INJURED WORKMEN CARED FOR BY ACTORS

Northern Pacific Passenger Train Runs Into a Freight in North Dakota—Fireman Killed and Engineer Hurt—Passengers All Escape.

DICKINSON, N. D., April 17.—Passenger Train No. 4, of the Northern Pacific, ran into a west-bound freight on the siding at South Heart, ten miles west of here, today. Guy Gleason, fireman on the passenger train, jumped, striking his head on a tie. He was almost instantly killed. C. D. Litch, engineer, stayed with the engine. He was badly bruised and cut up, but will recover. Both live and well. No passengers got worse than a shaking up. The freight crew left the switch open, and, being on a curve, the train could not be seen. The engine plowed through the flat and freight cars and left the track. Trucks from a flat car went over the engine and crashed through the mail car. D. L. Donnelly, mail clerk, had a narrow escape.

As soon as possible the passengers got out. They offered all possible assistance, and two members of the "Lord Strathmore" company are entitled to special mention. Miss Virginia Drew Trescott, Miss Anna May Shafer hastened to the aid of the injured fireman and injured engineer, bathed and bandaged the engineer and said that she would have been a company surgeon got there, so that all he had to do was place them on the train.

PAPERMAKERS TO STRIKE.

Compromise Refused and Mills Close Down at Neenah.

NEENAH, Wis., April 17.—The Neenah papermakers' strike, which has been in progress since the ultimatum to the Kimberly-Clark company this afternoon, demanding shorter hours. The company refused the request and closed the mills for an indefinite period. The strike threatens to be the most serious that ever visited Wisconsin. The International Brotherhood of Papermakers has refused all offers of compromise and a strike of 1,000 men will begin tomorrow night in nine Fox River Valley paper mills, the men say.

PRESIDENT SEES GEYSERS.

Plan for a Day at Deadwood Has to Be Given Up.

CINNABAR, Mont., April 17.—No news has been received from the president since he left early this morning for Norris, in the Yellowstone, to view the geysers. As the trail had been made possible in the worst places, it is supposed that he will reach Norris safely. The plan for the president to spend a day in the Black Hills has been abandoned, owing to the impossibility of disarranging the programme as already arranged. An hour will be spent at Edgemont, where the president will be given an old-fashioned cowboy reception.

ON CHARGE OF INFANTICIDE.

Olmsted County Girl Arrested for Serious Crime.

ROCHESTER, Minn., April 17.—Sheriff E. H. Vine served a warrant upon Miss Marie Downing at the home of Mr. and Mrs. Anton Johnson, in Salem, on the charge of murdering her infant female child, born March 18, and she was brought to the sheriff's residence. The young lady is not well yet, and is under the care of a physician constantly. She was arraigned until she is improved in health. The merchants of Olmsted county have arranged to hold a brotherly convention in this city April 28. Members of the Christian church are arranging for the state convention, which will be held here June 16.

Floods in Houston County.

WINONA, Minn., April 17.—Root river is in another rampage. Farmers from the vicinity of the Hokah bottom remark that the stream is again a raging torrent and has flooded the bottom from which the water receded only two weeks ago. One farmer said that in a couple of places the water touched his wagon box. The roads in Houston county are in frightful condition from the recent rains and there is scarcely any travel.

Objectionable Commissioner.

SEATTLE, Wash., April 17.—Resolutions were passed protesting against the appointment of Arthur C. Jackson as Alaskan commissioner to the St. Louis exposition in a meeting held in Juneau, Ore. The resolutions state that Jackson is not a resident of Juneau, which he claims to be, and that the people have no confidence in him. Jackson has previously held prominent Alaskan positions at Buffalo and Atlanta fairs.

Stillwater Selections.

SPECIAL TO THE GLOBE.

STILLWATER, Minn., April 17.—George O. Haskell has been appointed assistant health officer by Mayor Armonson. Mrs. Thomas Maitson has gone to Aberdeen, S. D., where her mother, Mrs. W. H. Welch, is seriously ill. Indications are that log shipments by rail to Stillwater from the northern part of the state will be continued indefinitely this spring.

