DEMOCRATS OF TWO STATES ARE AT WORK

TOM L. JOHNSON GETS CONTROL OF THE OHIO BODY

Ohio State Committee by Unprecedented Action Decides Contests in His Favor and the Zimmerman Man Will Carry the Fight into Convention.

COLUMBUS, Ohio, Aug. 25.—The preliminary meetings this afternoon and evening of delegates to the Democratic state convention which will open here tomorrow resulted in favor of Mayor Tom L. Johnson, of Cleveland, in his contest with John L. Zimmerman, of Springfield, for the gubernatorial nomination.

The state central committee passed upon the contests that affect 145 of the 630 delegates, in favor of the Johnson men, who thus had the odds in their favor when the delegates met later by congressional districts to select members of the committee on credentials, resolutions, etc. The Johnson men secured most of the members of the new state central committee, which holds over to call the state convention next year, when delegates at large to the Democratic national convention will be selected, and an endorsement be made for the presidency.

The first and second districts, at Cincinnati, which are anti-Johnson, were by today's decisions of the state central committee prevented from voting in the organization of the committee and the convention, while the Twentieth and Twenty-first districts, at Cleveland, were enabled to take part.

The Zimmerman men carried the fight into the meetings of all the committees tonight, and insist that they will carry it into the convention tomorrow.

The most bitter feeling is shown against the action of the old state central committee this afternoon in passing on contested cases, which is said to be without precedent in the history of the party. Charles P. Salem, Johnson's manager, is a member of the state central committee, and Harry F.

DEMOCRATS AND POPULISTS FUSE IN NEBRASKA

Both Parties Hold Their Convention and Nominate Judge Sullivan, Democrat, and Populists for Other Offices—Kansas City Platform Indorsed.

COLUMBUS, Neb., Aug. 25.—The Democratic state convention was called to order tonight by Chairman P. L. Hall, of the state central committee, who, after an address, introduced George L. Loomis, of Fremont, as temporary chairman. Loomis was enthusiastically received, and at once announced the nomination by the Populists, at Grand Island, of Judge John J. Sullivan for supreme judge. Chairman Loomis addressed the convention, saying:

"In Democracy the individual man stands first and foremost, and his rights and interests are the matter of supreme consideration. No one must think from this, however, that there is any design or purpose in Democracy inimical to capital, for such is not the case. The true spirit of Democracy urges everyone to save and accumulate by all honorable means, and rejoice in the success and prosperity of all men. It is only when capital seeks to evade its just share of the burdens of government, or when its owners undertake to use the power it gives them to injure and oppress others, or to stifle competition, or to gain by illegal or questionable means some inequitable advantage over the less fortunate that the voice of Democracy is raised in protest.

"No one can regret more than we do almost ceaseless conflict going on between capital and labor, for we recognize the fact that each is dependent on the other for its highest prosperity and good."

The speaker favored arbitration, referring to the coming national campaign, Mr. Loomis complimented Mr. Bryan, who, he said, was not to be

CREAMERY TRUST BEING FORMED BY MILWAUKEE ROAD

Is Trying to Consolidate Minnesota Business of Butter-Making at a Few Central Points Along Lines of Its System.

An effort is being made by the Milwaukee road to centralize and consolidate all the country creameries along its lines throughout Minnesota, Iowa, North and South Dakota and Wisconsin. The plan is to interest the dairy farmers in the butter manufacturing plants which are located in the large cities and towns, by offering better prices for their product and prompt payment. The railroad's reward will be the tariff derived from the shipment of the cream to the city creameries.

During the past three months W. D. Carrick, general baggage agent for the Milwaukee, has been perfecting the plan, and now has the new system in

MOONEY TELLS OF CHEYENNE SUNDANCE

Professor Says He Advised Against Torture, but It Took Place.

WASHINGTON, D. C., Aug. 25.—Prof. Mooney, of the bureau of ethnology, has made a statement to Prof. Langley, secretary of the Smithsonian Institution, in reference to the Cheyenne sun dance which he is said to have encouraged. He denies that the dance was paid for by him in whole or in part, but says that it was the regular tribal ceremony organized by the numerous tribes on various Western reservations every year. Within the past ten years Mr. Mooney says he has witnessed four of these dances, which were held with the full knowledge and consent of the Indian agents.

