CONGRESS FOR DEMOCRATS

Chairman Griggs Says They Will Have a Majority of Twenty at Least

APATHY OF REPUBLICANS

Denial of the Statement That This Element Has Disappeared

DISTRICTS GERRYMANDERED MOST SHAMELESSLY

But in Spite of This, Says Mr. Griggs, the Democrats Will Secure a Good Working Majority in the House—Democrats Are Everywhere Wide Awake and Alert.

WASHINGTON, D. C., Nov. 1.—Chairman J. K. Griggs, of the Democratic congressional committee, tonight issued the following statement:

"The next house of representatives will have a Democratic majority of not less than twenty. How many more than this we shall have can be determined only after the counting of the votes polled on Tuesday next. It depends largely, as every election does, on the weather and other conditions which cannot be forecasted.

"The Republican leaders have been until recently complaining of apathy. For the last day or two for political purposes they are claiming that they have overcome this to a large extent and are faint-heartedly predicting success.

"Reports to us do not indicate that this is true. Republicans everywhere appear heartless and even careless of the result. We find that our Democratic friends are wide awake and alert in every district in the United States where there is a fight. It is well to understand that the last apportionment bill was so drafted as to add nineteen Republican and ten Democratic seats to the house, a Republican advantage of nine in addition to the present majority.

MISSION OF MORGAN

J. PIERPONT VISITS CHICAGO AND CLEVELAND ON BUSINESS APPARENTLY IMPORTANT

PROPOSED COMBINATION OF SOFT COAL INTERESTS

Great Financier Said to Be Engaged in an Attempt to Bring All the Companies of the Country Together—Consolidation of Large Pittsburg Companies First in Hand.

CLEVELAND, Ohio, Nov. 1.—J. Pierpont Morgan came to this city today. The Plaindealer says:

"A report which could not be verified was in circulation today that Mr. Morgan's visit to both Chicago and Cleveland was in connection with the proposed combination of all the soft coal interests in the country. For the past two years there has been a gradual merging of the various soft coal-producing concerns until the business, it is said, is now practically in the hands of a comparatively few individuals.

"Mr. Morgan is credited with being largely instrumental in combining the Hocking valley field in this state, while the firm of M. A. Hann & Co. has gained practical control of the entire output of the Massillon field. It is said that constant efforts have been quietly made recently to unite the soft coal producers in Indiana and Illinois, and it is pointed out that as Mr. Morgan is largely interested in the movement his visit to Chicago, as well as to Cleveland, had to do with this project.

A strong rivalry exists between the Pittsburg and the Monongahela companies to the detriment of the interests of both. The former has increased and has been found to be so unsatisfactory that every effort has been made to consolidate the companies. The latter has failed to renew the contracts of the preceding year, and no agreement was reached.

Leonora A. Rosing's Views on Convict Labor.

Last evening, at Minneapolis, I was called upon by a delegation representing the various trade unions in the State for an expression as to my views upon the subject of the employment of convict labor. This subject has been discussed in the various labor assemblies in the State for some years past, occupying much of their time, thus showing the deep interest that they take in the question of the State's position as to the present system of contracting convict labor to private corporations and individuals, and thus permitting competition of convict labor with the free labor of the state.

I believe that convicts should be employed in all cases upon State account only; that no contract of their labor should be given to any private individual or corporation. I believe that in our State we should increase the capacity of our twine plant to such an extent as to be able to supply the farmers of the Northwest with all the twine that they may need. This industry will not compete with any free labor in our State. Such portion of the labor in the State Prison as cannot be employed in the twine industry, if there be any, should be employed on State account in the same manner as it is in some of our Eastern States, where convict labor is not permitted to come into competition with free labor and thus pauperize the labor of their State.

MANY CRIMES ARE LAID AGAINST HIM

Youth Badly Wanted in Nicollet County is Found in St. Paul Workhouse.

John A. Loffelmacher, the notorious Nicollet county desperado, who has terrorized that section of the state for over two years, is serving a fifteen-day sentence for larceny at the St. Paul workhouse.

