STRICKER AND WIFE WERE LIVING APART

He Took Their Boy Away From Its Mother, All the Result of Matrimonial Difficulties-Shoots at His Fatherin-law and Hits Proprietor of Store Where Tragedy Occurs.

Special to The Globe.

TRACY, Minn., Oct. 13 .-- A horrible tragedy, as a result of which three persons are dead and another injured, occurred here this afternoon.

Ed Stricker, a former resident of this place, is the murderer. Stricker was married some years ago to Miss May Harvey, of this place. Matrimonial troubles ensued, and some two years ago Stricker and his wife separated. One child was left with the mother. A few months ago Stricker took the child from the mother. Last week he returned here with the boy and has since been in town.

This afternoon he followed his wife into the furniture store of Frank Mc-Callister, and pulling a revolver from his pocket, shot and killed his wife and little boy. He then fired another shot, presumably at his father-in-law, L. Parvey, who is an employe of McCallister, but missed his aim and the bullet struck McCallister, entering his face and tearing out one jaw. Stricker then turned the revolver on himself and ended his own life.

Stricker's wife and child were killed instantly, as was the murderer himself. McCallister is in a critical condition, but hopes are entertained for his recovery. The whole affair occurred beofficer or other person could interfere. Harvey and McCallister were in the upper story of the store when the first shot was fired and rushed down to locate the trouble. McCallister was removed to his home here and is in charge of three physicians.

Will Mine All Its Own Coal and Be Forever Independent of the Fuel Monopoly.

Special to The Globe.

CHICAGO, Oct. 13 .- The management of the St. Paul railroad has just completed the purchase of 25,000 acres of rich coal lands in Illinois at the exense of nearly \$2,000,000, and is still holding options on several thousand

The purpose of the management is to provide the St. Paul system with fuel for all time to come and make it independent of the coal monopoly. The coal lands, which have been acquired quietly, are located in Putnam, La Salle, Bureau and Hennepin counties, west and southwest of the city of La Salle. They are in what is known as the La Salle coal district, which

GOV. ODELL SPEAKS ON LABOR AND CAPITAL

Says the Government Should Suppress Violations of Law of Whatever Shape.

NEW YORK, Oct. 15 .- Gov. Odell tonight opened the state Republican tonight opened the state Republican campaign in Brooklyn by making a number of speeches. In the early evening he attended a dinner given in his honor by the Union League Club of Brooklyn, at which Senator Depew was one of the speakers. The governor was then driven to the Academy of Music, where he opened the Hebrew fair. After this Gov. Odell was taken to the rooms of the Brooklyn Young Men's Republican club, and thence to the Claremont Rink, where he made the principal address of the night. Among other things, he said:

"The combinations of capital which have marked the commercial progress

have marked the commercial progress of our country have been accompanied by combinations of labor; so long as both pursue their business within the limits of constitutional and statutory law they are entitled to the protection of the state and the stang arm of the

CREAT COAL STRIKE IS APPARENTLY NEAR END

Operators Propose a Commission of Five to Be Appointed by the President to Arrange Terms

THEY ACREE TO ABIDE BY THE DECISION

J. Pierpont Morgan Goes to Washington and Holds a Conference With President Roosevelt, and This Is the Result-Practical Surrender to the Miners' Union-Operators Issue a Statement in Which They Acknowledge That the Public Has Some Rights-Belief That the Miners Will Accept the Proposition.

WASHINGTON, D. C., Oct. 13.—The operators have agreed to the appointment of a commission to be appointed by the president of the United States to whom shall be referred all questions at issue between the companies and their employes, whether they belong to a union or not, and the decision of the commission shall be accepted by the operators.

••••••••••••••••••••

The commission is to consist of an army or navy engineer officer, an expert mining engineer not connected with the coal mining properties, one of the judges of the United States courts of the Eastern district of Pennsylvania, a man of prominence, eminent as a sociologist, and a man who by active participation in mining and selling coal is familiar with the physical and commercial features of the business.

