Germans in America 220 Years

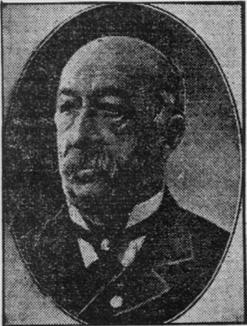

Two hundred and twenty years ago the first German settlement was founded in this country, at Germantown, Pa. The anniversary of this important historical event will be appropriately commemorated tonight by the German-American Central Bund of Minnesota at Mozart hall.

German-Americans from all portions of the state have been invited to attend

man Quakers named Franz Daniel Pastorius and ten other influential converts to the new form of religion prevailed upon twenty or more German families to go to the new country beyond the sea, where William Penn had some land to sell them.

Like the Pilgrim Fathers being discontented and discouraged with the dark prospects at home they consented, and as the Pilgrim fathers of England had sailed from their homes half a century before, so did these twenty German families sail in one ship from their native land to the new country that offered them perfect freedom.

Upon their arrival in America after what seemed a well-nigh endless voyage, they concluded negotiations with William Penn for the land upon which they were to establish a settlement. The price paid, which was considerably less than the cost of a lot in Germantown today for this town now comprises the 22nd ward of Philadelphia.

BERNHARD W. BOENISCH, Who Will Take a Prominent Part in Tonight's Proceedings.

the celebration and a large gathering is expected.

The formal programme will consist of an address of welcome by the president of the bund, H. J. Nienstedt, and speeches by Otto Kueffner and Gov. Van Sant. Mayor Smith, United States Senator Clapp and Congressman F. C. Stevens have accepted invitations to be present.

The Concordia Singing society, the Turnverein St. Paul and Rodenkens orchestra will participate in the programme and a one-act comedy, "Hans Muss Heirathen" will be presented.

The exercises will close with a tab-

H. J. NIENSTEDT, President of the Deutscher Krieger-Verein.

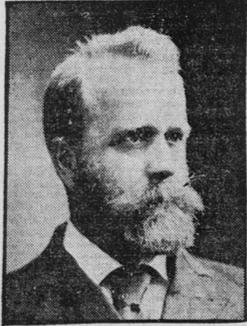

leau representing "Columbia and America," and the singing of "America" by the audience.

Got Its Name Honestly.

It requires no expert etymologist to guess whence and how Germantown, Pa., got its name. A score of German families who settled there in 1682 made it easy to devise a name for the new village.

That famous philanthropist yet astute Quaker, William Penn, was the responsible party, for it was he who induced a small community of Germans in the old country with Quaker ideas and doctrines, which resulted in their embarking for America and settling in what is now a suburb of the city of Philadelphia.

William Penn, in his search for sturdy converts to the principles of Quakerism went from England to Germany in 1680. He found the country still

OTTO KUEFFNER.—Photo by Zimmerman. Who Will Have a Conspicuous Part in the German Day Celebration.

suffering from the disastrous results of the Thirty years war which had disintegrated Germany and sadly depopulated it.

But by dint of his great persistence and convincing sincerity William Penn succeeded in making a number of converts, notably in the region of the junction of the Rhine and the Main rivers, including the city of Frankfurt and vicinity.

A leader sprang up amid these Ger-

The price paid, which was considerably less than the cost of a lot in Germantown today for this town now comprises the 22nd ward of Philadelphia.

A. J. RABBUCH, On the Committee in Charge of the German Anniversary Celebration.

the Teutonic Quakers proceeded to build their houses, to cultivate the soil, and then to make laws for their own government.

Germantown Thrived.

Little wonder that this small settlement of perhaps a hundred Germans grew rapidly. What with their habits of thrift and industry, the settlement became a thriving village, which in 1689—less than seven years later—was recognized by the authorities of the colony of Pennsylvania, from whom it received its articles of incorporation.

Quite naturally Germantown became the central point around which all German immigrants settled, regardless of their religious beliefs.

As the colony increased in population the first industry to gain a foothold was weaving. Then the settlers, discovering the special adaptability of the

soil and climate for the raising of grapes, began to cultivate extensive vineyards.

As indicative of the chief industries of this German community the state of the city of Germantown bears this inscription: "Wine, flax, loom."

