in proper style at Stillwater. A committee having secured donations will insure a first-class programme. There will be athletic and aquatic exercises and a ball game in the afternoon between the Joseph Wolf company team and the Toozes, of Minneapolis.

August Wolsahn, who is employed at the Stillwater Manufacturing company's plant, lost two fingers of his left hand in a joiner yesterday.

Schuyler Colfax, mayor of South Bend, Ind., arrived here yesterday on a visit to his wife and her parents, Mr. and Mrs. John G. Nelson.

The Spruce river, Tamarack and Eau Claire lakes drives have reached the St. Croix, and with the St. Croix drive now being sluiced through the St. Croix dam will reach Nevers dam early in July.

The combined drives aggregated about 75,000 feet.

A meeting will be held here next Monday night to consider the question of holding a street fair in this city some time in September. The soliciting committee for the Fourth of July celebration yesterday found many business men in favor of a street fair and carnival, and the decision arrived at next Monday's meeting will unquestionably be in favor of a street fair.

Local mail carriers have elected Matthew Butler as their delegate to the national convention of mail carriers, to be held in Denver.

The Isaac Staples and howboat will arrive this morning and will leave with a tow of lumber for Dimmock & Gould, Moline, Ill., and dealers at Lyons, Iowa. David Bronson is expected home this morning from Dubuque, where he superintended the work of raising the steamer Ravenna.

TELLS OF BISHMAN MURDER.

E. R. Bahr, One of the Trio Under Arrest, Makes Statement. Special to The Globe.

WASICA, Minn., June 20.—The coroner's inquest in the Bishman murder case held a session today, and this afternoon brought in a verdict that the murder was committed by Charles Kuyath and E. P. Bahr, who were arrested yesterday.

The evidence warranted the belief that Charles Kuyath was a party to the crime, and that his connection with the murder was established by the authorities. As a result, all three of the parties are under arrest, charged with murder.

Charles Kuyath is about seventy years old and of little means. Fred Kuyath is his son, and about thirty-five. Bahr is aged about twenty-five. He has a good reputation and also is a farmer.

The actions of the two Kuyaths show that they intend to saddle the crime upon Bahr. He in turn has admitted his connection with the crime and made a partial confession.

Bahr's story is to the effect that he went to the killing in a chariot party and that he was invited into the house with the two other members of the party. He was there when the murder was committed.

He said that there was some trouble in the house and that they were asked to leave. He told in detail how Bishman and his friend had been attacked and beaten.

They agreed between the three of them that they should tell the same story, to-wit: That they knew nothing of the crime, and that they were invited into the house and that they were there when the murder was committed.

He said that they were asked to leave the house and that they were there when the murder was committed.

NOT COLLECTING PROBATE TAX.

Internal RevenueAwaiting Court's Action in Bond Cases. Special to The Globe.

WINONA, Minn., June 20.—Deputy Revenue Collector Lobdill has been spending several days in Winona this week, winding up the business in his department here for the fiscal year, which closes with the 30th of June.

Mr. Lobdill says that the department here for the present dropped proceedings for the collection of a probate tax on all bonds given in connection with the transaction of probate court business.

Both the present and former probate judges here claimed this collection was not intended by the amendment to the war revenue tax, and could not be enforced.

This same point is being raised at the Omaha, where the matter has been taken into the courts. Pending a decision there the department is not enforcing the collection of the tax.

NEW PAVING FOR CROOKSTON.

Council Decides to Use Asphalt on Business Streets. Special to The Globe.

CROOKSTON, Minn., June 20.—At the adjourned meeting of the council last evening a resolution was passed to pave the business streets of Crookston with asphalt.

The city engineer has commenced to prepare the plans and specifications, and as soon as these are completed bids will be asked for, and the contract awarded, so that the work can be finished before winter.

In addition to the asphalt pavement, which will comprise some twelve blocks, there will be between fifteen and twenty blocks of granite macadam pavement laid.

TRADE OUTLOOK FINE

Things Will Go Swimmingly as Soon as the Coal Miners' Strike Is Over

BUSINESS HEAVY NOW

Anthracite Troubles Are Still Comparatively Localized, and Movement of Merchandise Elsewhere Shows Increase.

NEW YORK, June 20.—Bradstreet's tomorrow will say: Conditions governing present and future trade show very sharp contrasts.

While the immediately present situation is clouded by the rather less favorable industrial outlook and the prospect of an extension of the coal strike in the bituminous fields, the continued favorable progress made by all the leading crops lends assurance that once the present strained condition of industrial affairs is relieved, a large and prosperous fall and winter business is assured.

