SCANT CONCERN IN GERMANY OVER THE BEAR'S FLIRTIATION WITH FRANCE

CZAR'S INTENT IS PACIFIC

No Fear That His Majesty Will Help Fight the Battles of the French.

DISCUSSING THE NEW TARIFF

BERLIN, Sept. 21.—While the papers have devoted much space this week to the reports of the festivities in France on the occasion of the czar's visit to the country, the discussions on the subject were few, and showed that Germany is little concerned thereby.

TALKING TARIFFS

The tariff discussion grows warmer. The resolutions of the chambers of commerce against the bill are becoming more trenchant.

In this week's tariff discussions the recent speech of Herr Moeller, the Prussian minister of commerce, played an important part.

INTEREST IN ROOSEVELT

The affairs of the United States have naturally occupied much attention this week. Considerable biographical and anecdotal matter about the late President McKinley and President Roosevelt has been printed.

After the close of the army maneuvers, which were greatly hindered by incessant rain, Emperor William is spending several days at his country estate at Cadzand.

CHUN AS A SIGHTSEER

Prince Chun, who returned to Berlin yesterday, has resumed sightseeing. To-day he went to the zoo, where he will be entertained by Herr Krupp.

The Berlin municipality has named the latest city hospital after Prof. Virchow, in honor of his forthcoming eightieth birthday, and has also voted 100,000 marks for the Virchow house, a charitable institution.

The German postoffice is making experiments in various cities with American stamp cancelling machines.

SOUTH AFRICAN WAR DRAMA

Louis Mann and Clara Lipman in "The Red Kloof."

NEW YORK, Sept. 21.—The Savoy, almost reconstructed, so thorough has been the renovation, since coming under the management of Charles Frohman, was thrown open to the public tonight.

Louis Mann had a part greatly in contrast to the comedy roles he has recently played. It was strong and dramatic, but Mr. Mann was so acceptable as to receive most enthusiastic and hearty approval.

CZAR'S PLEDGE TO FRANCE

PARIS, Sept. 21.—The czar of Russia left French soil at Pagny-sur-Moselle late tonight, after bidding farewell to President Loubet and the staff at Betheny. All those responsible for his safety breathed a sigh of relief, for it has been a most anxious time.

GRAND REVIEW

The czar, the czarina and President Loubet today reviewed 140,000 troops on the plain of Betheny. The march, which lasted from 10:45 to 1:10 p. m., terminated in a magnificent charge of 20,000 cavalry.

The members of the party entered the carriage, which were drawn by four artillery horses. Awaiting at the station were thirty Arab sheikhs, who had obtained special permission to leave Algeria.

The sheikhs were attired in the most brilliant and richly decorated, green and yellow robes, which flowed over the haunches of their Arab steeds. The trappings of these horses were superb, and were embroidered with gold.

THE PLAIN OF BETHENY

is about six miles wide, two miles deep and is surrounded by rising ground which forms a sort of amphitheater of pasture land, and was taken as a coliseum of vantage by a great concourse of the general public, who thus dominated the review ground, though from a considerable distance.

The guard of honor at the pavilion was chosen from troops who have returned from the Chinese expedition. Prominent among them was a company of turbaned Japski regiment of the marines.

Then the czarina seated herself with M. Loubet on her left. The czar wore the uniform of a colonel of the Presthamboulet regiment of the guard.

Dr. Amant is undoubtedly so outrageous. He stood before the Boxers and addressed them, and now he has come back to America, where Mr. Clemens lives.

RAP AT SCHLEY

WITNESSES ON THE STAND YESTERDAY RATHER AGAINST THE APPLICANT

ACTION WITH THE COLON

Commander Schroeder Says That Attacking Ships Might Have Gone Closer In.

SLOW TIME TO SANTIAGO

WASHINGTON, Sept. 21.—Only one new witness was introduced today to the naval court which is investigating the conduct of Admiral Schley during the Spanish-American war.

While Commander Schroeder was giving his testimony Judge Wilson, counsel for Admiral Schley, sought to have him make a comparison of the distance of the fleet from the shore under Admiral Schley with the distance of the fleet under Admiral Sampson after the latter officer arrived and took command.

Admiral Higginson corrected his statement made yesterday concerning the distance from shore maintained by the fleet during the blockade of Santiago.

Admiral Dewey observed his usual rule of promptness in calling the Schley rule of inquiry to order at 11 o'clock today.

THE FIRST WITNESS

called was Capt. Harber, the executive officer of the Spanish ship, the Spanwar, who was on the stand when court adjourned yesterday.

The judge advocated asked no question of him and he was immediately turned over to Mr. Harber, counsel for Admiral Schley, who questioned him concerning his statement yesterday to the effect that he did not recall that there was any picket line between the line of blockade at Cienfuegos.

Asked if the Brooklyn had not, on May 24, signalled the Texas to go alongside the collier and coal he said he did not recall anything of the kind.

Asked if the Brooklyn had not, on May 24, signalled the Texas to go alongside the collier and coal he said he did not recall anything of the kind.

Speaking of the signals observed off Cienfuegos he said he recalled that they were that of the other officers, was that they were between the Spanish forces.

He said the weather was fresh and the sea moderate; that it was hard for small vessels to get in. The Brooklyn and Texas thought the Texas could have made from ten to twelve knots.

Other vessels concerning the weather at that time. Mr. Rayner read a report from Capt. Higginson, saying that the weather had been "rough and squally" on the 24th.

"Then," said the witness, "I have given you my best recollection concerning the weather."

"That is what I want," responded the attorney.
