Minnesota Transfer, St. Paul, Minnesota Transfer, St. Paul, Minne-Barrett & Zimerman report the receipts of horses large, consisting mostly of farm chunks and heavy team horses. Buyers were fairly well in attendance for the initial opening of the week. The condition of the market is favorable, which gives promise of an active trade this week. CTOCKS, BONDS MAND MONEY.

NEW YORK, March 24.—Today's market made some attempt to rally from the reactionary tendency that developed before the close on Saturday and to resume the upward tendency which was becoming fairly general on Friday. Prices started higher this morning, but the market during the day did not hold out the promise of the early dealings and again relapsed into a dull and drifting condition, with the dealings almost entirely in professional hands and only the more obscure stocks moving with any degree of energy.

condition, with the dealings almost entirely in professional hands and only the more obscure stocks moving with any degree of energy.

There was a marked demand for the Readings and an apparent attempt to shift the leadership into the coalers from the Western grain carriers whose strength last week was supposed to be due to the favorable prospects of the grain crops. But the obvious fact that selling to take profits was going on in St. Paul, showing the work of professional hands, detracted from the influence of the new strength in the Readings. The renewed attendance at this office of the most prominent capitalists in the street and the return to New York from holiday excursions of other large capitalists were looked to by the more sanguine of the traders to result in a resumption of market activity, but except for the buying of Readings, no such influence was apparent.

Amaigamated Copper was notably active and, with occasional rallies, was depressed on account of a fear that the Anaconda dividend to be acted on this week will not be maintained. There was an active speculation in the United States Leather stocks at advances of a point or more, accompanied by reports subsequently circulated, that the accumulated dividends due on the preferred stock were to be tunded into a bond. Louisville & Nashville and Chicago, Indianapolis & Louisville rose together in the late trading, thus reviving old rumors of a combination. Outside of these cases the market was spotty and uneven and very irregular.

There were wide advances in Evansville & Terre Haute, North American, General Electric Corn Products and Keo.

very irregular.

There were wide advances in Evansville & Terre Haute, North American, General Electric, Corn Products and Keokuk & Des Moines preferred, but none of the gains was fully maintained and there were wide declines in other stocks which have had recent advances. Colorado Fuel was active and erratic, ranging above and below Saturday's price, and closing with a net gain of a point. Soothing assurances were heard that the condition of the money maket was per-Soothing assurances were heard that the condition of the money maket was perfectly safe, but the forces of depletion at work upon the cash reserves of the banks and the narrow margin of their surplus reserve kept awake an uneasy sentiment regarding the condition of the market until the April settlements.

With the subtreasury taking funds from the market, an interior demand for currency and sterling exchange again hardening towards the gold export point, it is felt that there is danger of flurries in the money market, even if a sustained stringency can be avoided. The market closed heavy.

The bond market was irregular, but the active issues was irregular, but the

MINNEAPOLIS, March 24.—It was the same story in wheat today—continued liquidation, lack of good support and further declines. Minneapolis May sold down to 69½. Rains were general and much favorable news came respecting the outlook. Not only from the winter wheat states were there the most favorable reports received, but Minnesota and the Dakotas reported the conditions very favorable for spring farm work. Spring wheat seeding will be fairly under way from this time on. A little encouragement came from the cables, which were \(\frac{1}{2}\) was a loads additional taken at the seaboard, making 146 loads fully confirmed in all since Friday. Broomhall cabled that the Sea of Azov is now open, this being fully a week carlier than the average. World's shipments for the week were 7,167,000 bu, against 5,278,000 bu last week and 7,651,000 bu a year ago. America shipped 4,236,000 bu, Argentine 1,288,000 bu and Australia 221,000 bu, Show decrease for the week of 63,000 bu, The quantity on passage increased by 2,112,000 bu, Show decrease for the week of 63,000 bu, The visable supply decreased by 1,049,000 bu, Bhow decrease for the week of 63,000 bu, The visable supply decreased by 1,049,000 bu, making the present total 50,-948,000 bu.

Primary receipts were 585,000 bu, compared with 935,000 bu, and shipments 149,-
