AN ATTEMPT TO SHAKE DOWN STOCK MARKET

So-Called Pittsburg Bear Pool Is Said to Have This in Mind While Attacking United States Steel Stock— Unpleasant Rumors in Connection With a Union Pa- cific Firm and There May Be Things Doing Today— Morgan and Schwab Are Heavy Buyers of Steel.

Special to The Globe.
NEW YORK, Aug. 4.—There was another raid in stocks today. In some cases losses exceeded the low records of the year. Rumors of possible failures, in one case concerned with an important house, were flying to and fro on the street in the last hour of trading. The liquidation was extremely heavy. Numerous efforts were made to try to locate the sources of the selling of United States steel shares, single firms disposing of 5,000 to 10,000 shares each. It was openly asserted that the so-called Pittsburg bear pool was attacking this stock for the purpose of shaking down the stock market.
J. P. Morgan was reported a heavy

buyer, as was Charles M. Schwab. From the appearance of things it was evident that houses that had been tied over during the critical days of July were selling stocks, and that some of the banks were also liquidating securities held in loans. An impression prevailed that somebody is being "gunned for" by big men of the street.
It was reported in this connection that further loans have been refused upon a certain account in Union Pacific. The firm's name was whispered on change all day and there may be some developments tomorrow. The bear raid, it is thought, will continue for a day or two, though the effects may not be as serious as during the last raid.

SAYS ROCKEFELLER MAKES ANARCHISTS

County Official in Chicago Is Arouse by a Case of Tax- Dodging.

Special to The Globe.
CHICAGO, Aug. 4.—John D. Rockefeller was virtually accused today by the board of review of creating a spirit of anarchy in the United States. The accuser was Reviewer Upham and the cause of the accusation was the attempt of the Union Tank Line company to keep down the amount of its assessment.
"You spent thousands of dollars last year to lawyers to fight the payment of any tax," said Mr. Upham, "even carrying the case up to the supreme court; did you not?"
"I do not know exactly how much we spent," responded one of the representatives, "but it was quite a sum."
"It was way in excess of the \$250 tax on the property, I am sure of that," continued the reviewer. "It is just such instances as this which inspire anarchy in this country."
It was admitted that the company, whose existence depends on the Standard Oil company, is doing a large business in this section, but the accredited agents insisted that very little, if any, assessment should be charged against it.
In spite of the fact that the company is still two years in arrears and the apparent difficulties of collection, the board doubled last year's assessment, making it \$50,000 for this year. The Union Tank Line company is incorporated under the laws of New Jersey, and is capitalized for several millions of dollars.

STORM PREVENTS A MIDNIGHT WEDDING

Fiancee Turned Back by Washed Out Bridge and Groom Is Disconsolate, consolate.

Special to The Globe.
LA CROSSE, Wis., Aug. 4.—A heavy electrical storm and washed out bridge, which delayed the arrival of the bride-to-be, prevented a midnight wedding last night between Herman Mahnka, of Winona, and Miss Cora Gillott, of Fillmore county, in this city.
Since the washout the fiancée has heard nothing of his fiancée and is disheartened, fearing that she has neglected to come. Letters have been sent in search of the missing girl, but trainmen declare that she turned back in fear after barely escaping death on the trip to what would have been her wedding.

STRIKE THREATENED ON THE ROCK ISLAND

Train men and Conductors Will Go Out if Their Wages Are Not Increased.

CHICAGO, Aug. 4.—Trainmen and conductors employed by the Rock Island and have voted to strike unless that road pays the increase in wages that they have demanded. Their determination will be made known to the officers of the railway company tomorrow, when committees representing the Order of Railway Conductors and the Brotherhood of Railway Trainmen will wait upon them.
These committees will tell the officers of the company the result of the referendum vote that has been taken on the question of a strike, and will ask the officers to meet their demands.
In case of a flat refusal the committees will then adjourn to prepare for calling a strike of the 2,000 trainmen and conductors employed by the road.
National officers of the two employees' organizations are here tonight and are doing their best to prevent a strike. The dispute is over the new agreement presented by the conductors and trainmen early this year. This provided for an increase of 12 1/2 per cent in the wages of the men in the passenger service, and for 15 per cent for those in the freight service. At the same time demands for increase in wages were presented the road was asked to approve of certain working rules.

LANGLEY AND HIS AIRSHIP MUST GO

Change of Headquarters Made Necessary by Clubmen's Decree.

