TRAVELERS MAKE MERRY

BURLINGTON OFFICIALS NEARLY READY TO MAKE ARRESTS
Man Believed to Be a Noted Criminal Said to Be Leader of the Gang Who Put Out Bogus Tickets.

Special to The Globe.
ST. JOSEPH, Mo., Dec. 28.—Burlington railway officials are now confident as to the identity of the authors of the wholesale ticket forgeries, and according to one of the officials arrested are likely to be made the coming week. The number of persons implicated in the forgeries is believed to be eight, and their leader is believed to be Ed Johnson, who was connected with the forger Holmes, now serving a five-year sentence in the Iowa penitentiary at Anamosa, for similar crimes committed in that state. Holmes was convicted here after his acquittal in Omaha two years ago.

Johnson was his chief lieutenant, but escaped prosecution at the time. Last September he called upon an employe of the Hardman Job Printing company, in St. Joseph, with a proposition to make him several plates from which railway tickets could be printed. The employe reported the matter to his employers, and Johnson was invited to an interview with the president of the company. Johnson's boldness amazed the printers, who declined to fill the order. Johnson was here a few days prior to the discovery that forged railway tickets were then on the market throughout the west.

When the number of candidates who were initiated was counted up it was found that the banner did not tell the whole story, and so the words were changed to read, "The largest council in the United States," and that is the record of St. Paul traveling salesmen.

The membership of the Sainly City Council is now 566, and the membership of what was formerly the largest council in the United States, located at Cincinnati, is 557. The eighty-six candidates who were initiated last night made it possible for the local council to claim the leadership of all the councils in the country.

Further than that the class of candidates initiated last night is the largest that was ever taken into one council in the history of the organization of the United Commercial Travelers. It was indeed a gala occasion for the members of the local council, and they were not selfish in celebrating the event, for two special cars from Minneapolis carried over 145 members of Minneapolis council, and sixty-three from Minneapolis council.

The members of the different committees have worked hard and long to make this anniversary the greatest of any in the eight years of the council's life. They gave the best of everything to their guests. There were good things to eat, good things to smoke, good things to listen to, and the result was a royal good time.

An attractive array of talent had been secured for the occasion, and over the clear smoke the entertainers did their work well and faithfully while the knights of the grip enjoyed the affair.

Trod the Burning Sands.
Before the entertainment of the evening was taken up, there was a business session, at which the candidates were made to tread the burning sand. It was impossible to initiate the entire class, as there was a number of candidates from Minneapolis, in addition to the eighty-six who went into the local council.

It was decided that eight of these candidates should be victims, and from the noise and shouts that came from behind the closed doors, it is not unlikely that the candidates were glad when it was all over and they were able to grasp the extended hand of every one of the other candidates simply enjoyed the fun, and took the obligatory degree.

It was 11 o'clock when the doors to the main hall were thrown open, and the friends and neighbors who were not members of the association were invited in to the festivities.

Henry C. Casper presided at the entertainment, and introduced J. A. Jacques, who was taken into the council last night. Mr. Jacques recited some very clever Irish dialect pieces, and was heartily enjoyed.

Miss Minnie Hoffmann, the ten-year-old daughter of Prof. Hoffmann, of the Y. M. C. A., gave an interesting exhibition of club swinging, and the professor gave what he calls his electric swinging act, throwing clubs with special session, on a most marvellous manner.

A. Van Praque, also a member of the council, did a clever German dialect turn and sang two or three songs which were heartily enjoyed. Miss Hazel Runge, of Minneapolis, was one of the entertainers of the evening who made a decided hit with the 500 people assembled. She sang two new songs which in an inimitable manner, and did some "coon" dancing that was worthy of a professional. She has a good voice and is a clever dancer, executing some of the most difficult steps known in an apparently easy manner.

Just Eight Years Old.
A. G. Flournoy was present and gave some of his good work, so well known. He had one or two new parodies, told a number of stories that were clever and applicable in many cases to members of the council and on the whole furnished amusement for the crowd for nearly an hour. While this portion of the entertainment was going on, the wants of the inner man were being looked after most carefully by the committee in charge. The tables were loaded with good things to eat and in relays of about fifty each the merrymakers were taken in and fed.

On their way out they encountered two very serious members with a plentiful supply of cigars and the big hall was well filled with blue smoke after the first relay had been fed.

