WARNER'S SAFE CURE

MRS. ESTELLE CLAYTON
Recommends Safe Cure to Her Friends.

"Gentlemen—We have used WARNER'S SAFE CURE in our family for several years. My husband used it when he had backache and kidney trouble and it cured him. I am pleased to state that I also have used it successfully. It cured a cold that settled in my back and kidneys and which caused me intense suffering and pain. With loss of sleep my health became impaired. I took only four bottles of Safe Cure and was completely cured, and now I am as enthusiastic in its praise as my husband and shall be pleased to recommend it to my friends.

"There are so many medicines that it is worthless that it is a pleasure to find one that can be absolutely depended upon to do more than is claimed for it.

"Very sincerely yours, MRS. ESTELLE CLAYTON,
554 Adelaide Street, Toronto, Canada. Secretary Club Ouvrier."

Thousands of Men and Women Have Kidney Disease and Do Not Know It
Until It Has Developed into Bladder Trouble, Rheumatism, Diabetes or
Bright's Disease, Which Will Prove Fatal If Not Attended to at Once,

CURES BACKACHE

If you have pains in the back, rheumatism, uric acid poison, rheumatic gout, diabetes, Bright's disease, inflammation of the bladder and urinary organs, scalding pains when you urinate, eczema, jaundice, swellings or torpid liver; if a woman, bearing-down sensation, fainting spells, so-called female weakness, painful periods; these symptoms tell you that your kidneys have been diseased for a long time, for kidney diseases seldom put out such symptoms as the victim recognizes until they have been working several months. You should lose no time—get a box bottle of Safe Cure at your druggists. It will relieve you at once and effect a permanent cure. It kills all disease germs.

IF IN DOUBT MAKE THIS TEST:

Let some morning urine stand for 24 hours in a glass or bottle. If then it is milky or cloudy or contains a reddish, brick-dust sediment, or if particles or germs float about in it, your kidneys are diseased.

ANALYSIS FREE

If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report with advice free of charge to you, together with valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease.

All letters from women read and answered by a woman doctor. All correspondence in strictest confidence.

WARNER'S SAFE CURE is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and pleasant to take. It does not constipate, it is a most valuable and effective tonic, it is a stimulant to digestion and awakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives it strength and restores energy. You can buy Safe Cure at any drug store or direct.

60 CENTS AND 31 A BOTTLES.

Beware of so-called kidney cures which are full of sediment and of bad odors—they are positively harmful and do not cure.

Warner's Safe Pills move the bowels gently and aid a speedy cure.

BOND BUYERS ARE STILL MAKING PROTESTS

Suit May Be Needed to Settle Army Financial Deal.

A judicial opinion is probably the only thing that will settle the controversy now on between the city and R. L. Day & Co., of Boston, the purchaser of the armory bonds.

The company is still asking for authorities bearing on the issue, but the officials have been doing so much in that line that they are getting tired. Comptroller Betz threatens to sue the company for non-fulfillment of contract.

The city has \$2,000,000 belonging to the company and that will be retained if the company does not take the bonds.

ACTIVITY IN REALTY CIRCLES CONTINUES TO GROW

Records of Transactions Show Substantial Increases in Value and Amount of Property Transferred—Railroad Purchases Stimulate Market—Residences in Demand.

Real estate transfers for third week in March:		
	1903.	1902.
Monday	\$9,250	\$31,350
Tuesday	8,225	15,450
Wednesday	6,000	5,200
Thursday	43,681	10,240
Friday	820	951
Saturday	25,875	11,200
Totals	\$140,431	\$81,391

A resume of the local real estate situation for the past week indicates that the prospects for "hot deals" for 1903 are much brighter than those of a year ago, notwithstanding the fact that 1902 was one of the best years in the real estate history of St. Paul since the boom days.

The record of transfers given above, which is considered a splendid barometer, shows that the business of the week just closed is heavier by more than one-third than that of the same week a year ago, and even this percentage is largely responsible for the increase in value of the past three months. The recent heavy buying of local real estate by railroads entering St. Paul is largely responsible for the increase in business over last year. The Northern Pacific alone has, since the first of the year, purchased more than \$200,000 worth of St. Paul real estate, paying prices which could never have been realized had the property been desired for anything other than railroad purposes.