WIDEWATER, Va., Aug. 4.—The tranquility of the Langley airship expedition was considerably disturbed this afternoon by the announcement from Truxton Beale, of Washington, a charter member of the Mount Vernon Ducking association, whose club house on Quantico island has been headquarters for the Smithsonian party, that an indefinite stay of the workmen was beyond the members' privilege. Mr. Beale extended the hospitality of the club to the newspaper men who had been excluded by orders of Prof. Langley. Chief Assistant Manley and his associates knew nothing of Mr. Beale's criticism until they returned as usual to the island in the evening.
In his objections Mr. Beale, it is said, voiced the opinion of other members, and Prof. Langley, in Boston, was made acquainted with the protest. It is said that a change of headquarters for the Langley party may result.

HAS A GENIUS FOR INVENTING TORTURES

German Army Officer Convicted of 366 Instances of Brutality.

BERLIN, Aug. 4.—The details are published today of a court-martial held at Metz on a non-commissioned officer named Dunkel for mistreating private soldiers at Moerchingen, Lorraine. Five hundred and seventy-six instances of brutality, all occurring since last December, were cited.
The evidence showed Dunkel's fertile inventiveness in novel methods of punishment such as compelling a soldier to run at full tilt across a room and aim his head against a wardrobe.
The court decided that 366 counts of the indictments had been proven and sentenced Dunkel to two and a half years' imprisonment and degradation to the ranks. The scandal became known to the military authorities through the suicide of one of the mistreated men which an anonymous letter ascribed to Dunkel's brutality.

"FLYER" OVERTAKES A PASSENGER TRAIN

Four Persons, Including a Woman, Badly Injured in Montana.

HAVRE, Mont., Aug. 4.—While waiting for a herd of cattle to clear the track, the Montana Central south-bound passenger train was overtaken by the "flyer" on a curve, a few miles west of here this afternoon. The Pullman buffet car was wrecked, the engine of the "flyer" badly damaged, and four persons badly hurt. They are William Turner and George Washington, waiters; William de Mossey, news agent; woman passenger, name unknown. The passengers on the "flyer" were all badly shaken up.

CARDINAL SARTO BECOMES SUPREME PONTIFF

GIUSEPPE SARTO, PIUS X.

Pius X. admires the progress of Catholicism in the United States and considers this country a most fertile field for religion.
Cardinal Gibbons' opinion is that, being a man of much piety, tact and culture, Pius X is best fitted for the papacy. His election was unanimous and his character and bearing impressed all the cardinals most favorably.
The new pope is expected to follow if he does not accentuate the policy of Leo XIII.
He seemed happy yet broken down on the eve of his election, but when the moment came "he looked a statue of resignation."
He is sixty-eight years of age, robust and handsome, and is said to bear a striking resemblance to the late Bishop Phillips Brooks, of Massachusetts.
While patriarch of Venice the new pope was greatly beloved by his people, as the latter declare he will now be beloved by the whole world, and he established friendly relations with the king and queen of Italy and the civil authorities generally.

ST. PETER'S CHAIR IS FILLED AGAIN

Cardinal Guiseppe Sarto, Patriarch of Venice, Unanimously Elected to Succeed Pope Leo XIII. and Takes the Title of Pius X.—New Pontiff Is a Reformer, Idolized by His People and on Good Terms With the Civil Authorities—Coronation to Take Place Sunday.

CREELMAN ON THE NEW PONTIFF.

Special to The Globe.
NEW YORK, Aug. 4.—The noble and scholarly Pius X., churchman of liberal instincts, will likely abandon the policy of non-interference between the Vatican and the Italian government. He may presently give up the idea that he is a prisoner in his own palace.
The election of a pope friendly to the Italian family is a political event of international importance. It is the embodiment of a new era, in which the church will gradually abandon politics and devote itself exclusively to spiritual salvation. Both liberals and clericals claim the new pope as their ally and look upon his election as a victory.
Those who know the liberty-loving nature of the new pope predict that if not immediately, certainly within a few months, Rome will see the new pope driving through its streets, acclaimed by the multitudes and honored by the troops and officials of the government as a real sovereign. If such a thing should really happen the whole question of returned political power will be solved. The ancient customs and ceremonies of the church will still be observed and the work of Roman congregations will proceed on the same lights.
It is asserted by those who know that the new pope, coming as he does from the ranks, will show much favor in the distribution of offices to those who, like himself, have labored in the vineyard of the Lord as parish priests and bishops, instead of promoting the numerous clerics residing in the Eternal City who have never known what it is to be in charge of a parish.
It is asserted that his new secretary of state will be Ferrata, who was nuncio in France, and who is persona grata to the French officials, and that Rampolla is to be appointed prefect of the propaganda instead of Gotti, who will go to the Congregation of Bishops and Regulars, which has charge of all the controversies regarding religious orders.
—James Creelman.

