

CATTLE LOSSES ARE SEVERE FOR THE PINOS

ov. Taft, Replying to Statements Made by Gen. Miles, Says Amount of Famine Is Surprisingly Small, but Cattle Question Is a Serious One.

WASHINGTON, D. C., June 8.—The war department today made public a report received from Gov. Taft, replying to statements made by Lieut. Gen. Miles after his visit to the islands last year. The report is dated at Benguet, April 18, and says:

"That there is a shortage in the islands of the usual food supply is undoubtedly true, but I have been surprised to find that the real famine or hunger there is, I have not received a call from a single provincial governor for rice for free distribution in the entire archipelago. In the province of Batangas, Capt. Boughton, in managing the so-called famine fund, has made a very small gratuitous distribution of rice, not exceeding in quantity more than \$2,000 worth."

"The action of the commission in directing a proclamation by the civil governor calling upon the people to grow anywhere a plant, corn, amaranth or sweet potatoes, rice and other quick-growing food products had a very wide influence in stirring up the people to provide against the coming of famine. It is true that an unexampled drought in the islands has prevented this planting from being as productive as it otherwise would have been and that the locusts, too, have interfered with some of the crops, but on the whole I have been greatly surprised to find the suffering so much less than we expected it to be. It may be that in May, June and July we shall have calls for aid, but I think that we shall be able promptly to respond to them, especially now that \$3,000,000 have been appropriated for the purpose."

Ravages of Rhinderpest. "The most serious feature of the situation is the loss of the cattle from rhinderpest. It is not feasible to bring cattle into the islands without making sure that they will not catch the rhinderpest after coming here and die from the disease. The fields of the islands are infected with rhinderpest, so that cattle from other islands brought here are almost sure to have the disease. It is necessary, therefore, that all cattle brought here have a serum injected into their veins which will render them immune for three or four months and at the same time inoculated with the rhinderpest virus, which renders them immune for five years and probably longer. We have made a contract for the delivery of 10,000 carabala in the islands with the permanent immunization. These are to be brought from the Yang Tsi valley in China."

"I am unable to see that the government transports could be made useful to us either in the transportation of rice or cattle. We can charter steamers adapted to our purpose at perhaps one-third or one-fourth the cost of operating the transports as proposed by the lieutenant general of the army. We have some twelve or fourteen coast guard vessels which can transport rice quickly to any part of the archipelago, and we can purchase in the Orient at a much cheaper price than we can bring corn or wheat from the United States."

Breaks the Rice Corner. "The rice which we can thus bring to save the people from starvation is the food which they are used to eating, whereas they would have to be taught to eat wheat. It is exceedingly important that we shall not pauperize the people of the islands by unnecessary gratuitous distribution of rice. In anticipation of a corner in rice, we made a purchase of rice involving \$800,000 gold. We did succeed in breaking the corner and keeping down the price of rice, and should the price advance again, we have the means to do the same thing again. We have had the rice in various parts of the archipelago nearly at cost whenever the merchants in that neighborhood insisted on forcing the price beyond what was reasonable."

"The purchase of cattle and the landing of them in the islands are attended with great difficulty for the reasons that I have stated. We cannot hope to bring into the islands as many cattle as we have. We can only hope to bring in a sufficient number to keep agriculture going. The price at which we have contracted for the first \$10,000 is \$88 (Mexican), delivered in Manila, completely immunized. We hope to be able to make purchases of our own at a somewhat lower price, though hardly less than \$80 (Mexican). "I think generally the statement of facts in the report of the lieutenant general is correct, so far, at least, as the dreadful depression in agriculture by reason of the loss of the cattle is concerned. The remedy which he suggests by the use of the government transports, however, I do not concur in. The danger from famine has not been as great as I supposed it was, and as the lieutenant general was justified in supposing it was from the reports which he heard."

