

CHICAGO DERBY DAY

Windy City People Making Elaborate Preparations for American

GREAT CROWD EXPECTED

May Run to 100,000—Stake This Year Will Be \$200,000—Lovers of Racing Waiting for the Cry, "They're Off."

Special to the Globe. CHICAGO, May 17.—As long as the American Derby exists as a feature of Western turf sport, breeding and racing interests in this country, which represent millions of dollars in investments, will be certain of popular approval.

COLLIER IS NEARLY WELL.

F. F. Collier, the well known horse man, who recently broke his ribs while hunting is making rapid strides toward recovery, and is expected to be in good shape for the big Anglo-American polo match on May 21. Collier is entered as a substitute on the American team.

Howard and the club directors for eighteen years with check books at hand to make up any deficiency in conducting these annual meetings at which over \$500,000 has alone been distributed in stakes and purses.

Gorgeous Braid of Color.

Michigan avenue, the fashionable Chicago boulevard, with its tributary aristocratic residential streets, presents a scene on Derby day very novel in America. Like a gorgeous braid of color the vehicles loaded with those who have all that wealth can buy and art bestow, move out over these streets to join the boulevard pageant as it moves on with toot of cornet and bugle to the racing scene.

American Derby day appeals to all classes in a recreative, social and sporty way. The women find quite as much enjoyment in the day and its features as the men. It comes at a time—Saturday, June 21, this year—when the fashions are set and milder prepared for seashore, lake or mountain—a time when society can close the town season in a most appropriate manner.

Indeed, the selection of the date for the third Saturday in June is generally credited to a suggestion of the greatest of Americans, who has been accepted for succeeding years of renewal of the great racing event.

Merchants and tradespeople of the city also have fostered the Derby spirit of the day, for it means to them the distribution of thousands of dollars, which gives a stimulus to all lines of trade.

So thoroughly in sympathy have the merchants of Chicago become with the day that a movement is now on foot to close all the big State street stores at 1 o'clock on Saturday, June 21, that their employees may join in the festivities of the day.

Gen. Phil Sheridan's View.

Gen. Phil Sheridan, the first president of the Washington Park club, rarely given to newspaper interviews, said, when the track first opened: "The races here are purely for the sport that is in them. Derby day is to be an event for the pleasure of all. It is intended to bring out the people to enjoy the fresh air and healthful, interesting pastime. Legitimate horse racing is a sport to be cultivated anywhere, everywhere and at all times in season. That is the kind of amusement we shall provide at Washington park.

starters move across the field to the half-mile post. The saddling crew is sounded by the biemeister, and finally the parade is started of the horses that will contend for a stake of \$20,000, and to be decided in the fractional part of three minutes. There are the usual false breaks, the scolding and pleading of the starter with tricky and overwinded jockeys, and finally at the swish of the flag the great crowd takes up the cry, "They're off," and the horses come thundering down the stretch on the first turn past the grand stand.

Onatas Showed Her Class.

LOUISVILLE, Ky., May 17.—Onatas, Schorr's two-year-old filly, showed her class this afternoon when she won the Nursery stakes at 4 1/2 furlongs from a good field of nine horses. She won by the post an odds-on favorite. She went getting off in good shape, was well placed all around and showed good speed and stretch. The filly took the lead in the stretch, and beat out Madden's Merry Reel and Woodlake, who had a hot fight for the place, the former winning by a narrow margin.

ST. PAUL MAN PRESIDES OVER PRESBYTERIAN ASSEMBLY

Report of the Committee on Ministerial Relief Discussed—Superannuated Clergymen in Want—Moderator Announces the Committee on Evangelistic Work.

NEW YORK, May 17.—At the Presbyterian general assembly session today Vice Moderator Daniel R. Noyes, of St. Paul, presided.

The report of the standing committee on ministerial relief was taken up. Rev. Dr. Agnew, Philadelphia, New York, in various means the committee had considered in its report. He said a plan had been submitted to an insurance company, by which the company was to pay \$600 annually to each of the widows, and \$500 to each of the widows. The company asked for a premium of \$2,000, and the plan was not considered feasible. Another offer was made to raise a premium fund of \$300,000, \$4,000,000, the interest of which was to go toward the sustenance of the retired clergymen.

Dr. Parry made a plea for the old Presbyterian clergymen and mentioned many instances where superannuated clergymen had suffered cruel want.

The report of the committee was accepted. A special committee was appointed to look into the question of the Westminster home of the Presbyterian church at Perth, Amboy, N. J. There had been some question of closing the home. The report recommended that this should be done and the ministers therein be transferred to other homes.

There was some difference of opinion among the commissioners as to the matter of the Chinese minister, who set for Shan when he was in Boston a year or so ago. He has also a small snap shot of Li Hung Chang, made of the latter general in New York on the occasion of his visit to this country.

Not only have these distinguished Chinamen and nearly every other Chinaman who lives within a radius of twenty miles of Boston been photographed by Shan, but a number of well-known Boston society folks have visited the quaint little artist in his studio.

A certain well-known lady from the Back Bay was frequently called on by Shan and had him photograph her and several of her friends in a group. He has made pictures of her house, too, and been among her friends by her invitation, and taken many pictures of them.

