There were operations for a rise in a few prominent stocks, but they were not aggressively pursued and left no important net results. St. Paul, Missouri Pacific, Union Pacific, Canadian Pacific and the Atchisons we e more largely dealt in. It will be seen none of these saved as much as a point of net gain on the day, although Canadian Pacific rose at one time 1% over Saturday, and St. Paul 1%.

King Edward's Illness Is the Cause

of Weakness in London.

LONDON, June 16.—Stocks were stagnant and weak early on the king's illness. It was rumored that physicians had been telegraphed for, and it was whispered that his majesty had pneumonia. The final tendency was to recovery, as it was stated that the king was going to Windsor tonight, and that the trouble was only lumbago. Kaffir jobbers sold consols as a hedge to 96%. American were the hardest spot. The shares were idle but firm. New York bid up Union Pacific, St. Paul, Illinois Central, Atchison, Reading and Canadlan Pacific. London followed the lead, and the close was at the top. No gold is announced, but £300,000 reached the bank after hours. Paris exchange is 25.20%; Berlin, 20.45%. Silver is good on a short supply in London and India. Insurance on the king rose 2 per cent at Lloyd's. The stock exchange will be closed on Saturday, June 28. Copper fortnightly statistics show decreases in stock of 1,611 tons.

CORN ACTS AS A LEVER

BY ITS MANIPULATION WHEAT IS TAKEN TO A HIGHER PRICE

Weakness at the Start, Which Disappears When Trade Is Dominated by the Idea That the Big Bull Party Is Still Bent on Boosting Values-Oats the Only Grain That Closes Down.

a sharp slump to close 2c lower to 10c higher.

Corn was momentarily weak at the opening, in sympathy with wheat, and on the clearing weather and some early short selling. The trade was soon dominated, however, by the idea that the big bull party had not abated any of its previous intention to boost prices. When there was a fair show toward recovery from the opening depression, there was a movement on the part of the shorts in July that indicated that they thought it best to suffer losses now rather than later.

An attempt to cover a big line as the prices advanced, scared the little fellows. July, which opened as low as 63c, kept steadily advancing. Around 61c there was liberal unloading of longs, who bought near 60c. But this stayed the utward movement but slightly. The trade was in a position where probably maripulation was more important than anything else. This is expected to be the case for some time. Under these circumstances the pit experienced fair activity. July closed strring at its high point, Ic up, at 64%c. Receipts were 359 cars, but contract stuff was small.

Wheat's Rescue From Monotony.

Wheat's Rescue From Monotony.

Wheat was relieved from the dull monotony by the action in corn. Early liquidation on weather reports weakened this pit, but hung fire and haggled for some time. Cables were better, indicating cold weather in France. Statistics were generally bullish, but cropprospects were very good. When corn began showing its strength it developed short-lived activity. There was almost no buying business, and this prevented an otherwise probable sharp rally. As it was, there was little inclination to sell short, and July, after opening 1/201/20 to 11%c. rallied to a firm close, 1/20/20 up, at 72c. Very little cash business was reported.

Local receipts were 19 cars, 4 of contract grade; Minneapolis and Duluth reported 443 cars, making a total for the three points of 482 cars, against 398 cars last week and 470 a year ago. Primary receipts were 600,000 bu, compared to 682.00 br last year. Seaboard clearances in wheat and ficur equaled 37,000 bu, World's slipments were 7,400,000 bu, 2gainst 9,460.000 bu last week. at 394c. The rally in corn brought a slight recovery, July closing weak at ½ 6%c lower.

Trade in provisions was small and dult although prices in pork fluctuated widely. A run of 50,000 head of hogs at the yards depressed the hog market and influenced free early liquidation in provisions. Packers soon came to the support, however, and boosted prices sharply. There was some talk that the "big fellows" were not entirely in harmony today. July pork sold at \$17.40 early, and closed 10c up, at \$17.62\frac{1}{2}\$. Jul lard closed unchanged, at \$19.20, and July ribs 2\frac{1}{2}\$c lower, at \$10.37\frac{1}{2}\$.

The estimated receipts for tomorrow are: Wheat, 45 cars; corn, 370 cars; oats, 205 cars, and 23,000 head of hogs.