New Timber Deal.

WINONA, Minn., April 17.—A deal has been concluded here whereby the interests of A. Patterson of the Milwaukee and Dansburg, or Rochester, in the business of the Union Lumber company here have been transferred to the Union Lumber company. The yard here will be run strictly as a retail yard and the wholesale department will be carried on more extensively than ever before.

Buttermakers Will Be Jolly.

SPECIAL TO THE GLOBE.

MANKATO, Minn., April 17.—The buttermakers of southern Minnesota are making great preparations for the annual picnic of the State Buttermakers' association, which has been set for June 4 at Lake Crystal. Prominent creamery men from all the United States will be present. All sorts of sports will be indulged in.

Struck by Train.

SPECIAL TO THE GLOBE.

FARGO, N. D., April 17.—Claus Jossing, a butcher at Wild Rice, was hit by the independent's train at the Milwaukee while driving across the track. One hand was cut off, an arm badly broken and a severe cut received in his head. The injured man was brought to Fargo, and may recover.

Dependence and Death.

SPECIAL TO THE GLOBE.

CROOKSTON, Minn., April 17.—Homer Compton, a farm hand, employed north of the city, committed suicide today by shooting himself through the heart with a revolver. He had been sick and unable to work for some time, and dependence caused his act. He had no relatives in this vicinity.

Deadlock on City Attorney.

MANKATO, Minn., April 17.—The city council failed to make a selection for city attorney, seventy-four ballots were taken. The candidates were City Attorney Daley, W. L. Comstock and Walter Plymat.

Would Prove Her Innocent.

DAVID CITY, Neb., April 17.—Council

SENATOR SUTTON

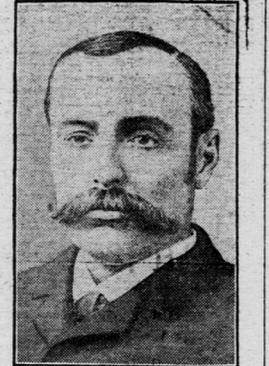

of Burlington, Vt., Does Not Wait for Sickness.

HE USES

Paine's Celery Compound

The Health Giver, Whenever He Feels Out-of-Sorts, and Thus Maintains Regular Health and Vigor.

Paine's Celery Compound is more talked of in the springtime in each state, city, town and village than any other medicine now on the market. It has a place in the homes of the wealthy, influential and intellectual; it is the disease banisher that has the entire confidence of our men and women.

E. M. SUTTON.

on who toll daily in workshops, stores, offices and homes. When the first warning symptoms of physical weakness and disease are experienced, wise and prudent men and women invariably seek new vitality, health and strength in nature's health builder, Paine's Celery Compound. If the reader of this article finds it difficult to obtain restful sleep, if nervousness and weakness are causing alarm, if the blood is impure and sluggish, if rheumatism, neuralgia, dyspepsia, kidney or liver troubles are commencing to annoy, follow the safe and wise example of ex-Mayor Sutton, of Burlington, Vt., use Paine's Celery Compound and promptly banish the little ills; do not wait till you are sick. One bottle, as a rule, will brace the nerves, correct impaired digestion, cleanse the blood and make you robust and strong. Read Senator Sutton's cheering testimony:

"People have often asked me how I managed to keep so well, for, although I am in nearly all kinds of weather, and traveling considerably, I have no aches or sickness. My answer has been that, instead of waiting until I am sick in bed and forced to stop work for a while, whenever I feel out of sorts the least bit, I take Paine's Celery Compound, which keeps me well and strong. It is a great deal better, in my opinion, to take a medicine that keeps one well rather than to wait for sickness and then hunt around for a medicine or a doctor. I have been a hearty advocate of Paine's Celery Compound since it was first made a great many years ago, and have yet to hear of a case in which it has failed to fulfill its promises."

for Mrs. Harvey Little, convicted of the murder of her husband, today presented evidence which will prove her innocence.