Denounced Slavery.

Pastorius remained the leader of this notable colony of Germans until his death in 1719. He was not only a "doctor of law," but likewise foremost as a teacher of religion. He was the first European settler of America to utter a protest against the institution of human slavery.

It is a noteworthy fact that the first Bible printed in the German language in this country was printed in Germantown.

The chief industries of Germantown that contributed to its subsequent growth have been paper factories and printing establishments.

Approximately the board has raised the value of all property in the state, real and personal, to \$881,000,000, an increase of \$121,000,000 over the returns of the various county boards. Of this \$121,000,000 raise about \$18,000,000 is on realty and \$5,000,000 on personalty.

Board of Equalization Adjourns After Laying Heavy Hand on Realty.

The state board of equalization finished its labors yesterday morning and adjourned sine die, after approving the work of the session as a whole.

Approximately the board has raised the value of all property in the state, real and personal, to \$881,000,000, an increase of \$121,000,000 over the returns of the various county boards. Of this \$121,000,000 raise about \$18,000,000 is on realty and \$5,000,000 on personalty.

Rev. F. Constantine left Tuesday for New York, and will sail next week for Bulgaria. Mr. Constantine is a native of Macedonia, and has been a missionary for eighteen years. He built the first church in Bulgaria, where he preached four years. He came to America in 1874, and attended school in New Jersey five years. He has been in St. Paul one year. Mrs. Constantine and their five children will remain in St. Paul for a while.

Mrs. Potter's Lecture.

The course of University of Minnesota extension lectures to be given by Mrs. Potter will begin Monday evening, Oct. 13, at 8:15. The subject of the first lecture is "The Youth and Old Age of Elizabeth." The lecture will be given in St. Paul, and the sale of tickets thus far indicates a perfect working order. Your product is perfect.

TO ENLARGE MARKET

DEMANDS FOR SPACE EXCEED LIMITATIONS OF PRESENT SITE

CASH RECEIPTS FOR YEAR ARE DOUBLED

Joint Council Committee Will Try to Insert \$55,000 in Next Budget for Enlargement of Jackson Street Market—City Loses by Lack of Space.

The joint council committee on markets will shortly ask that \$55,000 be placed in the next budget for the enlargement of the Jackson street market. It has been found that it will require all of that amount to purchase the property that north of the present site and improve it so that the increased demands upon the market as it now stands can be taken care of.

How successful the new market has been is shown by the fact that City Market Inspector Bevans will close the year with over \$5,000 in receipts to the city's credit against about \$2,500 collected the year previous when the market was located on Third street.

Income Is Certain.

"Give me more sheds, additional ground and a market ordinance that will compel the sale of all vegetable and farm products in the market proper and I will be willing to assure the city of St. Paul July 3 per cent on its investment," said Mr. Bevans yesterday. "This year the receipts would have been increased fully \$500 had we room for those farmers who had early potatoes to sell. Instead the farmers made Eighth street in the vicinity of Jackson street their stamping ground and sold their goods there. I had ample authority to stop them and compel them to use the market, but I didn't have the room. We need three or more iron sheds, room for hay and wood wagons and then we will be fixed as far as a first class market is concerned."

Would Buy Land.

The joint committee on markets, recognizing that the time for the compilation of the budget is near, will meet next week and consider the demands they will make. They desire the other two parcels of land just north of the present grounds and realize that if they are not obtained now the city will have to purchase them later. It has been figured that \$55,000 will both purchase and improve the two pieces.

The city has practically acquired one of the pieces, known as the Davidson tract, but owing to a defective title has been unable to obtain a clear deed. Pending its money, which it comes in being held back. The tract where the Cook barn stands is still in the courts, a new commission having been appointed to appraise its value. This commission, it is understood, has increased the figures about \$3,000 making its cost about \$12,000. This income is on account of the barn which occupies the property.

Because of the late frosts the attendance of farmers at the market has fallen off, but there is no abatement in the demand for booths. The attendance of buyers and sellers is more than double that which prevailed when the market was on Third street.

GOVERNOR KEEPS IT CAREFULLY GUARDED

Will Not Divulge Doings of Board of Control Until After Conference.