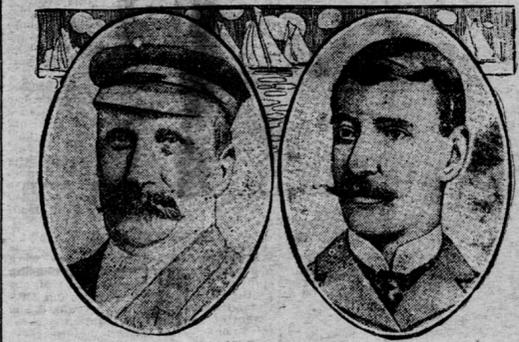

He denies that any of the dancers were strung up with cords and participated in the dance held recently each was ready to undergo the peculiar form of torture with the view of sacrifice. Mr. Mooney says that a public council of chiefs was held and he advised against anything in the nature of torture, although he learned afterward that on the last night of the dance the man referred to had two slits made in his breast with a knife, each cut being about half an inch in length. He declares that he did not know of the occurrence until the next day.

He refutes the charge that he hired or instigated an Indian to drag a buffalo skull by means of cords passed over skivers fixed in the man's shoulders. He says he was not present when the man started, but that later when the superintendent, who, it is said, made the charges against him, witnessed the act and attempted no interference.

Philippine Certificates Sold. WASHINGTON, Aug. 25.—Bids were opened today at the bureau of insular affairs, war department, for the purchase of \$3,000,000 certificates of indebtedness for the Philippine government. Harvey Fisk & Sons, New York, bid for all or any part of the amount at \$1.02 24-100. This was the only bid for the whole amount, and it was accepted. The bonds are deliverable in New York on Sept. 1.

RELIANCE IS AHEAD IN AHEAD OF SHAMROCK

SKIPPERS OF THE CONTESTING YACHTS.

Capt. Robert Wringe, Shamrock III.

Capt. Charles Barr, Reliance.

J.P. MORGAN'S YACHT RUNS INTO STEAMER

Corsair Damages the Monmouth and Creates a Panic.

NEW YORK, Aug. 25.—The first serious accident which has marked the night race home of the steamship fleet from the racing course took place tonight in the collision of J. P. Morgan's yacht Corsair with the fast Sandy Hook steamer Monmouth, under charter by the New York Yacht club and filled with members and their friends.

The Corsair struck the Monmouth a glancing blow on the starboard side nearly amidships, her bowsprit striking the Monmouth's side, breaking stanchions and awning supports and smashing window and glass. The Corsair fell astern, carrying a part of the rigging with her bowsprit broken and not appearing to be disabled.

On the Monmouth there was a brief panic as the many passengers on that side of the boat rushed away to safety. Several women, it is said, fainted, but no one was hurt.

RUSSIA WILL HELP THE JEWS TO PALESTINE

Minister of the Interior Gives Assurance to the Zionist Congress.

Special to The Globe. NEW YORK, Aug. 25.—The Jewish Daily News tonight publishes a dispatch from Jacob De Haas, secretary of the American Federation of Zionists, now attending the Zionist congress at Basel, Switzerland, in which he says that a communication was received by the congress today from the Russian minister of interior, verifying the report that Russia would help the Jews to regain Palestine. The minister says:

"So long as Zionism consisted in the desire to create an independent state in Palestine and promised to confine the emigration of Russians to a certain number of Jewish subjects, the Russian government could very well be favorable to it. This support might consist in facilitating the work of the emigration societies."

WRIGHT WILL RULE THE PHILIPPINES

Luke Will Succeed Gov. Taft When Latter Becomes Secretary of War.

OYSTER BAY, L. I., Aug. 25.—Gen. Luke O. Wright, of Memphis, Tenn., will succeed Judge Taft as governor general of the Philippines when the latter becomes secretary of war next January, in succession to Elihu Root. President Roosevelt this evening authorized the announcement that the post had been offered to Gen. Wright and that he had accepted it. Gen. Wright is now a member of the Philippine commission and vice-governor of the islands. He is a life-long Democrat.

President Roosevelt spoke in terms of high praise of Gen. Wright's ability and fitness for the position of governor general. The president and Secretary Root regard Gen. Wright as a man of proved executive ability, his services as a member of the Philippine commission having been of a distinguished character. During Gen. Taft's extended sojourn in this country, Gen. Wright was acting governor general and his conduct of the office was a source of congratulation to the administration.

Gen. Wright is popular not only with Americans in the Philippines, but also with the Filipinos, who hold him only second in their estimation to Gov. Taft.

Secretary of War Root, under date of Aug. 19, presented his resignation formally to the president. The resignation was accepted by the president with the understanding that Mr. Root continue as secretary of war at least until Jan. 1. Gov. Gen. William H. Taft, of the Philippines, will succeed Secretary Root. In his letter accepting Mr. Root's resignation the president warmly commends the work of the secretary as head of the war department.

