GARDNER SR. IS OUT

ACTING MAYOR POWERS APPOINTS FRANK HOPPER ACTING LICENSE INSPECTOR

THE AMES STALWARTS ARE FALLING ONE BY ONE

Aid. Jones Will Return to the City Thursday and Assume the Reins of Government—It Is More Than Likely That He Will Make Several Changes in Police Department.

The only real startling development in police circles yesterday was the resignation of license inspector A. L. Gardner, father of Irwin A. Gardner, who was convicted of bribery and sentenced to six and a half years in the penitentiary.

Yesterday morning when A. L. Gardner reported for duty acting Supt. Gatchell informed him that his resignation would be acceptable; this was the first inkling that Gardner had that he was about to be deposed. He lost no time however in handing in his withdrawal notice. In his resignation he embodied the following: "Because I am a friend of Mayor Ames."

Hopper Is Promoted.

Frank Hopper, assistant license inspector, was appointed to take his place until the return of president of the council, D. P. Jones, who will be acting mayor for the balance of the term, and whose return is expected next Thursday. It is hard to tell just what action Mayor Jones will take with the appointees of Mr. Powers, but it is more than likely that most of them will be approved, although if they are not there will be no hard feelings among those who have been placed at the head of several of the departments, as they were given the places and accepted them with alacrity. To which they would be only temporary, pending the return of Mr. Jones.

Should Mr. Jones remove all of the new appointees and fill the places with other men, there would not be a kick, as some of the men appointed feel as though it was only temporary. Aid. Jones has been heard from by wire. The first telegram he sent reads: "Wire just received about recent events. Will return immediately. Kindly hold matters until my return." Mr. Powers wired him a second time informing him of the changes that had taken place, and that everything was running smoothly. To which Mr. Jones replied: "Telegram gratefully received. Will be home Thursday."

New Officials Are Busy.

Acting Mayor Powers and Private Secretary Jones were both busy yesterday getting acquainted with the duties of their office. During the morning they had distinguished callers in the persons of Col. Ames, Tom R. Brown Jr., Capt. C. R. Hill and Ed Stevens.

Mr. Ames said he was satisfied with the manner in which things were being conducted. He said that he was glad to again be a private citizen, and also added that a certain few who had been after his scalp had received the same treatment that had been given him.

Detectives Must Work.

Acting Superintendent Gatchell is making preparations to have the plain clothes force who hang around headquarters do a little more work in the future than they have been doing in the past. It is understood that he is to distribute them in different parts of the city, especially where burglaries have been frequent in the past, and have them do a little patrol duty outside of the regular work for which they received assignments in the past.

Burglaries in the city are getting quite serious and considerable attention will be needed to wipe them out. There is scarcely a night that some marauders do not enter several houses in the city and get away with considerable money and other articles, but from henceforth they will have to be more cautious or many of them will be rewarded with having to face the grand jury on serious charges.

Old Standby Score.

About the only person who remains now at the city hall that was close to being named as Private Secretary by E. E. Wheelock, it is barely possible that he will be retained, and it is understood that he is to act as orderly in the mayor's office as well as private secretary to the chief of police. He will take a couple of weeks' vacation and when he returns he will be assigned to his new duties that have been taken care of in the past by Officer Czala, who will be compelled to walk a beat in the future.

DON'T GET IN A SWEAT

Perspiration—"sweat" is what the Bible and we common people call it—is a way nature has of driving out of the body refuse that has no business there. We sweat more in summer, because, in the overheated bowels, undigested food ferments more quickly than in winter and produces irritating acids and gases. The bowels, overworked, try to relieve themselves by violent convulsions, causing terrible gripes and colics, and diarrhoeal discharges so acid as to make you sore, and leaving the intestines weak and worn out. Nature assists body-cleaning by sending the filth out through the pores of the skin. It is not safe to stop perspiring altogether but most of the impure matter should be sent out by natural movements of the bowels, and the offensive, ill-smelling, linen-staining sweat done away with. Keep your bowels strong all summer with the pleasant, candy cathartic CASCARETS, that clean the system and don't allow the excrement to be sweated out through the pores. Take a tablet every night, before going to bed. They work while you sleep and make you feel fine and cool all day.

Then Halle drew a revolver and fired several times. After she fell he calmly awaited arrest. The case was carried on technicalities to the United States supreme court. A final appeal was made to Gov.
