FACING THE QUESTION

Is it cheaper to advertise in the Yellow Fever Epidemic? If you put the question to yourself you will answer it one way: "Advertise." But you do not believe advertising will pay YOU. If it pays thousands of advertisers who spend their money in newspaper space it will pay you. If it has paid others in the past it will pay you to use the St. Paul Globe now.

"IT'S THE BEST YET" THROWS HERSELF IN FRONT OF A TRAIN

Public Greatly Pleased at Good News of King's Condition

DANGER ALMOST OVER

All Professional Opinions Are Distinctly Favorable and Hopeful—Danger of Peritonitis Almost Passed.

LONDON, June 27.—King Edward's improvement was maintained at 1 o'clock this morning. The following bulletin was issued from Buckingham palace tonight at 11 o'clock: "His majesty's condition is in all respects satisfactory. The king has had a comfortable day and has made substantial improvement."

"It's the best yet," was the public comment with which the bulletin posted at Buckingham palace at 11 o'clock was greeted. A small crowd waited before the palace until the bulletin was brought and when the grand news became known there were cries of "hear, hear," and cheers.

Lord Churchill, the acting lord chamberlain, drove up to the palace just as the bulletin was issued, and he expressed his keen pleasure over the doctor's report of the king's condition. After learning the contents of the bulletin the crowd at the palace quickly dispersed and the rejoicing which was already apparent in the crowded streets increased in keeping with the terms of the latest report.

The prince and princess of Wales dined at Buckingham palace tonight in company with several royal personages. All the diners returned early to their homes. The unanimity among prominent physicians in expressing their opinions as to the case of the king is quite remarkable. All the professional opinions gathered are distinctly favorable and hopeful, the doctors regard the danger of peritonitis as now almost past and believe his majesty's recovery to be entirely probable.

Liverpool was illuminated tonight in recognition of the good news. BUSINESS IS PARALYZED. Bank Holiday Finds City of London Deserted. LONDON, June 27.—What was to have gone down to history as Procession day, when it was expected there would be the greatest crush ever witnessed in the streets of London, finds the city practically deserted. The bank holiday proclaimed for today paralyzed business. The masses apparently surfeited with their eventful wanderings in the streets yesterday, either cleared out to the country, tempted by the perfect weather, or else stayed at home. Certainly the main thoroughfares could not have been more deserted on any Sunday in the year. The big hotels, however, were each an oasis of activity amid the otherwise general stagnation. Many Americans are preparing to start for the continent, and have already gone there or to the country, while numbers took advantage of the fine day to visit the great fleet assembled off Spithead. Sir Thomas Linton is entertaining a distinguished party on board his steam yacht Eric.

The fashionable cafes and restaurants were thronged with smart luncheons, while extensive but quiet preparations were made for week-end house parties at the surrounding country places. A number of Americans are preparing to start for the continent, and have already gone there or to the country, while numbers took advantage of the fine day to visit the great fleet assembled off Spithead. Sir Thomas Linton is entertaining a distinguished party on board his steam yacht Eric.

PATRICK WILL TURNED DOWN. The Murdered Millionaire's Wealth Goes to Rice Institute. NEW YORK, June 27.—Surrogate Frank T. Fitzgerald this afternoon handed down his formal decision, and decree in the litigation over the two alleged wills of the murdered millionaire, William Marsh Rice, admitting to probate the will of Sept. 28, 1886, under which the Rice institute, of Houston, Tex., is the residuary legatee and denying probate to the alleged will of June 30, 1890, commonly known as the "Patrick will," under which Albert T. FREEDOM ON JULY 4

Amnesty Proclamation to the Filipinos Will Be Issued on That Day

ALL FOR SAKE OF PEACE

President and His Advisers Decide to Make Occasion as Patriotic as Possible—Affects Only Political Prisoners.

WASHINGTON, D. C., June 27.—At the meeting of the cabinet today the terms of an amnesty proclamation to the Filipinos, which it is contemplated to issue on the Fourth of July were agreed upon. The war department for some time past has had under consideration the draft of a proclamation and has found it necessary to make a number of changes in its text. In its modified state it was agreed by the cabinet today and Secretary Root will cable it to acting Governor Wright for his inspection. If it meets the latter's approval, nothing will be done until the Philippine congress remain for the president, if the Philippine civil government bill is a law on that day, as is now expected it will be, but to issue on Independence day a formal proclamation setting forth terms of amnesty for all political offenders on the islands, including Aguinaldo and those held at Guam.

