ROGERS & ROGERS,

Live Stock Commission Marcharts. om 2. Exchange Building, South St High-sy market, prices obtained for stock. Prempt attention given to all cor-respondence and orders. References: Any Commercial Agency.

YEATHER FORCES

Wheat—The Northwestern wheat situation could hardly be stronger than it is at the present time. Continued rains in that therritory have not only caused a destruction in quality, but it has gone so far that there is no question but what it has shortened the quantity. While the news from the Northwest has been very strong all day and furnishes strength for this market, the foreign situation has been about the opposite. There has been considerable buying of December and selling of May by one of the largest elevator concerns here, who is again becoming a big factor in our market.

Corn—This was entirely a weather market up to about 12 o'clock, when a prominent heavy operator sold out his line. The forecast is for frost generally throughout the corn belt, especially heavy in Nebraska. The buying on break seemed to be of a general character. Several large short lines were covered and there was quite good buying for investment just before the close.

Oats—Oats have been featureless. While the market has been rather firm it was in sympathy with our markets. At one time the market was ½c to %c over Monday, closing at about the same prices. The wet weather was the bull factor.

O'Connor & Van Bergen's stock letter says:

O'Connor & Van Bergen's stock lette

O'Connor & Van Bergen's stock letter says:

During the first hour of the session the stock market was considerably unsettled and prices reacted sharply. Apprehension of further damage in corn and continued rumors of a Western house in trouble and bank loans being liquidated helped the decline. Later in the day speculation became extremely dull, and the market showed a much firmer tone at the close. The Atchison annual report is well worth careful examination. The stock business at present is purely professional and fluctuations have buyery indirect connection with the ris very indirect connection with the ris and fall of values. The outcome of cro and the possibility of a close money man ket have to a great extent been care

J. C. Geraghty & Co.'s correspondents J. C. Geraghty & Co.'s correspondents say of stocks:

Logan & Bryan—The market closed strong and higher. Raiding and selling by the bear element was resumed again, but as heretofore succeeded in dislodging very few long stocks. The present owners of securities seem pretty well satisfied with their holdings. The short interest must be large. The tight money scare is wearing away. The West is not drawing any considerable funds from the New York banks and in our judgment are not going to. High prices to farmers for everything produced will make a good general movement in distribution of merchandise the comings of any of the properties should decrease.

VARIOUS LIVE STOCK MARKETS.

STOCK SHORTS SELL EDWARDS,

THIS, WITH LIQUIDATION, IS THE FEATURE IN WALL STREET

Endicott Building,

Much of the Selling Is Based Upon Unfavorable Crop Reports-Foreign News Is Also of a Nature to Depress Prices-Closing Comparatively Strong.

NEW YORK, Sept. 15.—Extensive short selling, not unmixed with some liquidation, was the feature of the day's stock, par-ticularly during the early session. Much of the selling was based on unfavorable cran reports

tictuarly during the early session. Much of the selling was based on unfavorable crop reports.

While the market movement was governed largely by this factor, others almost as serious exerted nearly as much influence. London reported that the Macedonian situation had assumed a more serious aspect, and this, with the probable crisis in the British cabinet, bringing increased weakness to consols, made for lower prices. A further hardening of discounts in London and Paris was reported, although Paris exchange on London was easier. For all that, London bought perheps 5,000 shares on balance, chiefly Atchison, Southern Pacific and Erie. It is quite probable that all of these transactions were of the arbitrage sort. The local market opened with rather more than the recent amount of activity, giving promise of a busy day. Fractional declines were the rule, but a rally soon followed under the lead of Atchison.

St. Paul Is Strong.

Increased Earnings.

The Erie statement for the quarter ended June 30 was issued, showing an increase in net earnings of more than \$1,500,000 and a surplus increase of \$250,000. An increase of \$222,000 in net earnings for the year was shown by the Chicago, Indianapolis & Louisville road. There was only a slight further drain on local cash holdings, \$150,000 being shipped to New Orleans, An item of greater significance was the government report, showing an excess of imports over exports for August of \$7,550,000.

The feature of the bond market was the heavy liquidation in United States Steel second martgage 5s, which declined to 75. The general market showed some heaviness in sympathy. Total sales, par value, \$1,580,000. United States 2s, registered, advanced ½ per cent and the new 4s ½ per cent. The 2s, coupon, declined ½ per cent on the last call.

Closing List.

WHEAT CAINS MORE

ACQUIRES STRENGTH AFTER AN EASY OPENING

ensational Reports of the Effects of Rains in the Northwest Cause Heavy Buying and Stiffen Prices-A Few Spurts of Activity in Corn.

