Vertical Cross Section of a Minnesota Iron Mine.

MINNESOTA IRON MINES

ENTERPRISE, PERSEVERANCE AND A LITTLE MONEY

Coupled with our advice and assistance, will give any man a fair chance to discover, develop and possess an iron mine of his own. Minnesota is the greatest iron-producing state in the Union, and every citizen is entitled to his share of the buried wealth of our state. We can show labor where and how it can secure an equal chance with the capitalist to win a fortune by honest work. To the small investor we can offer an equal opportunity. All inquiries made personally or by letter. We will be glad to answer promptly.

We Do Not Offer Mining Stock or Shares

We offer opportunities to invest in substantial real property. Full information given on application. We have large and small tracts of land in Minnesota suitable for agriculture and stock-raising, which it will pay the intending settler or investor to examine. We have some excellent land in Wisconsin which can be sold at \$3.00 to \$5.00 per acre. We can also offer several townships of fine range country, well watered, in Western North Dakota. We have large tracts of timber and agricultural lands on the Pacific coast; also mills and mill sites, ranches, etc., which in view of the rapidly rising prices in Washington and Oregon, are bargains. We have the only remaining tract of big redwood timber now open to purchase in California.
