News of the Day From the Northwest.

ROADS SEEK RIGHT OF WAY.

Lively War Promised in White Earth Reservation. CROOKSTON, Minn., May 6.—Reports from the White Earth Indian reservation are that there is evidence of a railroad war in that section. From the activity which is manifested there one would imagine that it was the mecca for all the railroad men of the West.

Last week the right of way agent of the Soo was on the reservation ascertaining the names of the different allottees through whose allotments the railway routes will run, and perfecting other arrangements in connection therewith. This week the attorney and the right of way agent for the Great Northern are at the agency engaged in similar employment.

Both routes are running parallel to each other and only half a mile apart and about four miles west of the agency through the agricultural belt of the reservation. The Northern Pacific is running a survey that cuts the reservation from southeast to northwest which will pass through the timber belt of the reservation and in close proximity to the finest fishing and duck grounds in the state.

East Grand Forks Will Bond. EAST GRAND FORKS, Minn., May 6.—The citizens at a mass meeting voted almost unanimously to bond the city for whatever amount is necessary to insure water works. The plan is to secure the power from the electric light plant, as

nothing would be needed but the addition of another boiler, and this is needed now. The pump would have a capacity of 1,140,000 gallons per day, which, it is claimed, is more than is pumped by the Grand Forks plant in twenty-four hours, and the water pressure would be ample.
