QUAY DISBELIEVES IN EXTRA SESSION

Says Democrats Would Merely Use It to Make Political Capital.

WASHINGTON, D. C., Aug. 24.—Senator Quay, of Pennsylvania, who arrived today en route to Florida, where he intends to rest, is opposed to an extra session. "It is not good politics," said the senator, "to have an extra session this fall. The Democrats would use it merely for the purpose of making political capital. Even if we do have an extra session, what good will it do? There are a few men over in Wall street who have the power to corner the money market whenever they desire. I do not see that we can do anything to rob them of that power."

The Harvey county teachers today, at the close of the normal institute, adopted the following:

"Resolved, That we view with alarm the tendency of school boards in certain parts of Kansas to adopt harsh and oppressive measures in restriction of our sacred and inalienable rights; that to submit to such tyranny would prove us to be unworthy children of such noble parents; that we hereby declare our teachers being marriageable urge upon all the necessity of vigorous and unceasing rebellion against this attempt to deprive us of our right to court and be courted."

PUBLIC BATHS GET NOTHING, BUT OHAGE ESCAPES WITH LIFE

Expenses of Carnival Will Consume All the Receipts Owing to a Number of Claims Regarded by the Association as Preposterous.

CARNIVAL BALANCE SHEET. Receipts from all sources \$22,021.40. Bills and claims received 32,835.03. Money still owing the association 975.00. Claims anticipated 500.00.

The St. Paul public baths will not realize anything from the efforts of the St. Paul Carnival association and its recent show.

All the association gets is experience and it may have to go down in its pockets to pay for that. This is on the basis that the association pays the face demand of every bill so far presented.

What claims, other than those now in the possession of the association, are in existence the association has no way of finding out. The members of the association say they would not be surprised at anything now.

MOSLEMS BUTCHER IN ADRIANOPLE

Mohammedan Population Falls Upon Christians Following an Attack From Insurgents—One Version Is That the Massacre Was Started by Resistance to a Turkish Officer Who Sought Entrance to a House—Mussulmans Do Frightful Work at Monastir.

SOFIA, Aug. 24.—Travelers who arrived here this evening from Adrianople state that a massacre of Christians occurred there Sunday morning. One version says the guns in one of the forts opened fire on an insurgent band which had attacked a military outpost. A panic followed inside the town, and the Mohammedan population fell on the Christians.

According to another version, a Turkish officer tried to force an entrance into a Bulgarian house in order to molest the inmates. The latter resisted, whereupon the Mohammedans became excited and bands of soldiers and Bashi Bazouks attacked the Bulgarian quarter of the town.

It is reported that the foreign consuls addressed energetic notes to the vassal, who declared his inability to check the fanatics of the Mussulmans.

With the rumors of massacres and the murder of prisoners in Monastir authenticated, the general situation is considered here as fast becoming intolerable. Official and diplomatic circles alike are concerned, having every reason to fear that only a part of the horrors enacted in the interior of Macedonia have come to light as yet.

activities close to the Bulgarian frontier. Dispatches today from the disturbed areas are exceedingly gloomy. From Adrianople comes the news of a Turkish defeat and the extension of the revolutionary outbreak, and from Monastir the news of Turkish victories accompanied by barbarous excesses.

While many of the reports remain without confirmation, sufficient authentic details are forthcoming to cause the authorities the gravest anxiety.

According to the Sofia Dnevnik, the Turks committed unspeakable atrocities at Krushevo. The mutilated corpses of ninety women and children were found in one building. Pieces of the bodies had been thrown into the street. Fifteen of the principal merchants of the town were killed and their heads exhibited on poles at Monastir. The churches were demolished, the houses sacked and the town is now in a heap of ashes. The populace fled to the hills, where they are in a starving condition.

The Dnevnik also asserts that a general massacre has taken place in the whole vilayet of Monastir. Nearly all the villages have been destroyed. The treacherous murders of innocent persons by their guards near Monastir has made an especially bad impression here. Many rumors of further massacres in the city of Adrianople, but confirmation is lacking. The situation there, however, is undoubtedly serious. The population is...

NORTHWEST WILL YIELD AN AVERAGE WHEAT CROP

Reports From Northern Pacific Agents Show That Vegetation Has Greatly Improved During the Past Month.

Northwestern crops will yield an average harvest this year, according to the Northern Pacific's weekly report which was issued yesterday. The estimate, based upon the actual yield after threshing in other localities is far greater than was anticipated a few weeks ago.

