

UNCLE SAM'S MONOGRAM WHISKEY
The recognized standard.
Dealers and Druggists sell it.
ST. PAUL & BENS MINNEAPOLIS

an exceptionally clever pianist and interpreter of Wagnerian music.

John B. Duggan, a locomotive fireman, filed an application to be adjudged a bankrupt in the United States court yesterday. His liabilities are given as \$325.15 and the assets, claimed to be exempt, \$50. Most of the liabilities consist of sums of borrowed money and in board bills.

At the regular meeting of the board of county commissioners, to be held next Monday, it is expected that steps will be taken toward passing a resolution authorizing the Public Safety company, the surety for former Abstract Clerk Schulze, to put the books of the office in proper shape.

Frederick T. Turner was arraigned before Judge Hine in the police court yesterday on the charge of disorderly conduct preferred by his wife, who alleges that her husband raised a row Sunday and threw a cup of tea in his daughter's face. Turner pleaded not guilty and his case was continued until this morning.

The summer assembly of Minnesota Baptists, instituted three years ago, will hold its annual meeting next Friday at Minneapolis. The sessions will continue until Sept. 1. Among the prominent lecturers who will address the assembly are: Dr. Charles Matthews, of the University of Chicago, and S. W. Mullins, of the Southern Baptist Theological seminary.

PAVING FOR PAYNE AVE.
ASPHALT ALONG ITS TRAVELED LENGTH WILL COST \$45,000

City Engineer's Estimate Will Probably Appear Too High to Most of the Property Owners.

In an estimate furnished the board of public works yesterday, City Engineer Clausen estimates that it will require an expenditure of nearly \$45,000 to pave Payne avenue along its traveled length. This includes the territory between Beaumont and Maryland streets, and is exclusive of the street car company's part. Several weeks ago a mass meeting of Payne avenue property owners was called, and the advisability of paving the street discussed. Asphalt seemed to be the favorite material, and on this basis a preliminary order was introduced by Ald. Holt, and the estimate yesterday was the answer. That it will receive approval from the property owners is considered doubtful.

According to Jessamine the street is paved with cedar blocks and is curbed, and the cost of repaving with asphalt, the engineer estimates at \$35.35, or \$4.47 per front foot. The remainder, however, is simply macadamized, with no curbing, and to pave it Mr. Clausen estimates that \$10,000 will be necessary, making the cost for the entire project \$45,350.

Payne avenue is one of the most traveled streets in the Arlington hill district, and the owners are desirous of having it paved. The property belonging to the estate in Ramsey county is valued at \$25,000.

ENTERS ASPHALT FIELD
CHICAGO COMPANY READY TO BID FOR PAVING.

The North American Asphalt Paving company, of Chicago, is the latest concern to evince a desire to enter the paving field in St. Paul. The company yesterday furnished City Engineer Clausen with its estimate of the financial ability to fill contracts, and accompanied it with a letter agreeing to lay a pavement free, providing the city will pay a period of two years to it in repair for the work.

Instead of the celebrated Trinidad material, the company uses rock asphalt, a material mined in Kentucky. In many of the cities of the world this material is used for paving almost exclusively, a guarantee of nineteen years being demanded.

For the first five years the company laying the pavement suffers any loss by reason of wear, while the remaining years the municipality puts up 10 cents a yard for repairs. Originally the paving costs \$2.50 a square yard, a guaranteed existence for nineteen years, however, adding to the cost to the extent of making it a fraction in excess of \$4 a square yard.

There is a number of streets which in the past twelve years have been paved twice and are now ready for a third coating, and the cost up to date, according to the estimate of the property owners, is about \$12 a square yard.

NOME IS A GOOD CAMP
SHIP OWNER SAYS SEASON HAS BEEN A PROFITABLE ONE.

F. Waterhouse, of the British-American Steamship company of Seattle, returned through St. Paul yesterday on his way west, after a business visit to New York. He says the season has been a good one for the owners, Nome, having exceeded all expectations. In two or three years more he expects to see more gold taken from the Nome diggings than in the past five years.

The company, of which Mr. Waterhouse is the vice president, has entered into an arrangement with the China Mutual company to handle a considerable portion of its Oriental trade, and several of the vessels of the British American company are now running between Seattle and Liverpool.

ROB A FREIGHT CAR.
Two Lads Steal Flour From the Soo Road.

