

CITY NEWS

George Bussell, arrested for raising a disturbance in Peter Pier's saloon Sunday night, was fined \$25 by Judge Orr in the police court yesterday.

The ushers of the Grand opera house will give a ball this evening in Little hall. Music will be furnished by the Twin City Mandolin orchestra.

The Young People's Bible Class of the Central Park M. E. Sunday School held a reception in the parlors of the church Monday evening. Various entertaining games and an interesting programme occupied the evening.

Alaj, Fred E. Resche, N. G. S. M., has been appointed a member of the examining board of the guard to fill the vacancy in that body caused by the resignation from the service of Maj. Hayes C. Robinson from the service.

The board of public works began its annual inspection of the paved streets yesterday. Investigation showed that Seventh street was beyond repair and a fourth street will possibly be made on the contractors to resurface the street from Wabasha street to the fill. It was laid in 1895.

A man whose name is unknown, narrowly escaped being suffocated in a sewer excavation on Park avenue about 3 o'clock Tuesday afternoon. He was slightly bruised about the hips, but was able to resume his work a few minutes after being dug out by his fellow workmen.

Coroner A. W. Miller was called last evening to investigate the sudden death of Frances Koller, a sixteen-year-old girl living with her parents at 801 Wacker street, who died Tuesday afternoon after an illness lasting only two days. Coroner Miller found that she had died from diphtheria. The funeral will be held today.

REPORT IS IGNORED

FIRE COMMISSIONERS' RIDICULOUS STATE BOILER INSPECTORS' OPINION

ENGINES ARE IN GOOD SHAPE

Master Mechanic's Conclusion Differs From Mr. Johnson's and the Board Accepts His Statement as Satisfactory.

Very much humbly, knows as much about a steam boiler as a washtub, and besides acted without authority. This is the opinion of the board of fire commissioners regarding the statement of State Boiler Inspector Johnson, that the engines owned by the department are unsafe and in bad condition.

Mr. Johnson's reported assertions and remarks formed the basis of a discussion at the meeting of the board last night, which supplemented by a report from Master Mechanic Powell that the engines were safe and in fair condition brought forth a number of uncompromising remarks from the members as to Mr. Johnson's verdict.

"I think the best settlement of the whole affair," remarked Mr. Schweizer, "is to ignore this Mr. Johnson. We have the report of the master mechanic, and that is sufficient for us. This alleged investigation was unauthorized."

Some of the members intimated that Mr. Johnson wanted to swell his income by collecting a fee for each inspection. The report of the master mechanic was accepted, and permission given to him to make any repairs needed. Johnson, prior to his elevation to the position of state boiler inspector, shovelled coal for Engine Company No. 12. He was designated on the pay roll as a stoker.

FRED FOSTER HOME

ST. PAUL TURFMAN COMES BACK FROM EUROPE WITH HIGH HONORS

MADE WONDERFUL RECORD

Brief Career as Trainer in Europe Replete With Triumphs on the Leading Tracks of the Old World.

Fred Foster, the well known St. Paul turfman, is home from Europe. Accompanied by his brother, Matt Foster, the owner of Dr. Rice, and other track stars, he reached St. Paul yesterday, coming direct from Austria. Mr. Foster and his brother are now with their parents at 95 Dayton avenue. They will make a three weeks' visit, and will then return to Germany, where Fred Foster is a member of the famous stable of Baron George von Bleichroder.

Mr. Foster returns to St. Paul one of the most successful and popular American trainers now following the races in the old world. Last February he left America to train for Gideon von Rohzeny, the speaker of the Hungarian racing club. When he went abroad he was better known in this country as a horse owner, but in the short time with the foreign stables he has established a record that is the envy of all the prominent tracks of Europe. He has raced his ponies in Austria, Hungary and Turkey.

Foster first sprung into prominence when he assumed charge of the Von Rohzeny stables. During the race season he entered fifty-eight horses under the Von Rohzeny colors and with this large lot was out of the money but twice. He also trained Phillip Ollenberg, starting eight horses. Seven of these captured first money and the eighth horse finished third. Foster feels proud of this record, which he attributes to the fact that he will have absolute charge of the stables of Baron George von Bleichroder, who is to the foreign track what W. C. Whitney is to the American horse world.