While without question the crop will be shorter than in some of the previous years, when "bumper" crops were secured, the yield will be large. Wheat will run on the average about fifteen bushels to the acre, although in many sections the yield will exceed this amount by three to five bushels. In a few places farmers have threshed out as high as twenty-five bushels to the acre. While the yield will only be an average one, the grade of all grain this year is higher than in years when the harvest was heavier.

Oats, barley and flax are a good crop. Oats and barley run from thirty to sixty bushels to the acre and are of an excellent grade.

From all the divisions of the Northern Pacific road the crops have improved during the past week, according to the report. While in some sections the crop conditions are far from what was desired, the general condition of grain in the Northwest is good. Potatoes and hay were also good yields. Perhaps the gloomiest news received

is from the Jamestown and Northern branch, where the grain crop is almost a complete failure, wheat running as low as seven bushels to the acre and in but few places exceeding ten bushels.

The Report in Detail. Minnesota Division—Main Line, East and South of Staples—Harvesting is under full headway and some threshing has been done. Wheat at Anoka shows a good head and fair berry. Oat crop will be good. Elk River oats run from 22 to 30 bushels per acre, and wheat from 12 to 15 per acre.

Staples to Moorhead—Staples expects wheat to grade good, also a good yield of oats. Harvesting is about two-thirds done. Aldrich expects wheat to average 8 to 12 bushels per acre, and flax 12 bushels. Audubon will not have as heavy a yield of wheat as last season, but it will grade better. Moorhead shows a good average crop of all grains and potatoes. St. Paul-Duluth Division—Harvesting is nearly finished. There was more favorable weather during past week for all grains. A couple of weeks of warm weather will put the corn in good shape. City reports oats as running from 50 to 55 bushels per acre. Other grains will show a fair crop.

Little Falls & Dakota Branch—Harvesting is nearly completed. Small grain are of good quality and yield. Springfield expects oats to run from 40 to 50 bushels and wheat 10 to 12 bushels per acre. Fergus Falls & Black Hills Branch—

DIGS IN HIS GARDEN AND FINDS IRON ORE

Austrian Farmer Near Tower Uncovers Probably Five Million Tons.

DULUTH, Minn., Aug. 24.—While digging in his garden on lands belonging to the Minnesota Iron company, an Austrian farmer living in the outskirts of Soudan, six miles from Tower, came across an immense body of soft ore, the first ever found in that locality. Explorations in the vicinity have disclosed a bed of ore three hundred feet wide and several hundred feet long and of unknown depth.

Diamond drills will be secured and it is expected that at least five million tons of metal will be disclosed. Thousands of dollars have been expended in the neighborhood of Soudan in search of new mines and it was thought that the district had been thoroughly covered with the drills.

The point where the garden is located is at the edge of a narrow swamp. Subsequent investigation has demonstrated that the ore extends on both sides of the swamp and possibly under it. Samples of the ore were taken out and sent to Ely for assay and it is thought it will show that the ore is of exceptionally high grade.

SPRINGFIELD, Minn., Aug. 24.—The body of an unknown man was found in the switch yards here this morning. The body was badly cut up, both legs being severed, and the head nearly cut off. He was a young man and a mileage book on his person bore the name of C. Thomas, Zumbrota, Minn. Upon another piece of paper was "J. Smith." He is thought to have been the victim of sluggers, as there are indications that his body was dragged on the track. He was seen around town the day before, and it is declared that he had about \$18. An empty torn pocketbook was found on his person.

MABEL PARKER AT LAST BREAKS DOWN

Meets Her Foster Mother, Mrs. Preece, Who Has Strong Faith in the Girl.

NEW YORK, Aug. 24.—For the first time since she had been arrested Mabel Parker, the "queen of forgers," broke down and cried today. The girl's pent up emotion broke out when she met her foster mother, Mrs. Laura Preece, who came here from Minneapolis to see her. Mrs. Preece is a teacher, lecturer and a student of criminology. She left Minneapolis to help the girl as soon as she learned of her arrest. The meeting between the pair took place in the office of Warden Van Decar at the Tombs. Upon seeing Mrs. Preece the young woman rushed forward with her arms held out appealingly. Mrs. Preece embraced her and declared she would help her out of her trouble. "I don't believe that girl would willfully do a dishonest deed," she said to the warden after Miss Parker had been taken to jail. "I have heard her and watched her carefully. If she did any wrong she must have been prompted by some one who exercised a powerful influence over her."
