

Welcome to the State Fair to St. Paul and to St. Paul's Best Dry Goods Store Welcome

Those having ledger accounts

Will please observe that August business closed with us on Saturday evening; as a consequence all purchases made on Monday, August 31st, will not appear on your bill until October 1st.

Field, Schlick & Co.

Entrances--Wabasha, Fourth, Fifth and St. Peter Streets.

Strangers in the city Should not overlook the fact that this store is one of the sights of the Capital City--the lightest, airiest, most comfortable Dry Goods Store in the Northwest. It is very accessible, being nearest to depot, surrounded with good hotels and having entrances on four different streets. All Interurban and State Fair cars pass the store. With a cordial invitation to visit the store, we extend every courtesy and privilege that a modern big store can provide.

Suit styles for Autumn

A woman chooses here with the certainty of choosing correctly.

We have been selling the new style fall suits for some time past--they have been going out almost as promptly as they came in; but Friday's and Saturday's arrivals places us in a position to say, with justifiable pride, that the Twin Cities' greatest suit show is here! Here you see the cleverest style-thoughts worked out to the last complete detail.

Of course the coat is the chief feature of the Fall suit. It is long in the skirt and may be a blouse, tight-fitting at back; or the coat may be in long, graceful lines, with no seam on the hip. There are new touches also in the sleeves. Materials for Fall are Zibelines, fancy mixtures with fancy over plaid "Scotch" effects, English Tweeds, Chevots and Broadcloths.

Prices--any price you want to pay from 18.50 to 85.00.

25.00

We are showing more suits at twenty-five dollars than at any other price, because it's a price that the great majority of women feel they can pay, and extraordinary efforts have been made to realize the highest point of perfection that can be reached. These suits have, among other effects, the plaited blouses and corset-coats. Stitched bands of Peau de Sole and milliner's satin give a very rich, dressy finish. Braid ornaments lift them out of the commonplace. Coats are full taffeta lined and the skirts are of unusually good cut and hung in the most perfect manner.

Walking skirts Just 75 of them and they came to hand at the last moment to appear for Monday's selling. Made by the most adept of New York's custom tailors, the represent style and finish that no home tailoring can produce. Beautifully draped, thoroughly steam shrunk and made from selected all-wool materials (Ly-mansville Chevots and Men's-wear Tweeds) they are easily worth 9.50. A great Fair Week leader, at, only 5.75

Remarkable Sale Table Linen

at 33 1/3% Less than Actual Value

A purchase and sale of fine table linens that will startle linen sellers and linen buyers all over this territory into a knowledge that one of the unusual linen events of the year is in progress.

This purchase consists of pattern cloths--fine table linens by the yard and 24-inch napkins to match all patterns.

The cause of this unusual cheapness lies in the fact that these linens were imported for an Eastern retail store whose subsequent failure necessitated the return of the goods to the importer's agent. Our Mr. Jones, who was on the spot, secured the entire line at a discount, and they are here for you to-morrow and all the week if they last that long.

Phenomenal lace values

A purchase that for quality and cheapness defies all precedent here or elsewhere.

When an importer gets down to from one to half a dozen pieces of any one kind, the best thing he can do is to sell for what he can get. They are all new and wanted goods for fall, to be correctly used in making up fall gowns, the trimming of outer garments, etc., etc.

The price paid for these brings them to you at in most cases

less than quarter their value

Laces that should be 85c 25c | Laces that should be 1.50 49c | Laces that should be 2.75 69c

and they are all new goods, new patterns--consisting of the latest designs in Galoons, Medallions, wide bands and Appliques in Point Gaze Lace, Point Venise, Irish Crochet, Batiste and Repoussees. This is just a little purchase and Monday should see the end of them.

New Hosiery

The department is now perfectly complete with full fall lines. Not only has the regular stand-bys been carefully looked after, but the extreme novelties have also found a large share of attention.

The new rugs and carpets

Very Extraordinary "Fair Week" Price Reductions.

Of course price has an important influence on the buyer of carpets, but, after all, if the patterns are poor, the colorings worse, the designs years old, of what avail is price then?

This department is better now than it has ever been at the opening of a season. Some seasons ago this store acquired the right to the title of the Northwest's

"Oriental rug and carpet headquarters,"

a title that is more firmly rooted and grounded as the seasons roll by. This autumn display of rich and rare Orientals is worth coming miles to see, if not to buy.

Our men's store

Ready for fall and winter, with all that is best in correct, reliable furnishings.

It has become more or less a habit of the mind for men to think of Field-Schlick when in the humor of buying good reliable underwear. This is as it should be and it is becoming every year more so.

Our buyer while in New York city found the agent of two of the best mills in the country with several cases, parts of advance orders which for some reason could not be delivered--he made a bid on them and got them cheap; the result is

An unlooked for bargain chance at men's fine underwear
