SAVE \$1,000 A YEAR

ENGINEER CLAUSSEN THINKS CITY SHOULD OWN TEAMS AND WAGONS

FILES REPORT WITH MAYOR

City Might Also Do Its Own Sprinkling and Save Immense Amount of Money Every Year.

In his annual report filed with Mayor Smith yesterday, City Engineer Clausen takes the stand that the city, if it would save money, and at the same time obtain proper service, should own teams and wagons for use on the improvement of streets.

In the removal of street sweepings and other work incidental to the care of the streets and the city's needs, 8,500 double teams and 3,000 single horses were employed last year, being necessary to meet the pay roll which resulted.

Were the city to own its own teams and stables, this amount, Mr. Clausen is confident, could be reduced fully \$10,000. His figures are based on a comparison with the amount the fire department annually pays for the maintenance of its stock.

For double teams last year \$3 a day was paid, while for single horses \$2.50 was paid. Even at these figures the required number of teams were often hard to get, unless refusing to hire to the city which is the case of many contractors.

As things now stand nothing will be done this year, when the budget for 1902 is made up active steps will be taken to have the council recognize the necessity of this innovation and set aside sufficient money for the purchase of stock and an equipment of wagons.

ONE POINT DEFECTIVE

AUDITOR HALDEN, OF DULUTH, CRITICIZES TAX LAW.

County Auditor Halden, of St. Louis county, is one of the leading candidates to succeed State Auditor Dunn, and his opinion of the report of the tax commission is therefore interesting. He says:

"I have had only time to glance at the provisions of the proposed new tax code, and I have to confess that I have not had time to study in my journey, and I shall have about a month of traveling with not much time to do besides studying the proposed code.

"So far as I could tell at a glance, the law seems many ways very excellent. In many respects it is certainly far ahead of the present system, and I believe it is a very good one. The machinery seems to be much better, and I am sure that it will be a great improvement. It is something we have often tried in this country, but without much success.

"In one point the law seems to me to be defective, and that is in the provision for the annual tax sales to sell property on which taxes are delinquent. The law provides that the rate of interest, I may be wrong, but it seems to me that it will work out to the disadvantage of the public. It is too much like the forfeited tax law, the purpose of which was defeated by a man who came into the tax sale and bid slightly for the owner. Other delinquents were much more likely to get their property back than the owner. The same thing may happen under the new law. An owner may bid for his property, and others may hesitate to bid against him.

"This is in the line of encouraging delinquency in taxpaying, and is a step in the wrong direction. It is a step in the claim is made that this knocks out the tax lien, but really the 'tax lien' is not really knocked out. It is something we have often tried in this country, but without much success.

"What I am afraid of is that it will be too favorable to the owner of property. It will be too favorable to the owner of property, and it will be too favorable to the owner of property. It will be too favorable to the owner of property, and it will be too favorable to the owner of property.

"The state board of health is quarantining camps where the disease has been found, and several camps are already under the ban. The quarantine does not prevent the disease from spreading, but the travel of men to and from the camp is prohibited. Before the quarantine is removed the camps must be cleaned and fumigated. The board of health has taken this step in preference to burning the camps as in the case of their destruction the state would be required to reimburse the proprietors.

At one camp a resident medicine inspector found a smallpox patient four miles from camp sleeping logs. The man had smallpox for two weeks, and he was covered with scales when he was taken place. Brown spots showed where the scales had rubbed off, and the man, according to the report, was in a ripe condition to spread the infection. Two other cases were discovered in the camp and the inspector writes that there seems to be an undisputed hostility to the investigation of the camps. About 100 men were exposed.

DRAFTING A CONSTITUTION.

Farmers and Elevator Men Continue Their Work.

The mass convention of independent farmers and country elevator men of the state, which was held yesterday in the office of J. C. Hanley, Baltimore block, there were many newcomers, and before the meeting ends eighty delegates are expected. Richard Bennett, Waverly, is the presiding officer; Mr. Hanley, secretary.

