CITY NEWS

The grand jury will meet today.

The Junior Pioneer association will give its first informal ladies' social this evening in the Elks' hall, Lowry arcade.

The State Bank of Hills, Rock county, was yesterday authorized to do business by the public examiner. The capital is \$10,000.

Judge Kelly yesterday filed an order receiving the application for the appointment of a receiver in the case of Helen E. Matthews vs. Charles T. Scheffer.

The upsetting of a kerosene lamp was the cause of a fire at 75 Summit place last evening. A large rug was consumed before the blaze was extinguished.

John Nicholson, who died in the city hospital Saturday, was buried yesterday afternoon in Calvary cemetery. He had been a resident of the city for thirty years.

F. W. Otten, superintendent of public instruction, has returned from Cannon Falls, where he addressed the Goodhue County Teachers' association Saturday afternoon.

The Relief society is in need of heavy blankets for the sick men (consumptive) and a heavy, rough overcoat for a workman; also a cast-off fur coat for a one-armed man.

A blaze started in a barrel of rubbish in the cellar of the residence of E. Stordahl, 702 Central avenue yesterday. The fire was extinguished before any damage was done.

Dr. G. O. Welch, superintendent of the Ferguson Falls hospital for the insane, passed through the city yesterday on his way to the state conference of charities and correction, to be held at Watonagan.

A cremery belonging to H. E. Vroman, an inspector in the state dairy and food department, has lost his cremery at Kasson. It was destroyed by fire and the damage will exceed the insurance by \$100.

George Bessell, Eugene Eberhart and J. P. Dugan, the men charged with assaulting Officer Fitzgerald in a saloon on East Seventh street, were in police court yesterday. The case was continued until this morning.

A team belonging to the Cascade laundry ran away at Seventh and View streets last evening. After running some distance they collided with a Standard Oil wagon. The shock wrecked both wagons, but no one was injured.

Andrew Jansbauer died yesterday at his home, 296 Carroll street, aged fifty-eight years. Tomorrow morning the funeral will be held from the above address at 8:20 o'clock, with a service at Assumption church half an hour later.

Dr. J. C. Currier, of this city, assistant superintendent of the Minnesota state reformatory, left Saturday night for Indiana, to talk to the farmers of the Hoosier state for a few weeks. He will take up his work in this state after the holidays.

While Shepherd, the eight-year-old boy who stole \$20 from his mother, was yesterday turned over to his parents for correction, Mrs. Shepherd says the lad is incorrigible, and if he repeats the offense she will ask to have him sent to the reformatory.

ADDING TO BUDGET

CONFERENCE COMMITTEE TACKLES \$50,000 TO CONTROLLED BY MCDARDY'S FIGURES

McARDY PROTESTS IN VAIN

Board of Public Works, Board of Control and Court House Commission Receive Additions.

With Comptroller McCurdy dissenting in every instance, the conference committee yesterday unanimously agreed to the addition of a sum approximating \$50,000 to the budget as it now stands. Of this amount the board of public works received \$25,000 for additional lighting; the board of control \$20,000 for the erection of a new contagious hospital, and the city hall received \$5,000 for the extension of the latter amount was for the purpose of taking care of a deficit resulting from changes caused by the removal of the county jail.

Comptroller McCurdy's pet idea of providing an appropriation of \$50,000 for the payment of bonds that mature in 1926 received, as expected, a severe setback. The opening sessions found Ald. Dobner ready with a motion rejecting the comptroller's advice, which carried unanimously.

While according to the request of the board of public works for an additional appropriation to take care of lighting changes and new lamps, the committee refused to listen to Mr. McCurdy's demand to take care of a deficit in the lighting fund, and ordered the amount stricken from the budget where Mr. McCurdy had placed it. In reality there was no deficit, the shortage in this particular fund being due to an error in the ordinance creating it. Mr. McCurdy reluctantly admitted that the amount would be available when the taxes were all in, and on this admission, the item, as included in the lighting fund, was expunged. In making up the budget Mr. McCurdy allowed the lighting fund \$15,000. From this was stricken the \$3,000 provided for a shortage, so that the increase practically only amounts to \$12,000.