It is just eight years ago last night that the council was organized. On that night twenty-one men, whose names were mentioned in the Globe a short time ago, met at Central hall and perfected the organization. That night the first banquet of the council was held. The twenty-one men repaired to the Merchants hotel at 5 o'clock in the morning and sat down to a repast and the evening of the 28th day of December ever since then has been a day of merrymaking, but last night's affair topped the climax.

The council has grown every year and the united efforts of the council have made it the largest in the point of numbers and the best in the point of quality of members, if you take their word for it, in the United States.

Only one feature marred the perfect enjoyment of the evening and that was the fact that the senior counselor of the council, George S. Wiseman, is lying at the point of death in his home in South Dakota. Frank Baer, junior counselor, presided at the business session in his stead.

R. Y. Gravel Cheered.
The reception which was accorded Grand Counselor F. X. Gravel, of Duluth, of the department of Minnesota and the Dakotas, when he was called upon to speak, eloquently testified to the regard in which the old-time counselor is held by the members of the order.

Counselor Gravel said that he felt more proud than he could tell to be present at a meeting of a council of the order which had prospered as no other council.

LOCKWOOD BREAKS OUT

PRESIDENT OF THE ANTI-TRUST LEAGUE FIERCELY CRITICIZES ROOSEVELT

NO ADDITIONAL LAW NEEDED
Contented That Sherman Anti-Trust Law is Strong Enough to Suppress Combinations if Properly Enforced

HITS AT INDUSTRIAL LEADERS

TERRY, Tex., Dec. 28.—M. L. Lockwood, of Zieffville, Pa., president of the American Anti-Trust league, has given out a statement in which he criticizes at length the recommendations made by President Roosevelt for a national law to govern trade combinations. Mr. Lockwood contends that there is no necessity for any further legislation on the subject; that the rigid enforcement of the Sherman anti-trust law would be sufficient to suppress and restrain harmful trade and industrial combinations. He then says:

"Doesn't everyone know that these industrial combinations have destroyed competition, have taken the money and are now robbing the American people of hundreds of millions of dollars annually to pay dividends on billions of watered stock and that some of these combinations are continually pouring water and all? What more publicity does he want?"

He alleges that the foundation of all the vast fortunes which have been built up in trade and manufacturing are railroads, and that the Sherman law is not sufficient to suppress and restrain harmful trade and industrial combinations. He then says:

"In 1878 the independent oil producer of Pennsylvania began agitating for the passing of the interstate commerce law. We had in the lower house of congress John H. Reagan, of Texas. For nearly eight years we circulated petitions, and the measure in such a form as to cure the evils of railway discrimination, but it was crippled by the Cullom amendment. The senate so that twenty odd years ago the chairman of the interstate commerce commission testified that 'railroad discrimination is universal.'"

Getting Away From the People.
Mr. Lockwood alleges that trusts desire just what is recommended in the department of the national government. He says:

"Why is it that these attorneys want to transfer this question to the department of the national government? The people of the nation want to get just as far away from the people who are being hurt as possible. They know that the atmosphere is a great deal different on this question in the hot-house of Washington than it is in the states. And would it not be well for the president, who has sworn to enforce the laws, to have his general hearing proceedings in earnest upon the provisions of the Sherman anti-trust law against these trusts and monopolies and against the illegal railway rate discriminations?"

Hits at Industrial Leaders.
"If he will see that the laws are faithfully enforced against these trusts that have paralyzed all capital except that which is willing to go into the conspiracy against the people, and that the American citizen is not to be kept in a state of competitive prices, at 6 per cent profit upon the capital invested."

"Let him guarantee equal rights and equal opportunities and the American people will begin to care for the interests of the world. Neither will they ask the people at home to pay ten times the profits upon their necessities at that they are willing to sell the same goods in foreign countries."

He criticizes the recent conference of labor and capital at New York and says:

"They have created a kind of supreme court, and they take care of the matter chief justice thereof; they have set up a kind of government inside of and independent of the regular government of the people."

NO CHANGE FOR COBURN
PRESIDENT AND SECRETARY WILSON ARE CONGENIAL

WASHINGTON, Dec. 28.—The report from Kansas that F. D. Coburn, of that state, had been selected for secretary of agriculture made necessary another announcement from the White house. Secretary Wilson is not to retire. There has never been the slightest foundation for the rumors regarding a change in the secretaryship of agriculture. President Roosevelt has resigned Secretary Wilson as a fixture in the cabinet from the time he became president. He has given no thought to the selection of another man for this important place.

