

COURT OF HIS OWN MAKING

"Elijah" Dowie Surprises the Natives of the Old Windy City

SPONSOR FOR ALL ZION

FOLLOWERS MUST AIR INDIVIDUAL DIFFERENCES BEFORE THE "PROPHET"

MASTER AND JUDGE OF HIS ENTIRE PEOPLE

Eccentric Leader of an Eccentric People Takes Up an Old State Law and Will Take Advantage of It.

CHICAGO, July 7.—John Alexander Dowie is planning to take the law into his own hands. In Zion City he proposes to establish a city court which, under the statute, would have equal jurisdiction with the circuit court of the county. The court may also appoint a master in chancery. Civil and criminal cases, other than charges of treason and murder, may be heard by the tribunal.

Similar courts have already been established in many cities of Illinois, East St. Louis, Alton, Elgin and others being on the list. There, as will be the case in Zion City, if Dowie takes advantage of the law, as he declares he will, the sheriff and other officers of the constabulary elected by the county at large, have to serve for the city court the same as they serve for the circuit or criminal courts, having jurisdiction directly in that political division of the state.

One of the peculiar features of the operation of such a court if once established will be the relationship it will bear to the religious sect of which Dowie is the acknowledged head. It is strongly intimated that the members of the Christian Catholic church will, by performance of mandate from the leading spirit of their organization, be obliged to air their individual differences before the tribunal for which Dowie will stand sponsor. The election of a judge and clerk and the appointment of a master in chancery, it is expected, will follow commands emanating from the ruler of Zion City.

Crops in Country Near Hartland, Wis., Suffer Heavily—Much Damage to Property.

HARTLAND, Wis., July 7.—Last night's storm was the worst that ever visited this section of the country, doing great damage to crops and property. A barn on George Molster's farm, near Merton, blew down, killing two of Mr. Lemke's children. Also a number of barns and houses were demolished at A. L. Smith's place on Pine Lake, as well as in many other places. Valuable shade trees were uprooted.

A barn on the farm of Peter Johnson, east of the village, was lifted from its foundation and carried some distance. On the Crouch farm, north of town, a large barn was completely wrecked and strewn in every direction. Crops suffered great damage and the country is strewn with fallen trees.

WILL BE BURIED AT STOKES.

Final Resting Place of Pauncefoot's Body Decided Upon.

WASHINGTON, D. C., July 7.—It has been determined that the body of Lord Pauncefoot, late British ambassador at Washington, shall be interred at Stoke, near Newark, in Nottinghamshire, England, instead of at the old Pauncefoot estates at Preston. Stoke is a short distance from London, and is the seat of Sir Henry Bromley, who occupies Stoke Hall. The Bromleys are a branch of the Pauncefoot family, and one of the younger Bromleys married a daughter of Lord Pauncefoot. It is deemed desirable, therefore, to have the body reinterred here rather than to be taken into the old home at Preston, from which the remains have been separated for some time. Moreover, the ancient burying place at Preston has been closed owing to the number of bodies there, and the decision has been made to place the body where the United States ambassador, Brooklynn arrives at an English port.

MAY SETTLE STRIKE

Freight Handlers Trouble at Chicago Likely to Be Adjusted Soon

SENTIMENT IS DIVIDED

Federation of Labor Said to Be Wroth Over the Action of the Men—9,000 Employees Out of 12,000 Are Now Out.

CHICAGO, July 7.—Hopes of a speedy settlement of the strike of the Freight Handlers' union, which was declared today, are entertained tonight by officials of the union and members of the state board of arbitration. The officials of the union at a conference tonight told Chairman Job, of the board of arbitration, that they were willing to permit employees of the different companies to meet officials of the same to discuss the wage scale, providing a joint conference should be held at which officials of the union would be permitted to act as advisers to the men. The arbitration board is now working on the matter in an effort to bring about a conference between the railway managers and committees representing the men.

As the railroad officials have favored this step from the beginning of the controversy there is little doubt that the strike can be settled satisfactorily to both sides if the conference shall be arranged.

Lack of Unanimity.

