SCIENTIFIC MISCELLANY.

Radium, the most active of the three new elements, emitting invisible radiations, has been proven by Prof. G. F. Parker to be a cheap and efficient substitute for X-ray apparatus for photographing the internal parts of the body.

The somewhat novel use of balloons for hydrographic surveys has been tried at the suggestion of two French engineers.

The sun, drawing its attendant planets, is journeying through space at the rate of eight to twelve miles a second.

The color-blind, those in whom the perception of light is normal but with a defect in the detection of color, are divided by Mr. F. W. Edridge into three classes based on a theory of color blindness.

Wood sleepers for railways have the disadvantage of short life under the most favorable conditions.

Acetylene gas is readily carburized by Dr. Caro, of Berlin, by passing it over a bed of iron filings.

The effect of intestinal bacteria upon digestion continues to attract experimenters.

Those who peer into the future stop at ways at one great calamity—the exhaustion of our coal.

Reference to sounds attracted to mosquitoes has led Dr. S. M. Lawrence, of Trinidad, to tell of the influence of the human voice.

Just as he went by the door a man came stumbling out, eyes blacked, nose bleeding and face generally mashed in.

Why, said the other, a man came up to me while we were in the mine and me a terrible blow in the nose and said, "Take that, you blasted Norwegian."

"Oh, wait till I tell it to you. Then he hit me another crack in the mouth, knocked me down and loosed half of my teeth, and said, "Take that, too, you blasted Norwegian."

"I see nothing funny in that," insisted the other man.

"Ha! Ha! Ha!" shouted the battered one. "The joke is that I'm a Swede."—Exchange.

FIGHT TO A FINISH

Neither Side to the Coal Strike Shows Signs of Yielding

THIS DAY MOMENTOUS

Much Depends Upon the Number of Engineers, Firemen and Pumpmen That Will Stop Work.

WILKESBARRE, Pa., June 1.—The eve of what is looked upon as a most important week in the anthracite coal miners' strike finds the entire region in an apprehensive mood.

At 7 o'clock tomorrow morning the order of the United Mine Workers of America, calling out all the stationary engineers, firemen and pumpmen, unless the companies grant them an eight-hour work day at present wages, will go into effect.

Both parties to the controversy are striving with all the power of their command to win.

Neither side tonight shows the slightest disposition to yield, and in the words of one of the superintendent, "it's a fight to a finish."

President Mitchell said tonight that this is the first time in the history of his organization that the union was compelled to call out this class of employes.

There is a fear that the coal belt that the coming week will witness disturbances. Tomorrow is looked upon by well-informed persons as a critical day.

The color-blind, those in whom the perception of light is normal but with a defect in the detection of color, are divided by Mr. F. W. Edridge into three classes based on a theory of color blindness.

A thorough system has been mapped out with a view of getting out those who will refuse to quit tomorrow.

The color-blind, those in whom the perception of light is normal but with a defect in the detection of color, are divided by Mr. F. W. Edridge into three classes based on a theory of color blindness.

Practically all the non-union men to be employed are in the region. The companies say that the number of those who will quit tomorrow is not known.

An arrangement of twenty-two armed coal and iron policemen, sworn in under a law of Pennsylvania, is in the field tonight to protect these men and the mining properties.

At a meeting of the engineers, firemen and pumpmen employed in the coal fields of the Schuylkill county, the two collieries of the Delaware, Lackawanna & Western company, held at the hotel where the men remain by a vote of about two to one to strike.

the mines will be considered equivalent to discharge. All who return to work are expected to vacate the houses.

MAHANOY CITY, Pa., June 1.—Three-fourths of the firemen, holding engineers and pumpmen comprising the day force of the Mahanoy valley collieries of the Mahanoy valley quit work this evening in response to the call of the miners' organization for a light-hour day.

SUSQUEHANNA, Pa., June 1.—The over 1,200 pump-runners and engineers employed in the Erie Railroad company's mines at Forest City, Susquehanna county, have voted not to go on strike on Monday.

TAMAQUA, Pa., June 1.—Today a meeting of delegates from all the locals in the district No. 1 of the United Mine Workers of America was held here to decide whether the pumpmen in the Panther Creek valley shall obey the order to strike tomorrow.

WILL TRY BOYCOTTING AGAIN. Difficultly in the Cincinnati Breweries Crop Out Once More.

CINCINNATI, Ohio, June 1.—On account of the difference between the brewers and others employed in the breweries of Cincinnati and Newport, Ohio, last February, the men who were locked out last February have resumed work except \$75.

Because of the refusal of the brewers to give employment to all of the \$75 out on the right, the United Mine Workers today decided to renew their efforts at boycott.

Because of the refusal of the brewers to give employment to all of the \$75 out on the right, the United Mine Workers today decided to renew their efforts at boycott.

FRENCHMEN SET SAIL

Members of the Rochambeau Commission Leave on Home Voyage.

HONEYED ADIEUS SAID

Close of a Remarkable Season of Manifestations of Friendship Between Kindred Republics.

BOSTON, June 1.—The sentiments of gratitude felt by the members of the mission delegated by the president of France to come to America to attend the unveiling of the statue of Count de Rochambeau, found full expression this afternoon at the French embassy.

A dinner was served on the Gaultois, attended by the secretary, representatives of President Roosevelt, representatives of the state of Massachusetts and the city of Boston, the members of the French embassy at Washington and the members of the Rochambeau mission.

The after-dinner was transformed into a homey affair under a canopy. Around were arranged the flags of the French and American republics.

Brugere's Goodbye. Gen. Brugere, who occupied a seat at the head of the table, proposed a toast, speaking in French, he said:

"I unite in my toast, France and America, not the France and America of 120 years ago, but the two republics of today—a toast to President Loubet, of the French republic, and to President Roosevelt, of the United States."

Rear Admiral Higginson said: "I regret very much to be obliged to fire a parting salute as you of the French mission leave the shores of America to return to your home in France. It seems to me that this Rochambeau mission has been most auspicious. It has touched a tender chord in the hearts of the American people which needed but the vibration given by this mission to give it its original force and strength."

The general understanding now is that on Wednesday, after the disposal of the Philippine bill, the Nicaragua bill will be called up and made the regular order of business.