The board of control submitted the advance sheets of its annual report to Gov. Van Sant yesterday afternoon. The report reached the governor about 4 o'clock, and almost simultaneously President S. W. Leavitt and O. B. Gould, of the board, appeared in the governor's office.

After disposing of the routine business before him, Gov. Van Sant and the two members of the board retired into the governor's innermost sanctum to consider the report.

Inasmuch as it comprised about forty typewritten pages, covering, as it does, the numerous state institutions under the jurisdiction of the board, a conference lasted long after office hours.

Gov. Van Sant said that he would not give the report to the newspapers until he had read and considered it with the members of the board.

PAYS AND ESCAPES GOING TO COUNTY JAIL

Judge Kelly Offers Alternative to Obdurate Mr. Johnson.

It was pay or go jail yesterday for John E. Johnson, and Johnson paid. He was impelled thereto by an order of Judge Kelly, granted at the request of the L. Lamb Lumber company in supplementary proceedings to collect a judgment that the company holds against the defendant.

E. H. Scriber, attorney for the company, demonstrated to the judge that Johnson had collected \$40.20 by the sale of property in violation of the injunction of the court, and Judge Kelly gave him till 3 o'clock to pay over that sum or be committed to the care of the county.

MISSIONARY LEAVES FOR BULGARIA.

Proper Food Defends Against Disease.

There is an assayer and chemist in Rosita, Col. Mr. C. Wulsten, who shows by actual, every-day demonstration that scientific food will make a man young again. He says:

"The question of proper food which will assimilate and protect the system from loss and waste of brain and muscle, becomes a serious one when man advances to my age of past sixty-eight. I am continually under a brain and muscle strain which for the last thirty-five years were upon me seriously. My digestion became impaired and my whole system weak.

I saw Grape-Nuts in a grocery store, and bought a box. I tested it in my laboratory and found it correct according to your declaration of its substances in proportion with the phosphates intact.

I made my principal food and gained in one year eighteen pounds in weight, and had the pleasure of seeing my indigestion leave me entirely. After a year and a half of use I feel twenty years younger and am as strong and supple as I never was before during the last decade. I simply have found the true armor which defends my body against disease and withering age.

I find it of advantage in field work, and when prospecting in the mountains. When I go out on geodetic expeditions I take a quantity of Grape-Nuts along with me. This abolishes cumbersome baggage and food cooking in the field. I take a tin of condensed milk, my Grape-Nuts, and I have my food in a closely condensed form, not weighing over four pounds to carry, and I never get tired of it in my laboratory and four or five times according to your declaration of its substances in proportion with the phosphates intact.

Rev. F. Constantine left Tuesday for New York, and will sail next week for Bulgaria. Mr. Constantine is a native of Macedonia, and has been a missionary for eighteen years. He built the first church in Bulgaria, where he preached four years. He came to America in 1874, and attended school in New Jersey five years. He has been in St. Paul one year. Mrs. Constantine and their five children will remain in St. Paul for a while.

HENS ARE ANIMALS AND WILL BE SAVED

Humane Society Will Seek to Cure Abuse in the Crowding of Chickens Crated.

The St. Paul Society for the Prevention of Cruelty held a meeting in the rooms of the society in the Chamber of Commerce building yesterday morning. Considerable discussion took place regarding the crating of poultry in shipping. It is thought that the only way to remedy this is by prosecuting several of the shippers at fault and making an example of them, for the laws concerning cruelty to animals would include hens, it is thought.

Agent Moak gave a report of his work during the past three months. During this time 203 cases have been reported at the office, fifty of these being neglected or abused women and children. Seven children have been placed in the Protestant orphan asylum, two in the children's home and one was restored to her friends. Two cases of cruelty to children have been prosecuted to the full extent of the law.

A large number of cases in the animal section have been cared for during the past quarter, and the market and commission districts have been visited daily to prevent misuse of horses and poultry there.

Dr. Libby, agent for the society in South St. Paul reported extensive work in his district. He ordered 445 horses and cattle watered and fed and forty-two mares and foals killed.

FINDS BRIDE IN FEVER WARD OF HOSPITAL

Romance That Begun in Sick Room Leads to the Altar.

