BATTERY B MAN DOESN'T BLAME CAPT. LARSON

Says It Was J. J. McCardy's Fault That Battery Didn't Parade.

E. H. Slater, of 735 Conway street, one of the non-commissioned officers of Battery A, M. N. G., takes exception to the statement in The Globe's account last Saturday morning of the movement of the battery to secure the removal of Capt. Larson. Says Mr. Slater:

"While The Globe's story was true in the main, it is not true that the men blamed Capt. Larson for ordering them over to The West side to fire a salute of welcome to President Roosevelt upon the occasion of his visit to the city."

"We went over there voluntarily for the reason that we were unable to participate in the parade. And that was due to the order of J. J. McCardy, the chief marshal, who refused to give us any horses. Naturally the battery remained out, as we could hardly be expected to buy horses for the purpose of joining this parade."

"SUMMER FOOD"

Has Other Advantages. Many people have tried the food Grape-Nuts simply with the idea of avoiding the trouble of cooking food in the hot months.

All of these have found something beside the ready cooked food idea, for Grape-Nuts is a scientific food that tones up and restores a sick stomach as well as repairs the waste tissue of brain and nerve centers.

For two years I had been a sufferer from catarrh of the stomach due to improper food and to relieve this condition I had tried nearly every prepared food that the market without any success until six months ago my wife purchased a box of Grape-Nuts thinking it would be a desirable cereal for the summer months.

"We soon made a discovery, we were enchanted with the delightful flavor of the food and to my surprise I began to get well. My breakfast now consists of Grape-Nuts, a cup of Postum, which I prefer to coffee; egg-bread or toast and two boiled eggs. I never suffer the least distress after eating this and my stomach is perfect and general health fine. Grape-Nuts is a wonderful preparation. It was only a little time after starting on it that I was able to eat a solid meal."
