DEAD JOHNNY BEARS

Gone to Bear Heaven by the Mushy Food Route.

Some little Johnny bears ate too freely of pasty, undercooked oats and wheat—got more starchy food than they could digest.

These facts caused the invention of

GRAPE-NUTS

In which the starch of Wheat and Barley is transformed by scientific cooking into sugar (shining on the outside of each little granule of Grape-Nuts).

One can have the delicious ready cooked food, enjoy it, obtain the value and energy of the carbohydrates and yet not in the least tax the digestive organs.

Don't let any one deceive you by saying the stomach and bowels need hard and indigestible oats and wheat to give them exercise!!!!

Tax them a little further than you are doing at present and you may join the Johnny bears, with ears in the daisies and feet to the stars.

There is sober fact worth careful thought in the tremendous mistake made in the selection and use of indigestible food.

Bodily health and increased strength follow the use of

GRAPE-NUTS

Solid proof of its value. There's a reason.