There was no reflection meant that Secretary Wilson should not remain in the cabinet when Gov. Shaw was invited to a seat in the same official family, nor did Secretary Wilson understand that the president and Mr. Wilson are in perfect accord regarding the policy of the administration toward agricultural interests. They take care of the matter in all their associations, and there is not the shadow of an excuse for the predictions that Wilson will retire.

CARNEGIE'S BIG GIFT
IS TO BE OFFERED IN ACCEPTABLE SHAPE TO CONGRESS.

WASHINGTON, Dec. 28.—President Roosevelt has received information from Andrew Carnegie that is expected to enable him to submit to congress a form of gift of \$10,000,000 to the United States for higher education. This offer will not be in bonds of the United States corporation, as formerly proposed, but will be a form expected to be generally satisfactory.

AGAINST EXTRA SESSION

A DULUTH PAPER CAUTIONS GOV. VAN SANT.
Special to The Globe.
DULUTH, Minn., Dec. 28.—The News Tribune in its issue tomorrow morning addresses an open letter to Gov. Van Sant in which he is urged to be careful about calling an extra session of the legislature. The Tribune doubts the existence of the emergency that a call presupposes, holding that the legislature is powerless to do anything on the railroad matter until after the courts have passed on existing laws and that the tax commission's report will be issued too late to be fully understood by the legislature this winter. The paper asserts that most of the cry for an extra session comes from legislators who have no hope of re-election, and will use their best efforts to extend it indefinitely.

MATT QUAY TO RESIGN
PENNSYLVANIA'S BOSS POLITICIAN IN POOR HEALTH AND GROWING WORSE

HE CANNOT GO TO WASHINGTON
Said to Have No Longer Any Desire to Mix in Political Life, as He Has Won All the Honors He Cares For

RESIGNATION EXPECTED SOON
FROM THE GLOBE BUREAU, WASHINGTON, D. C.

WASHINGTON, D. C., Dec. 28.—It was stated on good authority at the capitol today that Senator Quay will never return to his seat in the senate; that he is preparing to retire from active political life in the near future. In a letter received at the capitol today it was positively asserted that the Pennsylvania statesman has decided to resign from the senate.

Mr. Quay has been unable to attend the sessions of the upper body except for one day since the Fifty-seventh congress convened. He has remained in Florida, and his health, instead of improving, has gradually grown worse. To return to Washington, it is said, would be but to imperil his life.

Senator Quay has stated he would have liked to remain here to attend to legislation in which he is specially interested, but that he found this impossible. His friends say that even under the most favorable circumstances he would hardly be able to serve out his term as United States senator. Mr. Quay has at present, it is claimed, no desire to remain in political life, and will surrender his seat as soon as he can do so and do justice to his friends. He can no longer take an active part in legislation, and as he has won all of his battles he is content to retire with present honors.

It was admitted this morning by a senator who is close to Mr. Quay that the resignation will be sent to Senator Frye before many weeks.

PANAMA WHITE ELEPHANT
Is to Be Unloaded on Uncle Sam, if Possible.

PARIS, Dec. 28.—M. Lampro, secretary general of the Panama Canal company, sailed for New York today on the French liner L'Aquitaine, from Havre. He will confer on his arrival in the United States with a number of the Panama canal company's representatives and overtures for the sale of the canal property to the United States will then be renewed.

In view of the doubt existing in the United States regarding the price the Panama canal company's representatives intend to ask for the property, the correspondent of the Associated Press made inquiries from the best source of information on that subject and is enabled to state that the price will be approximately \$40,000,000.

MR. PEAVEY IMPROVING TO REVOKE CHARTERS
CRISIS IN HIS CASE WILL OCCUR TODAY.

CHICAGO, Dec. 28.—The condition of Frank H. Peavey, the Minneapolis grain man, ill of pneumonia at the Auditorium hospital, is said to be much improved. Dr. Hammond, who is attending him, stated that Mr. Peavey's temperature was 102, and his respiration 60. "The crisis will be reached tomorrow," said Dr. Hammond, "and I expect that the patient will go through it successfully. His wife is here, and he is being given every possible attention."

Later Dr. Hammond said late tonight: "It is a question of the patient's strength holding out. His condition has not improved, but he is better than I had dared hope."

COLORED SISTERS ANGRY.
Denounce National Federation of Women's Clubs.

CLEVELAND, Ohio, Dec. 28.—At today's session of the Ohio Federation of Colored Women's clubs, resolutions were adopted condemning the National Federation of Women's clubs for "insulting Mrs. Judge Ruffin, of Boston, one of the most cultured and beautiful women of our race."

