LABOR IS IN PROTEST

National Holidays of Unions Will Be Devoted to Fight on Injunctions

A. F. OF L. FORMS PLAN

May 1, July 4 and Labor Day to Be Devoted to Formulation of Appeals to the Senate and Congress.

WASHINGTON, D. C., April 19.—The executive council of the American Federation of Labor adjourned sine die this afternoon, after adopting an address to the wage-earners of America, signed by all the members of the council, which says: "There are few contentions in which the toilers are engaged for improvement or for the prevention of a deterioration of their condition, unless injunctions are issued by the courts of the most far-reaching character, invading the legal and moral rights of the workers to perform perfectly legal and legitimate acts to carry on their effort to a successful termination."

"Injunctions of a flagrant, unjustifiable and outrageous character are continually issued, and honest, law-abiding and faithful citizen-workers are thrust into prison for periods of from one to six months."

"Set Dates for Protest."

"Thus far we have been unable to persuade the congress of the United States to enact a law that shall protect the rights and liberty of the people engaged in industrial disputes, and many of the courts have interpreted this failure on the part of congress to act as a warrant and authority to extend the use, or more properly speaking, the abuse, of the writ of injunctions, so that the people of our country may be more definitely impressed upon the minds of our national congress and state legislatures."

"With this object in view, we recommend to all organized workers, in national, state, central or local unions, that on their public celebrations on May 1, July 4 and Sept. 4 (Labor Day), 1902, they concentrate their attention to a discussion of the abolition of the injunctions in labor disputes, and the passage of resolutions, demands, and resolutions, to the congress and the legislatures of their respective states, on the enactment of laws conforming to that purpose."

Demand Trials Before Juries.

"It is urged, too, that at the convention of the national unions, the state federations, as well as at stated meetings of the Central Labor unions, and local trade and federal labor unions, that this subject matter be fully discussed, emphasized and that the people of our country be fully informed of the result of that action promptly communicated to the United States senators and members of congress from your respective states, and to the members of the legislature of your respective districts."

"The American workmen are law-abiding, faithful and loyal citizens; they have no desire to resort to force in the governing other citizens, but they most emphatically resent and protest against the actions of courts convicting them, and sending them to prison, for acts which they have the legal right to perform, and condemned, too, without proper opportunity of defense and trial before a jury of their peers."

REBELS GAIN AND LOSE COLUMBIA CITY

After Capture of Bocas del Toro. They Are Dispatches Indicate, Dislodged by Bombardment.

WASHINGTON, April 19.—The navy department has received the following cablegram from Commander McCrea, of the gunboat Machias, dated Colon, April 19: "Bocas del Toro, Colombia, has surrendered. No injury to American citizens or interests. Making arrangements to withdraw troops tomorrow. Will sail for Aspinwall Sunday."

COLON, Colombia, April 19.—The expedition under Gen. Gomez, the military governor of Colon, which left here yesterday on the government gunboat Gen. Pinzon for Bocas del Toro, was due at Bocas at about 6 o'clock this morning. The expedition comprised 70 men with four guns, one of them a long range three-pounder.

A German steamer from Bocas, which has just arrived here, brings news that the Liberals effected a landing in open boats and barges near Bocas at 6 o'clock Thursday evening, when fighting began.

The Liberal troops outnumbered the government force, which was forced to surrender the town at 11 o'clock yesterday morning. One hundred and fifty men on both sides were killed, but the government loss was insignificant as compared with that of the rebels.

The United States gunboat Machias has landed 100 marines at Bocas.

It is believed here that the General Pinzon is bombarding the town and will quickly dislodge the insurgents who are under command of Gen. Bucandía.

Further news is anxiously awaited here and little surprise will be expressed if the recapture of Bocas is announced soon.

NEW HEAD FOR FRISCO STREET CAR COMPANY

Arthur Holland, of New York, Is to Be President of the System.

SAN FRANCISCO, April 19.—The United Railways Company of San Francisco is to have as president Arthur Holland, of New York, who is one of the eight directors already chosen for the company.

The directors have just given him the title of acting president, to be confirmed in case he sees fit to remain permanently in San Francisco, which is most probable.

It is said he is to receive a salary of \$15,000. Mr. Vinling, the general manager, is said to be receiving \$10,000 per annum.

Whether Mr. Holland will eventually perform the duties of both president and general manager is not known.

Mr. Holland has never had any experience as manager of street railway lines. He is a New York business man, however, who has been successful in other lines of activity.

SERIOUS CHARGES AGAINST GARDENER

Ex-Sergeant Accuses Army Officer of Mistreating Soldiers in Tabayas Province.

Special to The Globe.

NEW BEDFORD, Ill., April 19.—Sergeant Frank Angle, formerly of Thirtieth infantry, U. S. A., makes serious charges against Col. Gardner's administration in Tabayas province.

He claims men were fined and imprisoned for falling out on a march, and when imprisoned were kept working in the hot sun when it was impossible for natives to stand the heat.

He also says the colonel compelled an enlisted man to dig the grave of a man whom he killed while on picket duty.

Angle says the colonel always took the word of a Filipino before of his own men.

Gardner is the man whose report on conditions in Tabayas province, which the administration was recently forced to make public, precipitated the present agitation on the subject.

The Vaterland says: "The American action appears to be doubly horrible when it is remembered that America waged war with Spain in the name of humanity."

BLUE LAWS IN FORCE IN BOSTON ON SUNDAY

No Candy, Soda or Fruit Are to Be Sold, and Police Will Close the Barber Shops.

Special to The Globe.