Army Officer Kills Himself. NEW YORK, Aug. 25.—Frederick D. Pressler, until seven months ago captain in the army, stationed at Seattle, in the paymaster's department, today shot and killed himself in Carroll park, Brooklyn. He had been in financial straits and became despondent. He had been reported missing from his home near the park for four weeks. Pressler was about fifty years old.

UNITED STATES WILL BE GREATEST NAVAL POWER

Lord Brassey, High British Authority, Makes This Prediction, and Adds That Europe Inclines Toward Disarmament.

Special to The Globe. BOSTON, Mass., Aug. 25.—Lord Brassey, the eminent naval authority and president of the London Chamber of Commerce, who is in Boston, said today that the United States, with her tremendous resources, is undoubtedly destined soon to be the first naval power in the world. He continued:

"Potentially, the United States is already incomparably the greatest naval power in the world. She has the greatest resources, and it is only a question of policy with her. If it came to a question of competition, you have

greater resources than we have. Germany has been pushing her navy, with this result: That her naval ambition, with other causes, has caused an exceedingly strained condition of German finances. Russia has been living on loans from France, but she can't borrow any more, and anarchy is life in that country. France has reached her limit. Retrenchment is the cry there.

"At this will tend toward disarmament. These expensive armaments are the greatest curse of Europe, and we in Great Britain have about reached the limit ourselves. The breaking point has been reached in France, Germany and Russia. These countries are staggering along with an awful load."

GALE ENDANGERS THE BIG YACHTS

Boiling Seas Surround Shamrock and Reliance and Former Has Close Call.

NEW YORK, Aug. 25.—A terrible northwest wind and electrical storm struck Sandy Hook shortly after 5 o'clock today, and Shamrock III, Reliance and a fleet of half a dozen new yachts, including the Erin, C. Oliver Iselin's Sunbeam and the Herreshoffs' Roamer, were in great danger for a time. The yacht Eureka, breaking from her anchorage, was blown violently against a coal scow and carried the scow before it. It seemed for a time that the two boats would crash into Shamrock III, which lay almost in the path of the gale, not a hundred yards away.

The Roamer, which was dangerously near the Shamrock, began to drag her anchor, and despite efforts to hold her drifted down rapidly. Suddenly she swung against the Shamrock III, and getting a change to start her engines, managed to get away from the danger line.

The Sunbeam, too, as the blow increased later, again began to drag, and in a moment went with a loud crash against the scow, which also commenced to drift, and for a moment it looked as if Shamrock III would be overwhelmed. Capt. Barr, on the Sunbeam, yelled to the Shamrock watch:

"We can't hold, you'd better pull up and drift away from us." This they prepared to do, but a lull in the wind aided the Sunbeam to hold for a while, and the wind began to decrease. Two steam yachts, the Giralda and the Allita, anchored further out in the horseshoe, were torn from their anchorage and came into bow and stern collision. The bowsprit of one crashed through the stern of the other,

HIGH TEMPERATURE SCOURGES THE EAST

Cities Report the Year's Greatest Heat, With Deaths and Prostrations.

WASHINGTON, D. C., Aug. 25.—The temperature on the street today was the highest since July 1, 1901, the thermometer at 4 o'clock registering 103 degrees. Ten prostrations from the heat were reported. None of them is likely to prove fatal.

PHILADELPHIA, Pa., Aug. 25.—With the exception of July 9, this city today experienced the hottest weather of the year, the temperature reaching 94 degrees. One death was reported and a number of prostrations.

PITTSBURGH, Pa., Aug. 25.—Today was the hottest of the year, the thermometer reaching 94. One death resulted from the heat.

LIPTON BOAT LOSES BY NARROW MARGIN

Sailing in Whole-Sail Breeze Over a Triangular Course the Defender Shows Her Heels to the Challenger and Wins Second Race of the Cup Series by One Minute and Nineteen Seconds—English Skipper Is Outgeneraled by His Rival, Capt. Barr, at the Start—Sir Thomas, Still Confident, Hopes His Turn Will Come Next.

SUMMARY OF YACHT RACE. Table with columns for Start, First Mark, Second Turn, Home Line, Elapsed Time, Corrected Time.

NEW YORK, Aug. 25.—In a glorious whole-sail breeze, over a triangular course, ten miles to a leg, the fleet-footed cup defender Reliance again today showed her heels to Sir Thomas Lipton's challenger, taking the second race of the cup series of 1903 by the narrow margin of one minute and nineteen seconds.

It was a pretty and hard a fought contest as has ever been sailed off Sandy Hook, and had the wind not fallen during the last ten minutes, the record for the course, three hours, twelve minutes and fifteen seconds, made by Columbia two years ago in her memorable race against Shamrock III, would have been broken. As it was, Reliance sailed the thirty miles within two minutes and thirty-nine seconds of the record, which speaks

wonders for her speed in the wind that was blowing.

