### IN LINCOLN'S HONOR

MINNESOTA COMMANDERY, LOYAL LEGION, TO DINE AT THE RYAN

MARCUS D. GROVER TO SPEAK

Governor Will Be There and Large Attendance of Military People and Civilians is Assured.

The Minnesota commandery of the Military Order of the Loyal Legion of the United States will celebrate the birthday of Abraham Lincoln Tuesday evening at the Ryan hotel. Lincoln's birthday is on Wednesday, but the meeting will be held on Tuesday for the reason that the 12th is Ash Wednesday.

It will be an open meeting, and a large number of guests have been invited. The program of the evening will be delivered by Marcus D. Grover, and there will be other speakers also. Gov. and Mrs. Van Sant will be present. All the officers at Fort Snelling and their wives, all officers of the department of Dakota and their wives and many distinguished civilians have been invited and a large attendance is expected. A public reception will be held from 7:15 to 8 o'clock and the banquet will begin at 8. The meeting will preserve the military character, with many beautiful flags and the banquet hall will be bedecked with beautiful flags. The commandery holds eight banquets every year, one on the first Tuesday and second Tuesday of every month from October to May.

Loyal Legion is one of the great orders of the country, having been born immediately after the death of Lincoln in 1865. There are thirty-one commanderies in the United States, with a membership of over 100,000. The Minnesota commandery, which ranks tenth among the states, has a membership of 286, was organized in St. Paul in 1885. The Loyal Legion is strictly a hereditary order, its membership being restricted to officers of the Civil war, their oldest sons, and so on down.

The Minnesota commandery is famed far and wide for its activity and good work and for its hospitality. It has entertained many distinguished guests and all have paid high tribute to the zeal and earnestness of the local workers.

Loyal Legion has a membership of the country keep public records of addresses and articles by members dealing with important phases of the Civil war, and these reports are published in a book under the general title "Glimpses of the Nation's Struggle." The Minnesota commandery has published four large vol-

### LUXEMBURGERS DANCE

TWO HUNDRED COUPLES AT LAST NIGHT'S BALL.

Fully 200 couples attended the twenty-third annual ball of the St. Paul Luxembourgische Unterstuetzungs-Verein (Beneficent society) at the Federation hall last night.

Bray's orchestra furnished music for a programme of twenty-four dances, and the merry makers did not leave the hall until the small hours of the morning.

During the dancing the women of the society served light refreshments in the dining room. The tables were tastefully decorated and were well patronized by the dancers.

Mr. and Mrs. John Thill led the grand march, and they were followed by the members of the arrangement committee.

The committee had worked hard and can compliment themselves on the success of the affair, which was more largely attended than any of the previous years for some time. The society is an old one in St. Paul, and also a strong organization, and has a fair representation among the city and county officials, many of whom were present with their wives.

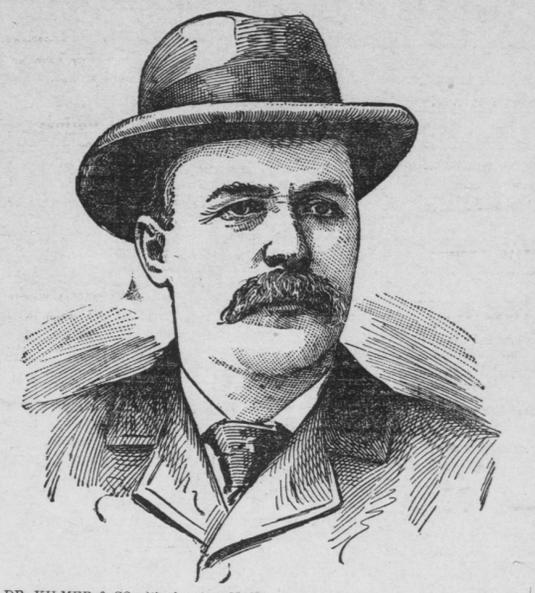

The arrangements committee was composed of the following:

T. J. Metzford, chairman; Math. Broos, Nic. Thill, Frank Thomsen and George Thill. The floor committee was: Nic. Thill, chairman; John Thill, John Wagner, P. G. Gerchem.

### WEAK KIDNEYS AND BLADDER TROUBLE

HAD TO PASS WATER VERY OFTEN DAY AND NIGHT.

Cured by the Great Kidney Remedy, Swamp-Root.

DR. KILMER & CO., Binghamton, N. Y.