THEY WERE HAVING A HIGH OLD TIME Illinois Congressman and His Secretary Are Run in by Washington Police Officer. Special to The Globe. WASHINGTON, D. C., June 24.—Representative Frederick J. Kern and his private secretary, Charles A. Karch, were arrested last night for disorderliness. They failed to appear in the police court this morning and forfeited for their lateral which they had deposited for their release from the police station, where they spent several hours in a cell. Kern and Karch were arrested on Pennsylvania avenue. They were having a high old time, and when the officer tried to quiet them, they became more boisterous. Then they were led away to the police station. Kern represents the Twenty-first district of Illinois in the house and he had been nominated for re-election.

TRUST TO CONTROL ENTIRE COAL OUTPUT

Alleged Syndicate Formed by J. P. Morgan at the Head to Buy All Big Mines. KANSAS CITY, Mo., June 27.—The Star says: All the big coal mines in Missouri are to be absorbed by a syndicate controlled by J. Pierpont Morgan, according to R. G. Rombauer, of Jeffersonville, Mo., a coal operator. "An effort was made about a year ago by Mr. Morgan's Chicago representative to organize a syndicate in Missouri," said Rombauer. "The negotiations were not successful, but a new plan of absorbing the Missouri mines was recently proposed and the indications are now favorable for the consolidation of the coal output of the state."

"The Missouri operators have had so much trouble with labor unions and with railroads that many good mines can be bought for reasonable prices," said Rombauer. "The plan to consolidate Missouri mines by Eastern capitalists was only part of a plan to form a trust to control the output of the United States."

BIG STORM AT GALVESTON.

Wind Blows a Gale, but Tide Is Not Dangerously High. GALVESTON, Tex., June 27.—The wind and rain storm which struck Galveston last night continued at increased intensity all day. The wind held steady from the southeast and reached a velocity of sixty-five miles an hour, with one or two-minute gusts, during the early portion of this morning. The tide was not above normal, but the storm, which originated in the west gulf and passed inland, with its center 150 miles west of Galveston, made itself felt on the island. Tonight the wind is blowing thirty miles an hour, but the damage reported in Galveston was the burning out of fifteen motor cars by the water getting into the motors.

Regarding Friars' Lands. Another subject under consideration at the cabinet meeting today was the negotiations for the purchase of the friars' lands in the Philippines. Secretary Root took with him to the meeting all of the correspondence which has passed between himself and Gov. Taft while the latter has been carrying on his negotiations at Rome. It is understood that Secretary Root feels great confidence in a successful outcome of Gov. Taft's efforts.

The cabinet also took up the question of naming the naval vessels provided for in the naval appropriation bill, and it is stated, a decision was reached in that case, but it is desired not to make the names public until the vessels are actually authorized. The cabinet meeting was held in the president's temporary quarters on Lafayette square and was the first time in eighty-eight years that a regular session of the cabinet had been held outside the White house.

J. P. Spence Is Arrested There Charged With Embezzling \$14,000 in Former City.

SAN FRANCISCO, Cal., June 27.—J. P. Spence, said to be manager of the United States Realty association, at Duluth, Minn., has been arrested here on a warrant telegraphed from the chief of police of Duluth, charging embezzlement. Spence was found with his wife and two children in a private house in Sutter street. He was quite ill, and could not be removed.

Spence came to San Francisco June 16, with his family. To the detective he asserted he did not know why he was wanted in Duluth. He said he came to California solely for his health.

DULUTH, Minn., June 27.—J. C. Spence was the agent at Duluth for the United States Installation Realty company, a concern that had been organized in the co-operative plan. He disappeared from here about two weeks ago, and at that time was supposed to be short about \$100 in his accounts. This shortage has since grown to \$14,000. It was suspected that he had gone West, and all Western points were notified, but the authorities here had about given up hope of his capture.

Machinists here declare that by tomorrow night there will be a walkout of machinists in the shops along the whole system.

TELLER HITS HARD

Gives Republicans a Heart-to-Heart Talk on Cuban Tariff Matters

HE INSISTS ON ACTION

Claims There Has Been One of the Boldest Attempts to Deceive the American People.

WASHINGTON, D. C., June 27.—Mr. Teller, taking advantage of the latitude of debate, addressed the senate on the subject of Cuban reciprocity. He said he did not think it proper to let this session of congress adjourn without submitting some facts on the subject.

