Among the recent new strikes of importance may be mentioned that of the St. Paul & Idaho Mining Company.

In sinking on Grant claim to determine dip of vein the grey and red carbonate shined to some feet.

ALGER TALKS OF ROOSEVELT.

Does Not Believe the Policy of the Government Will be Changed.

DETROIT, Mich., Sept. 14.—"Do you think that Col. Roosevelt's succession to the presidency will change the policy of the government very much?"

He replied: "I have no good reason for believing that it will. Congress makes the policies of our government, and not the president."

"President Roosevelt, I am perfectly satisfied, is equal to the responsibility of the great office to which he has been so unexpectedly elevated, and while he has been a pretty aggressive politician in the past, he will make a conservative chief executive of the nation.

Speaking of his long personal acquaintance with President McKinley, Gen. Alger said:

"President McKinley was never, by reason of his long public experience, given to coercing others to his way of thinking. By persuasion alone he would try to bring them round to his way of thinking."