About two years ago I had a very severe case of kidney and bladder trouble. The pain in the small of my back was so severe that I could not stand it to stay in one position more than a moment or two and was obliged to pass water very often day and night. I tried medicines and doctors without getting relief. No one gave me a trial and bought a bottle. By the time I had finished the first bottle the pain had entirely disappeared from my back. The pain and frequent desire to pass water ceased. However, I continued to take the medicine, using about six bottles in all. That was over a year ago and I have had no return of...

*A. H. Nooney*

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue fatal results are sure to follow.

We often see a relative, a friend, or an acquaintance apparently well, but in a few days may be grieved to learn of their severe illness, or sudden death, caused by that fatal type of kidney trouble—Bright's Disease.

The mild and extraordinary effect of the world-famous kidney and bladder remedy, Dr. Kilmer's Swamp-Root, is soon realized. It is the highest for its wonderful cures of the most distressing cases of kidney and bladder trouble, and you may have a sample bottle sent free by mail.

Sample Bottle of Swamp-Root Free by Mail.

### CUTS INTO PROFITS

GAS COMPANY NOT WILDLY ENTHUSIASTIC OVER INSTALLATION OF WELSBACH BURNERS

PRICE WILL BE MAINTAINED

Citizens in Sections That Are in Darkness Are Setting Up Some Lusty Roars.

The St. Paul Gas Lighting company, it is reported, is anything but pleased with the recent order of the board of public works calling for Welsbach mantles and equipment on all the plain burner gas lamps. According to those who claim to know, the change, despite the increased cost to the city, will make a substantial inroad on the company's revenues, as the local concern will have to divide its profits with the mantle trusts, who only lease the products.

Additional to this the installation of the mantles will materially decrease the consumption of gas and this the opposition to the order say will have the effect of perpetuating the present rate of \$1.30 a thousand feet. The officials of the company are on record as saying that as soon as the consumption in St. Paul equals that of Minneapolis, the Saintry City will be enjoying the same rate at its neighbor, \$1.20 a thousand feet.

### IN QUEST OF FACTS

COMMERCIAL CLUB INVESTIGATION COMMITTEE GOES AFTER INFORMATION

WALKING QUESTION MARKS

No One Knowing Anything About Auditorium Building Will Escape the Quiz—Will Be Entertained in Good Style.

An investigation committee consisting of twenty-five members of the Commercial club left last night for the Omaha for Kansas City and Omaha to study the methods employed there in securing the funds for the construction of the auditoriums in those places. The party left at 8:40 last night in the "Marion," a Great Northern car that was tendered them. The car will be taken by the Omaha as far as Council Bluffs, where it will arrive at 8:20 this morning.

There the car will be turned over to the Burlington, which will haul it into Kansas City at 4 o'clock this afternoon. Besides the members of the Commercial club E. A. Whittaker, of the Omaha, and Eugene Valentine, of the Burlington, were in the party.

The headquarters of the delegation in Kansas City will be the Baltimore hotel and they will be in charge of the Kansas City club, the members of which will take them through the city and endeavor to answer all the questions that are asked. The Kansas City World has provided to take the party to the Orpheum theater in the evening, where boxes will be a readiness.

There will be a reception at the Kansas City club Monday, when the St. Paul delegation will be presented to Kansas City. The programme for the reception was not known, but telegrams were received by Secretary Stine, of the Commercial club, yesterday, informing him of the fact and asking him for a list of names of those who would be present.

After the delegation learns everything to be found out in Kansas City, they will leave for Omaha at 9:25 Monday morning, arriving in the Nebraska metropolis at 6:15 Tuesday morning. They will be met at the depot by delegations of the Omaha club and the Omaha Commercial club. In Omaha the headquarters will be the Iler Grand hotel. The party will leave Omaha for St. Paul Tuesday evening and arrive here at 9:25 Monday morning. Breakfast will be served the party in the Commercial club rooms.

The delegation left St. Paul last night filled to the brim with business, and each member had resolved to constitute himself an active interrogation point during the entire journey. A long list of questions was prepared before starting and every member was given a copy with the information that he was expected to use his own ingenuity in finding out any details that might possibly have been overlooked. The facts that are to be ascertained are, the size of the ground for the building, the cost, the cost of the building, securing a diagram of the building, the changes that would be recommended if a new building was to be erected, the manner of securing contributions, what particular lines of business contributed most towards the erection, how much they give, what are the names of the donors of the largest amounts, how is the board of directors or managers constituted, the details of the general management, the compensation for the general manager, is the building and property taxed, what does it cost to maintain an institution of this character, is it heated during the winter and how, what is the average revenue received per annum, were articles of incorporation filed, securing a copy of the articles, was there a stock issued, how is it held, did the railroads contribute to its construction, securing a copy of the subscription blanks derived by the city from the institution, all other information that may be of use.