Another Transport Necessary. WASHINGTON, D. C., June 8.—The war department has decided to place the transport Buford in commission,

owing to the increased traffic between this country and the Philippines. Many passengers in addition to those who can be accommodated on the ships sailing July 1 and August 1, are awaiting transportation to the islands. There is quite a large traffic this way from Manila.

No Native Bishops. ROME, June 8.—The reports from the Spanish friars and from the former Spanish bishops in the Philippines regarding the Philippine clergy are so unsatisfactory that the Vatican has decided not to appoint two native priests to the bishoprics of Cebu and Samar. One bishopric will be left under the present administrator and in the other a candidate proposed by Archbishop Guidi will be appointed as archbishop general. The action in both cases is an experiment.

EXPERIMENTING WITH STOMACHS TROUBLESOME

Government Boarders in Dr. Wiley's Charge Want Change of Diet.

WASHINGTON, D. C., June 8.—The chief of the chemical division of the agricultural department, has been conducting on volunteers for the purpose of testing the effects of borax and other preservatives in food, will be suspended on June 30. The list of volunteers has fallen from twelve to seven, and there have been many complaints since warm weather began from government boarders, who want a change of diet.

JEW BAITING IS RESUMED IN RUSSIA

Threatened Hebrews Close Their Stores and Some Take Flight.

BERLIN, June 8.—According to a dispatch fromemberg, the papers in that town publish an account of the renewal of the Jew baiting at Boretzko, Russia, near Brody, Galicia. Twenty thousand peasants assembled at the annual fair threatened to massacre the Jews who, panic-stricken, closed their houses and stores and telegraphed to the governor for protection. A hundred of the Jews fled to Uzyn, on the Austrian border.

LONDON, June 8.—Sir Horace Rumbold, former ambassador to Austria, writes to the Times this morning with reference to the question of the false accusations of ritual murders provoking attacks on the Jews. He says a

WITH COMPLIMENTS OF KING VIC TO TEDDY

Italian Monarch Treats Him to Eugene of Savoy and Dante.

WASHINGTON, D. C., June 8.—King Victor Emmanuel has sent to President Roosevelt a gift of rare value which will be presented to the president on Monday by Signor Mayor des Planches, Italian ambassador, who, at his master's request, will be received in special audience at the White house. The gift is one of books and consists of the war reports of Prince Eugene of Savoy and a copy of Dante's "Divine Comedy," with a comment in Latin by Stefano Talice da Riccardine. The books are elegantly bound in full red leather and bear the royal crest with the king's monogram in the four corners of each volume. The war reports are in twenty volumes and the Comedy in five volumes.

The president is an enthusiastic admirer of Prince Eugene and has made a careful study of his campaigns. The Italian ambassador learned of this fact, and as soon as the king heard it, preparations for sending the gift were begun. The work was published in private distribution by the late King Humbert.

The "Divine Comedy" is accompanied by a comment hitherto unpublished, which until recently was preserved in manuscript at the Royal library in Turin. The books are quarter size and are printed on paper of Italian make. Signor Mayor will carry a personal message of good will from the king to the president.

THREE TICKET SCALPERS JERKED UP BY LAW

Arrests in Indianapolis on Charge of Wholesale Forgeries and Frauds.

INDIANAPOLIS, Ind., June 8.—Wholesale forgeries and frauds among ticket scalpers, alleged by Pinkerton detectives, have resulted in three arrests in this city. The investigation has been going on for some days at the instance of the Railway Ticket Protective bureau.

Those arrested are Mitchell S. Meyberg, of the ticket brokerage firm of M. S. Meyberg & Co., James B. Finley, an employe of the Big Four railroad, who is said to have worked in conjunction with the scalpers, and Samuel Glick, employed as a clerk at the office of A. L. Messing, a broker.

JEROME WILL PROBE BUILDING STRIKE

New York District Attorney Will Begin a "John Doe" Proceeding.

