

## TO GET A BANK SOON

WEST SIDE PROMOTERS THINK SUCCESS IS IN SIGHT

TO BE DISCUSSED WEDNESDAY

Believed That a National Bank Will Establish a State Institution—Looking for More Industries.

At its meeting to be held Wednesday afternoon the West Side Improvement association will again take up the matter of the new bank which it is proposed to establish across the river. Since the last meeting encouraging progress has been made, and the promoters are of opinion that the institution will become a reality early next year. Dr. V. G. Hawkins has had in hand the matter of the bank for some time, and is now interested local capitalists on the West side, and it is believed that at the coming meeting he will be able to report that a fair amount of the stock can be taken up by those whom the bank will benefit most. The West side has been most unlucky with the banks that have been started there, and the merchants and manufacturers are feeling that it is high time to have an institution that will be thoroughly sound and reliable. George Power, federal bank examiner, has placed himself on record as being of opinion that a bank such as is proposed could not fail to be a profitable venture if properly managed. Gen. Pope, state bank examiner, is of the same opinion, and is supported by his successor to be, Johnson.

At present it seems that one of the city national banks will take the proposition in hand and establish a state bank. At first none of the local national institutions could be induced to regard the venture in a favorable light, but the enthusiasm with which the question has been taken up by West side has changed the situation completely.

Another matter in which the association is keenly interested is that of including some manufacturing firm to occupy the factory which was discarded by the barrel factory when it moved to South St. Paul. This place is equipped with new boilers and a considerable amount of serviceable machinery and would be admirably adapted for a firm engaged in the making of refrigerators.

Another thing that the association is trying hard to secure for the West side is a shoe manufacturing, and on the authority of one of the most prominent members in the association it is stated that one of the largest firms in this city has under consideration the establishment of a branch on that side of the river. The negotiations have not progressed beyond the stage of looking for a suitable site, but hopes are entertained that a successful issue in the near future. The association has not yet been organized, but in the short time of its existence has accomplished much, as inquiries for factory sites have been received from Philadelphia, Chicago, St. Louis, Pittsburgh and other large cities.

## RIPANS STRENGTHENS OLD PEOPLE.

Mrs. F. D. McKay, aged seventy years, living at 273 Martha street, Philadelphia, Pa., writes: "I have been troubled for the last five years with that terrible puffed feeling, shortness of breath and pain in my left side. I consulted the best doctors in Philadelphia, but could not obtain any relief. I saw an advertisement of Ripans Tablets in the paper and thought I would give them a trial. I commenced to take them last fall and now I can walk a mile without getting out of breath. Our whole family of eight takes them now, and we have not had to call a doctor, as they all derive great benefit from them. I take four a day after each meal, and one when retiring in the evening."

It's hard to keep on smiling when the stomach's feeling ill. It's hard to keep on thinking you can cure it by your will. It's hard to keep contented and to follow out life's rules. But it's easy to be healthy if we take Ripans Tablets.

There is scarcely any condition of the body that is not benefited by the occasional use of Ripans Tablets, and this price, 10c per box, does not bar them from any household. Write for full particulars to J. C. Williams, Philadelphia, Pa. For sale by all druggists.