President Hulder, of the water board, tried to reopen consideration on his former application for an appropriation to either pay hydrant rent from now on, or interest on the rent in arrears, but the meeting could not agree with him. His proposition to reopen the matter only received two votes.

Instead of \$30,000, as provided for in Mr. McCurdy's figures, the water board will receive \$20,000, \$9,000 of the latter amount being for the purpose of constructing the new contagious disease hospital now being constructed. The imperative need for this appropriation was explained by Commissioner Judson, of the board, and Dr. Ancker, the latter adding that if a new building were not provided for, he would close up the present ramshackle affair on the grounds that it was unsanitary and dangerous. It very walls, he said, were saturated with contagion, the transfer of which to a paid patient might at any time involve the city in a costly suit for damages.

Story With a Moral.

The committee's promptness in acceding to the request was due in a measure to the presence of a stranger, giving the Aberdeen as his residence, who told of his inability to secure a proper refuge for his wife and child when stricken with scarlet fever. The presence of the disease threatened to depopulate the hotel, and the committee refused to agree with the fact that not a hospital in the city would take the two patients. Transfer to the city hospital, physicians said, would be suicidal. His only way out of the dilemma was the renting of an entire floor of the hotel, which the proprietors agreed to on the payment of \$2,700. The floor was quarantined and a spread of the disease prevented.

Dr. Ancker informed the committee that the addition would be a revenue producer in a few years, but this did not appeal to Mr. McCurdy, who presented an emphatic no when the vote was taken.

The only other item acted on was that of the city hall and court house commission, for which Commissioner Hunt asked an addition of a tripling over \$7,000 to take care of a deficit arising from improvements lately made. The amount to be raised by taxation for this department was placed at an even \$20,000. No opposition was made, even McCurdy giving his approval.

Several delegations were present to plead for additions to the general fund for different purposes, but no matter was taken without hearing them. The committee will meet again tomorrow afternoon.

STILL NO FRANCHISE

APPLICATION OF NORTHERN MANUFACTURING COMPANY SEEMS TO HANG FIRE

CONSIDERED IN COMMITTEE

Assemblymen Say Concessions Asked Are in Interest of City—Company May Abandon Its Efforts.

The application of the Northern Manufacturing company for a heating franchise dates back a year, and the present prospects are that it will see another year before the end is reached. The committee on streets of the assembly spent the greater part of yesterday afternoon in considering the ordinance granting the franchise, but it cannot be said that the outcome gave encouragement to the company.

GOING TO CHICAGO

ANIMALS OF HIGH DEGREE TO COMPETE AT STOCK SHOW

ARE ALL PRIZE WINNERS

Some of the Best Specimens at University Experiment Station Farm to Enter Lists Against World.

The second annual International Live Stock exposition will be held at Chicago from Nov. 30 to Dec. 7. All the states and territories, the Canadian provinces and several foreign countries will take part, and the finest animals in the world will be on exhibition and contest for prizes and rank. There is every reason to believe from reports of entries that an aggregation of fine stock, such as was never before seen together in one place will be on hand.

The fifth national convention of the National Live Stock Breeders' association will be in session during the same week.

Last year the Minnesota experiment station won first place at this fair in college classes and took more than half the prizes offered, and this year the department of animal husbandry of the state experiment station will send down fourteen cattle of different ages, to compete in the college classes. These animals will, nearly all of them, compete in the classes open to the world. They are going to Chicago in splendid form, but Prof. Shaw says that while they are away ahead of the exhibit that won such laurels last year, he also expects that the animals shown in competition will also be quite as much ahead of what they were last year.

Some thirteen wethers and five lambs will be entered in the sheep classes. These are superb animals. They also are going down in faultless finish. The

PLEA FOR OPEN DOOR

RECIPROCAL TRADE RELATIONS WITH CANADA ELOQUENTLY URGED

BOSTON MAN TALKS IN ST. PAUL

Says Canadians Are Uncle Sam's Best Customers, but Won't Be So Long Unless Treated in Fairer Manner.