Call to a Winnipeg Preacher.

SPECIAL TO THE GLOBE.

FOREST LAKE, Minn., April 17.—The Presbyterian church of this place has extended a call to Rev. Donald McKee, of Winnipeg.

Horse Thief Hanged.

EUGENE, Ore., April 17.—Elliott Lyons, who on Feb. 6 shot and killed Sheriff W. W. Withers while resisting arrest for horse stealing, was hanged today.

Pipestone to Have Library.

PIPESTONE, Minn., April 17.—The citizens of Pipestone in mass meeting voted to accept the offer of Andrew Carnegie to furnish a site and provide an income of \$1,000 a year.

Normal in Altkin High School.

AITKIN, Minn., April 17.—The school board has decided to establish a normal department in the high school next year.

Lewis Boles Dead.

WATERLOO, Iowa, April 17.—Lewis Boles, son of Gov. Boles, and a member of the Iowa legislature, died of typhoid fever, aged thirty-nine.

Solid Ice in Winnipeg.

WINNIPEG, Man., April 17.—There are no signs of a resumption of navigation on Lake Winnipeg. The ice at Fort William is solid for three miles out.

MRS. WILDER'S ESTATE TO FOUND A CHARITY

Continued From First Page.

tions of any kind or character whatever.

field corporation, which may be organized or which I will be organized, may be organized with powers, ample and sufficient, for the purposes herein named, and that no herein contained, however, shall be construed as making it obligatory upon the corporate managers to receive or administer any such bequest, devise, bequest or gift, but they shall act as their discretion and judgment may dictate relative to receiving same, and it must be only for and upon the complete absorption I have named.

Executors Have Full Authority.

"It may be found necessary or convenient while my estate is in the probate court to make conveyances or leases of real estate, or to sell any property; for that reason I hereby authorize the executors of this will, while in office, without applying to the probate court for authority to do, to sell, to convey, and lease, any real estate and to sell and assign any personal property belonging to my estate, and on such terms and for such purposes, for such time as said executors may deem to be for the best interests of my estate.

I hereby earnestly request, and I hereby fully empower such persons (as individuals, however, and not as judges) as may from time to time be selected real estate of persons, property, to exercise frequently visitatorial powers over the administration of this trust fund and charity, but I do not intend hereby, or by any provision of this will, to exclude or diminish the powers or duties of any visitor authorized now, or at any time hereafter, by any law to exercise visitatorial powers relative to, or over the administration of a fund of this character."

Minneapolis

SAY MILLS ARE OVERSTOCKED

Traffic Men Doubt Their Shutting Down Because of Rates.

Traffic men are smiling at the fanfare which has accompanied closing of the Minneapolis flour mills. They make no secret of the fact that so much flour has been placed in storage during the last two months, owing to car shortage and freight congestion in the East, as to furnish transportation companies plenty to carry for a considerable time. It is claimed that the mills have been closed because there is a glut of flour awaiting transportation and it is necessary to get the floors cleared a little before further shipments are made.

All the water has been let run from the dams and this indicates that there will be no more grinding for a considerable period. The men throw out of work on account of the lockout are preparing to hold meetings for discussion. The millers simply stand pat. They say that every day they run the mills under present rate sheets, they are losing money.

A. C. Loring, of the Consolidated, said last night that not a mill in the Northwest would turn a wheel until the matters involved had been adjusted satisfactorily to the millers. It is even suggested that the mills may lie idle throughout the summer. The millers believe they can afford to do without transportation just as well as the railways can afford to do without freight. It is understood that the shut-down was precipitated by action of the board of the Pillsbury-Washburn Flour Mills company in London, which decided on impaired digestion, cleanse the blood, L. Little, to make its content against unjust rate treatment now. The other mill companies immediately acquiesced in the plan and the shut-down resulted.

