BUSINESS CHANCES.

THE IDAHO-WYOMING OIL CO. send several communications this week containing the resolution of the board of directors to incorporate in Idaho. The resolution provides that the price of the stock shall advance to \$100 immediately after the first of March, and if not then it shall go to \$150 March 15th. We wrote them fully, saying that we had inserted their telegram in all of our ads and in 10,000 circulars. They had scattered 75,000 shares all over the United States; that we had another 50,000 issue in the press, containing the same. We told them that people would be misled if the price was advanced immediately; that we knew the price was low for the present, but that we were not in fault; that they had misled us by advertising and that it would cost us at least \$500 to make the change; that we much preferred to be misled by them than to be misled by them. They agreed to our price until March 1, under the circumstances.

The Boston agents who are selling our stock had no such objections to offer. They are White & Son, a well-known and reputable old-time manager, and each have put in \$1,000 in our company.