Among the prominent delegates and promoters of the movement, the following names of the original call were conspicuous: James McGee, of Grand Rapids; J. M. Moran, of Graceville; Timothy Rogers, of Waples; John Gerard, of Buffalo; W. E. F. Lacy, of Grand Rapids; James M. McGee, of Yankton; S. D. H. Brady, of Sioux Falls; and E. S. Kaye, of Fond du Lac, Wis.

The delegates occupied the entire morning in committee work, drawing up a constitution and by-laws, and the resolutions and making out various other reports, preparatory to forming a permanent organization.

FREE DISPENSARY BOARD.

Its Annual and the Election of Officers.

The board of managers of the Free Dispensary held its annual meeting yesterday at the dispensary on West Ninth street. The following officers were elected: President, Mrs. E. V. Appleby; vice president, Mrs. C. O. Dyer; secretary, Mrs. M. L. Saunders; treasurer, Mrs. C. C. Deuster. The board numbers thirty women, all of whom were re-elected. The treasurer's report for the year is not yet complete, but it was stated, would be given out in a few days. It was said that the finances of the institution, which were not in the best condition last year, had improved, have been somewhat improved.

PHALEN PARK LINE

PROPOSITION TO RUN GRAND AVENUE CARS TO THAT RESORT

ORDINANCE BEING PREPARED

Street Car Company Naturally Averse to Helping Competition With Wildwood—Many Petitions Circulated.

The annual demand for street car facilities to Phalen park will come up again at the next meeting of the board of aldermen, when Ald. Holt will introduce an ordinance calling for the extension of the Grand avenue line to that resort. It is now being prepared by the legal department.

Resolutions innumerable demanding this extension have been introduced in both houses of the city council, but they have either been shelved or defeated entirely because of some technicality. The charter under which the company is now operating calls for this extension, but for obvious reasons they have steadily fought shy of it.

Phalen park, which is almost the equal of Como park in extent, and by some claims to be nearly as good as the latter as natural scenery and advantages are concerned, is now a dozen blocks from the end of a car line, and because of this lack of access to the park a large business is established, but it was not a paying affair and was dropped.

According to plans mapped out by the park board, the street car line will be made a rival of Wildwood and other resorts, where the merry-go-round, and other attractions prevail, and it is said this fact has had much to do with the reluctance on the part of the street car company to extend its tracks to the park gates. Wildwood is now largely patronized by St. Paul pleasure seekers, each one of which is worth 20 cents in fares. For the round trip to Phalen 10 cents in fares only would be forthcoming. The whole thing resolves itself into a question of whether it is worth the expense to the company.

Petitions calling for the extension of the line have been circulated in the East end, and will be presented to the council.

HARD THING TO HANDLE

SMALLPOX IN THE LUMBER CAMPS IS ON THE INCREASE.

More smallpox exists in the state today than at any time since the disease first showed itself in Minnesota. Despite the efforts of the state board of health, it has steadily increased, and the prospects are that it will continue to increase for an indefinite time. The quarantine regulations are occasionally evaded or set at defiance everywhere through the state.

The greatest difficulty that is being experienced, however, is with the lumber camps, which are meeting grounds for distributing points for the disease. Smallpox in the camps is the hardest feature of the situation for the health authorities. Not only are the men careless, but many of the companies refuse to carry out the regulations.

One of the companies has made arrangements for a temporary detention hospital and is careful of its sick, but the majority, officers of the state board say, have failed utterly to carry out the orders of the health department.

The state board of health is quarantining camps where the disease has been found, and several camps are already under the ban. The quarantine does not prevent the disease from spreading, but the travel of men to and from the camp is prohibited. Before the quarantine is removed the camps must be cleaned and fumigated. The board of health has taken this step in preference to burning the camps as in the case of their destruction the state would be required to reimburse the proprietors.

ASTHMA

The doctors tell us they cannot cure every case of asthma with Ayer's Cherry Pectoral. They say it is the best thing for relief and that it often completely cures. We are willing to take their word for it, are you?

"After having spent hundreds of dollars trying to be cured of my asthma, I now rely entirely on Ayer's Cherry Pectoral for the relief of the severe paroxysms of coughing. It is the best medicine for this I can find."

BOYS FIRE HAY STACK

YOUNG FIRE FRIENDS CAUGHT IN THE ACT AND CONFESS.