Lack of unanimity already permeates the strike. The Chicago Federation of Labor was ignored when an order was issued for the men to quit work, and its executive officials are somewhat offended and are inclined to let the freight handlers fight out their battle in their own way. There are 12,000 freight handlers in and about the various freight houses of the city, and the various freight houses are being surveyed by the geographical survey, and have been cited as probably the places for the start to be made. The secretary wants to go slow, taking time to make sure that the works will pay and that no delicate questions of law shall interfere.

Were Forced to Strike.

The men there employed were receiving all the consideration they had asked. They were forced to strike, however, by order of the executive committee of their union. Before going out the men informed the railway officials of the situation and said that they would seek an immediate return under orders from the authority that ordered them out.

The sudden suspension of customary operations by the freight handlers today occasioned a considerable amount of delay and were but a drop in the bucket to what is expected tomorrow and later in the week if the strike shall not be settled soon.

Teamsters May Come In.

To add to the present difficulties of the railroads the teamsters and Truck Drivers' union threaten to join in a strike if the freight handlers' strike will affect all incoming and outgoing freight of every kind. Every railroad in Chicago today accepted all freight offered, while it has been reported that several railroad officials that freight was not being moved as expeditiously as heretofore, yet it was said the largest part of it was being handled reasonably well.

There was no trouble or disorder in or about any freight house.

Anticipating the possibilities of such a strike the Chicago companies, in order to bring to Chicago a considerable number of men to take the places of the strikers. These men were intercepted by pickets of the Freight Handlers, offering the services of the board in attempting to bring about a settlement. So far it has received no reply from any of them.

ALL QUIET AMONG MINERS.

No Signs of Weakening on the Part of Either Side.

WILKESBARRE, Pa., July 7.—With President John Mitchell in New York and all the other miners' leaders at Nanticoke attending the annual convention of District No. 1, strike headquarters was an extremely quiet place today. The ninth week of the suspension of anthracite coal mining shows no change in the situation; or that either party to the controversy is ready to quit. The visit of the miners' chief to New York continues to arouse interest. No word of his movements in the metropolis has been received here, and there is much speculation as to what caused him to go there. Conditions in and about the collieries remain unchanged except that the heavy rains of the last few days have increased the amount of water somewhat in many of the mines.

ULTIMATUM TO THE MINERS.

Michigan Operators Will Withdraw Proposition July 12.

BAY CITY, Mich., July 7.—Mining operators of Michigan met here today and presented an ultimatum to the miners, notifying them through President Williams that the propositions submitted at the recent meeting in Saginaw must be accepted by July 12 or they would be withdrawn. At the Saginaw meeting the operators and miners' committees agreed upon a scale which was to be submitted to the local unions.

The operators say they supposed this scale was to be voted on at once, but instead the miners deferred action until July 30, after the national convention. This, the operators claim, is bad faith on the part of the miners, and they want action before that date. A letter embodying their ultimatum will be sent to the state president at once.

DESPERATE FIGHT ON ROOF OF AN ELEVATOR

Painters Engage in a Fierce Scuffle on Top of Building Two Hundred Feet High.

Special to The Globe.

CHICAGO, July 7.—William Atgar and William Bartholm, painters employed at the Fourth elevator, One Hundred and Fourth street and the Calumet river, South Chicago, quarreled today while working on the roof of the structure 200 feet above the ground.

Bartholm accused Atgar of not paying his debts, and Atgar, the police say, drew a revolver and fired at his companion. Bartholm turned and fled down the stairway. In his haste he fell down two flights. Though Atgar is said to have fired five times, only one bullet struck Bartholm, his right hand being wounded.

EXPERIMENTAL IRRIGATION PLAN

Exploration Parties to Be Sent Out to Select Parties for Beginning the Work.

From the Globe Washington Bureau.

Post Building

WASHINGTON, D. C., July 7.—F. H. Newell, chief of the division of hydrography, has recommended to Secretary Hitchcock that before determining on the location of the first experimental irrigation projects, exploration parties be sent into all of the six semi-arid states for the purpose of determining where a start can be made to the best advantage. There are about 85,000,000 acres on hand with which to begin the work, and it is expected that the secretary will allot some of this for the work of survey. It is not definitely determined that the first plans will be built at Truckee, St. Mary's and Gila rivers. These localities have been most thoroughly surveyed by the geographical survey, and have been cited as probably the places for the start to be made. The secretary wants to go slow, taking time to make sure that the works will pay and that no delicate questions of law shall interfere.

