STOCKS ARE UNSETTLED GRADES, GRAIN STOCKS & CO.

Signs of renewed liquidation bring this about. Professional Operators are Discouraged by Evidence in London That the Stock Purchased Friday for Supporting Purposes Would Be for Sale Again at Any Favorable Opportunity.

NEW YORK, Sept. 26.—Today's stock market was kept unsettled and generally signs of renewed liquidation at some points of the market and precipitate character which threatened the market on Thursday and which was checked by yesterday's protective measures taken by the banking interests. The course of the London market this morning indicated that the stock purchased yesterday for supporting purposes would be for sale again at any favorable market opportunity. This had the effect of discouraging the professional operators, who were planning for a turn on the long side of the market, having closed out their short accounts yesterday. The market also developed evidence of support on declines. The obvious purpose is to bring about a condition of greater stability or, at least, working out of the financial situation. A disorderly break in prices is dreaded for the panic conditions which might bring about, but the feeling continues general that there is liquidation still to be effected. It is also considered undesirable to undertake any campaign for an advance in the face of the monetary requirements for the bank statement.

Bank Statement is Satisfactory. The bank statement was regarded as satisfactory, especially in the loan contraction of deposits. The statement indicated the good progress made in the necessary process of liquidation. Hopes are entertained that the market will be effective in restoring the impairment of credit which has overhung the market like a cloud, resulting in a break in the district and apprehension. The most notable selling pressure today was in the United States Steel stock, which fell to 47 1/2 and the local traction, United States Steel fell to yesterday's low record of 70 1/2. The weakness in these securities continued to have a demoralizing effect elsewhere in the list. The selling which developed on the favorable bank statement and the fact that the market continued purpose and probable necessity to sell stocks on every available opportunity. The market closed unsettled and irregular.

Bonds declined in sympathy with stocks. The market for bonds was generally unchanged, while the bonds made a new low record at 70 1/2. The weakness in these securities continued to have a demoralizing effect elsewhere in the list. The selling which developed on the favorable bank statement and the fact that the market continued purpose and probable necessity to sell stocks on every available opportunity. The market closed unsettled and irregular.

What He Liked. A well known landscape painter was busy "dashing in" the colors of a sunset in the country. The tints were hurriedly conveyed from tube to palette, and from palette to canvas, for the artist was anxious to catch the rustic standing by observed the operation for a little while, and then remarked: "Ah, you are a painting two pictures at once. That's clever." He paused a moment, and blurted out: "I like that picture best—the one you've got your thumb through!"—Argonaut.

GRAIN PRICES ARE UP

MARKET RULES STEADY AND THE RANGE IS SMALL. December Wheat Option Sells Up Well Early in the Session—Firmness Soon Given to Wheat and Quantities Long Wanted Come Out, Putting a Crimp in Values.

CHICAGO, Sept. 26.—Grains ruled steady and kept within small ranges. December wheat closed 1/2 cent higher with corn for the same month unchanged and soybeans 1/4 cent lower. Provisions were irregular, closing mostly lower.

Steady cables and only fair receipts enhanced local bulls and commission houses to support the market. The start, with the result that the December option sold at a steady opening at a shade above 77 1/2. In the face of favorable conditions abroad, however, together with predictions of a heavy crop in the next week, the firmness gave way and quantities long wanted came out, carrying December wheat to 77 1/2 and soybeans to 48 1/2. The trading was of good volume.

Clearance of wheat and flour were estimated at 125,000 bushels, the primary receipts 1,120,900 bushels, against 1,324,100 bushels a year ago. Minneapolis and Duluth reported receipts of 829 cars, which with local receipts of 57 cars, one contract, made a total for the three points of 886 cars against 829 cars last week and 1,083 cars last year.

Course of Corn. Corn started firm on the cables and a large part of the crop was held in local long holders took advantage of the advance and threw a large quantity of the grain into the market, resulting in a break to 1/2 cent under yesterday's closing price for December. Towards the end of the session, however, a demand developed on indications of frosts in the corn belt and December reacted to 46 1/2, while the local market was unchanged, after ranging between 46 1/2 and 47 1/2. Local receipts were 98 cars.

Provisions were dull, although prices held steady for most part, on support by the packers. There was a good advance in lard, but the demand ceased and prices dropped back to 23 1/2, a gain of 1/2 cent, at the close. October lard and ribs closed unchanged at \$1.32 and \$1.04, respectively. Estimated receipts for Monday: Wheat, 886 cars; corn, 735 cars; oats, 240 cars; hogs, 20,000 head.

Range of Quotations.
