MORGAN IS BITTER

Secretary of Baptist Mission Society Regrets Growth of Catholicism

SAYS DEAL WAS MADE

Speaker Declares Archbishop Ireland Aided Republican Party in Return for Certain Concessions

Excursions in Afternoon.

There was a good attendance at the opening meeting of the Baptist Home Mission society in the First Baptist church yesterday morning, and while the session was not a long one it was full of interest. Gen. T. J. Morgan, of New York, corresponding secretary of the executive board, presented the report of the board in written form, after which he delivered an address that was the sensation of the meeting of the Baptist church yesterday morning.

country, has acquired vast political influence which he is using for the advantage of the Roman Catholic church.

Says Bargain Was Made.

"I have it on what I believe to be undoubted authority, that during the last political campaign, a definite bargain was made between Mark Hanna and Archbishop Ireland, that if the latter would throw his influence in behalf of the Republican party, certain concessions would be made to the Roman Catholics in reference to Indian schools.

In the course of the same address, Gen. Morgan said in part:

"The work of the American Baptist Home Mission society for the year ending March 31, 1902, is fully set forth in detail in the volume of the printed report, which is herewith presented to you. Instead of making from that report, I desire in a more informal way to sketch for you in outline the character of its work, its limitations, its encouragements and resources. Its work is well defined by its motto, 'North America for Christ.' Eliminating the Dominion of Canada and Porto Rico, from this should be excluded also the white population of the Southern states.

Summary of Difficulties.

"First—There is the inherent difficulty of persuading a vast number of people to accept a definite form of a religious belief and to voluntarily subject themselves to the limitations and responsibilities of their profession.

Second—A special difficulty is involved in the migration of the people who are slowly settling up the vast regions known as the West.

Third—A third and peculiar difficulty arises from the great variety of nationalities which go to make up the population.

Fourth—A very formidable difficulty is that of finding suitable persons as missionaries.

"Fifth—The difficulty of the work is enhanced by the vast and steady volume of foreign immigration which is flowing into the country like a flood.

"We are confronted with aggressive heathenism in this country. We have the strange spectacle of the Chinese missionaries delivering public addresses, explaining and justifying Confucianism as superior to Christianity.

"Another great hindrance that confronts this society in its work is the presence in this country of 8,000 negroes. They are here to stay, and before the close of the century they may number 20,000,000.

"Notwithstanding the formidable obstacles encountered, it is not too much to claim that there is steady progress toward the accomplishment of the end in view. During the past year 4,871 Baptist

churches have contributed to our society, which is about one-half the number of Baptist churches there are in the North who ought to contribute to the work.

Treasurer Makes His Report.

The session yesterday morning was opened with devotional exercises, after which Rev. E. M. Thresher, of Ohio, who presided, made a brief address. Frank R. Hathaway, treasurer, made his annual report on the financial condition of the society. The report showed that the society is \$13,000 in debt, and that last year \$57,532.25 was collected for home missions.