In Charge of a Fine Stable.

The Von Bleichroder stables rank with the finest in Europe. They are situated one mile from the Von Bleichroder palace about thirty miles from Vienna. The stables are situated on a fine tract of land one of the finest private racing grounds to be found in all Europe.

"I reached St. Paul this morning," said the famous trainer to The Globe last night. "I am home for about three weeks, and then will return to Germany to take up the training of the Von Bleichroder stable."

He met with great success while away, and will go back with a determination to continue the good work. I trained horses for many tracks while away, racing in Austria, Hungary and Turkey. Amongst the races I visited were the track at Budapest, at Sarajevo, at Vienna, Caracae, Carlsbad and Cottontown.

"Over there they have some of the best racing tracks in the world. At the present time the Freudenau track at Vienna boasts the finest driveway in the world. The driveway is truly a wonderful piece of work. It is twelve miles long, with an eighty-foot driveway. On each side of the driveway proper is an excellent path for wheelmen, another path for saddle horses, and still another path for the king's soldiers."

"I think the best settlement of the whole affair," remarked Mr. Schweizer, "is to ignore this Mr. Johnson. We have the report of the master mechanic, and that is sufficient for us. This alleged investigation was unauthorized."

Some of the members intimated that Mr. Johnson wanted to swell his income by collecting a fee for each inspection. The report of the master mechanic was accepted, and permission given to him to make any repairs needed. ESTIMATING THE LOSS

SHERMAN BLOCK FIRE TUESDAY DID FULLY \$125,000 DAMAGE

Insurance Figures Are Coming Slowly, as Many Have Failed to Report to Fire Patrol.

IS CAUGHT IN THE ACT

Capt. Whitmore, of the fire patrol, was busy all day yesterday looking up insurance in connection with the disastrous fire in the Sherman block, at Ninth and Wabasha streets, Tuesday evening. He was unable to secure only a partial list, as many of the parties interested failed to appear. Twenty-five thousand dollars' worth of insurance was carried on the building, while Crisham & Lower, proprietors of the People's Storage company, carried a blanket insurance of \$6,000. It is estimated that the total loss will foot up to between \$125,000 and \$150,000.

Peter Gallagher had \$2,500 insurance and sustained a loss of about \$1,000, and Patrick Reckinger had \$2,500 insurance. His loss will foot up to nearly \$1,500. So far it has only been possible to get the following list of insurance on the contents:

J. C. Stout, \$500 in the St. Paul Fire and Marine and \$500 in the National; E. J. Valentine, \$2,000 in the German-American; Mrs. P. G. Gardner, \$1,000 in the Citizens of Missouri; Mrs. C. S. Szymaker, \$1,000 in the Milwaukee Mechanics; B. E. Pulverton, \$500 in the Continental; E. W. Faber, \$500 in the insurance company of the State of Illinois; C. L. Winson, \$500 in the American; E. C. Reif, \$100, National; E. E. Fox, \$50, Liverpool, London and Globe; Mrs. S. F. Nicols, \$1,500, North British and Mercantile; T. Lawrence, \$300, Westchester; J. M. Robb, \$50, Westchester; Geo. Blum, \$100, Westchester; H. S. Rochester-Germania; \$100, American Manufacturing; Minneapolis; \$100, New Hampshire; \$500, North German of New York. This also covers stored furniture.

ASSEMBLY IS COY

MAY NOT INVESTIGATE SENSATION-AL CHARGES MADE BY ALD. HUNT

TONIGHT WILL DECIDE COURSE

Scandal Appears to Be That Charges Made in Another Body Do Not Concern Them.

Though there is nothing to substantiate it, a rumor was current yesterday to the effect that the assembly, at its meeting tonight, would refuse to seriously consider Ald. Dobner's motion to investigate the charges made by Ald. Hunt.

The majority of the members spoken to seem to think that as Mr. Hunt is not a member of their body, what he says or charges is nothing to them. Assemblymen Benson, Craig, Denny, Wheeler and President Warner, it is claimed, will vote to table the resolution. A story was current yesterday to the effect that a caucus of several of the Republican members had been held, so as to devise a way of evading the issue. The idea is, it seems, to smother the whole affair with a "table" vote.