ASSAULT NON-UNION PLUMBERS AFTER THEY HAVE RETIRED

Three Men, One of Whom Declared That He Was City Plumbing Inspector Coff, Enter Sleeping Room of Two Workmen and Attack Them.

The first clash to occur between the striking plumbers and the men whom the master plumbers have brought to the city to take their places occurred yesterday morning at the Reardon hotel, where Peter Reiter, an employe of M. J. O'Neil, and Edward Kersten, an employe of the Dwyer Plumbing and Heating company, were aroused from their beds and given a beating by three men.
Having opened their door in response to a summons, Kersten, who was in his night gown, saw in the hallway three men. They brushed him aside and entered the apartment, and after a few words had been exchanged, the three men started to pummel the two occupants. Two of the men pounced upon Kersten and one made for Reiter, who was lying in bed.
Kersten had a struggle with two of the men and the window which was near the bed was broken. In scuffling with his assailant Kersten pressed his foot against the broken window pane and cut off the top of the big toe of his right foot.
Thought He Had a Gun.
Kersten finally broke away from his antagonists and reached the bureau, from one of the drawers of which he pulled a nickel-plated wrench. The other men in the room, seeing the flash of the nickel, thought that Kersten had drawn a revolver and then one cried out that they had better get away. Two of the men then suddenly departed, but the third was unable to escape from the grasp of Reiter, who held him by the leg.
In the meantime Patrolman Mathieson had heard the scuffle, breaking glass, and cries of the combatants and

MAN WITH A GUN BRINGS DOWN THREE AND IS LAID LOW

Creates Panic on Minneapolis Street by Attacking and Wounding Motorman—Two are Shot in Chase, Which Ends in His Capture.

Apparently without cause or provocation, Edward Clark, alias William Bodie, of Eau Claire, shot Motorman Marius Nelson, at Hennepin avenue and Third street, Minneapolis, shortly before 11 o'clock last night.
In pursuit of the assailant, which followed the shooting, Lieut. George Revier, of the central station, and James W. Williams, a negro, were shot by the half-crazed man, who fired wildly at the policemen and citizens who gave chase.
Clark was finally winged by Patrolman Peter McLaughlin, as he was trying to avoid capture by hiding in an alley near the union depot.
The victims of the strange shooting affray were:
Marius Nelson, motorman, shot in right cheek and left elbow.
Edward Clark, shot in right side of the head.
Lieut. George Revier, shot in right arm.
James W. Williams, spectator, shot in right thigh.
No Cause is Known.
No cause for the shooting is known. Nelson claims to have never before seen his assailant, and when questioned at the city hospital, Clark refused to discuss the case.
A few minutes before 11 o'clock, Nelson, who is a motorman on a Fourth avenue car, pulled up to the street railway coop at Hennepin avenue and Third street. He left his car to report its arrival to the checker, whose office is in the coop. Just as he was about to step from the street to the sidewalk Clark opened fire without a moment's warning. The first bullet struck Nel-

GIBBONS DECLARES POPE A MAN OF GOD IN CABLE TO IRELAND

Archbishop Receives a Signifi- cant Cablegram From the Cardinal—Says the Election of Cardinal Sarto to the Pon- tificate Was No Surprise.

"The pope, a man of God."
This is the text of a congratulatory cablegram from Cardinal Gibbons, at the Vatican, received yesterday afternoon by Archbishop Ireland, shortly after the cablegram announcing the election of Cardinal Sarto as Pope Pius X.
To The Globe, last night, Archbishop Ireland, speaking of the new pope said:
"Cardinal Sarto is not to the world at large a familiar figure. He seldom went from his home, or visited Rome, as he was busy with affairs of the large and important diocese of Venice. He is a man of deep learning, of exceptional intellectual parts and of consummate prudence."
"His election to the pontificate is not a surprise. It was a foregone conclusion that if anyone outside of Rome was to be chosen it would be Cardinal Sarto. It is no uncommon thing in conclaves for the successful candidate to be one from without Rome. The reason of this is that conclaves seek a pope who in his administration of church affairs is not embarrassed by previous alliances, or pronounced policies."
Pius X. takes the chair of Peter free to choose his own counselors and free to survey with unbiased eye the vast field open to his labor.
"This is exactly what happened in the case of Leo XIII, who, up to the time of his election, had been almost a recluse in the mountains of Umbria."
"The new pope enters auspiciously upon his work, and we have only to pray to the great God above to guide him in his labors."
Cleveland and Hanna on Same Platform.
CHICAGO, Aug. 4.—Both Mr. Cleveland and Senator Hanna will discuss the labor problem from the same platform in October.
At that time a convention will be held under the auspices of the National Civic federation for the purpose of inaugurating a movement in the West to bring capital and labor into closer relations.