The resolutions further protest against the "barbarous lynchings and obnoxious 'Jim Crow' laws of the South, and the convict-lease system." "Seeking no favors because of our color," the resolutions continue, "we knock the bar of justice and ask for an equal chance with those of the white race."

FOUND A GOLD MINE

WINONA MAN HAS ONE LOCATED NEAR LA CROSSE.
Special to The Globe.
LA CROSSE, Dec. 28.—On the farm of John Schultz, in Gilmore's valley, a few miles north of this city, Herman Schultz, a prospector, has discovered what it is believed will prove a rich gold mine. The first assay showed 4 per cent of gold, 32 of silver and a quantity of copper. The find is in the same spot where copper was discovered about two months ago. Schultz was in this city yesterday, and is organizing a stock company to work the claim. He is a resident of Winona, Minn.

MRS. SCOTT DIVORCED
HUSBAND MADE NO EFFORT TO PREVENT A DECREE

Sensational Allegations Said to Be Contained in the Complaint Did Not Come Out in the Trial.

Special to The Globe.
LA CROSSE, Wis., Dec. 28.—Elsie Gile Scott, millinery and club woman, has been granted a divorce from her husband, Robert A. Scott, in the circuit court here. Non-support and incompatibility are given as the reasons for the action, although it is understood that the real causes are of a sensational character.

For two weeks before the action was started Mrs. Scott hired a Pinkerton detective, whom she set on her husband's track and who watched his every move. Owing to the fact that the defendant made no resistance the sensational features were not aired in court. For the last fifteen years Mr. and Mrs. Scott have been man and wife in name only. She occupied one part of their parental mansion, he the other. Mrs. Scott is the daughter of the late Abernethy, the millionaire lumberman.

DEMOCRATIC LOVEFEAST
MANHATTAN CLUB IS ARRANGING FOR THE MEETING

NEW YORK, Dec. 28.—The Manhattan club has arranged to give a reception to its non-resident members on Saturday evening, Feb. 22, 1902. The primary object of the reception, as stated, is to bring together of Democrats throughout the country for the purpose of reviving the interest of the people in the fundamental doctrines upon which Democratic government was founded.

The non-resident members include leading Democrats in thirty-eight states. Among the committeemen in charge of the reception is John G. Carlisle.

Children Inhaled Coal Gas.
Special to The Globe.
LA CROSSE, Wis., Dec. 28.—As a result of inhaling coal gas Susie and Lenzie Kennedy, the little daughters of a prominent North side merchant, are lying in a dying condition. By mistake the door of the coal stove in their room was left open and when discovered both girls were nearly dead. One has not regained consciousness.

GO. SHAW'S BELIEFS

NEW SECRETARY OF THE TREASURY WILL BRING INTO OFFICE DECIDED VIEWS

NOT TIED TO FIXED METHODS
Contingencies as They Arise Must Be Met and Handled With Reference to Particular Needs of Each Case

POSITION ON ASSET BANKING
Special to The Globe.

DES MOINES, Iowa, Dec. 28.—"This administration is recorded as intending to carry out the McKinley policies," said Gov. Leslie M. Shaw, the soon to be secretary, this afternoon. "That intention, as I understand it, applies to the policies of the treasury department as well as to other departments of the government. Each administration under each public official must meet new problems and solve them in its or his own way."

"I shall be more than satisfied if I succeed in conducting the office of the treasury as satisfactorily as Secretary Gage has done it. He has been one of our great secretaries of the treasury. He came into office during a trying period in our national finances. Confronted with large problems than any other secretary of the treasury in recent years has had to face, he has solved them successfully to the advantage of the nation and to the satisfaction of all interests concerned. I can have no higher aim than that I may be able to continue his work as successfully as he has carried it out."

Must Retain Independence.
"So much for Gov. Shaw's policy in the treasury department. When he spoke as quoted above, and in manner gave vastly more emphasis than the mere words show to his declaration of intention to continue the Gage policies in their broadest sense, this additional emphasis was equally marked when he reserved the right to think independently and to formulate distinctive Shaw policies on specific problems which arise in their broadest sense. In other words, while Gov. Shaw indorses the Gage administration his policy will not be a mere imitation, but will stand on its own bottom."

"Problems growing out of the nation's immense foreign trade and the consequences to it of increased industrial depression in Europe, are among the dozen which Gov. Shaw foresees as possibilities."

"But he will not undertake to solve them concretely unless they arise concretely. All he would consent to say today