That in spite of disturbances, past and present, a heavy business is going forward is proved by the continued fine reports of railroad earnings for this season of the year, very heavy bank clearings and the comparatively small number of business embarrassments reported.

It, of course, must be borne in mind that the coal trade troubles, though making their influence felt in a wider area than before, are still comparatively localized, and outside of sections immediately affected, in such places as the central West, the Southeast and the Northwest, business both present and for future delivery is of good volume, in most instances in excess of a year ago.

Few Agricultural Flaws.

With the exception of too much moisture in the Southwest, interfering with the harvesting and condition of wheat, and continued dryness in Texas, spilling grain and impairing cotton conditions, the agricultural outlook is practically without flaws.

Timely rains have also improved the cotton crop situation in the South Atlantic, Eastern Gulf states, Tennessee, Arkansas and Indian Territory, Louisiana and Texas note that the weather is dry and that cotton needs rain.

Rains on the Eastern coast have helped the vegetable and fruit crops, which are suffering from dry weather.

FRESH BLACK EYE FOR ANTI-TRUST LAW

Illinois Statute Is Once More Judicially Pronounced Unconstitutional.

CHICAGO, June 20.—In a decision given today, Judge Stanley, of the state circuit court, held that the Illinois anti-trust law of 1891 is unconstitutional and void in all its parts.

He ordered a judgment in favor of the defendant in the case against the Butler Street Foundry and Iron company.

Judge Haney's decision practically all that was left of the anti-trust statute of Illinois is declared to be a nullity.

There were three other cases, similar to the one passed upon by the court, a like finding was entered pursuant to a stipulation among the attorneys.

The prosecution based its case principally upon section 1 of the act of 1891, which provides for the filing of affidavits by corporations annually with the secretary of state, showing that they are not a party to any pool, combination or trust.

Judge Haney held that the law of 1891 amended the law of 1891 and that the supreme court of the United States has decided that the law of 1891 is unconstitutional.

The present trust act of 1893, was declared to be illegal by the federal supreme court last March.

Counsel for the prosecution gave notice of an appeal to the state supreme court.

CLAIM McDOWELL HAS SKIPPED WITH \$50,000

President of United States Trust Company Is Wanted by Police for Alleged Embezzlement.

PHILADELPHIA, Pa., June 20.—As a result of the assignment of the United States Trust company the police are looking for Henry R. McDowell, its president, a member of the New York bar, to arrest him on information given to by Charles L. Brown, assignee, charging him with larceny of its securities and embezzlement of its funds to the value of \$50,000.

It is believed, however, that McDowell is already on his way to Europe. McDowell was elected president of the company about six months ago.

There were 200 shares of stock, at a par value of \$25. The first thing McDowell did, it is said, was to secure the authorization of 10,000 additional shares, with a face value of \$250,000, which were given to him for negotiation.

In addition to this, when he was made president of the company he was entrusted to him securities to the value of \$50,000. To meet the expenses of the company he had to give them, and matured within the last few days and the amount necessary to pay them could not be found by the treasurer.

A meeting of the officers was called and assignment was made Tuesday to Charles L. Brown.

Mr. Brown, after an investigation, demanded a return of the securities, but was refused by having killed Mrs. Castle by slashing her throat with a razor.

The first jury disagreed and the second found her guilty and assigned her punishment of ten years imprisonment. This verdict was reversed on a technicality.

COAL SUPPLY IS SHORT

GENERAL SUSPENSION OF MINES WOULD TIE UP INDUSTRIES

Many Men Are Now Joining the Unions—There Are Over 450,000 Operatives in United States, and of These More Than 300,000 Are at Present Affiliated With the National Organization.

INDIANAPOLIS, Ind., June 20.—It is estimated by W. B. Wilson, secretary and treasurer of the United States Mine Workers of America, that the present supply of bituminous and anthracite coal above ground is not sufficient to last for three months if there should be a general suspension of work in the mines.

According to this estimate, if the National convention of Mine Workers in Indianapolis July 17 should vote in a general suspension of work, in support of the anthracite strike, as is now proposed, the vast intricate machinery of the United States would be handicapped for fuel so that thousands of factories would have to suspend.

450,000 Coal Miners in Country. Wilson has statistics showing there are approximately 450,000 miners in the country, scattered through thirty states. The miners of twenty-four states would be actively involved if there should be a suspension of operations.

In Idaho, Nevada, California the largest supply of coal is in the bins at Buffalo, N. Y., and other cities along the Great Lakes. Mr. Wilson says it is impossible to keep a large stock of bituminous coal in the country because of the liability of loss from spontaneous combustion.
