TO OUR FRIENDS.

Anyone unable to secure a copy of The Globe on any railroad train leaving or entering St. Paul will confer a favor on the management by reporting the fact to the business office. Telephone, Main 1065.

WHAT THEY CALL ARGUMENTS.

The public is informed in a more or less adequate way of the claims and contentions of the representatives of the sugar interests with reference to the pending measure of reciprocity with Cuba.

UNDER INDICTMENT.

True Bills Found Against Chicago Parties Who Deal in Alleged Insurance "Information."

GREENROOM GOSSIP.

Miss Georgia Wells, a popular member of the stock company at the American theater, retires from that organization at the end of the present season.

Tube Better Than a Box.

Berlin is going to try the American pneumatic mail tube system, regardless of the risk that a letter addressed to Legationstrasse may get stuck some day in the tube-Boston Globe.

They Can Smell One More.

Senator Proctor's avowal that he favors tariff concessions to Cuba is encouraging, since he has an ingrained habit of leaning to the wrong side.

Does Your Sant Know This?

Think of an erstwhile octopus fighter who, after a long and successful career, is now a member of the board of directors of the company.

again, and shortly, array it in all its glory, and make it once more the "Gem of the Sea." There is not a single statement of fact in this presentation of argument which is not open to serious question.

Iowa having wrested political prestige from Ohio, there was nothing left for the Buckeye state but to claim that the telephone service in its towns was worse than in Chicago.

HAVE CAPTURED ALL FOREIGN TRADE.

Senator Hale is fast winning a reputation for radicalism of statement. When he declared recently in the senate that the American volunteer soldiery should be done away with as a prerequisite to our becoming a "great war power," he at least succeeded in winning the attention of the entire country.

from the consumers of the United States. And while there have been advances in wages over the pay secured by workmen during the panic these advances have not approximated 60 per cent; not by half of it.

Times are better than they were during the days of the panic, of course; nobody denies that. But the fact is as plain as day that the most of the "prosperity" has come to the beneficiaries of the Dingley tariff law, to-wit: the vast monopolies known as the industrial trusts.

From all over the state come criticisms unfavorable to the tax code proposed by the commission. The matter is one of the utmost importance to the state, and is not to be debated in partisan spirit.

Crises of the Political

The charge into local politics, made by the flying squadrons from the phalanxes of the Roosevelt club, has plunged that devoted body of young Republican warriors into a civil war, which may result in the disorganization of the club.

The members of the club opposed to the Lindeke flying wedge, claim that the Lindeke committee exceeded its authority in offering Mr. Albrecht either the candidacy or the endorsement of the rough riders.

Mr. Nelson will, his friends say, be a candidate for city clerk, if the complexion of the new council is Republican.

J. W. L. Corning, boasted in to the political arena again by the alleged indorsement of the Roosevelt club, yesterday filed his certificate of nomination to the board of aldermen on the seventh ward.

Senator W. R. Dickey, of Zumbrota, who was at the Merchants yesterday, thinks the extra session will consume at least thirty working days, if its work is strictly confined to the consideration of the tax commission.

DAIRYMEN FAVOR IT

NO TRUTH IN STATEMENTS THAT THEY OPPOSE OLEOMARGARINE BILL.

SO SAYS GEORGE L. DINGMAN

Coming Grocers' Convention Will Consider Many Pure Food Bills—Heppner Bill Is Favored.

"If the real dairymen of the country were given an opportunity to express themselves, 99 per cent of them would vote in favor of the so-called 'anti-oleomargarine bill,' which is not, however, anti-oleomargarine, but simply a protective measure for the buttermaker."

The statements sent broadcast through the country that this association and that association of buttermakers were against the proposed Grover bill and oleomargarine legislation are not true. I know of one case where a little party of half a dozen men adopted resolutions against the Grover measure, and it was published in a paper on National and State Pure Food Laws, Existing and Desired."

Mr. Dingman says the convention will be the best ever held. Last year delegates from the Mississippi valley who were invited to attend the convention, the other speakers all being from the far East.

Many important matters will come before the convention of the National Pure Food Law Association at this session. Whatever it is, it will be a starter, and it will open the way for improved legislation in this line, if it should be needed."

Mr. Dingman leaves tomorrow night for the annual convention of the National Grocers' association, at Milwaukee, where he is to read a paper on "National and State Pure Food Laws, Existing and Desired."

Mr. Dingman is especially interested in the Heppner bill, which provides very stringent restrictions against fraudulent representations in selling goods, and in the case of the dealer selling to a person buys an article represented to be something which it afterwards turns out not to be, the purchaser can bring an action against the dealer selling the article. In other words, the bill provides that every article sold shall be labeled for just what it is, and nothing else.

CANNOT GET QUORUM

CLAUSSEN INVESTIGATION COMMITTEE MAKES ANOTHER TRY.

Another attempt to get the Clausen investigation committee together was made yesterday, but it was without result. Of the seven members of the two council bodies, only one, Assemblyman Dix, made his appearance, and a postponement had to be taken.

Since the charges against the engineer-Sing Sing were made public by the state bank examiner four attempts to get the committee together have been made, but in each case without result. Some of the members, it is said, are reluctant to mix in the controversy. This hesitancy has brought an offer from Mr. Clausen to have the committee reduced to three members and allow them to make the investigation as convenient.

The impression is strong that Mr. Clausen will retire from the office of city engineer without the charges ever being inquired into. The council's authority in the premises is limited, and it is a waste of time to look to them in an attempt to deny the charges made. Mr. Clausen has been busy securing affidavits from those who, it is claimed, received money but never worked for the city.

New York Letter.

Smith. Bankers pronounce the check union.

Judges Object to More Work—Odell's special message to the legislature in which he proposed that the jury trial justices of the supreme court in New York city increase their working hours, has excited an earnest protest from the judges concerned.

Edison Patents Endangered—Several million dollars and the right of inventor Thomas A. Edison to his valuable patent privileges pertaining to the phonograph, as well as the privilege of dealing in the talking instruments, appliances and records, are involved in the litigation now pending in the interests of the New York Phonograph company in the state courts.

Charity Ball—The charity ball in aid of the Nursery and Child's hospital, takes place on Jan. 20 at the Waldorf-Astoria, and from present indications promises to be a very brilliant affair.

Actor's Home Benefit—Richard Mansfield at the Herald Square theater this week scored a great achievement. He gave a benefit for the Actors' home and took in \$8,588.

Democratic Love Feast—In an effort to bring together the factions of the Brooklyn Democratic club, which was organized by Edward M. Shepley, a meeting was called on Monday evening of his indorsement when he ran for mayor last fall, Herman A. Metz, the president, is making arrangements for a Democratic love feast in the shape of a dinner to be held in the Germania club, No. 120 Schermerhorn street, Brooklyn, on Feb. 15.

Raffles Hotel's Masthead—A conference of a committee of the Reform club recently there was a decision in favor of legislation permitting the sale of liquors in restaurants in the city on Sundays, and in favor of a special election to be held next spring to decide the question of opening the saloons on Sunday afternoons and evenings.

Reside Being Several Others.—An old man recently informed Mr. Rockefeller's Sunday school that there were three kinds of poor—the devil's poor, the Lord's poor, and the poor devil. Some enterprising beggars will now endeavor to prove that they are all three kinds at once.—Washington Times.

Hard to Convince.—Senator Hanna continues to be skeptical about these rumors of his retirement from politics.—Washington Evening Star.