John Harrington and Joseph Glivena, two young lads living at 379 Wilcox street and 406 North First street, respectively, were before Judge Hine in the police court yesterday on the charge of petty larceny. The boys were arrested Saturday night on the charge of having stolen nine twenty-five pound sacks of flour from a freight car in the Soo yards. The boys pleaded guilty yesterday afternoon and the judge continued their cases until Oct. 2, permitting them to go home with their parents.

Mrs. James Cuniff and Mrs. John Harrington were also arrested on a warrant sworn out by George H. Burdette, charging them with having received stolen property and a sack of flour each, valued at \$5 cents. Their cases were also continued until Oct. 5.

Richard Fitzgerald, Walter Devitt and Alfred Welsh were also before Judge Hine for complicity in theft, and their cases were also continued until October.

Janis repairs your shoes while you wait. Sols. 50c and 75c; rubber heels, 40c. 333 Minn., between Fourth and Fifth sts.

PREPARING THE PAPERS.
Supt. Olson Has Force at Work on Examination Schedules.

The work of marking out the examination papers of the candidates for state teacher's certificates who recently took the examinations in their various counties, began yesterday at the state capitol under the supervision of Supt. Olson, of the state department of public instruction.

There are nearly 100 readers at work, and there are nearly 40,000 papers to be examined. The readers are paid 50 cents a hour for the work, and are not allowed to work more than seven hours each day. However, Mr. Olson says that the papers will all be finished by the latter part of this week, and the successful candidates will be notified either on Saturday or Monday next.

Bravely men and women wanted in the business world. The Lancaster School the place to qualify.

READY FOR THE BABES
HARRIET E. BISHOP FREE DAY NURSERY IS FORMALLY DEDICATED

Presented by Dr. Whitcomb
Dan W. Lawler, Acting for Mayor Smith, Receives the Endowment in Behalf of the City.

A red-frocked baby toppled up the steps of the free day nursery on Harriet street and last night a delighted mother, it was a cheerful dedication on behalf of the babyhood of St. Paul, that at corner of Harriet street is to be hereafter the littlest children's very own, and though a more "grown-up" dedication followed Miss Red Frock's advent, it was not entirely unnecessary.

Ohay and Dr. Whitcomb presided over the ceremonies that gave to the city last night the Harriet E. Bishop free day nursery, as Dr. Whitcomb, in his address, suggested that it be henceforth called.

A large number of people applauded the addresses last night and enjoyed the music of the Minnesota State band, which interspersed them. The speeches were delivered on the steps leading up to the nursery, the people grouping themselves on the veranda and on the grounds surrounding the building.

DR. WHITCOMB'S ADDRESS.

Dr. Ohage introduced Dr. Whitcomb, who gave a brief history of the planning that led to the building of the nursery. "It is not too much to think," said the doctor, "happily prognostic, that our children will be nursed back to health someone upon whom may in time rest the fate of the nation, many who will fill the ranks of our army and navy. Let it be forever free from sectarianism and politics, for children of a republic should be taught to respect all political beliefs and all religions. Like the public baths, let the nursery be open on the Sabbath, for there is yet to dawn a day that is not made more holy by the cooling of an infant or the laughter of childhood."

MR. LAWLER ACTS FOR MAYOR.

Hon. Daniel W. Lawler, taking the place of Mayor Smith, who was unavoidably absent, spoke on behalf of the city, accepting the nursery and thanking the donors, Arthur J. Stobart, assistant corporation attorney, also made a brief address, after which the band played and the crowd danced or inspected the building.

The day nursery is now open, although it is not yet completely furnished. Five hammocks have been donated for the playroom on the wall, but a number of other things are needed. The playroom on the first floor has some attractive pictures on the wall, and there are two swings there, but more swings and some games are needed. The playroom on the first floor has some attractive pictures on the wall, and there are two swings there, but more swings and some games are needed. The playroom on the first floor has some attractive pictures on the wall, and there are two swings there, but more swings and some games are needed.

HOLD YOUNG CATTLE.

"Our stockers, which are young cattle, are usually bought by the farmers of this district to be raised by them, but as that district is now affected by drought, there is no demand for that class of stock and our farmers, having plenty of feed for them, can do much better by raising them themselves. Feeders are the animals which are not fat enough to be sold for beef and are bought to be fattened for a later market. Those also the farmers are now able to keep to be fattened for their own profit, and, of course, they can do much better to purchase that course."

