ORPHAN BOY SEEKS BROTHER IN ST. PAUL

Reaches City Only to Be Taken in Charge by Humane Agent Moak.

Leaving the home of his adopted mother, Mrs. Julia Pettinell, of Nininger, Bernard Lynch, aged fourteen years, set out Tuesday afternoon to walk to St. Paul in search of his brother Thomas, aged twenty-three years, from whom he had been separated for over four years. The boy became dissatisfied with his home at Nininger and resolved to make his way to St. Paul and find his brother.

After the disappearance of the boy Mrs. Pettinell became alarmed about him, fearing that he had gone astray and that he might be in some long distance country. She came to St. Paul Wednesday and asked the police and Humane Agent Moak to aid her in a search for the boy, who she thought might be in St. Paul.

Humane Agent Moak yesterday learned that the boy was stopping at the home of C. D. Whaley, driver for the Union Trust company, with whom the boy had become acquainted on a visit to the city last year. Mr. Moak then visited the Union Trust company and when Whaley drove in the boy was in the wagon. Mr. Moak took him into custody and brought him to his office.

The boy told Mr. Moak he had left home because he was dissatisfied. He said that he had not been permitted to go to school more than a few weeks last year, and that he wanted to find his brother Tom, who he knew had a position in St. Paul, from which place he thought he might stay. He made up his mind to leave his home some time ago and confided his determination to some friends who assisted him by collecting \$150 for him.

He set out Tuesday afternoon and walked as far as St. Paul Park, where he took a bus to cross the river to South St. Paul, from which place he came to St. Paul on the motor. He immediately went to his friend Whaley.

Humane Agent Moak said that he would investigate the boy's case. The boy said that he did not want to return to his home. He was taken from an orphan asylum at Minneapolis three years ago, his parents being dead. He was anxious to find his brother Thomas, whom he had lost track of two years ago.

Improvements in Medicine.
Progress is affecting every branch of invention, production and manufacture in the world. The latest improvements are looked for in every line, and there is a royal reception on the part of the people as soon as made known through the latest improved newspaper. As an example look upon Cascarets, Candy Caramel, which represent the most modern ideas of a scientific, twentieth century medicine—a sweet, palatable, aromatic little tablet, put up in a dainty little enameled box just like the velvet pocket or purse—nothing to break or mark a miss—yet do their work powerfully though gently.

PROPOSED BOND ISSUE IS SOLELY TO REDUCE TAXES

Republican Opposition to It Inspired by Fear That Democrats Will Get Credit—Mayor and Comptroller Confer.

Mayor Smith and City Comptroller Betz held a long conference yesterday, at which they discussed the proposed \$200,000 bond issue, which the council will be asked to authorize for the purpose of providing funds for proposed permanent improvements in the city.

There is a general belief that the ordinance authorizing the city to issue these bonds will be turned down by the Republican members of the assembly, who declare the measure to be a political one. When the ordinance was first called to the attention of the assembly the objection to it cropped out, and instead of ordering it published, as was desired by Corporation Attorney Michael, who drew the ordinance, the assembly voted to refer it to the committee on streets, and it will be taken up at the next meeting of the assembly.

It is not thought that there will be any trouble in getting the ordinance through the board of aldermen, as it has already been favorably passed upon by that body, but the opposition to the measure in the assembly is thought to be strong enough to defeat it unless some of the opposing member can be won over.

The issue of \$200,000 in permanent improvement bonds is made possible by a special bill introduced in the legislature by Representative Hickey last winter, providing for the issuing of \$500,000 within three years, not more than \$200,000 in any one year.

The object of the issue was to provide ready cash by issuing the thirty-year bonds and in this manner reduce the tax levy for next year and other following years.

Is to Reduce Taxes.
"The sole object of the proposed bond issue is to reduce the tax levy," said Comptroller Betz, after his talk with the mayor yesterday. "There is nothing political in it at all. The people who pay the taxes are objecting to the present levy of 31 mills, and it was to relieve this condition of affairs that the ordinance was drawn. It would mean a reduction in the tax levy from 5 to 6 mills. If the ordinance is defeated the money necessary for the proposed improvements for which it was to be used will have to be included in the next budget, and this may bring the levy up to even more than 31 mills."

Both Mayor Smith and Comptroller Betz are anxious to have the ordinance passed, as it is thought it will be of much benefit to the city. Some effort will be made to line up the opposing assemblymen, who are "afraid it will help the Democrats to have the tax levy reduced while they are in power."

ST. PAUL IS IN NEED OF A HAY MARKET

Steps Taken to Secure Land Already Selected for One.

A special meeting of the committee on markets of the board of aldermen has been called for today for the purpose of devising some means of having the old barn on the Davis property adjoining the market place, removed at once.