After asking for the printing of several documents Mr. Teller referred to the statements made of the distress in Cuba and to the statements that unless the United States should give relief to the island a revolution would occur. Mr. Teller declared that the statements were untrue, and that there was no such condition in the island which warranted the statements. He said that it had been proved affirmatively that no such condition existed in the island, "measuring my words, that never in my experience in public life has there been so patent and open an attempt to deceive the American people as this."

He said that the attempt at deception was made by those who were relying upon the well known desire of the American people to see Cuba free. "Discussing the beet sugar industry the Colorado senator said the question was one of great importance to the people of the West. They studied it, and did not take them long to ascertain that the American Sugar Refining company—the American sugar trust—was particularly urging the reduction in duty on Cuban sugar. He said there was some desire on the part of the Cubans to secure a reduction of duty on tobacco, but that was lost sight of in the propaganda for a reduction in the duty on sugar."

"Under no Obligations to Cuba. "There has been," he declared, "more misrepresentation and misstatement about our obligations to Cuba than about almost any other question. Every obligation which we have assumed toward Cuba has been performed, and I challenge any senator to indicate any obligation this country is under toward Cuba," he declared. "The correspondence between the people of the island proves this. The Cubans are not mendicants at our hands. The American holders of sugar lands in the island are not American Sugar Refining company are at the bottom of this effort to change our fiscal system with respect to Cuba."

Mr. Teller said that Cuba was one of the richest countries in the world, and he referred to her enormous exports. He asserted that the Cuban laborers received from \$2 to \$3 a month in gold, a sum, he thought, without which they could live quite as well as the laborers in this country.

"Discussing the diplomatic situation of the Cuban government, Mr. Teller expressed the belief that the Platt amendment ought not to have been adopted by the United States, as it was a violation of the principle of good faith on the part of the United States."

He pointed out that Cuba might make a commercial agreement with Great Britain, and that the latter country might have advantages over the United States. He hoped no such agreement would be made, but Cuba could make such agreement if it desired. He said that notwithstanding the fact that thousands of laborers recently had arrived in Cuba from Spain, labor in the island was scarce and high priced. In such circumstances there could be, in his judgment, no great distress.

Referring to the bill passed by the house, Mr. Teller said: "When the differential was taken off there would be a great falling off in interest in reciprocity on the part of the sugar trust."

"On the part of the beet sugar people, too," interjected Mr. Spooner. (Laughter.) "No, no," replied Mr. Teller, "we did not go that far. He understood that a reciprocity treaty with Cuba would be presented at the next session of the senate."

"I think, said he, that it will be exceedingly unfair to the American sugar growers—both beet and cane—to make the proposed concessions to Cuba and let her maintain her present labor laws and compel the states of Colorado, Utah, Texas and other states to compete with Chinese labor in the island."

"General Revision of Tariff. "I am willing to join you," said he, "addressing the Republican side, upon general revision of the tariff, which is a proper reduction of the tariff to meet changed conditions, but I don't propose to submit to a reduction alone on any product of American farmers, which has any real protection. When you take 20 per cent duty off steel and iron, I speak for my people, then we will agree to a reduction of duty on sugar. We can make all sugar necessary for the United States in this country, if we are given only equitable protection. There is reciprocity on protection that covers no other article and we are going to insist on it."

In conclusion he said the provisions of the bill for concessions to Cuba proceeded on the assumption that the American people were unable to produce enough sugar for their own use.

SENATE WANTS CONFERENCE. Philippine Bill Amendments Do Not Suit Senators. WASHINGTON, D. C., June 27.—A conference report on the bill amending an act to provide a code of laws for the District of Columbia was agreed to by the senate and the Philippine bill and a joint resolution appropriating \$100,000 for a monument to prison martyrs to be erected at Fort Green, Brooklyn, N. Y., was passed. It provides that the American people were unable to produce enough sugar for their own use.

A joint resolution was passed providing for the printing of 50,000 copies of the memorial address on the late President McKinley delivered by Secretary Hay. The senate disagreed to the house amendment to the Philippine bill and asked for a conference, the conferees named being Messrs. Lodge, Allison (now) and Culberson (Tex.). The general deficiency appropriation bill was sent to conference with Messrs. Hale, Allison and Teller as conferees. Mr. Pettus (Ala.) offered the following resolution: "Whereas, it is asserted that American... Continued on Second Page.