The delegation will get together upon its return and formulate a statement in the nature of a report which will be considered by the auditorium committee of the Commercial club, and the proper action will be taken.

Hotel Metropolitan is enjoying the best of patronage. Families, transient travelers and distinguished guests make a large company, all enjoying the superior accommodations, choice cafe, either European or American plan.

### HELD TO GRAND JURY

SOLDIER WHO KNOCKED OUT MOTORMAN'S EYE IS COMMITTED.

Henry Dewherst and Frank Pollock, the two soldiers arrested on the charge of manly assault, were committed to the custody of the St. Paul police court yesterday. After hearing the evidence, Judge Hine held Pollock to answer to the charge of manly assault, as there was no evidence to show that he had struck any of the blows. Dewherst, however, was immediately arrested by Lieut. Horn and charged with assault and battery at the instance of the county attorney. He will have a hearing tomorrow.

The evidence tended to show that Pollock had struck Welch in the eye with a whisky flask, and that it resulted in the loss of an eye.

### FATE OF MEGAARDEN

GOVERNOR HEARING ARGUMENTS WHICH WILL DETERMINE IT

DEFENSE GAINS ONE POINT

Governor Allows Them to Present Their Evidence Introduced in Trial Before Judge Pond.

The hearing of the charges preferred against Sheriff Philip T. Megaarden, of Hennepin county, by the public examiner began yesterday before Gov. Van Sant, but there will be no decision in the matter for a long time to come, as the governor decided to permit the defendant to introduce the testimony given in his behalf in the recent trial before Judge Pond. This was the only important feature of the hearing yesterday. When the governor announced that he was ready to begin, Mr. Megaarden was represented by Attorney A. Y. Merrill and Judge John H. Steele, and the state by County Attorney C. L. Smith, of Hennepin county. Assistant Attorney General heard the case against Megaarden. The two immense volumes of testimony taken by Commissioners Stratton and Salmon were before his excellency for consideration.

The defense moved for a week's continuance of the case to allow them time to submit further testimony in behalf of Mr. Megaarden. The governor denied the application for continuance. The attorneys for Megaarden said that at the time the governor's commission was issued he was not aware of the defense was greatly handicapped by the fact that they were preparing to defend a criminal trial in the district court, and they could not introduce the testimony favorable to Megaarden in the hearing because of the great advantage it would give the state in the trial of the case in the district court. Megaarden was not dishonest as of this, said Judge Steele, the defendant had not been fully heard before the commission, and would very much like to introduce further evidence in his behalf. Finally the governor decided that it was only fair and just that the defense be allowed to present the testimony offered in the trial before Judge Pond. The defense suggested that a special commission be appointed to take further testimony.

Mr. Smith protested strongly, saying that the expense was not justified. The commission had already run up an expense of \$1,500, which ought not to be increased. There was no reason why Megaarden should not have put in all testimony favorable to him at the hearing, as the truth never hurt anyone. He said the only defense made by Megaarden in the trial in the district court was that he was personally ignorant of the charges which had been made in the specific cases. If Megaarden were not dishonest he was at least incompetent, and, if the latter, he should be removed anyway.

Mr. Merrill took up the gauntlet and declared that Mr. Megaarden had only done as his predecessors had done, whereupon Mr. Smith disputed him and said that Alonzo Phillips, despite the charges to the contrary, had not made the same charges that Megaarden had. Judge Steele wanted to know why the overcharges had not been detected by the county attorney when the bills were before the commissioners, and Mr. Smith replied that the county attorney was not on trial.

Gov. Van Sant did not care to deal in generalities and was tired of the reports passing back and forth, and told the gentlemen to get down to business. Mr. Smith took up the charges of the public examiner in detail and discussed them at great length. The hearing lasted until late in the afternoon, and was then continued until next week.

### NEW CLAY COMPANY

MINNESOTA CONCERN INCORPORATES WITH \$300,000 CAPITAL

WILL BUILD IMMENSE PLANT

Has Purchased 72-Acre Clay Deposit Said to Be Best in Country and Inexhaustible in Quantity.

The Minnesota Clay company with head offices in this city, has filed articles of incorporation and let all contracts for the building of one of the largest brick plants in the country, and the most complete and up-to-date of any in the Northwest.

The plant is to be located at Coon creek in Anoka county, about twelve miles north of Minneapolis, where a large body of exceptionally fine clay has been discovered. The clay is of the quality for making vitrified brick, such as are used for paving and sewer pipes. The last contract was let yesterday and the work of constructing the plant will be begun at once.

The plant is located within a short distance of three railroads, the Northern Pacific, Great Northern and Eastern Minnesota. Spur tracks 1,800 feet long will be built connecting the roads with the machinery building.