Loffelmacher, who escaped from Sheriff John McMillan, Oct. 22, is wanted for violating both state and federal laws. He is at present under indictment charging him with sending obscene matter through the United States mails, and warrants for his arrest for arson and malicious destruction of property have been issued by the county attorney.

Sheriff McMillan arrived in St. Paul last night and at once recognized Loffelmacher. The fine imposed by Judge Hille will be paid, and the desperado returned to St. Peter tomorrow.

Loffelmacher was arrested Oct. 23 by Patrolman Matheson. He was accused of stealing a quantity of apples from Schoch's grocery store at Broadway and Seventh street. He pleaded guilty to the charge and was convicted under the assumed name of Harry Williams.

The following Tuesday a description of the escaped St. Peter crook was received at the St. Paul police headquarters. So exactly did it correspond with the Bertillon measurements of the Harry Williams arrested and sentenced for larceny that Detective Murnane notified the Nicollet county official of the fact. The reward of \$100 offered for the capture of the desperado will be paid to Policecaptain Matheson.

According to Sheriff McMillan, Loffelmacher has terrorized Nicollet county for over two years. Farms have been burned, cattle and horses poisoned or killed in the fields, machinery destroyed, letters threatening the lives of citizens sent through the mails, and other crimes and depredations committed. All has been attributed to John A. Loffelmacher, who is a bold and daring criminal.

Less than a month ago the young man was indicted by the federal grand jury for sending obscene matter through the mails, and when he made his escape, Oct. 22, he was in charge of Sheriff McMillan, who had arrested him on a charge of malicious destruction of property.

It is alleged that Loffelmacher attempted to dynamite a threshing machine. It is said that if the explosion had occurred the entire harvesting crew would have been killed.

Loffelmacher's trial before the United States court will be called Tuesday. Loffelmacher's father is a prosperous farmer, owning over 1,000 acres of land in the vicinity of St. Peter.

WASHINGTON, D. C., Nov. 1.—The treaty between the United States and Great Britain in the interest of Newfoundland has not yet been signed, but it is now understood that the signatures of the representatives of the two powers will be affixed early next week.

The scope of the treaty, it is said, does not extend beyond the regulation of the importation of Newfoundland products into the United States, and a reciprocal arrangement for the sale of bait to American fishermen in Newfoundland waters.

COLER, DEMOCRATIC CANDIDATE FOR GOVERNOR, SAYS HIS ELECTION IS CERTAIN

Leaders of Both Parties Predict 40,000 to 50,000 Majorities for Their Tickets

NEW YORK, Nov. 1.—With the leaders of both parties confident of success and predicting majorities of 40,000 or 50,000 for their respective tickets, the state campaign for the election next Tuesday was brought to a close tonight. The candidates of the two leading parties for governor chose their speeches tonight, while former Senator Hill was in Buffalo making a final effort to capture Erie county.

Conservative men in both the leading parties predicted that success would be won with a majority possibly as small as 10,000 and all predictions are based on widely different estimates of the majority the Democratic ticket will show up to the Bronx and the majority which the Republican ticket will bring down there from up the state to meet it.

GOV. ODELL'S CLAIM

Gov. Odell himself today predicted the success of the Republican state ticket by 50,000, while Chairman Dunn, of the state committee, changed his prediction of 67,000 for the ticket. He was sure of Erie county by 3,000 to 5,000 and he said that Monroe county was Republican notwithstanding the alleged settlement of the differences between the Democrats of that county and Rochester. The alleged defection of Republicans on account of the nomination of Attorney-General Davies for supreme court justice in the Fifth judicial district was all imaginary, he said today.

There are two issues," said Col. Dunn—"the economical administration of Gov. Odell and the muddling of Ex-Gov. Hill. The first was almost enough to return Gov. Odell, and the second is reacting with deadly effect upon the Democratic party."

Coler Confident of Winning. While Gov. Odell and Col. Dunn were thus expressing their confidence, Bird S. Coler, the Democratic nominee for governor, and Chairman Campbell, of the state committee, were making similar statements for their party in the state.

Chairman Campbell said: "The outlook is encouraging. He gave out no further direct statement today, but in explanation of his reticence he said a detailed statement of claims of his party probably would be made public today. He added that early in the campaign he had decided that a policy