Transportation men say that the cheapening of wheat transportation over that of flour is natural and due to natural causes. Freighters returning from the head of the lakes are glad to take wheat in bulk for practically what they can get in place of going home light or in ballast.

The millers declare that owing to the constantly increasing discrimination against wheat they have been compelled to operate with ever narrowing margins of profit until there is now no profit left in a rate that gives 5-2-3 cents a hundred preference to wheat over flour.

POLICE STORM BLOWS OVER.

In the Meantime More Revelations of Department Friction Are Made.

The detective row in Minneapolis has flashed in the past. The whole force was on the carpet yesterday, and there was a monkey and parrot time for a few minutes.

Nick Smith, the man who is accused of having advised the young murderer, Sutton to "stand pat," is supposed to be in bed with a sprained ankle. As a matter of fact, Mr. Smith realizes that there are lowering skies over the headquarters building, and that he would better fight shy of the superintendent for a few days.

The talk Supt. Conroy gave his men was a strenuous one. He made it plain that there would have to be a cessation of knocking and backstabbing on the force, or that it would be necessary to clean the whole bunch of crookeders out. This attitude of the chief is giving dissatisfaction in many directions, for such warnings have been repeatedly administered within the last few weeks, and nothing has come of them but further trouble and dissension.

It may be in view of startling revelations developed in the trial before Judge Elliot of the David Gullikson case yesterday, that Supt. Conroy will realize the necessity for taking immediate action to clean up the force. No more rotten condition of police immorality has ever been exposed anywhere than that shown during the hearing of this case.

Gullikson was discharged. It was shown to the satisfaction of the court that he had been employed by Detectives Vaughan and Gorman to rope young men of his acquaintance into disreputable acts in order that they might make easy arrests and get credit for street work.

Two burglaries were committed under the Gullikson agreement. Two of the men implicated, Joe Morris and Frank Webster, have been found guilty. William Catlin, another man arrested, was acquitted.

Detectives Vaughan and Gorman have already been discharged from the force, but that the same methods prevail among other members of the sweetly perfumed aggregation under Conroy is apparently beyond doubt. Only six weeks ago C. D. Brown and his side partner, Crummy, were charged with having engineered a hold-up

and shooting affray, in which a man was wounded by the same system. The officers were sustained by the court and the man went to jail. There were very suspicious circumstances about this case.

FANATIC ATTACKS ALTAR.

Does Damage With Ax in Holy Rosary Before Being Stopped.

A well-dressed man, without hat, created a sensation about 10 o'clock yesterday morning by entering the Holy Rosary church at Eighteenth and avenue S and Twenty-fourth street, and attempting to destroy the altar and fixtures.

A number of workmen were employed taking up the storm sidewalk leading up the steps of the church in winter time. They had removed several sections which they were carrying to the rear of the building, when the men were behind the church the stranger seized the ax with which they had been working and ran down the aisle of the church.

He first demolished a chair with his ax and then turned his attention to the altar. He had torn off the draperies and was about to attack the altar itself with his ax when the returning workmen caught him and took away the ax. A policeman was summoned, but before he could arrive the man broke away and escaped. Father Hardegan notified the police, who are

CLOSE OF IRISH CONVENTION

Amends to Land Bill Agreed Upon—Irishmen Very Happy.

DUBLIN, April 17.—The Irish National convention concluded this evening. In two days it got through a large amount of controversial work and emerged, to quote T. P. O'Connor, "scathless and honored from a test the whole world was watching. It was not only shaping the destinies of Ireland, but it held in its hand the fate of the power of the British ministry."

John Redmond, replying to an enthusiastic vote of thanks for his chairmanship, declared that the convention was a credit in every particular to Ireland. Mr. Redmond makes the important announcement that amendments adopted by the convention will be adopted by the joint conference at which Lord Darnley, Lord Mayo, Capt. Shave-Taylor, John Redmond, William O'Brien and T. W. Russell will meet. This practically insures the passage of the Irish land bill. The delegates returned to their homes tonight in a happy frame of mind, echoing John Redmond's parting words: "May the God of our fathers once again visit this land with the peace and plenty that are her due."