The bulk of the property gathered up by the Northern Pacific lies in the lower town district, although the road's purchasing agents have bought some lots further up in the city, the most recent purchases being in the vicinity of the company's right of way along Westminster street and Woodward avenue. Unusually high prices have been paid for all of this property, one small triangle on Westminster street bringing \$25,000.

Plans Big Terminals.
When the Northern Pacific has secured the remaining property desired, it is stated that the erection of the largest and most complete terminals in the West will be commenced.

The road will expend a large sum of money on its terminals, and provisions will be made for some large warehouses which have been planned for some time. In addition to the expenditure of \$750,000 for the property necessary for the new terminals, improvements, more than \$1,000,000 will be spent on the improvements proper.

Aside from the large purchases being made by the Northern Pacific, the Soo and Great Western roads are investing heavily in St. Paul real estate, which is needed for improvements contemplated by each of these roads.

The Soo is said to have made some heavy purchases in lower town, and has bought up considerable property north of the city, near the intersection of Lafayette avenue and Nell streets. This latter property is said to have been purchased by the Soo for the purpose of putting in its own terminals.

All of the railroad companies having heavy interests in St. Paul, realizing the fact that the city's future development will warrant such action, are now securing all of the property possible. Good prices are being paid, but the purchasing agents realize that even at the prices now being paid the property is being bought cheaper than it could be a few years from now, and they are taking advantage of the opportunity to secure any lands which might be of use to them later on.

Great Western Buys Land.
The Great Western has bought a large tract of land adjacent to its tracks in West St. Paul, and is said to have secured options on much more. It is the object of the Great Western to secure possession of all the land possible adjacent to its line of cars, and to rent it for nominal sums to manufacturing plants.

The company is said to have already secured the option of a large number of infant industries to locate upon property along the Great Western line, and some of the older and larger manufacturing plants in the city are said to be desirous of accepting the road's offer. The plan of the Great Western is to give long time leases on this property for the nominal sum of one year, a plan followed up by the city in securing manufacturing tenants for its levee property.

Real estate agents are more than satisfied with the prospects and the business already transacted so far this year. In magnitude it exceeds any comparable year for some time, and there is nothing to indicate that the activity will not continue.

Inquiries are being made every day for suitable locations for residences and applications for desirable building sites for business houses are numerous. Property of this class is bringing good prices, and the demand is far greater than the supply.

Many of the jobbing firms in the wholesale district are looking for more commodious quarters, and a number of which down-town property is held at much higher prices than it was a year ago.

Architects report business better than for many years, and rental agents cannot begin to supply the houses for

FOOLED THE HOSPITAL
Was Pronounced Incurable, but Got Well on Pure Food.

Sometimes in a case of disease resulting from the use of improper food the symptoms are so complex that medical science cannot find the seat of trouble, and even the most advanced hospital treatment fails to benefit. A gentleman of Lee, Mass., says: "On April 1st, 1900, I went home by one of our Massachusetts hospitals, saying I nothing more could be done for me. I have been a great sufferer from nervous diseases and rheumatism, and my prostration had been previously treated at Sharon Springs and by a number of doctors without getting much assistance.

"One day I was feeling worse than usual when I read an article about your Grape-Nuts that impressed me so that I sent for a package. I commenced using it at breakfast the next day.

"For fifteen months I never missed one day. If you ever saw anyone grow strong and improve it was I. I gained from 125 pounds to my old weight, 165. I will always be a cripple from rheumatism, but otherwise I am so much improved that I now feel as well as any man in this country." Name furnished by Postum Co., Battle Creek, Mich.

There is a recipe book in each package of Grape-Nuts that will interest the housekeeper.

Because when "77" is taken the instant a chilly sensation is felt, together with some form of gentle exercise, until perspiration is induced, it will break up the Grip then and there.

Because the persistent use of "77" will break up a Cold that hangs on and has not yielded to other treatment, preventing Grip and Pneumonia.

Because the tonicity of "77" sustains the system during the attack, preventing long and tedious convalescence.

MR. HACKETT'S FUNERAL OCCURS TOMORROW

Chamber of Commerce Acts on Death of Pioneer Merchant.

Funeral services over the remains of Charles W. Hackett will be held tomorrow afternoon at 3 o'clock from the family residence, 359 Summit avenue. Interment will be private.