The Chamber of Commerce yesterday listened to an interesting address by Osborne Howes, chairman of the reciprocity committee of the Boston Chamber of Commerce, on "Reciprocal Trade Relations With Canada." Many representative business men of the city were present and displayed great interest in the speaker's remarks. He said in part: "The industrial condition of the United States has undergone in the last few years an almost revolutionary change. Not only in almost all classes of production, but we have found by the prompt and efficient utilization of our resources, that there are relatively few commodities that we cannot produce and sell in the markets of foreign countries. This has led to an enormous expansion of our foreign trade. We are more than the producers of the nations in productive ability, and are destined, if our onward career is not checked, to become the workshop of the world.

This discovery has caused genuine and widespread interest in the number of the foreign countries. The 'American Peril' so-called, is felt to be a real one, and one which should be guarded against by means of trade that are not comprehensive manner the policy of trade exclusion which for many years we have followed.

In 1880 our export trade was \$300,000,000. In 1901 it was \$1,500,000,000. This enormous gain has been contemporaneous with our wonderful industrial progress. Mr. Howes quoted from Mr. President McKinley's address, 'This is the policy of reciprocity which we favor, a change of trade policy.'

Mr. Howes said that the Canadians were the best customers Uncle Sam had on manufactured goods. Canada's purchases of the United States amounting to \$20 per capita. He urged that we guard our foreign trade the Canadians are a people whose equitable claims to consideration we cannot afford to ignore. Speaking of the possible future annexation of Canada to the United States he said: 'This is a possibility which can never be brought about by force. It is to come, as it should come, if it is to be by binding the interests of the two nations together. The interests of our two nations are as nearly as possible identical. At the present time the Canadians are usually considered as our enemy of treating them. They have increased their purchases of us, and we have increased our purchases of them, but we have put upon their free list about half of what they import from the United States, and tax the remainder about four per cent. We tax nearly all Canadian products, except those just mentioned, and our average tax rate is in the neighborhood of 10 per cent.

This, he said, had changed the sentiment of the Canadians, and the tendency now was toward high tariff, which would have the effect of barring Americans from Canadian markets and the United States, he urged, must use diplomacy to prevent this. He urged the Chamber of Commerce to give its most active support to making possible the closer union of the two countries in order that the American business interests might not forfeit the trade of their best customers.

CORA OMAN BEATEN

GOV. VAN SANT HONORS NORTH DAKOTA REQUISITION

HARD FIGHT IS MADE FOR HER

Charged That She Sold Liquor Without a License After Being Warned Not to Do So by the Court.

For the second time within a few weeks Gov. Van Sant yesterday honored a requisition from the governor of North Dakota for the extradition of Cora Oman, who is wanted by the authorities of Fargo. The woman is in jail at Moorhead. The state legal department having pronounced the requisition documents to be in due legal form, the governor granted an order to the attorneys and others interested. J. W. Tiley, of Fargo; Senator George P. Wilson, of Minneapolis, and Sheriff Twitwell, of Fargo, appeared on behalf of the state of North Dakota, and W. H. Barnett, of Moorhead, and Judge Mills, of the state railroad and warehouse commission, on behalf of the accused.

In opposition to the requisition it was argued that the complaint and indictment under which the woman was charged were not in due legal form and that there was therefore no valid warrant for her arrest. That and other purely legal questions which were raised, the governor declined to pass upon, taking the ground that inasmuch as the requisition was in due legal form he could only assume to hear on the merits of the case before him. The woman was accordingly taken to Moorhead, where she was held in custody.

At that time on the ground that contempt of court was a criminal offense and therefore not a sufficient cause for extradition. This objection was overruled by the attorney general and the requisition was honored; but an application for a writ of habeas corpus was granted by the court commissioner at Moorhead, and the prisoner was released. She was then rearrested on a charge that she had sold liquor contrary to law, and a second requisition was made in pursuance of that charge.

At the request of Judge Barnett, counsel for the prisoner, Gov. Van Sant granted a stay of forty-eight hours before the trial, and a requisition shall become effective, and it is to be presumed that the purpose of this application is that an effort may be made to obtain secure Oman's release by habeas corpus proceedings.

DIAMOND JO WAREHOUSE

COMPANY ANXIOUS TO MAKE ROOM ON LEVEE.