T. P. O'Connor thus sums up today's proceedings:

"This was the day for agreeing on the amendments to the land bill, which are considered essential. Most of these were proposed by William O'Brien. They covered several important questions, including demands for more liberal treatment of the congested districts, and of the laborers. A resolution was adopted condemning an eighth as a rent charge, but retaining a technical rent charge."

One of the most important amendments that was proposed by Michael Davitt, that the principle of the American homestead law be added to the land bill to safeguard the peasants from the results of improvident borrowing and the operation of land grabbers and land jobbers."

John Redmond made the following statement:

"The convention was the most important nationalist assembly held in Ireland during the past hundred years. If its recommendations be substantially carried out by the government the land question will be settled and the whole future of Ireland will be full of hope. The convention's recommendation will be supported by the members of the land conference and they will be presented to the government as the demands of both landlords and tenants. I have the strongest possible hope that the government will have the wisdom to accept them."

"If all goes well, the result will be the absolute end of the land war in Ireland, the union of all classes and creeds in this country, with the inevitable result of the concession, almost immediately, certainly within the lifetime of the present generation, of a system of national self-government. This blessed situation is largely due to

the magnificent support we have received from the Irish in America and American public opinion generally."

WORKINGMEN OF TWO COUNTRIES COMPARED

Visiting Britons Say Those of This Country Are the Better.

LONDON, April 17.—The report of the commission of British working men were taken to the United States at the end of last year by Alfred Moseley, a wealthy Englishman, to study conditions of labor there, was issued today. It presents the views of twenty-three delegates. "The report shows a lack of unanimity, except that all agree that the British workman has nothing to learn from the American workman, while British employers are not as far advanced as the Americans in the treatment of their employees."

Mr. Moseley says that the American workman has a far better education, "is infinitely better paid, housed, fed and clothed, and moreover much more sober." Mr. Moseley says in conclusion:

"If we are to hold our own in the commerce of the world, the old methods must be dropped and the old machinery abandoned."

He believes that some form of profit sharing is the true solution of the capital and labor question. He welcomes the trusts as best able to compete on the most economical lines. He says that the organization of capital, on the one hand, and of labor, on the other, will solve the industrial problem.

MAYOR OF A PORTO RICAN TOWN ARRESTED

Other Officials With Him, Municipal Frauds Being Charged.

MAYQUEZ, Porto Rico, April 17.—Chief Hamill, of the insular police, has arrested Mateo Fajardo, the mayor of Mayaguez, charged with municipal frauds of large amounts. The superintendent of public works, the former chief of police, the market superintendent and four other employees of the public works department were also taken to jail.

CHICAGO CONSTABLE SHOT BY A PHYSICIAN

Latter Says He Thought His Life Was in Danger.

CHICAGO, April 17.—While making a levy at the office of Dr. John Kircher tonight, Constable William D. Kruse was shot by the physician and probably fatally wounded. Kircher says he fired the shot fearing that his life was in danger at the hands of the constable and two assistants. After the shooting, the doctor handed the constable the revolver, saying: "You are an officer of the law and I surrender to you."

ANTI-CHAFF.

CHAFED heels and ankles are the penalty of wearing many ordinary low cut shoes.

Because most Oxfords are made on the self-same lasts as high cut shoes.

Such lasts are too full at the ankles to hold Oxfords in a non-slipping position, and not only "gape" there but slide up and down on the feet, wearing out the stocking first, and chafing the heel next.

Regals are separately cut for right and left feet, and are shaped upon special Oxford lasts, with just the right tension about the ankle to prevent slipping and to avoid pinching around the upper edge.

Of Valvic Ventilating Calfskin, the coolest, cleanest and lightest of summer leathers, they are well worth \$10.00 in solid comfort alone—price \$35.00.

Every Regal carries its own proof of Genuine Oak sole leather. See "Window of the Sole."
