From The Churn To Your Table

Our celebrated "Star Brand" butter is the only butter in St. Paul that is delivered right from the churn to the consumer. Our butter making experience of the last 13 years enables us to make a perfect butter, coupled with the fact that we churn every day, enables us to serve you with the freshest and best butter possible. There's no long journeying in freight cars from some outside creamery. There's no repacking from tubs into jars. There's no delay in commission houses and then again in the grocery store. "Star Brand" is churned and delivered to your table the SAME DAY.

Now when you think it over wouldn't you prefer this "churned this morning" kind to what you are using now. If you try a jar you will come back for more.

OVER 400,000 PUPILS

LARGE ENROLLMENT IN PUBLIC SCHOOLS IS REPORTED

Remarkable Increase of 1,524 Per Cent in Total School Population in Forty-One Years.

Latest reports from the county superintendent of Minnesota show that there are 400,000 pupils attending the public schools at the present time, an increase of 7,000 over the enrollment of last year. Considering the population of the state, the showing is the best made by any state in the West. In 1860 there were but 25,750 pupils in the public schools. The increase in forty-one years has been over 1,500 per cent, an average of over 3.6 per cent, or an increase of 1,524 per cent.

Since 1860 there has been an increase of 150,000, or an average increase of over 11,000 per year. The school population has increased in much greater proportion than has the population of the state.

The 750 school houses in 1860 have increased to 3,800 in 1901; the number of teachers, from 700 to 12,000, and the average salary of teachers from \$15 to about \$30.

If Bank Examiner Pope can succeed in bringing about the change, street employees hereafter will receive their stipends weekly instead of bimonthly, monthly, or "any old time," as is now the custom.

The fact that he was closeted yesterday with City Engineer Claussen and Street Commissioner Steeg gave the impression that he was about to announce rumors of the usual amount "sweated," but the conference was for the purpose of seeing if the weekly scheme of payment could not be brought about.

City Engineer Claussen, speaking of the conference yesterday, said that he informed Mr. Pope that the proposed innovation was practicable, but it would cost money that the council would hardly care to expend.

In the city engineer's, comptroller's and treasurer's office the clerical work would be doubled, calling for a heavy addition to the working force, while upon the council would devolve the necessity of calling frequent special meetings in order to give approval to the pay rolls as they were completed.

The charter, in restricting expenditure for clerk hire in some of the offices, especially the comptroller's, also hampers the scheme, but if the latter plan was wanted badly he says some way of getting around the obstructions could be found. While willing to concede almost anything that will see street employees furnished their pay promptly, one member of the council seriously objects to leaving his business to attend the multitudinous special meetings that would be necessary.

Often it is impossible to get a quorum together, and then a new call has to be issued. Because of a failure in this respect some of the clerical work was deprived of what was coming to them for nearly a month.

The weekly pay scheme would cut off a considerable revenue from a number of brokers, who make a fat thing buying time checks at a discount, but there is a probability that they will be robbed of this anyway. As soon as Mr. Pope gets through with his report he will insist that every warrant issued bear the indorsement of the one to whom it is issued instead of someone else.

The idea of securing a pay day every week for street employees at present seems hardly possible of realization, but if it can be brought about Gen. Pope says he will see that it is done.

SEARCH FOR OLD MAN

ANDREW ANDERSON, AGED 65, MISSING SINCE FRIDAY.

The police were asked last night to look for an old man named Andrew Anderson, who has been missing since Friday.

He is sixty-five years old, and lives at Becker, Minn. The missing man came to St. Paul a few days ago to visit his friends, and was staying with John Larson, 225 Rice street. Friday he rode out with a farmer as far as Rosemount, and a friend, and after a short visit started for St. Paul. Since then his friends can find no trace of him, and it is thought he became confused and lost his way. The old man wears a blue suit of clothes, black hat. When last seen he had \$5 in his clothes.

ST. PAUL'S NEW PARK

THE PARK BOARD WILL CONSIDER THE PRELIMINARIES TOMORROW

WILL COST CLOSE TO \$75,000

Commissioner Seabury Has Secured Options on Much of the Land to Be Acquired.