It is claimed by the owners of the property that the raw clay is the heaviest and densest found in the United States, containing a large per centage of iron, aluminum and silica, while there is no alkali or limestone to overcome.

The machinery of the plant is the latest, so arranged that the clay will be taken from the pit by a powerful steam shovel, which will deposit it on dump cars. The cars will transport the material to the granulating department, where it will be automatically unloaded. Gravity will then take the clay from the granulator to the crusher, pug mill and cutter.

All this work will be done without the clay being touched by hand until it is taken from the cutting table of the brick cars. There are 25 brick cars to haul the material to use dryer, which drives out all the moisture by steam and hot air, so that the manufacture of bricks may go on twelve months in the year without any attention being paid to the condition of the weather. From the dryer the bricks will be taken to the permanent kilns which have a capacity of 250,000 each.

The company has purchased 72 acres of clay deposit which has been bored to a depth of 100 feet without striking bottom, and thus providing for an almost inexhaustible supply of material.

Some idea of the magnitude of the plant may be gleaned from the fact that it will require 27,000 tons of coal each year, or \$1,000 barrels of oil to run the plant.

The authorized capital of the company is \$300,000. The following are the officers: George H. Shollenbarger, president; F. D. Kendrick, vice president; V. Gilman, secretary and treasurer. The directors as listed in the articles of incorporation are: F. D. Kendrick, George H. Shollenbarger, J. J. Smart, D. J. McMahon and V. Gilman.

# HAMM'S

### Announcement.

Scattered through the want ads in today's Globe will be found the names of two popular comedians, the title of the play in which they are appearing this season, the name of the theater at which they will be seen in this city, and the date on which their engagement will begin. The same general plan will be followed as in the past contests, with which the readers of The Globe are presumed to be familiar. All the ads containing the names of the comedians, the title of their play and the date of their appearance must be cut from the paper, pasted on a slip of paper and be mailed to, or be left at the business office of The Globe for, the Contest Editor.

In order to give all the readers of The Globe an equal chance to secure seats for one of the performances of either "The Taming of the Shrew" or "La Tosca", none of the answers received in this contest will be opened until 5 o'clock Monday afternoon. At that hour all those who have sent in answers are invited to come to The Globe office and personally inspect the opening of the letters. The writers of the first ten opened that contain the correct answer will be given orders on Manager Scott, of the Metropolitan, for the production of the great Shakespearean comedy, and the second ten for "La Tosca". These orders will be cheerfully honored when they are presented at the box office.

### IN STRICT QUARANTINE

MORE YOUNG WOMEN HAVE SMALL-POX AT AGRICULTURAL SCHOOL

In All, Seven Cases Have Developed and More May Be Found—Four at City Pest House.

St. Paul health authorities are now caring for three more small-pox-afflicted students taken from the state experimental school yesterday. This makes seven cases in all and more are looked for.

The school and its occupants are in a state of siege, quarantine of a most rigid character having been established. The students are also feeling the seriousness of their position and not a few of the young women in attendance are sick with fright attendant upon the presence of the disease.

The presence of the disease at the school has been traced to one of the students who spent a two weeks' vacation at her home in one of the towns of the state. The disease in her particular case was so mild that she was not compelled to go to bed, and although feeling slightly sick, returned to the farm. It was while barring her arm for vaccination that its presence was discovered. She has been quarantined and all with whom she associated are undergoing a similar siege.

Health Commissioner Ohage says the outbreak would never have occurred had the authorities demanded vaccination certificates of all the students. In each case so far the victim was never vaccinated, and Dr. Ohage thinks this fact should go far toward establishing his stand that vaccination should be compulsory.

Of the seven cases, St. Paul is caring for four of them and while the city will be paid for its trouble, the health department is not overjoyed to get them. The news of the epidemic at the school has gone abroad over the state and the faculty is being deluged with telegrams from anxious parents and relatives.

### HAS NOT SIGNED IT

MAYOR SMITH IS CAREFULLY LOOKING OVER NEW WINE ROOM ORDINANCE

HE WILL NOT TURN IT DOWN

Yesterday He Intimated That His Signature Would Be Adfixed Tomorrow, After He Has Read It.

Up to a late hour yesterday afternoon Mayor Smith had not affixed his signature to the wine room ordinance passed by both bodies of the council.

"I want a little more time to look over it," said the mayor, when asked yesterday afternoon if he had approved it.

"The penalty provisions of the measure, from what I can see, are a little inconsistent," said the mayor, "but I guess I will sign it when I get around to it. No one seems to be protesting, so I suppose I had better let it go through."

