SHE DIDN'T KNOW SHE WAS DIVORCED

Mrs. Rebecca Bristol Wants Decree Set Aside, Claiming Fraud in the Granting.

Suit was yesterday commenced in the district court by Mrs. Rebecca Bristol to have set aside the divorce granted by her husband, Herbert Bristol, while they were living in Chicago.

Some time after her husband had instituted divorce proceedings according to Mrs. Bristol, he induced her to return and live with him, pretending to her that the divorce proceedings had been dismissed. Relying upon this information, she returned and lived with him for some time, but later learned, when they again disagreed, that he had secured a divorce without her knowledge some time before. She says that during a part of the time she was living with him she was a divorced woman.

She now asks the court to set the decree aside, alleging that her husband was not entitled to a divorce. She says she had a good defense and could have prevented her husband from securing a divorce had she been aware that he was securing one. A number of affidavits for the purpose of showing that Mrs. Bristol was led to believe the suit had been abandoned accompany the complaint.

Judge Kelly, on the showing made, yesterday issued an order to Bristol to come into court July 1, after which she may show cause why the prayer of his divorced wife should not be granted.

MAIL CARRIERS DROP POUCHES FOR A DAY

Enjoy an Outing at Minnetonka With Wives and Friends.

Three train loads of mail carriers, their wives, friends and sweethearts, went to Spring Park, Lake Minnetonka, yesterday, where the mail carriers and enjoyed their annual outing. On account of the picnic there were no deliveries of mail after noon yesterday, mostly all of the letter carriers of the city being at the picnic. The three trains which left the union station, one at 1 o'clock, another at 2 and a third at 4, were all well filled.

The music for the occasion was furnished by the Postoffice band, and the event was a most enjoyable one. There was dancing and sports of all kinds, foot races, jumping, ball throwing and other contests were on the card, and all of the events were hotly contested. The carriers returned to the city late last night, and this morning will deliver the mail which accumulated during their absence.

PEST HOUSE LOSES ITS POPULARITY

Only Four Patients Now Where a Short Time Ago There Were Thirty-nine.

There are at present only four cases of smallpox at the Dale street detention hospital, and one of those was taken in last night, while the other three have been in over two weeks and are almost entirely cured.

During the past month there has been a noticeable decrease in the number of smallpox cases. Patients have been discharged day by day, so that now, instead of thirty-nine, which crowded the institution two months ago, there are but four patients. Mrs. C. Rooney, 113 East Tenth street, was taken to the detention hospital last night, suffering from a mild form of smallpox. Her condition is not considered alarming.

WAGE EARNERS OF ST. PAUL INCREASE

Labor Commissioner's Report Shows Gratifying Growth in Numbers.

There has been a heavy increase in the number of wage earners in St. Paul since the report made by Labor Commissioner O'Donnell a year ago. This year shows 622 manufacturing establishments and the total number of persons employed therein is 24,301, or 19,190 men, 5,016 women, 128 boys under sixteen years of age and 57 girls under sixteen years of age and 57 girls last year 538 manufacturing establishments had in their employ 21,317 persons. This year there is an increase of 2,984 wage earners, an increase of 14 per cent. This increase not only applies to the males, but also to the females, of which the records show 579 more than there was a year ago.

While the inspectors show 11 more children employed this year than last, this slight increase is heavily offset by the increase in the number of adults. Last year the percentage of child labor was .76. This year it is less than .05.

The failure of the St. Paul school board to take cognizance of the truant law is made the subject of special mention by Mr. O'Donnell in his report. If the law was observed by the board he says there would be less child labor in St. Paul.

The report shows an increase in Sunday labor, having 230 persons more reported than last year. The respective numbers were 1,245 for 1902, and 1,475 for 1903. This is offset by a remarkable reduction of night workers, which have come down from 1,195 persons in 1902 to 823 persons in 1903.

Just the three kinds of silks named above—the most desirable qualities—the most wanted silks in the silk business today, and yet the scarcest. Their scarcity makes this purchase all the more extraordinary—they were bought Thursday from one of Chicago's largest silk jobbers, and midsummer clearing-up was the lever that forced the price down.

Note well the following particulars—the widths—the values—the sale prices. Every silk is one that can be fully recommended, and you buy it for half and less.

There are silks of 20, 24, 27 and 36 inches.

The clearing of the wash goods

The last few days experience has taught us that but little argument is required to enthuse you when the prices are half and third their former size

That's the price condition of this July clearance tomorrow. Ponder a moment on standard of quality and style that is maintained at this store and you'll find this doubly interesting.

There is one lot consisting of thousands of yards—clearing out whole lines of fine goods such as lawns, dimities, etc. There are also a host of odd lots, remnants, etc., not a yard of which is worth less than 10c, much of it worth 15c and not a few of the remnants are ordinary 25c fabrics. Worth while looking it over? You'll be amazed at the bargains.

Many of the prettiest 15c, 18c and 20c fabrics of the season, fine batistes, dimities, Persian lawns, satin stripe muslins, dotted dimities, etc. In this lot the assortment is most excellent, including black and white, tan fancies and dots and light and medium effects in all colorings.

At 19c these

2,000 yards fine 25c white goods at 12 1/2c

Exactly half-price, and why? The reason is barely well started! Makers guessed that it was to be a "white season," and on the hopes of orders and re-orders manufactured vast quantities. A cool June stopped the orders—now the price is half.

This little lot was picked up by our Mr. Jones on an Eastern trip last week, and at the price should last but a little while. All pure white mercerized weaves, stripes, also the much wanted oatmeal weave. Beautiful goods for waists and shirtwaist suits.

12 1/2c instead of 25c—linen room Monday.