Seabury park, the latest proposed addition to St. Paul's many handsome public playgrounds, will receive consideration at a meeting of the park board called for tomorrow evening. At the last session of the board the preliminary decision to acquiring the ground necessary were up for approval, but owing to a slight irregularity in the plat it was laid over.

While the acquisition of the park facing the new state capitol, which also includes a parkway having Seabury and Como parks as its two terminals, will require some months, yet much of the work has been done, Capitol Commissioner Seabury, in his desire to see the project consummated, having secured options on much of the ground that will have to be acquired. These options and the price agreed upon by the owners will assist greatly in the condemnation proceedings to be brought by the board of public works, as it will furnish a basis of value otherwise not obtainable except at a considerable cost.

The scheme also includes the widening of Park avenue, which faces the capitol on the west, the capitol commission having agreed to surrender two lots on the east side of the street in return for a strip that will equalize their frontage and make the ground and street look more symmetrical and presentable.

Seabury park, which it will be called if the scheme ever reaches consummation, will be a triangular piece of ground, and, because of its central location, will in reality be a portion of the capitol grounds.

The cost will not be far short of \$75,000, but in order to reduce the number of objections to the minimum the assessment will be spread over a wide area of territory, thus reducing the cost to each individual property owner.

POPE'S NEW SCHEME

The Change Would, However, Involve Large Increase in Clerical Force and Frequent Council Meetings.

Great sale of silks: Event of the season

Now comes the Twin Cities' paramount sale of all that is newest and best in silks and velvets. With pleasant memories of the tremendous business done and the many friends won by our great sale a year ago this week, we planned this one. Planned it on broader lines, too, determined to decidedly outdistance the records of last season. In the few items which follow we try to give you some idea of how widely we have searched and how eagerly sought the best for you. And bear in mind: That notwithstanding we are underselling, in every instance the Field-Schlick style and quality standard is maintained. It's your constant protection. Read on:—

Silks at 39c

A record-breaking collection at a record-breaking price—It's the best assortment and the best values we have ever offered at so little. Silks in the lot worth up to 1.25 and even 1.50 from which you choose at 39c. These are remnants of our very best 85c and 1.00 tafetas, Cheney Bros' best 1.00 foulards, novelty louisines and tafetas worth 1.00 and 1.25, lovely brocaded and figured liberty satins and gros de Londres worth 85c and 1.00, novelty velvets worth up to 2.00, novelties in white hemstitched tafetas and louisines, 15 shades of plain-colored 1.00 velvets, new satin brocaded poplins in evening shades worth 1.00, and many other choice silks ready at 9:30, not before.

Silks at 69c

A superb gathering of newest fashionable silks all to be sold at the uniform price—69c. White novelty louisines and tafetas, solid corded tafetas in beautiful colorings, black and white novelty, that are worth and are selling in many stores at 1.00 now, all at 69c. Rich louisines, tafetas, gros des Londres and other silks that bear fashion's fall stamp of approval. Self-colored fancy tafetas, striped silks and satins and every stylish idea from the modest small designs to the most striking effects, and for party dresses, there are pretty light blues, pinks, yellows, lavender, turquoise, reds and other shades—all 69c.

Silks at 89c and 98c

Rare bargains at these prices if you consider quality and styles. The variety is vast and the cheapest silk in the lot would sell regularly at 1.50. Here are Swis mottled louisines, heavy brocaded silks and satins in evening shades and black, gorgeous Persian striped and figured louisines, satin-figured Romans, grenadine tafetas, extra heavy black and white satin corded and striped tafetas, the latest novelties, in Jasper effects, novelty velvours, beautiful warp printed tafetas and louisines in multi-color combinations and evening silks almost beyond description. It's a wonderful gathering. Come.

Travelers' silk samples

The largest collection of travelers' samples we have ever offered at one time. Lengths run as usual, from 1/2 to 1 1/2 yards, and there are silks of all kinds and descriptions, including the very newest weaves and colorings. There is a particularly fine lot of black tafetas, peau de soles and satins from the best American and European factories. Lengths are sufficient for trimmings, facings, ruffings, platings, etc. There are many silks in bright and medium designs suitable for ties, hat trimmings, stocks, bags, fronts and all fancy work purposes. (Ready at 9:30, not before)..... 5c, 10c, 15c, 25c, 39c, 49c and 69c a piece