"The grass is so good in North and South Dakota this year that beef cattle will come late. Cattle men will hang onto their stock longer than they would in condition every day. There are some coming in now and we received 200 head today, but we expect very liberal shipments of fat cattle in September. Those who think that the farmers would do better to ship some of their beef cattle now than to wait until they are all ready to be shipped, are wrong. We are paying within five cents of Chicago prices and the difference in freight and shrinkage is very small."

"We have always advocated the keeping of young stock rather than selling it off for some one else to mature and we are glad to see that the farmers are doing it this season. In the end it will benefit this market."

TRAVELING FREE OF COST
HORDES OF JOLLY HOBOES MAKING FOR HARVEST FIELDS

They Display Unusual Pertinacity in Remaining on Freight Trains After Being Requested to Leave.

Hundreds of tramps, who have spent their annual ten months' vacation in the East, are now hurrying to the Western states to get into the harvest fields. They work which they consider they owe to their country. Like the independent citizens that they are, all being to a man ready to do their share, they are traveling free of cost. The long journeys to their destinations are taken without the knowledge and assistance of the railroads, and they are ensconced there in the most comfortable manner. Recently a brakeman happened to glance into an empty freight car and found a number of tramps ensconced there in the most comfortable manner. Recently a brakeman happened to glance into an empty freight car and found a number of tramps ensconced there in the most comfortable manner.

MONKEYS MAKE A HIT
LITTLE CREATURES AMUSINGLY ENTERTAIN LARGE AUDIENCES

Norris & Rowe's Popular Show Gave the First Performances of a Week's Engagement Yesterday.

Norris & Rowe's trained animal show gave two performances to large crowds yesterday afternoon and evening. The tents are conveniently located at the corner of the city and the show is enjoyed by everyone who attended was highly pleased.

The show begins with a grand entrance, in which the entire force of animals figure to good advantage. The most interesting and charming picture in the ring, in which elephants, dogs, monkeys and ponies are the prime features. The performances of the trained animals are of a high order, and the military drill being particularly fine. The troupe of trained dogs is the finest ever seen here, and the antics of the clown canines furnished much merriment for the applauding crowds. Three trained elephants showed the marvelous sagacity of these huge creatures. The monkeys made 125 grand and little ones, and seemed to enjoy the various numbers in which they figured as greatly as the audience.

WHEAT BEGINS TO MOVE
PROSPECTS OF AN EARLY SHORTAGE OF CARS LOOKS UP.

Word was received yesterday by the Great Northern that grain was already commencing to move on the northern line between Minneapolis and Duluth, and also on the Willmar line. This means that grain is being threshed much earlier than was anticipated by the railroads, and that the season is a shortage of cars earlier than is usually the case.

The Great Northern is daily expecting the arrival of 1,500 new freight cars of 50,000 pounds capacity each. They will all be needed, from present indications, as reports from different parts of Minnesota show that the yield per acre is greatly in excess of the estimate based on the supposed damage caused by the recent hot spell.

LAY THE CORNER STONE.
Arlington Hills Church to Be Started.

The corner stone of the Arlington Hills Presbyterian church, at the corner of the city streets, will be laid this evening. The ceremonies will consist of music by the Sunday school chorus and an address by D. R. Noyes. The church, a frame building, will cost about \$5,000, and has a seating capacity of 400.

WILL HELP MARKET
SCARCITY OF BUTCHER CATTLE WILL BE ULTIMATELY PROFITABLE

GEN. FLOWER GIVES REASONS
Present Shortage Is Due to Natural Agricultural Conditions, and Will Not Be Disastrous.

A marked scarcity of what is known as butchers' cattle in the South St. Paul market has led to considerable comment. A comparison of the receipts of this season and those of the same period of last year show a falling off, but a careful survey of the situation and a canvass of the market shows that this is a natural outcome of present favorable conditions in the cattle-raising section tributary to this market and will not mean that the supply of the market and the cattlemen of this territory.

Gen. Mark D. Flower, president of the St. Paul Union Stock Yards company, seen last night and takes subject to which it is true that at present the three principal classes of what is known as butchers' cattle are scarce in the local market. Consequently the cattlemen refer to the "stockers and feeders" and beef cattle so-called. There are, of course, many grades of each of those classes, but they constitute but three principal divisions. This scarcity of which I speak is a natural result of agricultural conditions in the country and is not an unfavorable indication, but on the contrary, favorable.

"Last year there was a drought in the Northwest and farmers and cattle raisers were generally forced to rush their stock into the market. Like the public opinion they could get for it. This year grass and hay in the Northwest are plentiful and the drought has shifted to the South-west. Consequently the cattlemen of this section are in no hurry to send their stock to market, while those of Nebraska and Kansas are rushing theirs to market. The Kansas City market is over-run with stock.