Fritz Zickow, 113 Albemarle street, and Leo Robb, living at 122 Woodbridge street, were arrested last yesterday and will be given a hearing in the police court today on the charge of having set fire to a hay stack belonging to Barney Kohn, Rice street and Minneapolis avenue, valued at \$9. Mr. Kohn discovered the young boys just after they had set fire to the hay stack and caught them. He took the youngsters into his house and they admitted having set the stack on fire and Mr. Kohn took the lads to town. When they were questioned in the clerk of the municipal court's office each of the lads tried to fasten the blame upon the other, but neither denied setting down the dead. Leo Robb, the younger of the two, did not seem to realize the gravity of the charge. Both lads were locked up in the county jail over night and will be given a chance to explain to Judge Orr this morning.

GOOD ROADS PEOPLE

ANNUAL CONVENTION OF STATE ASSOCIATION MEETS TODAY

COMPLETE SUCCESS IS ASSURED

Excellent Programme Arranged, Embracing Many Topics of Vital Importance to the People of Minnesota.

The annual meeting of the State Good Roads association will convene this evening at 10 o'clock in the senate chamber of the state capitol, and it is expected that there will be a goodly number of enthusiasts present when President Wells calls it to order.

The good roads movement has been progressing most favorably in Minnesota, and the state association hopes to secure the next convention of the national association at Minneapolis, will speak on "The Next Step." Mr. Choate is one of the pioneer good road workers in Minnesota, and is an enthusiast on the subject. George H. Shoberger, of St. Paul, will read a paper on "The Value of the Good Road." Charles A. Forbes, county surveyor of Dakota county, will read a paper on "Highway Supervision."

The afternoon session will begin at 2 o'clock. R. Hoag, professor of civil engineering at the state university will discuss "The Press in its Relation to the Good Roads Cause." Prof. Hoag is a member of the state board of good roads and is an expert on the subject. He will discuss "The Value of the Good Road." Charles A. Forbes, county surveyor of Dakota county, will read a paper on "Highway Supervision."

Another placard bears the following observation, which is the motto of the good roads enthusiasts:

OUR WAYS.

THERE IS NO MORE COMMON SENSE THAN THE COMMON ROAD.

A logical and convincing argument in favor of abolishing all bad, muddy, sandy, rutty and dusty roads is furnished in the following striking proverb:

STREET CARS MUST RING UP MANY FARES FOR PAVING EXPENSES

COMPANY'S SHARE IS \$150,000

Expenditures for Paving in 1902 Will Be Greatest in History of Street Car Company.

If the present street paving activity continues the St. Paul City Railway company will have to separate itself from a sum of money approximating \$150,000 before the season is closed. Contracts already let necessitate an expenditure on the part of the street car company of nearly \$55,000, while this will be considerably swelled by the addition of South

CHRISTMAS TREE FIRE

IT CAUSED A LOSS OF \$5,000 TO DR. WIRTH.

A pleasant evening spent around a large Christmas tree decked with blazing candles ended rather disastrously at the residence of Dr. Charles Wirth, 207 West Central avenue, shortly before 10 o'clock last night. The family were seated about the beautiful tree, which had been lit for the last time and were taking a farewell look at the last lighted candle on the tree, which was just flickering and was almost out. One of the members of the family finally blew it out and in so doing the flame was blown downward. The tree was very dry and one of the dry branches ignited. In a moment the entire tree was a mass of flames and the happy party was put in a state of excitement. The fire department was quickly summoned, but the flames quickly spread to the wood work and the furniture. The department, by good work, however, succeeded in keeping the blaze confined to the parlor, reception room and the dining room. A number of valuable oil paintings, which were highly prized by Dr. Wirth, and a fine piano, were totally destroyed. Dr. Wirth places the loss at nearly \$5,000, covered by insurance.

During the excitement Mrs. F. B. Odenwald ran upstairs, and in climbing the stairs slipped and fell, sustaining a slight sprain of her ankle.

The following account of an incident that occurred fifty-one years ago today is furnished The Globe by the Hon. William Pitt Murray, one of the pioneer residents of the city:
