"There is no chance whatever of such a thing being accomplished," said the president of the American league yes-terday. Referee Pillsbury's Reserved Decision Will Change Result,

LONDON, March 28.—The annual international cable chess match between the university students of Great Britain and the United States has come to an end. No definite announcement of the result has yet been made. As a last resort the unfinished games on board four and board six were submitted to the adjudication of Referee H. N. Pilisbury by the English players, who had to return to their homes. Mr. Pilisbury quickly played the game on board four (between Richardson, of Princeton, and Roome, of Oxford), and decided that the American had won. This made the score equal.

Mr. Pilisbury then experimented with the game on board six (between Bridgman, of Harvard, and Brown, of Cambridge) until the room at the Criterion was almost empty. At midnight he decided that he could not adjugicate this game, which decides the contest until Sunday or Monday.

The opinion is held here that either the english player will win this game or that it will be declared a draw.

Pittsburg Steamship Company Recedes

From Its Position. CLEVELAND, Ohlo, March 28.—The mates of the lakes who were called on strike the first of last week, agreed with the Lake Carriers' association today.

The terms of peace are these: The Masters and Pilots, which is the organization of which the mates are members, rescinded the strike order and sent all of the mates back to their posts. The Pittsburg Steamship company retired from the position it had taken, A. B. Wolvin, the general manager, being present, and agreed to take back those men who had withdrawn their contracts. The mates on their part withdrew the demand they had made that only union masters be employed on the boats, and as these were all of the points of contention, an amicable arrangement resulted.

Postpone State Meeting Two Weeks to Secure Use of Capitol.

The annual meeting of the grand lodge of the I. O. O. F. will be held in St. Paul at the state capitol, June 24 and 25, in spite of an earnest effort on the part of the Commercial club, of Minneapolis, and other organizations of that city to secure it. The original date set for the convention presented some difficulties for the reason that the capitol was engaged for that time for the convention of the National Workmen, but arrangements were made for the postponement of the Odd Fellows' gathering two weeks. The Odd Fellows' grand lodge con-

vention will comprise 500 delegates and the Rebekah assembly will number about 250.