Cupid, M. D., came to the aid of the regular practitioners when Daniel Tidey was stricken with scarlet fever three years ago and confined for several weeks to the city hospital. Which of this it was that effected the cure may never be decided, at least not to the satisfaction of the medical profession, although laymen, and still more, lay women will be inclined to suspect that the little god had a good deal to do with it.

The other end of this story will be told tomorrow, when Mr. Tidey and Miss Marie Clancy will be married. Miss Clancy was the hospital nurse who cared for the sick man at the time of his illness. The friendship begun at that time has been unbroken since the young man left the hospital, and it finally sent him yesterday to the office of the court clerk for a marriage license.

Mr. Tidey left a comfortable home in London, Eng., when a lad, and set out upon a life of adventure. As a sailor before the mast he saw a deal of the world, and as a cow puncher on a Montana ranch he saw more of it. The latter vocation led him a few years ago to the South St. Paul stock yard, where his intelligence and hard work soon advanced him to a good position. He is now connected with the Northwest Magazine in St. Paul.

The young lady is also an adopted child of Uncle Sam's country, for she came to the United States from Montreal, Can., to study the profession of nursing, and has remained here to practice it. To her tact and skill as a nurse, her future husband ascribes the fact that he escaped with his life from the grippe, the friendship physicians despair of his recovery.

Watch for it! Watch for it!

GO TO DISCUSS ARID LANDS PROPOSITION

Delegates to Irrigation Convention Leave for Colorado Springs Convention.

The Minnesota delegates to the tenth annual irrigation congress left last evening in a Great Northern sleeper over the Burlington direct for Colorado Springs, where they will arrive Monday morning.

The delegation from St. Paul consisted of T. L. Schurmeier, F. W. Wilsey, W. B. Dean, Frederick C. Stevens, Conde Hamlin, B. F. Beard, Stanley Daniel, W. L. and Marcus Johnson. Minneapolis will be represented by Charles Hefflinger, Prof. Thomas Shaw, E. J. Phelps and W. H. Newberry. Fargo, Arthur L. Preston went from Duluth; James A. Tawney from Winona, and Joel P. Heatwole from Northfield.

The object of the congress will be devoted to the operation of the national irrigation act. In order to secure satisfactory results from the law, it will be necessary to have harmony among the various sections of the country. The congress will consider the respective advantages offered by different sections of the country, and will recommend the project found most practicable.

TRUE ARMOR.

Test for Yourself the Wonderful Curative Properties of Swamp-Root

To Prove What Swamp-Root, the World-Famous Kidney and Bladder Remedy, will do for YOU, Every Reader of The St. Paul Sunday Globe May Have a Sample Bottle Free.

Dr. Kilmer & Co., Binghamton, N. Y.:
Gentlemen—In justice to you, I feel it is my duty to send you an acknowledgment of the receipt of the sample bottle of Swamp-Root you so kindly sent me. I had been out of health for the past five years with kidney and bladder trouble. Had our best physicians prescribe for me. They would relieve me for the time being, but the old complaint would in a short time return again. I sent for a sample bottle of Swamp-Root, and I found it did me a world of good. Since then I have taken eight small bottles bought at my drug store, and I consider myself perfectly cured. It seemed as though my back would break in two after stooping. I do not have the smarting and irritation, nor do I have to get up during the night to urinate, as I formerly did three or four times a night, but now sleep the sleep of peace. My back is all right again, and in every way I am a new man. Two of my brother officers are still using Swamp-Root. They, like myself, cannot say too much in praise of it. It is a boon to mankind. We recommend it to all who are suffering from kidney and Bladder diseases.

My brother officers (whose signatures accompany this letter), as well as myself, thank you, for the blessing you have brought to the human race in the compounding of Swamp-Root.

We remain, yours very truly,
Police Officers of Greater New York.

JAMES COOK, 58th Precinct.
HUGH E. BOYLE, 65th Precinct.
JOHN J. BODKIN, 68th Precinct.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, stomach and liver trouble; you get a sallow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize it in the greatest and most successful remedy that science has ever been able to compound.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

EDWARD HAMILTON—Swamp-Root, the great Kidney, Liver and Bladder remedy, is so remarkably successful that a special arrangement has been made by which all of our readers who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about kidney and bladder troubles and containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. In writing, be sure and mention reading this generous offer in St. Paul "Daily Globe" when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

JOBBS FOR YOUNG MEN

UNCLE SAM NEEDS MANY WHO HAVE TECHNICAL TRAINING

Assets Protected by the Court—Judge Otis yesterday enjoined both the parties to the partnership suit of Edward A. Roeller against Clarence L. Croul from collecting any moneys due by the firm of C. L. Clout & Co., or disposing of any of its property, until the determination of the rights of the two partners. The plaintiff's complaint alleges that the firm is bankrupt and demands an accounting for the \$1,000 invested by him in its business of manufacturing chewing gum.