He said he was the fourth to go. Protests were sent to Rome, and later the twenty-nine priests, as well as Bishop Matz, went there to state their case before the vatican. The fight has continued without success ever since 1888.

CHAMBERLAIN HURT

Colonial Secretary in a Serious Accident in Whitehall

THROWN FROM HIS CAB

While His Wounds Are Not Dangerous He Will Be Confined to the Hospital for Some Time—Conference Is Postponed.

LONDON, July 7.—The colonial secretary, Joseph Chamberlain, was somewhat severely cut on the head this afternoon as the result of a cab accident in Whitehall.

The secretary's hansom was passing through the Canadian arch, when the horse slipped and Mr. Chamberlain was precipitated forward with great violence. His head struck and shattered the glass front of the cab. When excited it was seen that Mr. Chamberlain's head was badly lacerated and bleeding profusely. A policeman helped the secretary into a cab and accompanied him to a surgeon's office.

Mr. Chamberlain was taken to Charing Cross hospital, where his injuries were dressed, and though his wounds bled a great deal, they were not serious.

NORTH DAKOTA MAN HAS BIG JOB ON HAND

Otto Faust, of Valley City, Declares He Is Going to Save Chicago and Is Locked Up.

Special to The Globe.

CHICAGO, July 7.—"I am here to save Chicago and the Lord will take care of me," said Otto Faust, of Valley City, N. D., as he left a train at the Grand Central depot shortly after 1:30 o'clock this morning. In one hand Faust carried a large grip which contained his clothes and money. In his other hand he carried a Bible.

As he made the remark he hurled the grip into the cab of an engine standing on an adjoining track and continued his journey into the heart of the city which he says he intends to save.

A policeman was called, but before he could make inquiries concerning the new arrival Faust stepped up to him and said:

"Please direct me to the house of the mayor of Chicago at once. I am here to save Chicago and I want to have a conference with him before starting the work."

Faust said he left a wife and eight children and a farm of 1,400 acres in North Dakota because of a vision which he had. In the vision he was told that Chicago was to be damned unless he came to the city and saved it.

He valued the salvation of the city more than his earthly possessions, he said, and boarded an early train for Chicago. Faust was taken to a police station, where he spent the day singing hymns.

ENDS TROUBLE WITH BULLETS

Drunken German Kills His Wife and Fatally Wounds a Friend and Himself.

NEW YORK, July 7.—Karl von Boeckmann shot and killed his wife, fatally wounded O. F. Furell, a friend of his family, and then sent a bullet through his own head today. The shooting occurred at the home of Mrs. von Boeckmann, in the upper part of Manhattan. A sister of the dead woman said Von Boeckmann had served eighteen months for burglary in a Massachusetts prison and that in the meantime his wife had put two of their five children in an institution, allowed another to be adopted and supported herself and the other two under the anti-bucket shop law until he was released. He had no money to live with his wife in the flat where the shooting occurred today, but the man took to drink, it is said, and treated his wife so badly that she caused his arrest.

He was sentenced to imprisonment, but was returned and got into the flat while his wife was out. She with began shooting. Furell fought with him to get the pistol, but was overpowered and shot twice. Then Von Boeckmann went close to his wife and shot her through the head. Then he put a bullet in his own head. The coroner said neither of the men could live.

NEWSPAPER CORRESPONDENTS LOADED TO THE BRIM WITH HOT STUFF

Campaign Committee Calls on President and He Promises to Help Them Out of the Hole—Ray Says Publicity Is "Rot."

From the Globe Washington Bureau, Post Building.

WASHINGTON, D. C., July 7.—Cheap campaign material is all there is in the great notoriety being accorded Roosevelt to get a fine new anti-trust law passed at the next session of congress. There is no doubt that the president has authorized announcements on this subject. He took newspaper correspondents in a corner last Saturday and told them all a "good story." Mr. Littlefield, of Maine, was to draw the bill and congress was to pass it. The whole would be along the lines of his message. Publicity, would be the