There should be a wine room law," continued the mayor, "but it should be based on reason. There should be a penalty and a stiff one for violations, but there is such a thing as rendering a law inoperative by the size of the fine you impose."

The work of the two bodies in the shape of a bulky mass of resolutions and acts was handed over to the mayor yesterday for signature, and he was occupied nearly the entire day looking through it. The wine room ordinance was laid aside for further consideration, and will be given attention Monday when his honor intends to legalize it by his signature.

### ZIMMERMANN IS OUT

STRICT CONSTRUCTION OF CHARTER REMOVES HIM FROM SCHOOL BOARD

IS WARNER IN THE SAME BOX?

Both Said to Have Absented Themselves From Meetings of Conference Committee—"Barney" Doesn't Believe It.

According to the terms of the city charter President Bernard Zimmermann, of the board of education, is no longer a member of the city government. According to the records he has violated that provision of the city charter which demands monthly attendance at the meetings of the conference committee, and as a penalty must suffer decapitation.

The particular provision through which punishment is meted out to delinquent officials is that which reads as follows:

Any member of said conference committee who is absent from its meetings for two successive sessions, or shall fail to attend for two successive sessions, shall be deemed to have resigned his office and the duties thereof, and shall thereby be disqualified to hold any public office in said city for the period of one year next thereafter, and his successor shall be appointed as prescribed by the charter in case of resignation. Said committee shall have no power, and no power shall be exercised by the city, in making the monthly report herein prescribed and directed.

According to the records Mr. Zimmermann has missed two successive meetings, that of Dec. 9 and Jan. 13. In each he was absent from his meetings. "I don't believe it," said President Zimmermann when his attention was called to the matter yesterday. "One of those meetings was an adjourned session and does not count. I am generally on hand, for I am aware of this rather strict provision, and take care not to violate it. There is undoubtedly some mistake."

The fact that there have been absences was given publicity yesterday, when, at the request of Comptroller McCurdy, the status of the provision was explained through a written opinion supplied by Corporation Attorney Markham. Mr. McCurdy was absent the last meeting, and he was fearful that a repetition would bring disaster.

Another official who is said to be in a job because of this provision, is President Warner, of the assembly. It is claimed that he has been both absent from without the required reports. Should this be true, Mr. Warner in the event that he is not in the office of mayor, would be unable to fill it. Interested parties are now at work on the minutes of the conference committee, and some interesting things are expected.

### Examine Them.

The "Coffee-Never-Hurt-Me" People.

Some famous brain workers have made a welcome discovery along the line of recovery of health by the proper selection of food. Several were of the "Coffee-never-hurt-me" kind, but, as an experiment, tried leaving it off ten days, and the use of Postum Cereal Food Coffee in its place. A definite and decided improvement in health is practically certain to attend such a change.

Look carefully into the state of health of the individual who knows that "coffee don't hurt me," and you are almost sure to find some form of physical ail or functional disturbance—perhaps muddy complexion, or weak eyes, incipient heart failure, kidney trouble, liver or bowel disorders, or some form of weakness that shows plainly enough by the cry for relief sent up from some organ of the body.

Why does the dismissal of Coffee and the use of Postum bring help? Experiments in artificial digestion show clearly to the scientific investigator that coffee arrests digestion, and according to one authority, allows only 61 per cent of the food to be digested. That strikes at the very keystone of the arch of health. Failure in digestion means lack of good blood, and therefore a lack of food for the nerve centers. As the nerves control the organs of the entire body, one can readily understand that a disorganized nervous system may show effect in any part of the body. Therefore, a removal of the cause will allow nature to right herself. A powerful assistant to nature is Postum Cereal Food Coffee, composed of the albumen, phosphates, gluten, etc., from which nature builds in the delicate tissues of the nerves.

Postum aids digestion without drying, and furnishes a concentrated liquid food as well as a most delicious morning Coffee. Satisfactorily, it will be found that to allow it to boil 15 minutes after rolling commences, will solve the problem, as it must be so boiled to extract taste, color and food value. Postum Cereal Co., Ltd., Battle Creek, Mich.

### SETTLED BIG QUESTION.

Y. M. C. A. Debate on the Isthmian Canal.

The debating club at the Y. M. C. A. last night debated the question of the Isthmian canal. Messrs. Anderson and Oesterberg spoke for the part of the affirmative and Boland and Aush had the negative. No judges were chosen and the question was left undecided.

George Voelker was elected president of the club, C. A. Barker vice president, C. A. Ingerson secretary, and Gustaf Celberg treasurer. The club will have an open discussion at the next meeting on the benefits and best methods of conducting a debating club.