The operators also make a part of their proposition that the miners shall return to work as soon as the commission is constituted and cease all interference with non-union men. The commission to name a date when its findings shall be effective and to govern conditions of employment between the companies and their own employes for at least three years.

~~~~~~~~<del>~~~~~~~~~~~~~~~~~~~</del>

WASHINGTON, D. C., Oct. 13.—By authority of J. Pierpont Morgan, who, with his partner, Robert Bacon, and Secretary Root, was in conference with President Roosevelt at the temporary White house tonight for an hour and a half, a statement was given out by Secretary Cortelyou, in which the presidents of the coal-carrying railroads and mine operators propose a commission of five persons to adjust the differences and settle the coal strike in the anthracite coal fields of Pennsylvania.

The proposition is believed by the administration to be satisfactory to the miners, as it covers the proposition made by President Mitchell, of the U. M. W. of A., with additional conditions which, it is believed, the miners will accept.

Statement From the White House. The statement is as follows:

J. P. Morgan came to Washington with his partner, Mr. Bacon, at the request of the coal companies, who desired that as a matter of courtesy their statement should be shown to the president before it was made public. Having been laid before the president by Mr. Morgan, it is now given to the

"To the Public: The managers of the different coal properties, comprising the anthracite coal fields, wish their position in the present strike to be understood, and therefore make the following statement of facts: "There are in the anthracite re-

gions about seventy-five operating companies and firms, and 147,000 miners and workmen (of which 30,one twenty nationalities and dialects. Of these workmen possibly one-half belong to the United Mine Workers' union, of which John Mitchell is president. That organization was originally formed in the hitualization and threebituminous coal region, and three-fourths of its members are miners

of bituminous coal, and bituminous coal is sold in active competition with anthracite coal. The remaining workmen in the anthracite fields either belong to no unlon whatever, or do not belong to the Mine Workers' unter Mine Workers' union. When Strike Was Declared.

The present strike was declared by the Mine Workers' union on May 10, 1902. Since that time many workmen not belonging to or not willing to follow that organization

were working about the mines. From 7,000 to 10,000 are now at work. Many more have wished to work, but have been prevented by a course of violence and intimidation toward their families, accompanied by the destruction of properties and the fear of death or bodily harm to every man who wishes to exercise his right to work.
"A schedule is annexed hereto showing some of the things done to

create this reign of terror, and every instance stated can be verified by reference to the officers of the law -civil and military-in the anthracite region. This violence has con-tinued and steadily increased, notwithstanding repeated disavowals by Mr. Mitchell, and it is clear that he either cannot or will not prevent it, and that the rights of the other workmen cannot be protected under the supremacy of the Mine Workers' union.

Says Wages Are Fair.

"The coal companies believe that the wages paid in the coal regions are fair and full, and all that the business in its normal condition has been able to stand if the capital invested is to have any reasonable return. The profits have been small, several of the companies have been come bankrupt and been reorganized several times. Several have never paid dividends, and the dividends of the others have been a dends of the others have been a small return for the capital invested. It is not, however, the purpose of this statement to discuss this ques-

tion.
"The undersigned are not and never have been unwilling to submit all questions between them and their workmen to any fair tribunal

# WHAT HE 00 FOR MINNESOTA. PROMISE AND FULFILLMENT.

at Sacred Heart tonight was one of and his operations were so successful the most enthusiastic receptions ever that no inkling was obtained by ingiven a state candidate in the conservative west end of Renville county. The town hall was crowded to the doors a half hour before Mr. Rosing was introduced and standing room was at a premium long before the stage jurty arrived. The meeting, like that at Renville, was markedly an assemblage of farmers and the reception they gave the leader of Democracy augurs well for a big decline in the time-honored Republican majorities.

Mr. Rosing reached Sacred Heart at 6:30. A special coach for his party was sent to Renville, which included an escort of twenty-five Democrats and the Olivia Juvenile band. The parade formed at the station and was dismissed at the public square. It was so cold that only a small crowd was expected, but when the local leaders in charge of the meeting arrived at the hall they found it more than half filled with farmers from over a wide area, some of them driving fifteen miles to hear the arguments advanced by the Democratic standard bearer and his remedies for the evils of the government perpetrated by the present administration. E. L. Winje, Sacred Heart candidate for the state senate, presided, and the platform party included J. M. Freeman, candidate for county attorney; W. E. Webster, for clerk of courts; D. J. Dacy, for judge of probate; H. A. Butler and Albert Bratsch, for representa tives; W. B. Braundt, for sheriff: C. F. Neitzel, for register of deeds, and M.

E. Sheiran, for county commissioner. One of Rosing's Best.

Mr. Rosing's speech was one of the best he has made in his campaign. He was at his best and was confronted by an audience not only interested, but enthusiastic. He pointed out how the great political parties have changed their policies, and called his audience to scan the policies through which the Republican party has deserted its original ground and fastened the Re-publicans of the West to the tail of an Eastern kite built on tariff-protected ribs. He insisted that the proposed commission for the adjustment of the tariff evils is impracticable and would only result in involving the country

whether they be by the interference with the rights of individual workingterested parties regarding the magnitude of the deals not the identity of and suppressed by the power vested in the purchaser, In many instances the St. Paul com-

In many instances the St. Paul company has purchased the land outright, while in others it has purchased the mining rights, and it is understood that within one year the company will be mining every ton of coal used on the entire system.

In this connection it was learned mount. Whenever conflicts of capital and labor threaten not only the prosperity, but also the physical comfort and welfare of the people, it then becomes the duty of those who represent the commonwealth, which has given to the one a charter right for existence, and to both labor and capital its guarantee of protection, to step in and endeavor to adjust such differ-

today that the Rochelle & Southern road, which was incorporated last week at Springfield with a capital stock of \$100,000, is a St. Paul concern organized with a view to connecting the lines of the St. Paul with the new coal land purchase. The construction of this road will extend from a connection with the St. Paul at Davis Junction, in Ogle county to McNabb, sixty-five miles almost straight south in Putnam county.

The coal problem is regarded as very important by Western railroad men, as is indicated by the recent purchase of ten thousand acres of Illinois coal land by the Burlington for the benefit of street police court today to prosecute that system, the Great Northern and Max Albrecht, sixteen years old. the Northern Pacific.

NO DANGER OF CHOLERA

Incubation of the Disease Has Long Since Passed.

WASHINGTON D. C., Oct. 13.—The army medical officers say there is little danger of the bringing of cholera to this country by the army transports from Manila. The Sherman, which arrived at San Francisco last Thursday, reported that she had seven cases of cholera since leaving Manila. This fact gave rise to an apprehension that the disease might still have been active aboardship with the Sherman arrived at San Francisco, but Surgeon Gen. O'Reilly, after carefully looking over the dates, stated that the last case had occurred twenty-one days before the transport arrived at San Francisco. As the period of incubation of cholera is only five days, the disease must have died out long before the ship arrived in quarantine.