Reliance's victory, narrow as it was, would have been even smaller had not Capt. Wringe, the skipper of the British ship, bungled the start, sending his craft over the line nineteen seconds after the last gun, and handicapping her to that extent. At every point of sailing the defender's superiority was demonstrated. She gained one minute and fifty-one seconds in windward work, forty seconds on the run to the second mark, and forty-five seconds on the close reach for home.

Based upon the magnificent showing she has made in the two races already sailed, it is the belief of many experts

LITTLE REPUBLIC IN EUROPE CEASES TO BE

Prussia Surrenders Her Claims Upon Moresnel to Belgium for a Cash Consideration—Strange History of Tiny Country.

BERLIN, Aug. 25.—Altenberg, or Neutral-Moresnel, the little neutral district barely covering one and one-half square miles and having a population of some 2,500 souls, has ceased to be Prussia having surrendered her claims, coming from the Napoleonic period, to Belgium, in view of a cash consideration that at present is not disclosed. This nook of territory, where Holland, Belgium and Prussia meet, belonged to Austria from 1792 to 1814.

Following the Napoleonic settlement both Belgium and Prussia claimed Moresnel. They agreed in 1856 to let the inhabitants rule themselves and since then Moresnel has been practically a republic, governed by an elected mayor and ten councilmen, the statutes of which are the code Napoleon. The inhabitants have free use of the stamps of either country, trade was absolutely

free and the people were exempt from military service.

The republic got along well until a few months ago when gamblers from Liege obtained the councilmen's consent to erect a gambling pavilion in Moresnel, which was designed to rival Monte Carlo. The concessionaires agreed to build electric railroads to neighboring towns, to maintain parks and various institutions and to share in this way the profits of the roulette tables with every inhabitant. A casino was opened last week and the German and Belgian press contained reports of the distinguished persons surrounding the tables, especially rich youths from Cologne.

The attention of both governments was drawn to the anomalous status of the territory and a quick exchange of communications resulted in an agreement that Prussia would sell her claims to Belgium.

WOMAN IS CHARGED WITH KILLING CHILD

Coroner's Jury at Brainerd Accuses Mrs. Williams, Dill and Burrig.

Special to The Globe. BRAINERD, Minn., Aug. 25.—The coroner's jury examining into the cause of the death of two-year-old Lily Williams, whose body was found in the Mississippi river last evening, returned information charging the crime against Mrs. Mary Williams, mother of the child; George Dill and John Burrig.

The woman testified that Burrig planned the murder of the child and Dill carried out instructions. According to her, the two men induced the woman to go into the city park, where she was told a murder would be committed. After a long consultation, said Mrs. Williams, Dill took the woman and child across the Mississippi, where they remained two or three hours, after which they came back over the river and down on the bank of the stream. This was about 2 o'clock Sunday morning.

PLUTO FIRST AGAIN IN OSHKOSH RACE

White Bear Yacht Gets Off Bad but Finishes Ahead in Class B Event.

From a Staff Correspondent. OSHKOSH, Wis., Aug. 25.—The Alberta, of the Neenah Yacht club, won the race in Class A, and Pluto, of the White Bear club, won the Class B event in the second day's racing of the Inland Lake Yacht association today.

The contests in both classes were in doubt until the last mile of the windward and return course was sailed.

The boats started in a northwest breeze blowing eight miles an hour, which went down to four at the finish. Highlander, of the Minnetonka club, again crossed the starting line first, but soon lost her lead to Kayoshk and Alberta. Seers went over the line third, but immediately fell back and then came up fast and ran into third place at the first windward mark. She has trouble with her spinaker all the way back. Comet passed her and the boats finished in that order. It is possible, however, that both Alberta and Kayoshk may be disqualified for turning the first mark to port instead of to starboard. In this event the race will go to Comet, with Seers second.

Pluto, after getting off nearly last in Class B, had a difficult voyage for the first eight miles. Venture, Sox, Reliance, Argo, all gave her a strong fight, but at the ninth mile, disposing of the discovery of rich gold fields about 150 miles west of the city of Oaxaca and twelve miles from the town of Ejutla. The ore found is said to assay up to \$50,000 a ton. The lode is said to be fifteen feet wide.

Continued on Tenth Page.

MEXICO WILD OVER GOLD.

MEXICO CITY, Aug. 25.—There is much excitement in the state of Oaxaca over the discovery of rich gold fields about 150 miles west of the city of Oaxaca and twelve miles from the town of Ejutla. The ore found is said to assay up to \$50,000 a ton. The lode is said to be fifteen feet wide.