The lot on which the barn stands is wanted as soon as possible for a hay market, and the committee will endeavor to have the barn removed at once. The property is owned by the city, and the committee will endeavor to have the barn removed at once. TELLS OF GOLDEN AGE OF ITALIAN ART

Miss Caulfield Delivers Second of Her Lectures at Catholic Chautauqua.

The second of Miss Caulfield's art lectures was given at the Chautauqua yesterday morning, and those who ventured out despite the threatening weather were amply repaid for their pains.

Miss Caulfield's lecture yesterday was on "The Golden Age of Italian Art," that time when the expression of all feeling took the form of art, when art was to the times what science is to the present day. The different artists were treated, the different forms of expression, painting, sculpture, the

sources of the various styles—Venice, for instance, which shows the Oriental influence, because the Venetians have been at all times a trading people, and going down to the sea in ships, have come in contact with Eastern people. The wonderful church of St. Mark, in Venice, was shown, and with Miss Caulfield's enthusiasm and interest in illuminating the scene presented, one could feel almost reconciled to a fate which kept him from going beyond the sea.

This lecture was delivered by special request before President McKinley and a distinguished gathering, as well as at the French embassy at Washington.

The concluding lecture of the series will be given tomorrow night, the subject being "Paris Literary and Artistic." Miss Caulfield has, it is said, reserved her best effort for her closing discourse.

Rev. Dr. T. E. Shields, professor of psychology in the Catholic University of America, Washington, D. C., was the speaker last night, giving the first of a course of four lectures on "Mental Development." Among those present at the Chautauqua yesterday were Rev. Father Sherman, son of Gen. Sherman, who is visiting in Minneapolis; Dr. Turner, author of the new "History of Philosophy"; Congressman Stevens, Archbishop Ireland and several other prominent men. Mr. Souchay sang a baritone solo preliminary to the evening lecture.

GROGERS THANK JOBBERS AND COMMISSION MEN

Express Appreciation of the Aid Extended Them in Their Outing.

The St. Paul Retail Grocers' association, at its last meeting, adopted resolutions expressing appreciation of the kind and generous assistance rendered them by wholesale grocers and commission dealers in connection with the recent picnic held at Carver. The secretary of the association was instructed to convey to the wholesale grocers and commission merchants the hearty thanks of the members for favors received from them.

"As the jobbers stand by us, so will we stand by them," concludes the resolution. The following resolution was also adopted: "Whereas, Our fourteenth annual picnic has been a grand success socially and financially, and much of that success is due to the assistance we received from the city salesmen, be it resolved, that we, the members of the St. Paul Retail Grocers' association, extend to them our sincere thanks and hereby tender to them all possible assistance at their basket picnic Wednesday, July 22, at Bass lake."

DEMAND THAT CITY GIVE DEEDS OR REFUND MONEY

National Bond and Security Company Begins Action to Recover.

Upon the application of the National Bond and Security company Judge Kelly yesterday issued a writ of mandamus directed to the mayor, comptroller and city clerk, to compel them to issue deeds under assessment certificates held by the company. The supreme court, in the case of Hawes against Flegler, held that all assessments levied by the city salesmen, be it by deed or by assessment, are void until the present city charter was adopted. The petitioner says that the city refuses to either refund the money or to give them the deeds. The company is plaintiff in two proceedings, one to compel the refundment of the money and the present writ to compel the city to issue the deeds. Both of the proceedings will be heard by Judge Orr at special term, July 20.

CIVIC LEAGUE ASKS FOR PLAY GROUNDS FOR LITTLE ONES

Committee Reports That Yards at Schoolhouses Are Wholly Inadequate—Public Bathing Places Recommended.

Public playgrounds, to be under the supervision of the health department, are recommended in a report made to the Civic League yesterday by the committee named some weeks ago to investigate the playgrounds provided for the children at the public schools.

The committee has thoroughly investigated the matter, and in its final report made at a meeting of the Civic League at the Commercial club yesterday, recommended more playgrounds in the city, having found that the grounds at the various school houses in the city are very inadequate.

It was suggested by the committee that the school board secure additional playgrounds, but it was not the desire of the committee to see the entire yard at each school house given up to the children. The recent order of the school board giving the children permission to use all of the grounds at each school for play purposes was criticized by the committee, as such a method left no part for park purposes. The Civic League wants to see a portion of each yard at every school reserved for flower beds, but under the present system this is not possible.

At the Franklin school, the committee found, where there had been beautiful flower beds, the children, since being permitted to play on all parts of the ground, had completely ruined them, and as a result the teachers and residents of the neighborhood were up in arms. The same condition was found to exist at other schools.

