W. M. CAMPBELL COMMISSION LIVE STOCK COMMISSION MERCHANTS. SOUTH ST. PAUL,

- - - MINNESOTA

WEEKLY MARKET LETTER South St. Paul, Jan. 29.

CATTLE—Receipts continue moderate. The month shows a gain over January, 1902, but it is less than a thousand head. The demand for butcher cattle continues good and prices, until today, have held fully steady with last week's close. Today buyers were compelled to take off about 10 cents in order to get in line with Eastern markets, which report sharp declines. We have been getting some few fairly good hope and the bulk is running on the fairly good hope are wanted.

SHEEP—Receipts was followed with a 5-cent advance. This was followed with a 5-cent decline on Tuesday, and on Wednesday the market was fully 10 cents lower. Today a 10-cent advance is noted, so that prices are now a shade higher than last week's close. We have been getting a few good hogs, but nothing choice, and the bulk is running once wanted.

SHEEP—Receipts was followed with a 5-cent decline on Tuesday, and on Wednesday the market was fully 10 cents lower. Today a 10-cent advance is noted, so that prices are now a shade higher than last week's close. We have been getting a few good hogs, but nothing choice, and the bulk is running once was a few good hogs.

SHEEP—Receipts was fully 10 cents lower. Today a 10-cent advance is noted, so that prices are now a shade higher than last week's close. We have been getting a few good hogs, but nothing choice, and the bulk is running order to get in line with Eastern markets. order to get in line with Eastern markets, which report sharp declines. We have been getting some few fairly good cattle here, but nothing choice, but the bulk has been, as usual, common. Bulls are selling 10 cents lower. Best veals are steady; others weak. In the stock and feeding cattle division good stuff is finding a ready sale at steady prices.

are steady; others weak. In the stock and feeding cattle division good stuff is finding a ready sale at steady prices. With the common kinds it is the same old story. Good mitch cows steady; others \$2 to \$3 lower than last week. HOGS — Receipts have been fairly liberal and are showing a considerable gain over the corresponding period last year. The week opened with a 5@10 quoting lower prices. On this market sheep are generally 20@25 cents lower. There is a good outlet, however, at these prices. The stocker and feeder trade is quiet, with no demand to speak of for anything but the best grades.

Very truly,

W. M. CAMPBELL COM. CO.

STOCK TRADING LIMITED TO THE LEADING ISSUES

Excellent Railroad Returns and Other 1.000 BEEVES AND 5,000 HOGS WANTED DAILY Favorable Features Are Ignored-Decrease in St. Paul December Earnings-Combination Reports as to the Erie Revived.

> NEW YORK, Jan. 29 .- The tone of today's stock market was altogether professional. Trading was somewhat in excess of the previous day, but was limited for the most part to the lead-ing issues. A number of favorable features, such as the increased ease of sterling exchange and promise of an amicable solution of the Venezuelar situation were ignored, as also were a number of excellent railroad returns.
>
> St. Paul, however, was not include? in this latter class, that road showing a decrease of over \$43,000 net for December. In point of activity and general interest St. Paul was the feature of the early session. The stocks open-ed moderately strong in anticipation of favorable action by the directors re-specting the proposed increase of stocks. Following an advance of over a point, brokers representing impor-tant interests sold freely and the stock closed with a fractional loss. The an-nouncement that nothing except rou-tine business had been transacted at the board meeting did not come out until after the close of the market.

Other Than St. Paul. Other early features of interest were ensive trading, St. Louis & San Francisco issues, Delaware & Hudson and Amalgamated Copper. Later Mis-souri Pacific, Eries and some other

souri Pacific, Eries and some other leading railway shares developed increased firmness. The movement in the Erie issues in the afternoon attracted considerable attention and appeared to be based on a revival of "combination" reports, which were current a fortnight ago. Erie common, on heavy trading, made a net gain of 5-8, while the first and second preferred advanced 1 1-8 and 2 points, respectively.

In the industrials, offerings of General Electric were freely absorbed, with a net gain of 2 3-4 points, the stock closing at the highest figure. Improve-

closing at the highest figure. Improvement was shown by United States Realty, Republic Iron & Steel, United State Leather and some of the minor issues. What was believed to be pool manipulation was shown in the course of some stocks and the concurrent upward move in Pennsylvania and the Wabash issues.

the transfer of the Panama canal property have been completed.

 London Closing Stocks.

issues. What was believed to be pool manipulation was shown in the course of some stocks and the concurrent upward move in Pennsylvania and the Wabash issues gave rise to renewal of reports of a settlement of the differences between the interests controlling these properties. Aside from the strength of Eries and the weakness of St. Paul, there was no noteworthy feature in the late session.

Trade Fails to Broaden.

Trading continued narrow and operations for London account were small and of an arbitrage character. The closing was irregular and dull. Foreign exchange continued inactive. The supply of remittances was rather better than usual, but the inquiry was not at all urgent. The market appears to have gone so far below the gold export level as to render the use of metal remittances improbable.

The situation is still modified, however, by several conflicting features which may develop interesting complications any day, although it is generally believed that no accumulation of bills will be attempted by the government before the final negotiations for the transfer of the Panama canal property have been completed.

Estimated to be pool of the control in the course of the property have been completed.

TONE IS QUIET, BUT THE CLOSE

IS STRONG AND HIGHER

Early Unfavorable Prospects Lead to Covering by Shorts - Armour Sells Again, Causing the Market to Break, but on Small Offerings a Rally

CHICAGO, Jan. 29. — Wheat was quiet and exceedingly nervous, but the close was strong, with May 1-2c higher. May corn was up 3-8@1-2c, and May oats were 3-8c higher. Provisions were firm, the May products closing with a gain of 7 1-2c to 12 1-2@15c.

Wheat opened quiet but strong on higher cables and predictions of unfavorable weather, a cold wave being higher cables and predictions of unfavorable weather, a cold wave being predicted for the Northwest, and there was considerable covering by shorts early on the unfavorable prospects. Outside markets were strong, which also added in the better feeling. Later, when it became evident that the leader of the longs was again selling, the market broke and a drop of 1c from the high mark of 78 5-8c was made, the low point for the day being reached at 77 5-8c, after opening 1-4c to 3-8c higher at 78 3-8c to 78 1-2c. The market was nervous the greater part of the day, but toward the end a firmer tone developed on smaller offerings and on the strength in developed on smaller offerings and on the strength in corn. The close was strong and 1-2c higher on May at 78 5-8c. July was in good demand

59 cars, two of contract grade, made total receipts for the three points of 411 cars, against 374 cars last week, and

houses and prices held firm, the close being 3-8c higher for May at 36 3-8@ 36 1-2c. Local receipts were 213 cars. Provisions showed a tendency to do-better along with the strong hog mar-ket, prices at the yards being up 10c

of 352 cars, which, with local receipts of 59 cars, two of contract grade, made total receipts for the three points of 411 cars, against 374 cars last week, and 341 cars a year ago.

Firmness in Corn.

Corn ruled firm during the greater part of the session, but trading was of limited volume and no special features developed. The weather was still damp and unfavorable for the grading and an excellent cash demand and higher cables also contributed to the generally bullish sentiment. The close was strong, with May %@½c higher at 45c, after selling between 44 5-8c and 45 1-8c. Local receipts were 275 cars, with only 1 of contract grade.

Oats were strong and higher, but the scarcity of offerings caused a rather dull market. There was a good demand from brokers and commission houses and prices held firm, the close being 3-8c higher for May at 36 3-8@ 36 1-2c. Local receipts were 213 cars.
