

SCORES OF PEOPLE TRY STARVING

MINNEAPOLITANS STILL FOLLOW DR. PERRY, IN SPITE OF PHYSICIANS

ONE PATIENT OUTDOES DR. TANNER'S STUNT

Woman Doctor Says County Coroner is Actuated by Professional Jealousy, and She Keeps Her Bunch of Hopeful Ones on a Starvation Diet.

Dr. Linda B. Perry has a score of people under treatment by the starvation cure.

The regular medical practitioners of Minneapolis are determined apparently to drive the sure-thing-cure people out of business.

Mrs. Dr. Perry has been practicing under the starvation theory for some months, and in that time she has made friends among influential people in Minneapolis.

One of these patients has been fasting for forty-nine days, and he has attended to his business every day during the entire time.

Says It's Spite Work.

"The charges made by Dr. Williams, corner of Hennepin county, against this system of medication," said Dr. Perry yesterday, "are dictated solely by professional spite."

"I have now a large number of cases under my charge. One of the men has fasted over fifty days. He is as well as ever was in his life and better than he has been for years."

"The fact of the matter is that my handling of disease is a strong departure from orthodoxy, and for that reason the medical profession does not believe me entitled to consideration."

"We are promised an investigation of the case of Mrs. Young. I court such an investigation. My treatment is the voice of nature. I give no drugs, but permit no poisoning if I can prevent it."

PUTTING IT STRONG.

But Doesn't It Look Reasonable?

This may read as though we were putting it a little strong, because it is generally thought by the majority of people that Dyspepsia in its chronic form is incurable, or practically so.

The trouble with Dyspepsia is that they are continually dieting, starving themselves, or going to opposite extreme or else deluging the already overburdened stomach with bitterest "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief.

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets.

The tablets will digest the food anyway, regardless of condition of stomach.

The sufferer from Dyspepsia according to directions, is to eat an abundance of good wholesome food and use the tablets before and after each meal.

HORSE AND WAGON STOLEN AS A BLIND

Robbers Thought to Have Doubled on Their Tracks and Entered Illinois Instead of Going North in Iowa—Evidence That the Artists Are Professionals.

DAVENPORT, Iowa, Nov. 22—Police and bloodhounds alike have been unable so far to find any tangible trace of the five men who early today held up and robbed the Rock Island express in the suburbs of Davenport.

It is now thought from the boldness and skill with which the desperadoes worked that the robbery was committed by professional safe-blowers.

NOTE SWELLS FROM \$4 to \$300. Men Badly Wanted in Minnesota Arrested in Iowa.

AUSTIN, Minn., Nov. 22—Sheriff Johnson has arrested two men at McIntyre, Iowa, and has asked for requisition papers. They are said to have a note signed with the name of Peter Reuben, of this county, for \$300. Some time since it is alleged they called at Reuben's house and asked to see him, but as he was not at home made their business known to his wife and daughter. The men represented themselves as agents of the St. Paul Supply company and displayed a talking machine which would perform wonders. They explained that the price was \$30, but as an introduction they would sell it at \$4. The women declared that they had no money, but the men said that if the daughter would sign her note for \$4 it would be all right. This occurred in the men departed. Some time after these same men called upon Mr. Reuben and presented a note duly signed with his signature for collection. The face of the note was \$300. Frederick Kigore, Minneapolis, Minn., gathered all the money he had and gave his note for \$70, he says, but it is now \$700. Mr. Reuben finally sought the aid of a lawyer and the sheriff was sent after the men.

Empire William was very fond of Herr Krupp personally and frequently visited him. The emperor often has Herr Krupp as his guest at Berlin. As a special mark of distinction his majesty conferred upon the gunmaker the title of "excellency" which usually is confined to the highest officials, ambassadors, etc.

It is understood that the great works owned by Herr Krupp will be placed in the hands of trustees for the benefit of Frau Krupp, her daughters and this collateral heirs. It is said that the cousin of the deceased, Arthur Krupp, of Berndarf, will become the head of the management.

Friedrich Krupp was born at Essen, in 1812. His father died when he was fourteen years of age, leaving a small iron forge shop to support him and his mother. The widow gave her son a good education and the two managed the shop until it was taken over by Friedrich on his own account in 1848.

The progress of the works from that time on is marvelous. In 1860 the total number of workmen employed by Krupp was 1,764. Now the number exceeds 40,000. There are eight separate and distinct departments belonging to the Krupp concern. In addition to manufacturing great guns and projectiles, steel work of all descriptions is prepared.
