## DECIDE TO ACCEPT THE FORMER BID

Capitol Commission Lets Contract for Carpenter Work to Butler-Ryan Co.

Conforming with the decision of Assistant Attorney General Donahower, that such action would be valid, the capitol commision yesterday awarded the contract for the interior wood-work to the Butler-Ryan company on a bid of \$111,703, which was submitted last June. Two other companies also submitted bids at that time, the Bohn

Manufacturing company, St. Paul, \$113,287, and the Stillwater Manufacturing company, \$114,872.

After some debate among the members of the commission, some of whom thought it better to advertise for another bidding, it was decided that both time and money would be saved by closing with the Butler-Ryan at their own figures at once. The bidding for own figures at once. The bidding for the painting and glazing work will be advertised for again and at once. The marble and stone work was also awarded to the Butler-Ryan company upon their bid of \$782,000, submitted last December. In this latter contract, however, the commission reserves the right to make such changes in the way of substitution of materials as it was of substitution of materials as it may hereafter deem good and proper. In the marble and stone contract, two

other bids were submitted—one by the Pickle Marble and Stone works, St. Louis, Mo., for \$833,375, and the other from the Peoria Stone and Marble company, \$832,375.

In consideration of the fact that the funds are lowering very appreciable. funds are lowering very appreciably, it was decided to issue and sell more certificates of indebtedness. The month's budget of \$39,760 was passed.

In advocating a measure which will preclude the possibility of violation of the "anti-dilution" and other laws, Dairy Commissioner McConnell recommends a rather unusual remedy.

"One of the most dangerous and prolific sources for the spread of disease, and especially so in large cities, is to be found in the innocent appearing milk tickets. They are daily passed from hand to hand and house to house where the germs of disease may lurk. where the germs of disease may lurk, and it is plain to any thinking mind that the old-fashioned milk ticket is a

that the old-fashioned milk ticket is a medium for the spread of contagion which, for public safety, should be at once abolished. A law should be passed requiring the adoption of a ticket or coupon which should come fresh from the printing press, and then used but once. As a public safeguard it seems to us such a law is imperative.

"There is such adulteration in the various concentrated foods for stock that it seems to be my duty to call the attention of the legislature to the fact, Every article in this class sold as pure should be of that standard, and when found otherwise, manufacturers should found otherwise, manufacturers should be compelled to label it as adulterated, giving the contents of the admixture."

Excellent Performance by Amateurs at Mozart Hall.

"Capt. Racket," a three-act comedy, was presented last evening at Mozart hall by the Olivette Players' lyceum, a local amateur dramatic company, under the direction of Mr. Wil-loughby. The audience, although small, was well pleased, and the frequent applause showed plainly that St. Paul keenly appreciates its own lo-cal talent. The company is the best cal talent. The company is the best that has been seen at the Mozart hall for considerable time.

Sidney Powers as Capt. Racket was excellent and played in a manner that showed he has made a careful study of the role. Miss Margaret Nelson assumed the role of Clarice Racket in a way that showed she might easily take heavier characters. Mrs. Tolman was all that could be desired in the hands of Miss May Cavanaugh.

C. L. Pomery as Obadiah Dawson played easily and naturally. Owen Leggelaw as Timothy Tolman acted with good expression and found favor with the could be compared to the country of the country to the country of the countr good expression and found favor with the audience. Miss Bernice Copley as Katy, the maid, was sweet and attractive, and Thomas Mulcrone and H. V. Smith essayed the parts assigned to them creditably.