IS NOT A CANDIDATE
SENATOR LORD DENIES THE STORY ATTRIBUTED TO HIM

Says He Is Not Seeking the Nomination for Governor Against the Present Incumbent.

Senator Samuel Lord, of Kasson, Dodge county, is his own authority for the statement that he is not a candidate for gubernatorial honors, as many of the country press in his end of the state and some of the Twin City papers would have people believe.

"I cannot understand what foundation anyone has for saying that I am out to beat Gov. Van Sant out of the nomination next year," said Senator Lord yesterday, "but I have never entered my mind to become a candidate for the Republican nomination for governor in 1902, nor has the idea suggested itself to me. I am satisfied, however, that the statement, nor did I make any other statement which could justly have been taken to mean that there are many disaffected Republicans in that portion of the state and they want some one to be the field against Gov. Van Sant, but for some reason that there may be matter any serious consideration, I have no political plans whatever, at present."

DEED TO THE LEVEE
UNION DEPOT WILL GET IT IN A FEW DAYS.

At a special meeting of the board of aldermen yesterday, the assembly resolved instructing City Comptroller McCarty to turn over to the Union Depot company the deed to the levee below Sibley street was approved. No discussion was indulged in.

Mayor Smith affixed his signature to the deed, and it was as soon as it has received the required publicity in the shape of a legal insertion in the city paper, the deed will be turned over to the company.

AWARDS GRADING CONTRACT.
Mount Hope Street Improvement Will Cost \$1,347.

The contract for grading Mount Hope street was yesterday awarded to Thomas Linnan for \$1,347 by the board of public works. The street will be graded to a width of forty-four feet from Prescott to Carle street.

A week ago bids were called for this improvement, but only one contractor making a proposition, it was rejected. The price was also above the engineer's estimate. Yesterday three contractors bid on the work.

Rough House Cost \$10.

William Denser was yesterday fined \$20 for being drunk and \$20 for disorderly conduct, by Judge Hine, in the police court. Denser was ejected from a saloon Saturday night, and became very abusive. Officer Volkman put him under arrest, when several companions of the young fellow sought to release him from the crowd except Denser got away.

BANKING IN JAPAN
S. HADANO, OF TOKIO, A VISITOR IN ST. PAUL

ADMIRE THE GERMAN SYSTEM
Flourery Kingdom Is Just Recovering From Severe Reaction After Period of Commercial Expansion.

S. Hadano, assistant general manager of the Mitsui bank, which is rated as the third strongest financial organization in Japan, passed through St. Paul yesterday, en route to Vancouver, whence he sails for Tokyo on the Empress of Japan, on the 19th inst. To the Globe, when seen yesterday, Mr. Hadano said that he was returning to his duties after an absence of eight months, most of which was spent in Europe, where he devoted some time to the study of the banking systems in vogue there.

He has spent the last two months in New York and Chicago, and says that warm money, and the notes so issued are such terrific heat as was prevailing in the largest cities in the United States at the time he was in them. You talk of the heat of the tropics," said Hadano, "but I don't think there was a hotter place in the world than New York two weeks ago."

Speaking of the banking system in use in Japan, Mr. Hadano remarked that several years ago a system resembling the American National bank system was used, but that it had been abandoned for one that was modeled upon the German government system. Only the Bank of Japan is authorized to issue the notes of the government, and all other banks buy their paper currency from the government institution. The rates of the government in the banking agency, and allows no interest on deposits. Other banks allow from 5 to 2 per cent, according to their standing with strength.

The severe industrial depression which Japan has passed through, and the effects of which are still being felt all over the world, were swept away.

The greatest home for the Japanese, Mr. Hadano thought, lay in the proper development of commerce with the United States. Trade of this sort was reciprocity, and it is the best possible means of developing Japan's resources without impoverishing the people by endeavoring to force the industrial advancement of the country.

LOOK FOR A CONTEST
GEN. OTIS ON A TRIP

STARTS ON TOUR OVER WESTERN POSTS OF THE DEPARTMENT.
MARTHUR LIKELY TO COME IF HE WANTS TO COME TO ST. PAUL. The Administration Will Give Him the Appointment.

Gen. Elwell S. Otis, who is in charge of the department of the lakes and a temporary command of the department of the Dakotas, spent yesterday in St. Paul, and left last night for a trip to the Western posts of the department and a visit to the Yellowstone National park. The general spent nine busy hours at the army headquarters signing papers and giving directions, and took the Northern Pacific express at 10:30.