For more than thirty years Mr. Hackett had been one of St. Paul's leading business men, and at the time of his death was the senior member of the Hackett-Walther-Gates Hardware company. When Mr. Hackett first came to Minnesota, in 1856, he settled at Lake City, but a short time later moved to Wabasha, where he engaged in the hardware business.

CHARLES W. HACKETT,

Pioneer Merchant of St. Paul, Who Died Friday Night.

He remained in Wabasha until 1872, when he came to St. Paul to enter the hardware business. During the Indian outbreak Mr. Hackett entered the volunteer army under Gen. Sibley, and later became a captain in the Tenth Infantry.

Mr. Hackett was an active member of the St. Paul Chamber of Commerce and of the Jobbers' union. For years he was a member of the Park Congregational church, but since his illness had been identified with the Christian Science church.

At a meeting of the Chamber of Commerce yesterday the following committee was appointed to draw resolutions of sympathy and condolence: Gen. J. B. Sanborn, R. A. Kirk and T. A. Abbott. The chamber will appoint a delegation to attend the funeral at its residence, 1000 Broadway, when the resolutions will be reported.

PRINCIPAL FARNSWORTH.

Summer A. Farnsworth, principal of the Cleveland high school, is a native of Wisconsin, and was born at Bristol, Kenosha county. He is descended from the Puritan stock, the family coming to America in the sixteenth century. He received his early education in the country schools, and later in the village schools of River Falls, and after finishing this course he attended the University of Wisconsin. In 1875 he took a course in the state normal school at River Falls. In 1876 he was elected superintendent of the public schools at Crookston, and four years later was appointed as cashier in 1877 he came to Minnesota, taking up a homestead near the town of Ada, but he shortly after gave up farming and accepted a position as cashier with a large firm in Ada, at the same time serving as postmaster. In 1882 he was elected superintendent of the public schools at Crookston, and four years later was offered the position he now holds. Mr. Farnsworth is prominently identified with several fraternal orders.

Man and Woman Charged With Stealing From Department Store.

A man and woman giving the name of C. G. Gilbert and wife, of Minneapolis, were arrested by Detectives Daly and Sweeney, at Seventh and Jackson streets, last night, charged with shoplifting. The couple are accused of stealing a silk skirt from one of the East Seventh street department stores. Shortly after 9 o'clock Sweeney and Daly were detailed to watch a suspected couple in a department store. A little later the two suspects left the store and were followed by the detectives. Just as the man and his woman escort turned into Jackson from Seventh street, Mrs. Gilbert dropped the silk garment which she wore under her street skirt.

The two were at once taken into custody charged with shoplifting. They claim that the garment was purchased. The police say that fictitious names were given by the alleged shoplifters and that they are old offenders.

Y. M. C. A. STARTS AFTER \$300,000

Committee Issues an Appeal to St. Paul Citizens.
The Young Men's Christian association, of St. Paul, is very much in earnest over the matter of obtaining the necessary \$300,000 wherewith to erect a home for the association which will be lasting and a proud monument to the philanthropic motives which prompt its contemplated erection.

It is claimed by the executive committee of the association that their demand of \$300,000 is not an exorbitant one—that St. Paul is the only city in the United States having upwards of 165,000 population without a building of this character. Rented quarters have proved a curse to the city, and to be entirely inadequate because of the reluctance of landlords to fit up a building as it should be fitted in order to give the satisfaction of the tenants.

It is computed by this committee that in St. Paul there are 400 places where intoxicating liquors are sold, and 27 of these are saloons paying a total of \$327,000 per annum. For licenses alone. For other expenses it is estimated that the footing, with the license fees, is over \$3,000,000. To compare this the association calls for \$300,000, and in the appeal, among other things, say in regard to the project of obtaining this sum by canvass.

"After many conferences of the canvassing committee it was deemed necessary to make an inventory of those who might be interested to give this large amount.

"Nothing but intimate knowledge of the vast value of the building would induce the canvassing committee of prominent, busy men, to attempt the arduous task of so exhaustive a canvass.

"Sooner or later they will reach you. First, make up your mind to give something. Then remember that \$300,000 requires the aggregate of many large contributions, not small ones.