It was the opinion of the committee that the playgrounds at the various schools were altogether too small, and the recommendation was made that a portion of the yards be devoted to flower beds, and that public playgrounds be provided for the children in different parts of the city.

Inasmuch as the school board cannot meet the situation, it was recommended that the park board take the matter up and that playgrounds and breathing spots be located wherever possible, the grounds to be under the supervision of Dr. Ohage.

The committee reported that the sentiment against the obliteration of the flower beds was very strong at all of the schools and it is believed the only remedy lies in the securing of additional grounds.

STATE BANKS SHOW INCREASE EACH YEAR

Sixty More in Operation in Minnesota Than There Were Two Years Ago.

In the office of the state public examiner statements have just been completed showing the present condition of the various classes of banking institutions and the trust companies of the state. These figures, considered comparatively, with a similar compilation at the corresponding period of last year and the year before indicate a distinct advance of prosperity in the affairs of the institutions under consideration.

The statements for 1900 were tabulated April 30, when there were 295 state banks in operation; those of 1901, July 16, when there were 236 banks; and those of 1902, on June 9, when there were 269 banks.

The resources of the state banks in 1901 amounted to \$42,751,737.04; in 1902, to \$54,753,152.98, and in 1903, without including the items of undivided profits, revenue stamps, or checks and drafts in transit, which were comprised in the former reports, to \$64,304,878.89.

Following is a summary of the statement for the present year:

Resources—
Loans and discounts \$39,816,064.98

RAILROAD WILL PAY HALF COST OF SEWER

Northern Pacific to Stand Assessment for Fifth Street Improvement.

Plans and specifications for a sewer on Fifth street, from Broadway to Kitchison, have been forwarded to the board of public works by City Engineer Rundlett. The cost of the proposed improvement will be \$8,000, but more than half of the cost will be assessed to property owned by the Northern Pacific.

DEALERS IN PEPPER ARE HEAVILY SALTED

Several Are Fined for Selling Adulterated Goods.

Adulterated pepper is now occupying a great deal of the attention of the state dairy and food departments. Within the past day or two several dealers have been fined for having pepper for sale that was not up to the standard required by law.

Usually the adulteration found in pepper is not in itself harmful, but the law requires a certain standard and any foreign material introduced to make bulk is contrary to law. Returns received yesterday by the board show that the following dealers were fined \$10 each for having in their possession pepper that was found to be adulterated: E. J. Bouslog, West Duluth; M. S. Fisch, Austin; W. C. Horriban, Austin; and E. A. Gallagher, Austin.

BODY OF RABISCHUNG BROUGHT TO ST. PAUL

Victim of Accidental Electrocuting at Duluth to Be Buried Here Today.

The body of George J. Rabischung, the electrician killed at Duluth on Wednesday while stringing wires in the Ferrari carnival grounds, reached St. Paul last night and was taken to McCarthy & Sons' undertaking rooms, from which the funeral will be held this morning at 8:30 o'clock, with services at St. Peter-Claire's church.

Rabischung was twenty-two years old and the oldest son of August Rabischung, 312 University avenue. He learned his trade in St. Paul and had lived in Duluth for two months.

He was killed while working in the carnival grounds with another electrician, Oscar Elwert. The current passed through both bodies, burning them and causing death instantly.

WILL CONFER WITH BOARD OF CONTROL

Superintendents of State Institutions Will Discuss Practical Topics.

The work of construction for the summer carnival is now well under way. The frame work is up for the big arch which is to mark the entrance to the industrial street and lumber is being hauled for the booths and fencing. Lemmon's new baseball park will be ready for the public Monday, and as this will constitute the show grounds proper with the inclusion of a portion of Minnesota and Twelfth streets adjoining the park, there will be no difficulty in completing the work within the next two weeks.

Bids for the electric lighting and wiring were last night opened by the committee of which T. R. Wilverscheid is chairman, and the contracts will be awarded today. They will call for about forty arc lights along Industrial street, and 2,500 incandescents in festoons, 600 of which will be included with the decoration of the arch. This light will make Industrial street, beginning on Cedar street, at Ninth, a blaze of light brilliant with the colors of the carnival, red, white and blue. About forty arc lights will be used in the illumination of the park and 1,500 incandescents.

Voting in the queen of the carnival contest is going on at a rate that indicates a lively interest in the outcome. Miss Helen A. Marks, the Trades and Labor candidate, who entered the contest yesterday, made a good showing.

Youngful Pair Wedded.
Clyde Duncanson and Miss Reah Coyette were married yesterday at the court house in West St. Paul by Justice G. A. Lutz. The ceremony was witnessed by the parents of the groom and bride and a number of friends. The wedding was the outcome of a romance of several years' standing. The groom is nineteen years old, and the bride is eighteen years old and pretty.