BOSTON, Mass., April 19.—The old blue law that once in awhile rise up to bother the descendants of the people who made them, will be put in force throughout Boston tomorrow.

No candy, soda or fruit shall be sold on the Lord's day is the edict that has gone out from police headquarters and the people of the town who want such things to help while away the day were today notified in the public press to lay in their stocks before the midnight hour.

Beside the edict regarding the sales of the corner candy and fruit stores, the police announced that no barber shops would be open, and that all barber shops will be closed tight. The traveler from the West who lands in town tonight too late or too tired to get a shave, will have to go unscraped tomorrow.

TRUST MAY WAR ON CHICAGO CIGAR MEN

Plan to Consolidate Leading Retail Stores Falls Because of Fear of Trenchery.

CHICAGO, April 19.—An attempt of the tobacco combine to secure control of the retail cigar trade in Chicago may lead to a war of extermination, in which the finest Havana cigars will sell for the price of a cheroot.

Leading Chicago retailers have just rejected a proposition made to them by the American Cigar company, a branch of the American Tobacco company, and negotiations were broken off with a threat that rival stores would be started in Chicago to bring retailers to terms or drive them out of business.

After the merger had been accomplished it was proposed to issue common stock equal to the amount of the preferred stock, to be held by the dealers personally.

The scheme proposed by Mr. Cobb, as president of the American Cigar company, was to organize a stock company with capital of \$10,000. Each of the men conducting a separate business to merge his store into the company and receive in return preferred stock equivalent to his assets.

As to the Chicago dealers, it was proposed to issue common stock equal to the amount of the preferred stock, to be held by the dealers personally.

It was the common stock that made the retailers suspicious. "It was fear of treachery that caused us to break off negotiations," said M. W. Duffley tonight.

LONG DISCUSSES NAVAL BUSINESS

Secretary Renews His Objection to Building Warships in Government Yards.

WASHINGTON, April 19.—Secretary Long was before the house committee on the navy today and discussed the building of new ships and other naval expenditures. (The secretary favored appropriation for three battleships, two armored cruisers and several smaller ships this year.)

When asked as to the building of warships in government yards, Mr. Long re-nounced the disapproval of such action on the ground that the cost would be about 25 per cent greater and that it would have a tendency to build up political organizations at the naval yards.

As to submarine boats, the secretary thought it would be well to defer further action until boats now under construction had been completed and tested.

She Is Chosen President Over Miss Daly After a Spirited Contest.

PLANS MODEL TOWN

Missouri Altruist Will Build a Village on the Co-operative Plan

SITE NEAR KANSAS CITY

Community Will Be Mainly Devoted to the Interests of Its Children and Will Own Stores in City.

KANSAS CITY, Mo., April 19.—Walter Vrooman, the social reformer, announced today that he had purchased the land and completed plans for building a model village, or co-operative community, within a short distance of Kansas City. The village, Mr. Vrooman says, will finally have a dozen factories for the manufacture of as many different kinds of articles, and churches, schools, dwellings, stores and places of amusement, all built at his expense.

"I have already purchased the land," said Mr. Vrooman today, "and will announce the location next week. The village will be built and conducted along the lines suggested in a book written recently by Prof. John Dewey, of the University of Chicago. The village will be a place where children can live under the care of young women nurses and teachers. The factories will be a source of employment for many persons."

Mr. Vrooman also announced that he would, within a few weeks, open twenty-five co-operative stores in Kansas City.

"I have already determined upon the location of twenty stores," said he. "They will be operated on all sorts of articles that will be sold in the stores."

FREE TOBACCO DRAWS BRITONS TO CHURCH

Archdeacon Arranges Services in Westminster Abbey at Which Laborers Drink Beer Noon Hour.

LONDON, April 19.—"Smoking church services" are the latest innovation and promise to spread and attract many of those who habitually spend Sunday morning in religious observance, and are awaiting the hour of opening of those places.

Archdeacon Wilberforce, during the present week. He invited the men who were fitting up Westminster Abbey for the confirmation to spare a part of their dinner hour to religious observance, and the offer of tobacco and told the men to come and smoke and make themselves at home during the service. The men were delighted by the proposal, and have been assembling in the cloisters daily to the number of upwards of 100.

They join heartily in the hymns and Lord's prayer, and occasionally taking a drink from their beer cans, though they invariably remove their caps and pipes during prayers. The archdeacon keeps the altar brightly lit by interlarding his exhortations with anecdotes of heroism. At the conclusion of the services the archdeacon circulates among the smokers, shaking hands with them, and is rewarded by a vote of thanks.

In the meanwhile the abbey is rigorously closed to the general public. This fact seems to have whetted the appetite of youngsters, who are resorting to all sorts of plans to obtain admission. The Americans are particularly eager.

After being refused admission to the abbey, they flock to the United States embassy and ask for the assistance of the officials. The latter's applications to the board of works in behalf of the Americans, who are invariably met with the same polite but unalterable negative.

Missouri Authorities, Defeated by Tobacco Combine on Constitutional Pleading, Try a New Tack.

JEFFERSON CITY, Mo., April 19.—In the proceedings in the supreme court to oust the tobacco companies from doing business in Missouri for the alleged violation of the anti-trust laws, Assistant Attorney General Jeffries today filed an exception to the report of Special Commissioner Butler, who held that the Missouri law is unconstitutional.

Attorney Jeffries takes the position that it makes no difference whether the law is unconstitutional or not, the petition is based upon the proposition that the tobacco trust is a combination in restraint of trade, and that it is a monopoly at common law, having no right to existence under the statute.
