READY TO MAKE REPORT BOARD OF CONTROL WILL ISSUE ITS STATEMENT TODAY

IT WILL CONTAIN SWORN DECLARATIONS BY ROGERS AND TEGNER—FINDINGS AND BOARD SAYS IT HAS NO INTENTION OF DOING THE MEN INJUSTICE.

The board of control will today issue its statement of findings in the case of Steward Rogers and Bookkeeper Tegner, the discharged officials of the St. Peter insane hospital. The statement was to have been issued yesterday, but was delayed owing to the Red Wing matter being under advisement.

As stated in The Globe yesterday Messrs. Rogers and Tegner were before the board on Thursday afternoon regarding the case. The board did not give the men just the kind of a hearing they desired. They were not shown the findings and allowed to make objections to them, but they were questioned by the board in regard to certain things. The board put both men under oath and took from them a statement relative to the unbalanced condition of the St. Peter hospital supplies. These statements will be included in the statement given out by the board today.

The statement issued by the board will give a complete account of the conditions just as found by the board on their investigation. It is understood that the findings will not make any direct charge against the men, but will seek to justify their removal. The attitude of the board is this:

There were discrepancies in the books and in the supplies of the institution. The board does not know how they occurred, and it cannot be absolutely proved just how they did occur. The board has no evidence to prove that any one other than the two men in charge were to blame, except the statements of the men themselves. This being the case it was necessary under the circumstances to let the men out and begin over again with new men on a basis that will give the board control of the situation. Members of the board declare that they have no personal feeling in the matter and no desire to do Mr. Rogers or Mr. Tegner any injustice, and do not think they are. The board did advise Mr. Rogers to drop the matter entirely, in which event, it is said, they did not intend to publish any statement.

A prominent Republican official who is deeply interested in the case said yesterday: "I hope the findings of the board will prove that they have desired to do full justice in the case. Until they make their report we should not criticize them. However, if the report of the board seems unfair and prejudiced to the friends of Mr. Rogers, the matter will not be dropped. Hundreds of good people have volunteered to subscribe money to help Mr. Rogers make a fight for his rights in case they are denied him. I hope, however, and believe, that the board of control will not make such a course necessary."

IS UP TO THE ENGINEER.

J. Reichert is Arraigned on Charge of Violating the Smoke Ordinance.

J. Reichert, a locomotive engineer in the employ of the Omaha railroad, was arraigned in the police court yesterday on the charge of violating the smoke ordinance. He entered a plea of not guilty, and will have a hearing next Friday. Judge Orr recently held that the fireman on an engine could not be held to blame, as the engineer was the designer of the smokestack. This decision was rendered in the case against Fireman Reichert, who runs on the same engine with Reichert, and, as a result, a complaint was sworn out against Reichert.

CROSS DESCEND IN BALLOON.

As the north-northeast wind blows quite constantly over the Central States from October to April, a French aeronaut, M. de Lesseps, decided that it should be easy to cross the desert by balloon from Tunis to the Niger. He proposes trying the experiment with a small unmanned balloon of about 4,000 cubic yards. This would carry a guide rope of considerable weight and an automatic discharge of wreck on the way the chances are expected to recover of the registering apparatus with its valuable scientific data.

DO YOU THINK IT?

A minister's wife had quite a tussle with coffee and her experience is interesting. She says, "During the two years of my training as a nurse while on night duty I became addicted to coffee drinking. For between midnight and five in the morning, when the patients were asleep, there was little to do except make the rounds, and it was quite natural that I should want a good hot cup of coffee about that time. It stimulated me and I could keep awake better."