CHICAGO, Sept. 15.—Wheat was easy at the opening, but gained strength, closing firm at a gain of ½c for December. Corn ruled weak, December closing ¾c lower. Oats were steady at a small advance. December closing ¼c higher. Provisions were easier, closing unchanged to 15c lower.

The early wheat market showed an easier tone and there was a disposition on the part of long holders to let go. December responded with a decline from \$2½c to \$2c within the first hour. Easier cables and weakness in corn were the influences, but reports of the effects of rains from the Northwest grew more sensational, and houses with Northwest connections and local shorts bought. Receipts were fair, but offerings became limited and the market soon reacted, December going to \$3½c. At that price there was profit-taking on a large scale, and a part of the advance was lost, the closing showing December back to \$2½@ \$2%c, a gain of ½c. Trading was active and on a large scale.

Clearances of wheat and flour equaled 296,400 bu. Primary receipts were 1,060,-000 bu, against 1,888,000 bu last year. Minneapolis and Duluth reported receipts of 1,051 cars, which with local receipts of 1,051 cars, against 1,441 cars last week and 1,481 cars a year ago.

 Minneapolis-Strength and activity and

Minneapolis—Strength and activity and a higher price range in all options was the story in wheat. To 11:30 September was up to 91c, December had sold to 33½ and May to 84%c. It was the same story of bad weather, continued rains and further south. Monday there was this same predictions. Frost was expected last night over lowa and Nebraska and further south. Monday there was this same prediction but Monday night the cloudy skies and drizzling rains saved the corn. This absence of frost was the bear ard at the start, but the bulls figured that frosts would come last night for certain and bought freely. Reports from the Northwest were bad, and much damage was shown in North Dakota. The prediction for the Northwest was for showers and cooler weather last night, and today partly cloudy. Yesterday the same. The market is up all around, partly in an ticipation of frost damage to corn, and in good part on the damage that the trade feels must have occurred in wheat, even though detailed damage reports are lacking as yet. And so it is about a duplication of Monday's situation. Freezing temperatures which have advanced as far south as Northern Nebraska will move further south. The situation is possibly a little more critical than Monday because Cheyenne shows only 22 above. Receipts, 648 cars.

The market was easier near the close and off almost 1c from high point in December. September closed at 91c, Deonly 22 above. Receipts, 48 cars.

The market was easier near the close and off almost 1c from high point in December. September closed at 91c, December 824c and May 83% @83%c. In the cash market No. 1 northern averaged 894c, with some sales to 904c. Following was the range of prices:

MINNEAPOLIS INDEPENDENT MAR-

MINNEAPOLIS, Minn., Sept. 15.—The feature of the market today was the strength in Minneapolis wheat. Our market leading, Chicago December opened at 81%c, sold up to 83%c and closed at 82%c, or a net gain of %c from Monday's close. Selling of corn by the buyers of Monday was responsible for weakness in that cereal. The expected killing frosts did not materialize.

The record of both Minneapolis and Chicago deliveries follows: Minneapolis Market.

9.40 | 8.30 Oats—Oats opened firm with wheat and corn, but later the weakness in corn was responsible for the decline in oats. However, they soon recovered to ¼c above the closing price on good buying as soon as the pressure was taken off corn.

Provisions—Provisions opened at Monday's close. Prices turned weak on the weakness in corn. Provisions have scored a good advance lately and a fair reaction may be about due. Receipts were 13,000.

Consols Lower yet.

LONDON. Sept. 15.—Consols today continued their record-breaking downward path. This morning they were quoted at only 89 3-16. The further fall is attributed to practically the same adverse conditions as existed yesterday, namely, the exports of gold and the prospect of dear money, in addition to the depressing effect occasioned by the cabinet meeting and the Balkan situation.

LOUISIANA DUEL IS

FATAL TO BOTH MEN

Young Men Kill Each Other Because Rivals for Young Woman's Hand. ABITA SPRINGS, La., Sept. 15.— Frank Allison and Marshall McGhee, young men in St. Tammany parish, fought a duel to death at the Talishook camp ground, four miles from Abita Springs, today. Both men were rivals for the hand of a young woman and Allison challenged McGhee. McGhee accepted, and pistols at ten paces were

The men met at the appointed hour and place and at the command of their seconds, "Are you ready? Fire!" both weapons were discharged at the same instant, and both men fell dead, one with a bullet through his brain and the other with a bullet through his heart with a bullet through his heart