He is regarded as the official photographer of all the Chinese picnics, which are now held every year, and none of them are complete without him. Shan is the government photographer, too, for the district about Boston, and he makes the pictures of all the Chinese who want to go back to China. He is recognized as the official photographer of work, and has done many hundreds of pictures for his own countrymen who were returning home.

Besides being a photographer, Shan is also a very clever electrician, and has wired nearly all the large houses in Chinatown and installed in them a complete system of electric bells and telephones. He looks after all the electrical work in the district, and is regarded by his fellows as an exceptionally bright and clever man.—Philadelphia Press

Denounces Barbarity in the Philippines. President Roosevelt Says He Is Determined to Discover and Punish the Guilty Ones.

BOSTON, May 17.—A letter from President Roosevelt, in which he declares his determination to discover and punish every instance of barbarity by United States troops in the Philippines, has been made public by Bishop William Lawrence, of the Episcopal diocese of Massachusetts. It was written in reply to a communication from the bishop, sent by direction of the convention of the diocese to place before the president resolutions condemning the president's resolutions to these cruelties I agree with every word in your address.

When you address, however great, can be accepted as an excuse for misdeeds of the necessary severity of war, and above all, for torture of any kind or shape. Long before the convention of the Episcopal diocese, and before any action had been taken by congress, the war department had gone out over three months ago, having gone out over three months ago, having gone out over three months ago, having gone out over three months ago.

The investigation will be of the most searching character, and if necessary, will be made by the military representatives of the government in the islands. I have directed that the courts-martial be held under conditions which will give me the right of review.

BATTLE BETWEEN WHITE AND BLACKS AT ATLANTA, GA.

Negro Desperados Resist Arrest, and in Consequence Seven Men Are Killed, Others Wounded and a Block of Buildings Burned—Militia Called Out.

ATLANTA, Ga., May 17.—Four white men and three negroes are dead, and five white men and one negro wounded, and an entire block of buildings burned, as a result of a conflict here this morning between the police and blacks. Will Richardson, the owner of a store on McDaniel street, in the suburbs of Pittsburg, and four other negroes brought on the trouble by resisting arrest, and defying the officers of Fulton county and Atlanta. The victims included: ED BATTLE, a bailiff of Fulton county.

H. G. OZBURN, a policeman of Fulton county. THOMAS GRANT. EDWARD CLARIBREE, city policeman. WILL RICHARDSON, the negro despoiler who killed these men. MILTON ROSEY, a negro. UNKNOWN NEGRO.

The fight between the officers and negroes occurred in Pittsburg, a negro settlement directly south of the city limits on McDaniel street. There are outbuildings and barns and shrubbery over the entire neighborhood, which provided such shelter that it was possible for the negroes to escape from house to house. As soon as information of the riot reached the negroes and police men with Winchester were hurried to the scene, and Gov. Candler ordered out a detachment of the state militia.

Shots by the Hundred. The shooting ended with the 500 or more shots that were poured into the body of Milton Roby, a negro who sought freedom by way of a large sewer. The efforts of the police were directed towards controlling the temper of the riot, and the police were directed to the suburbs with guns upon their shoulders and pistols in their hands.

The trouble began yesterday afternoon, when returning to his home on the McDaniel street, a policeman, S. A. Kerlin was waylaid by five negroes with whom he had had trouble while a member of the force. But for the timely arrival of a trolley car, which frightened his assailants away, Kerlin would have been killed. A sergeant stationed at Fort McPherson, who heard his cries for help, ran to the place and fired Kerlin unconscious.

At midnight County Policeman Golden heard that Kerlin's five assailants were located in a house on McDaniel street, and secured a warrant for their arrest. When the officers approached the house they were fired upon, with the result already stated.

PEACE CONFERENCE MET WITH APATHY. King, Cabinet Ministers and Public Seem Little Concerned at Prospects of War's Finish.

LONDON, May 17.—While every capitalist in London is eagerly awaiting the result of the peace conference at The Hague, the British cabinet ministers, who are meeting today to discuss the matter, they receive the steady fall of silver since the protocol was signed has imposed great hardship upon China, but they hope that if silver had risen, China would have profited correspondingly.

Sir Ernest Satow, the British minister recently appointed to a provisional division of the settlements already paid by the Dowager empress has been of the pro rata reduction. In the meantime United States Minister Conger had received instructions to reduce the claim of the United States by \$100,000, which complicates the question; and it is thought that the United States, in view of Great Britain's compromise, will withdraw the offer of a reduction.

The Dowager empress has issued an edict censuring Yuan Shai Kai, director general of the Pekin Shan Hai Kwei railway, and Director of Railways Kuo Yu Fen, for signing the railroad agreement, and ordering the board of punishment to prescribe penalties for the offense. Officials say the Russian representations that gave the British control of the railway at the expense of Chinese interests caused the edict. The prestige of Yuan Shai Kai and Hu Yu Fen is likely to be seriously affected.

Among the Chinese it is believed the Great Britain will consent to modify the railway agreement by waiving the provision for military districts.