"Do not be offended by their persistence. It is complimentary to be asked to be generous.

"The result will be the building where, during the next 100 years, a multitude of young men will find refuge, inspiration and upbuilding, and have reason to thank God for your generosity."

CATHOLIC INFANTS' HOME ABOUT TO MOVE

Managers, However, Have No Intention of Abandoning Work.

The managers of the Catholic infants' home say there is no truth in the published rumor that the home is to be abandoned. That the present home of the association, on Selby avenue, will soon be vacated is true, but the babies will neither be homeless nor anyone who needs looking after neglected.

Mrs. M. M. Kennedy, president of the board of directors of the home, said yesterday that the home was merely moving. The expenses have been rather heavy during the past winter and it was decided that considerable needless

expense could be saved by using a floor of the Catholic orphan asylum, which has more room than needed. So the babies, twenty-six of them there now in the home, will be moved this week with the belongings of the institution to the floor of its work and the work will be carried on as heretofore.

"There has been no talk of abandoning the work," said Mrs. Kennedy, "and we regret that such a thing should be even suggested."

The home was organized nine years ago and has cared for over 1,000 little ones during these years of its work and has placed most of them in happy homes. Miss Julia Hannon is the matron of the home, and is a real mother to the babies while they are under her care.

The officers of the board are Mrs. Kennedy, president; Mrs. Michael Hubbard, vice president; Mrs. George Walsh, second vice president; Miss Helen O'Brien, secretary, and Miss Helen O'Brien, treasurer. Though the home is a Catholic organization it cares for as many Protestant children as Catholic, and receives as much support outside the Catholic church as in it. It might almost be said to be non-sectarian.

LITTLE BOY EATS LYE AND IS BURNED
Eight-Month-Old Infant Consumes Quantity of the Chemical.

Little Baby Clancy, the eight-month-old daughter of Luke Clancy, a traveling salesman, living at 407 Bates avenue, tried to appease her hunger last night by eating a quantity of lye. As a result the little girl fearfully burned her mouth, face and hands.

A pot of lye was left within the baby's reach while Mrs. Clancy was engaged preparing supper, and the little girl amused herself by munching handfuls of the lye.

Soon the chemical began its work, and before Mrs. Clancy was aware what her little daughter was doing the baby's face and hands were horribly burned. A physician was called and dressed the burns.

HUBBARD LECTURES ON ROYCROFT IDEALS
Tells of Workings of Institution at East Aurora, N. Y.

Elbert Hubbard, of Roycroft fame, last evening, at the Park Congregational church, delivered a lecture on "Roycroft Ideals."

Hubbard is a magnetic speaker, and held the attention of his listeners for nearly two hours while he recounted the accomplishments of the unique establishment founded by himself at East Aurora, N. Y.

That the Roycroft shop is a place where they "do things" was clearly demonstrated by the speaker, who there were over 300 employed in the place, none of whom were skilled workmen at first.

The art of bookbinding is little understood in this country, according to Hubbard, who says he was obliged to send across the seas for a skilled workman when he started in business.

Only young people were employed at the Roycroft shop at first, but now many old people are among the employees.

DRUMMERS ENJOY A SOCIAL SESSION
Will Make Effort to Increase Membership of Council.

Saintly City Council No. 50, United Commercial Travelers, held the fifth of series of social sessions last night in Elks' hall, Lower Grand Valley. The "knights of the grip," with their ladies, were present.

The first part of the programme was a progressive chess tournament in which the prizes were awarded as follows: Women's—Mrs. E. E. Fisher; second, Mrs. O. A. Sleeper; third, Mrs. J. M. Dresser; consolation prize, Mrs. Fred Mason. Men—First—O. F. Bailey; second, F. S. Carter; third, E. E. Fisher; consolation prize, the Schmittler. A ball followed the entertainment.

Next Saturday evening, March 28, will be held the annual special initiation ceremony. On that evening after the initiation ceremonies a "stag party" will be given, with a program including songs, dances and athletic work of a new and original order.

St. Paul and Minneapolis already enjoy the distinction of having the two largest lodges of commercial travelers in the world, but it is expected that on March 28 the Saintly City council will place its membership above the 1,000 mark.

The reason of the special hustling for this occasion is that the official year of the organization closes on March 31.