NEW YORK, June 8.—District Attorney Jerome has announced that he will this week begin a "John Doe" proceeding before a magistrate in which he will make a thorough and impartial investigation into all the causes that have resulted in the long delay of building operations in this city and the idleness of more than 100,000 men for over a month.

In this investigation Mr. Jerome promises to go thoroughly into all the charges that have been made of criminal conspiracy on the part of building material dealers and large contractors, who are accused of being primarily responsible for the tie-up in the building trades.

Sixteen labor unions in the United Board of Building Trades deserted that body today in a stormy meeting. Until the factional fight developed a week ago, when a number of radical delegates, under the guidance of Samuel J. Parks, upset the plans of the men who wanted to end the disastrous building tie-up by expelling the Material Drivers' union from the central body, the organization was always known for its conservatism and moderation. Last Wednesday, when the Parks faction won, the material drivers and handlers were given until today to decide whether they would voluntarily withdraw from the united body.

They refused to withdraw. There was a call for their expulsion, and when the matter was put to a vote the result was 20 to 16 in favor of the drivers. President John J. Donovan then left the hall. He was followed by Vice President Lemmon and the delegates of fourteen other organizations. The seceding unions are: Amalgamated Society of Carpenters and Joiners, Amalgamated Sheet Metal Workers, Plaster and Ornamental Plasterers, Plumbers and Gasfitters, Local No. 2; Electrical Workers No. 2; Marble Cutters, Mosaic and Encaustic Tile Layers' union, Tile Layers' Helpers, Steam and Hot Water Fitters, Steam Fitters' Helpers, Granite Cutters' union, United Derrickmen, Riggers and Pointers, Journeymen Stonecutters, Brotherhood of Painters and Decorators, Slate, Tile and Metal Roofers, Elevator Constructors.

The unions which voted in favor of the material drivers and remained in the united board were for the most

NEGROES KILLED AND SURVIVORS DRIVEN OFF

Sanguinary Results of the Shooting of White Men in Mississippi.

FOREST, Miss., June 8.—Four negro men and one negro woman killed, eight or ten severely beaten and most of the other negroes in the community ordered to leave as the result of the shooting from ambush of Mr. Craft and the wounding of Mr. Boyls by negroes last week.

This occurred in the northern part of Smith county and the excitement there last week was intense. Reports from there now are that everything is quiet and perhaps will remain so if the negroes, who have been ordered to leave, do so at once. It is said that the killing and flogging of the negroes was done by men from the part of the country where Craft lived.

Visible Supply.

NEW YORK, June 8.—The visible supply of grain in the United States, as compiled by the New York produce exchange, is as follows: Wheat, 2,711,000 bu., decrease 1,857,000 bu.; corn, 4,931,000 bu., increase 45,000 bu.; oats, 4,212,000 bu., decrease 500,000 bu.; rye, 801,000 bu., decrease 221,000 bu.; barley, 674,000 bu., decrease 255,000 bu.

HOLD YOUR JOB.

The Advice an Iowa Newspaper Gives Its Readers.

The top of the hill has been reached, and if you have a good job hold it. In a year from now jobs will not be hunting you as they are now. Even at present farmers are unable to get help. Lots of business is not doing as well as it should, for lack of help. But do you notice the terrible unrest there in the labor world? Strike follows strike. Chicago business houses are sending out word to their customers to buy ahead enough to run them for a few weeks. A strike of freight handlers is imminent. Regulating Clocks and Watches.

There is no end apparently to the sources of small revenues capable of development at the hands and brains of enterprising young women. This has been demonstrated by a young woman of German parentage who lives in New York city. The girl's father is a clock and watch repairer for a jewelry firm, and in one way and another his daughter has acquired considerable knowledge of chronometric. Last winter she advertised herself verbally when and where she could as an adept in cleaning, winding and regulating clocks and watches in private houses. After securing one or two patrons her business grew with reasonable rapidity. She had only the afternoons to devote to her house-to-house work, but between October and May she laid up enough clock-winding money to pay all the expenses of a long summer vacation at the seaside.