While impeachment and expulsion of members of the St. Paul council has in times past been seriously talked of, during the history of the common council, the rumor was current yesterday to the effect that a caucus of several of the Republican members had been held, so as to devise a way of evading the issue. The idea is, it seems, to smother the whole affair with a "table" vote.

Some of the members intimated that Mr. Johnson wanted to swell his income by collecting a fee for each inspection. The report of the master mechanic was accepted, and permission given to him to make any repairs needed. Johnson, prior to his elevation to the position of state boiler inspector, shovelled coal for Engine Company No. 12. He was designated on the pay roll as a stoker.

MAKE MAIN APPEAL

SCHOOL INSPECTORS WILL NOT GET ALL THE MONEY THEY ASK FOR

M'CARDY'S FIGURES RAISED

Estimate of \$532,000 Will Probably Be Increased to \$632,500—Budget Receives \$100,000 Raise.

From present prospects the board of school inspectors will have to content itself with \$532,000 for the coming year, the public schools and erect new buildings during the coming year. In making up his budget, Comptroller McCurdy figured that \$32,500 would be sufficient to run the schools and to erect new buildings during the coming year.

The school board, in addition to taking care of what is equivalent to a fair sized deficit, is anxious to provide for a number of new buildings and improvements planned for next year, and the information that they would have to suffer a cut came as a surprise. In order to find a way out of the dilemma, the matter was referred to a committee to make a study of the situation and see if other sources of revenue could not be found.

In addition to \$32,000 added to the budget at Monday's meeting the board yesterday swelled the amount by increasing the bridge building and repair fund to \$100,000. Of this amount \$50,000 was added at the instance of a delegation from the Second ward, who asked for the extension of the Third street bridge. The balance was provided on the recommendation of City Engineer Clausen, who said many of the city bridges were in need of paint and new flooring, besides other repairs.

A fallacy long upheld by Mr. McCurdy, that when an appropriation was placed in a particular fund for any particular object, it could not be diverted to some other improvement, received a severe puncturing at the hands of City Attorney Griggs, who held that Mr. McCurdy was in error. Should the \$50,000 appropriated for the Third street bridge be wanted for a better purpose it could be so used, should the council demand it, he explained.

First ward residents want a steel bridge over Arcade street, but it is not thought they will get it. City Engineer Clausen has proposed a structure of good for a few years more. The committee will meet again this afternoon and attempt to complete the consideration of the budget.

VISITS FAIR GROUNDS

DORR K. STACY INSPECTS IMPROVEMENTS UNDER WAY.

Dorr K. Stacy, of Albert Lea, who has charge of the speed and amusement department of the Minnesota State fair, was in the city yesterday looking after some of the state's interests at the fair grounds. He was particularly interested in the new barn which has just been completed at the fair grounds. This is modern in every respect and will furnish quarters for sixteen additional racers. Mr. Stacy said that the quarters were so limited this year that a number of the race horses had to be put in sheds, which was not at all to the liking of the owners and next year he promises to have the best kind of accommodations for all the horses that are entered in the races.

He is also interested in the new addition to that grand stand that is being erected, and if the weather continues good, it will be finished this fall. The seating capacity of the amphitheater will be increased 2,000. It will be built so that two additional stories can be put on later, and will correspond in appearance to the present grand stand. Mr. Stacy says that the new grand stand will pay for itself in the first year. If they have as good crowds as they had this year, and it is only just to the

DEATH TAKES NO CHANCES.

Insurance Commissioner Investigates Affairs of German Company.

Elmer H. Dearth, state insurance commissioner, who has been in New York for some time, is expected to make a conjointly, with the Massachusetts insurance department in an examination of the business affairs of the Frankfort Marine, Accident and Fire Insurance company, a German company which has its American headquarters in New York. This examination was deemed advisable from the fact that the company has been making business in this state at a lower rate than the other companies of its class, and has been writing insurance on a class of risks which have been refused by the other companies.

The Frankfort Marine company has been licensed in Minnesota but a few years. According to its report filed last January it had a net income of \$1,200,000 and had collected in premiums last year, \$3,000,000.

Many would be clerks. The newly revised board that is examining applicants for postoffice clerks and carriers is having quite a busy session. There are all told 181 applicants to be examined. It is expected that it will take about three days to dispose of them.