GIRL IS A MAGNET FOR SONG WRITERS

Life of Miss Jennie Lee, of La Crosse, Is Sparkling With Romances.

Special to The Globe.
LA CROSSE, Wis., Aug. 4.—Miss Jennie Lee, the pretty La Crosse girl, whose most recent bid for fame is her alleged proposal to Lewis Yeoman, president of the Waukegan (Ill.) Bachelors' club, seeks the lime light in two new romances.
It is learned that a year ago she sought correspondence with Arthur J. Lamb, the New York song writer, her excuse being the fact that the title of his latest song was "Jennie Lee." Later Lamb visited her in this city and they became engaged. This affair was broken off, her friends say, because of the publicity she attained through the Waukegan episode.
Later Vernon Bestor, another song writer, fell before the charms of the La Crosse girl, the result being "Jennie Lee," a rhapsody, in which it is suggested there is another romance. It is dedicated to Miss Lee and bears her photograph on the title page. Miss Lee is a dashing and popular young woman of the best North side society.

HAIL TOO SHARP, RAIN TOO HEAVY

Crops Are Damaged and Rail- roads Washed Out in Min- nesota and Iowa.

ALBERT LEA, Minn., Aug. 4.—This part of the country was visited by a severe storm last night and reports are coming in of damage done to crops by hail. There is a narrow strip three or four miles south of this city that has suffered severely, and wheat and oats are pounded into the gravest and ruined. Corn is also stripped of leaves and the crop greatly damaged. In this city there was a heavy fall of rain, but the hail was light.
COUNCIL BLUFFS, Iowa, Aug. 4.—Specials from Logan, Woodbine, Atlantic, Mason City and Clear Lake indicate that the past twenty-four hours have witnessed the heaviest falls of rain and hail that have been recorded in the state this season.
The Mason City and Clear Lake ore line, the Milwaukee, the Iowa Central and the Northwestern roads all had bad washouts, the washout on the Iowa Central causing a slight wreck near Cameron.
At Atlantic, Walnut creek was forced beyond its banks and a large number of cattle were drowned. South of Mason City a strip of country several miles wide and about eighteen miles long was devastated by hail, crops being completely destroyed.

LIGHTNING BOLTS FIND MORE VICTIMS

Two Men Are Killed in Canadian North- west and Others Stunned.

Special to The Globe.
WINNIPEG, Man., Aug. 4.—Bert Therat, aged twenty, was killed on his father's farm near Moosomin, N. W. T., by a lightning bolt; Al Asproth, a section hand on the Canadian Pacific, was struck dead by lightning while returning home, near Souris, Man. Two other men were stunned. Asproth had a brother in Superior.

LAND GRANT DECISION IS APPROVED BY ROOT

Federal Government Is Entitled to Special Railroad Rates.
WASHINGTON, D. C., Aug. 4.—The secretary of war has approved the opinion of the judge advocate general of the army, holding that the government is entitled to reduced rates over the tracks of land grant railroads, when operated by other railroad companies.
The Astoria & Columbia River railroad operates its lines over thirty-nine miles of the Northern Pacific in Oregon, under trackage arrangement, and refused the land grant rate to the war department. The attorney general has been requested to bring suit to secure extra charge, which the government has paid.

DISMAL PROPHECY AS TO THE MISSISSIPPI

Weather Observer Says Big Boats Cannot Run Because of Sediment.

Special to The Globe.
LA CROSSE, Wis., Aug. 4.—United States Weather Observer Grant states that owing to spasmodic and unusually heavy rains this year the channel of the Mississippi has been filled with sediment and it will be almost impossible to operate rafts and big boats in case of low water. It will, it is said, take three months to cut another channel.

PRESSING ESCAPED CONVICTS CLOSELY

Battle Is Expected in the Weber Creek Country, California, Today.

PLACERVILLE, Cal., Aug. 4.—If the expectations of Sheriff Esouquet, of Eldorado county, are realized there will be a fight in what is known as the Weber Creek country before another day has passed between posses from Lotus and Placerville and the escaped convicts, who, on several occasions during the past few days, forced by hunger, have had to show themselves at ranches and other places to obtain food.

MY! WHAT A LONG TAIL OUR KITE'S GOT.