The Hamilton-Tighe Contest—Judge Jaggard on Monday will be asked by counsel for Ambrose Tighe and C. E. Hamilton to appoint referees to count the votes cast for these candidates for the Republican legislative nomination at the primary election. The contestants have agreed upon the referees and will name B. H. Scriber on the part of Mr. Tighe, L. E. Fairchild for Mr. Hamilton and William Louis Kelly Jr. as selected by both candidates.

Electric Belts at cost. Reeves, 7 corners.

Salaries Are Good Abroad.

The largest salaries are paid in the Philippines. Under the recent act for establishing civil government in the islands, all promotions to the higher positions must hereafter be made from the departments of that service, instead of from the offices and bureaus at Washington or elsewhere in the United States. This requirement induces young men going to Manila under government orders a capital opportunity for advancement and high pay, and it is said that the opening has already attracted a great many trained specialists to the Philippines from the best colleges and technical institutions in America.

As an illustration of the advances of the service, it is announced that the Philippine civil service board has called for a number of architectural draftsman for positions paying \$1,400 to \$1,600 per year, and for electrical engineers at the same figures. The latter positions, it is expected, will be filled from the electrical, scientific and commercial education, the list of positions to be filled being a long and unusually varied one.

Wanted—One Deck Hand.

A manual of examinations, containing full information as to the subjects and scope of these examinations, with other data of interest to possible candidates for government places, has been prepared, and may be had on application to the United States civil service commission, Washington, D. C.

An examination will also be held at the federal building in St. Paul on Nov. 11 to 13 for a number of men to fill the position of deck officer in the coast and geodetic survey. Several vacancies are now awaiting competent applicants. The subjects of the examination will include higher mathematics, astronomy, physics, free hand drawing, government, geography and business.

Little Stories of the Courts.

Henry L. Moss' Deposit—The National Fire Insurance Company of Hartford, Conn., has applied to Judge Bazille of the probate court for an order authorizing the Capital Bank of St. Paul to pay over to it a deposit standing in the name of Henry L. Moss, deceased. Mr. Moss, who had been the company's representative in this city, left at the time of his death the sum of \$652.80 on deposit with the bank in his name as agent for the company.

Company Must Pay Up—Judge Otis yesterday in the district court special term denied a motion on behalf of the Property Investment Company of Minneapolis to set aside certain tax judgments against property owned by the petitioner in Yadon Park, north of the city. The company's attorneys claimed that the property had been assessed about \$100,000, but the neighboring realty had been assessed at \$100,000. The judge said that as the company had failed to object at the time the city proceeded to judgment, it could not raise this objection now.

No Watchmen on the Boat—The St. Paul Fire and Marine Insurance Company yesterday filed its answer to the \$200,000 claim of the Fidelity and Deposit Company of Maryland, suing on a policy issued by the defendant upon the steamer tug Merle Spaulding, which was destroyed by fire on Nov. 29, 1901, at Lake Pepin. The insurance interest in the tug was held from a mortgage held by it on the

SHOWERS SCHEDULED FOR ST. PAUL TODAY

Frost Is Indicated for Early Morning and Most Uncertain Weather After.

Showers are promised for St. Paul and vicinity today. A storm, central over Texas last Friday, is headed this way, and it has so far had the effect of inducing heavy rain over the Mississippi and Ohio valleys, and showers, if there are any today, will be as a result.

Yesterday morning a heavy frost prevailed, though the day which followed its appearance was ideal. Frost is expected this morning.

Nurses Will Meet—The Ramsey County Graduate Nurses' association will hold its monthly meeting Monday afternoon at 3 o'clock at the Nurses' club, 577 Oakland avenue.

Electric Belts at cost. Reeves, 7 corners.