Representatives of the Diamond Jo Packet Line company yesterday explained to the committee on streets of the assembly their desire for a new or enlarged building to house their iron-ore warehouse near the Great Western bridge.

Attorney Stevens said the request was reasonable as it would give more open levee room. He intimated that if any opposition was encountered, the company would not push the matter, but would allow the buildings to remain as they are. He said that the company had realized little from the St. Paul end of the line in the past three years and was not willing to enter into any controversy as to the justness of their request.

A Pleasant Duty.—"When I know anything worthy of recommendation, I tell it," said James J. Jagger, of Hamburg, Pa. Dr. Agnew's Catarrhal Powder has cured me of Catarrh of the bladder. It is certainly magical in its effect. The first application benefited me in five minutes."—E. J. Tucker, of Jagger, Hotel Bryan, M. E. Coan Drug Store, Sixth and Wabasha.

AUDITORIUM PROBLEM

SOMETHING MUST BE DONE TO CLEAR BUILDING OF DEBT

Attorney Markham Says City Cannot Appropriate Money—Engineer Will Not Allow It to Be Used Until Repaired.

As anticipated in The Globe, Corporation Attorney Markham holds the city has no right to either accept the building or take a mortgage on it or provide money for its maintenance.

Under the charter, an auditorium cannot be constructed as a municipal institution unless it can be made self-supporting. He said that the legislature will have to be appealed to and give their consent.

What is to be done with the Auditorium is now a matter for serious consideration, as debt is piling up against it daily. Already there are threats of recourse to the courts to secure some of the money that has been due for months.

While a makeshift and menace to life, if certain improvements are not made, says City Engineer Claussen, in a report to the council, it is the only building in St. Paul that is being run on a makeshift, and this fact makes its retention by some imperative.

An incurrence of nearly \$500 now stands against the building, and it is probable that an effort will be made to raise this amount by popular subscription. Last year \$5,000 was obtained by the Commercial club for its improvement and the care of the conventions that used it, and one authority says this same course can be pursued again. The matter will in all probability receive consideration at the next meeting of the Commercial club and the Chamber of Commerce.

City Engineer Claussen estimates that an expenditure of fully \$1,000 will be necessary to put the building on its feet again used for large gatherings. He threatens to prohibit its use unless these improvements are made and more exits are provided.

DEMANDS OF GARDENERS

MARKET ORDINANCE BEFORE ASSEMBLY COMMITTEE ON STREETS.

Partial consideration was given by the assembly committee on streets to the market ordinance yesterday, but final action was deferred until the act can be engrossed by the legal department. A committee from the Gardeners' association was present to impress on the members the desirability of permitting them to rent stalls for an indefinite time, on the ground that to pit them against others when the stalls were auctioned each year would deprive them of valuable holdings. The committee could see nothing in giving one set of marketmen indefinite control of a particular site and refused the request.

In order to satisfy the demands of gardeners and those that will patronize the market, the ordinance governing the institution has been held up a number of months, but the demands have become so exacting that the members threaten to bring the matter to an issue and pass it as first drafted.

The Gardeners' association has been particularly active in securing an ordinance favorable to the organization, in permitting them to rent booths so that they will not be scattered all over the market. Other gardeners and marketmen that outsiders and marketmen are opposed to.

Partial consideration was given by the assembly committee on streets to the market ordinance yesterday, but final action was deferred until the act can be engrossed by the legal department. A committee from the Gardeners' association was present to impress on the members the desirability of permitting them to rent stalls for an indefinite time, on the ground that to pit them against others when the stalls were auctioned each year would deprive them of valuable holdings. The committee could see nothing in giving one set of marketmen indefinite control of a particular site and refused the request.

In order to satisfy the demands of gardeners and those that will patronize the market, the ordinance governing the institution has been held up a number of months, but the demands have become so exacting that the members threaten to bring the matter to an issue and pass it as first drafted.

The Gardeners' association has been particularly active in securing an ordinance favorable to the organization, in permitting them to rent booths so that they will not be scattered all over the market. Other gardeners and marketmen that outsiders and marketmen are opposed to.
