonment in the state penitentiary.

STARTS OF OLD ELWIN RACE WITH HARVARD

Superior Endurance of Yale Crew Lands Them Winner In Eight-Oared Contest.

Yale Also Wins the Freshman Eight While Harvard Takes the Four-Oared Race.

TIME AT FINISH. Yale 23:37 Harvard 23:45

NEW LONDON, June 27.—In a race never excelled on the Thames, Yale's varsity crew won the great inter-university rowing event of the year in the last half mile of the four-mile course today by a scant two lengths.

The magnificent contest was witnessed by thousands from observation trains, yachts and points of vantage along the bank.

To Yale also fell the honor of a victory in the freshman race, while Harvard tonight takes consolation in the fact that her varsity four walked away from the Yale quartette handsomely.

The two minor races, with honors divided, served only to whet the appetites of the spectators. These contests had resulted exactly as the experts had predicted, and some 20,000 people were impatient for the supreme event of the regatta.

The big race was rowed down stream in the cool of the evening shortly after 7 o'clock. The conditions were fairly favorable. The wind out of the southwest blew diagonally against the crews at the rate of about six miles an hour. As the first flags of the course were passed, Yale was rowing thirty-five and Harvard was one point lower. Harvard had settled down into the best style pull the west. The pistol was fired at 7:12. It was a start almost on even terms, Harvard possibly a slight advantage.

For the first length it was stroke for stroke at thirty-six to the minute, Yale then dropped to thirty-five, while Harvard went down to thirty-four. The water was smooth, although there was a light breeze from the southwest. Before ten lengths had been traveled, it was evident the race was to be a good one. Harvard had drawn away by a quarter of a length. The eight was rowing as one man. At the half mile it was Harvard by a very narrow margin, a second and a fifth as to time, and still a quarter of a length as to distance. As the first flags of the course were passed, Yale was rowing thirty-five and Harvard was one point lower. Harvard had settled down into the best style pull the west. The pistol was fired at 7:12. It was a start almost on even terms, Harvard possibly a slight advantage.

As the first flags of the course were passed, Yale was rowing thirty-five and Harvard was one point lower. Harvard had settled down into the best style pull the west. The pistol was fired at 7:12. It was a start almost on even terms, Harvard possibly a slight advantage.

For the first length it was stroke for stroke at thirty-six to the minute, Yale then dropped to thirty-five, while Harvard went down to thirty-four. The water was smooth, although there was a light breeze from the southwest. Before ten lengths had been traveled, it was evident the race was to be a good one. Harvard had drawn away by a quarter of a length. The eight was rowing as one man. At the half mile it was Harvard by a very narrow margin, a second and a fifth as to time, and still a quarter of a length as to distance.
