FOREIGN ADVICES ARE BULLISH AND FIRM FEELING RESULTS. Correction in French Crop Report Has the Effect of Strengthening the Wheat Market—Both Wheat and Corn Close Higher, While Oats Are Off.

CHICAGO, Feb. 21.—Bullish foreign advices imparted strength to wheat today and a firm feeling was manifested. May and June wheat were off a fraction. Provisions were strong, the May product closing was 2 1/2 @ 12 1/2 higher.

There was some speculation in the wheat market and higher prices ruled under the influence of higher cables, the price at Paris being 100 francs for the current month. The correction in the French crop report making the estimate of the yield for the principal cause for the higher prices at the opening was 177,000,000 bushels, 1/4 cent higher at 7 1/2 @ 7 1/2 and under a second demand for the wheat market for the Monday holding, the price advanced to 78 1/2 @ 78 1/2, selling off toward the end of the session.

The volume of business was small. Small receipts, 208,000 bushels, and a good export demand were the main influences. The strong markets in the Northwest. Primary receipts were 377,300 bushels, Minneapolis and Duluth reports received 211 cars, which, with local receipts of 23 cars, 1 of contract grade, made total receipts for the three ports of 233 cars, against 429 cars last week.

The Course of Corn. Corn was firm early on continued light receipts and higher cables and a strong cash demand held prices firm. Profitable people were again buying July wheat and the market was also strong for May from commission houses. Demand for corn was also strong and weather conditions were favorable, but had no special effect on the market.

The following table shows the receipts at the Union Stockyards today: Cattle, 190; calves, 25; hogs, 1,745; sheep, 10; horses, 16; cars, 25.