Speaking of the prospect of Gen. MacArthur coming to St. Paul as the commander of the Dakota department, Gen. Otis said: "He has not yet been appointed, but I have no doubt that he can get this department if he wants it. Gen. MacArthur likes St. Paul, I know, and if he receives the appointment, he will doubtless arrive at San Francisco today, and we shall know more about it when he reaches Washington."

Gen. Otis said that the people of Milwaukee are planning a royal reception for Gen. MacArthur when he reaches that city, which is his home, and in which he has spent a considerable portion of his life.

With Maj. Gen. Otis are his aid, Lieut. Field, and the ladies of all of them members of his family. They are traveling in the private car of President Hughtitt, of the North-Western system.

PERSONATES AN OFFICER
S. MURPHY FAILS TO GET AWAY WITH BOLD BLUFF.

William Wilson, whose real name is Stephen Murphy, was before Judge Hine in the police court yesterday on the charge of impersonating an officer. He will be given a hearing on Friday, and was released on \$25 bail. The charge was preferred by Miss Lena Winters, a clerk employed at 22 Stryker avenue. According to the story told by her, she was sitting in Central park with Gay Warlick last Sunday night, when Murphy, who is a well-known character, was there under arrest. Warlick, after protesting that he had done nothing to be arrested, was allowed to go away by Murphy.

The girl claims that Murphy then insisted on taking her home, and on the way made proposals to which she refused to listen. Miss Winters notified the police, and Murphy was arrested early yesterday morning by Officer Griffin on South Robert street.

CITY MISSION WORK
PREPARATIONS FOR WINTER SEASON CONSIDERED LAST NIGHT.

The regular quarterly meeting of the board of city missions was held last evening at the guild hall of Christ church. The meeting, which was attended by the Episcopal clergy and the parish delegates, was called for the purpose of hearing reports as to the condition of the several city missions.

In midsummer the work of relieving the needy is comparatively dull, consequently the reports furnished had bearing only on the preparations for the regular season, which begins with December. The reports were encouraging and showed the finances in an excellent condition.

Visits Old Friends.

Witt K. Cochrane, for a number of years connected with the St. Paul papers, came up yesterday from Chicago for a short visit among some of his former friends. Mr. Cochrane is advertising manager for one of the largest clothing establishments in the Windy city, and was recently married. While here he will be the guest of Willis L. Williams, the advertising agent of the Omaha road.

After Dinner

Go to Adam Fetsch's, 127 East Fifth street, for your fine cigars.

ROGERS MAY BE OUT.
Lent Whitehorse Money on Assignment of His Salary.

Developments are coming to light every day which tend to show up George B. Whitehorse's several methods of securing money from his friends before leaving. Yesterday it leaked out that E. G. Rogers, clerk of the district court, loaned Whitehorse money, for which he holds as security the transfer of the county commissioner's salary for the months of May, June, July and August.

It is understood that Mr. Whitehorse's salary, as carried on the pay roll of the county.

GEN. OTIS ON A TRIP

ELECTION OF TRUSTEES FOR SOLDIERS' HOME WILL BE HELD TODAY.
COMPTON PROBABLY WILL STAY IN COMPETENT, AND HE WILL NOT MIDDLE WITH AFFAIRS.

Gov. Van Sant Declares the Board is Competent, and He Will Not Meddle With Affairs.

The trustees of the state soldiers' home will hold their annual meeting today, and more than usual interest is felt in the result of the election of officers for the institution, which is scheduled to take place at this time. It has been customary for the board to defer somewhat to the wishes of the governor in the selection of officers, and in that way the present incumbents owe their appointments more or less to the influence of former Gov. Lind.

However, it was claimed on behalf of Commandant Compton that he has made an excellent executive officer, and as he is a Republican and enjoys the personal friendship of Gov. Van Sant, it is believed that he will not be displaced. Another office in which it is said no change will be made is that of chaplain, which is expected that there may be changes made in the board of officers, and that fact will work to his disadvantage, although he has a highly creditable army record to recommend him.

Gen. Otis said that the people of Milwaukee are planning a royal reception for Gen. MacArthur when he reaches that city, which is his home, and in which he has spent a considerable portion of his life.

With Maj. Gen. Otis are his aid, Lieut. Field, and the ladies of all of them members of his family. They are traveling in the private car of President Hughtitt, of the North-Western system.
